

470th Knowledge Seekers Workshop; February 2, 2023

(Transcription, Proofing done)

(Auto transcription by Elias)

Connected system through plasma - first message of new change; Shower test absorb energy; Humility key to receiving energy - knowledge; Transmutation test of single KS graph STM expands; Love of Creator beyond P love; Knee Gans; Fine tune systems; Field strength of banana; STM seeds for U; Solid ring magnet soul - Cups made by K; 2 brothers Taiwan; STM & STP switch places Trust; 20th elevation worked stopped war - Israel bombed Iran; Pass through locked door; Systems like brain hemispheres interaction create current emotions; Prophets live amongst men - like men; Zoroaster best example; Creation mostly random; Teach how to love; diversity food - variety emotions

ENGLISH TRANSCRIPTION

(:20).

K- Yes, good morning, good day to you. As usual, wherever and whenever you listen to the series of Knowledge Seekers, or the Keshe Foundation Spaceship Institute. We welcome you back. And we hope as usual, we understand a little bit more by sharing knowledge with each other, as we are all Knowledge Seekers, and no one is above the other. And understanding of what we heard as an Intro, (:22). and this is what was months and years ago, when it was talked about, with the knowledge we have today. And the way we have developed the technology, we come back to the same point.

It's not just the Soul, it's understanding how the man will travel the span of the Universe (U) in two ways. The dream of the man, the spaceships, the UFOs. A dream which is there reachable, and man technological development and achievement has brought him on the verge of just getting there. But with the knowledge we shared, with understanding of the Creation we have shared in past few months and years. We have to come to understand, that even those passengers of these UFOs, which we thought to have a lot of knowledge, is nothing to what knowledge man has gained. Beyond the spaceships, beyond the dimension of the motion of the physical matter.

In the teaching of past few months and to come, and in the evaluation and evolution of the science, that it's going to spread from now on, man would not need any spaceship, unless he chooses to travel in the dimension (D) of physicality (P). Or the man chooses to be part of the physical part, or man chooses to be part of the energy part. Energy meaning that in a way, travel above the strength of the energy of the matter state, observation, detection.

In a way if we look, the Creator has been in that position. Manifestation we know of His essence, we know what's Creation, we know what is created, but we don't see it. Because He is in the state of level of energy. (:24). Not in the state of matter, observation. And

the state of observation of the smell, taste, sight belongs to man. Man has chosen that way, not the Creation. As the creatures of the Universe use other senses, which is not even open to man. How can the blind man see the beauty of the Creation? How a blind man can see the beauty of the sunrise or sunset? It doesn't matter how you explain it, unless he sees it through the strength of the Soul of the Man (STM) himself.

How does his Soul interact with the rays of the Sun or the sunset, when they interacted with the Earth? Then to him, Sun has a meaning. Sunrise has a meaning. Sunset has a meaning. We see it with the eye of the man. He sees it with interaction of the Soul. Now we have to come to understand this. Now. We have no choice.

We spoke about the X-rays and Gamma rays and radiation, and the magnetic (M) fields. But how do we understand these? How do we create rays that is not even known to man today? If you would have spoken about the X rays 200 - 300 years ago, that it goes through the body and you can see the bone. They would have ?? come up in the churches in Europe. But today, where are you going? I'm going for an x-ray. We understand something new, we learned. Now we have to learn about the other rays, the rays that will lead us to the Creation, and lead us to the Creator.

How do we go? How do we understand these things? How do we create these conditions? At the present time we have started. We have started to introduce the basic tools, the first two wires, which made the noise, and one could hear from one end to other in 1944. And we saw the beginning of the telephone communication. (:26). Now the tools we bring in through the Keshe Foundation, which is unknown in the world of the existence, are that first call, "can you hear me?"

This is what we teach you trying, many of you tried and pre-tested in the last two months, that you came with your headphones to us, and then through the systems, 100 and odd of you, through your Souls to the center in Linz, but that was your cutting point. Because on the test of the 20th of January, we connected through the ways of the Creation to our Center. There was no telephone line communication. So we have introduced for the first time, "dial the hello, can you hear me," here last time, last month, in the process of you to understand how the next step comes. Where that position in Austria where the fields were generated. Now goes back to the start, goes back to the Universe, goes back to the world of the Creation and the Unicose and the Creator. This is the first, "Hello."

We have started introducing systems, that you can in front of you see how you communicate one to the other, you receive energy from each other. And then, from there, how that unit communicates again, with the generator of this noise, the fields, whatever you call it. That man today has no tools to measure.

The understanding, (:28). the new technology of the space plasma technology (T) is the evolution in the science, that the man will grab with 2 hands, and will take it across the Universe to teach, not only for another man, but the citizens of the Universe.

The maturity of the knowledge of the Creation is a gift given to man, if man understands and appreciates the gift. It's like you grab a most beautiful toy in the box, and you give it to a child. It takes the toy out, but plays with the box, because he does not appreciate the beauty of what you bought as a toy, to educate him to enhance his understanding. So man at the moment with what we bring you, is still playing with the box, you have not seen the beauty of the toy. What is there to educate you with.

In the coming time in the coming weeks, especially coming into the next session of the what we call, communication in 20th of February, we extend this limit. We call it, "Dining with the Creator." Bring every one of you, all the best things of your nationality and your culture on the table of the food on Sunday. And we'll see how the other ones will taste it. How the other ones will take energy from it.

How do we absorb energy from each other without knowing? Many times I explained to you, that we absorb 80% of the energy from our environment, and 20% is what we consume in D of physicality. I give you a test and if you understand this test, you will be open to a new dimension of understanding. (:30).

Many of you have the habit to take a shower. Many of you have a habit to take a bath and soak in the warmth of the water, or take the what we call, a warm shower or a cold shower. Next time when you take a shower, remember, those sprinkles of the water, are the rays of the love of the Creator, which is around your body, you don't see. You feel the drops of the water on your body, but you have become ignorant to those drops of love from your Creator.

When you get up in the morning, weigh yourself, go on a scale 72.4 kilos.. Oh, I'm fat. Take a shower, spend 10 minutes, 15 minutes in the shower in the nice warm water. (It spreads from the showerhead without any discrimination. "Shall I hit the head or shall I hit the toe?" Come out of the shower, go on the scale. It says, 72.6. 100 grams or 200 grams extra weight. Where did that come from? You absorbed the energy of the water, exactly the way you absorb the energy of the Creation, that 80%.

Then do something else. (:32). One day, take a shower at eight o'clock in the morning, and then at 12 o'clock, and then at 5 PM in the evening. And do the same thing, and see how much the variation in the energy you absorbed, has to come in. If you absorb 50 or 100 grams in 10 minutes in the shower from the heat of the water, then you understand how much you absorb 24 hours a day from the rays of the Creator.

You didn't eat anything in the shower. You didn't touch, you didn't drink the water. But the energies has been absorbed. That's from the skin of the man. This is how our Soul , our energy, our body absorbs energy fields of the Universe.

Then, this is what I've been telling you. I gave you the biggest gift man ever could understand. Creation of the cycle of the fields of the Universe in the MaGrav. You never understood. We showered you with the fields of the energies of the Universe. We gave

you the tools to understand, but again man played with the box and left the toy, because he couldn't understand it.

Now in the process of the teaching, in the process of what is to come, we start teaching you to play with the toy. What happens if you press this button, and what happens if you turn that knob, (:34). and what happens if you hold it up and let it to play? Or do you still want it to play on the ground, it has no legs.

In the coming time in teaching, which we have taken, we start introducing the application and understanding of the fields of the Universe. You do not need to go to CERN, you do not need to go to the most advanced plasma centers of the world to understand more than a professors in these centers, which are ignorant to the truth themselves. Trying to confirm in the dimension of physicality, where the Creation has a different dimension.

We tried to explain. We tried to physically show what these things can do. We have introduced the first communication systems in the Keshe Foundation, the new plasma Technology in line of communication. But we give you a little benefit on the side, that "I'm happy to get." "But this must work." But you never thought, if this gives me a little bit of reduction in energy, it must give me other things which I don't see. And for the first time, we have packaged the tool. Your understanding of the fields of the Universe, are the energy source in front of you.

When you buy the combination pack of the Keshe Foundation, these will be historical, because I have one of the original ones, which was created, where my Soul could convert, could interact with the others. The new structures, which we have brought in, step by step is part of this evolution. Is part of understanding the world of Creation. (:36). Where you see it, you physically interact with it. And then I want to call my Mom. She's in New York, I'm in London. But I only talk, I don't know how she feels. I only see she's not telling me the truth, what's going on there, what she is suffering from and what it needs, what is not needed. And what is the situation with her.

Understand at this time in the moment, you listen to the voice, and that was can tell you a lot of things, which is not real to you. But using the system, understanding the work of the system of the Creation, you see the Soul of Mom, "hi, mom. How's your physicality doing? How can I help?" Not a word uttered. But through emotion and interaction of the fields, the line of communication reaches there. This is not far fetched, because you do it without the system introduced. We just giving you a tool. When you're asleep and you see Mom.

When I was younger, as a student in Manchester in London, my parents were in Iran. Those days, we had to book a time to make a call, maybe one day a week to speak to Mom and Dad. If there was time allocation at the central telephone call, would call us back and say, "your time has come to call." And they ring the other side. Ah oh, Mom wasn't home. Even I wrote a letter three weeks ago, that Mom, this day I'm going to call you. That was living in the most advanced Western nation of Europe. And it was the

same with the rest of the world. Mom was not there, because she didn't receive the message in writing. (:38).

And then you sleep at night. Mom comes to the dream, I have sent you a letter. You wake up in the morning, the postman rings, I have a letter from foreign country from you. I think it's your Mom, because the postman knows this letter always comes from Iran. That time we were the only foreigner in the area. I wanted to make sure. I know you're waiting for a letter from your Mom. Now we give you that tool. You don't need to dream, and you don't need to wait for the letter.

Now man lives in the most advanced planet in the U, of the most advanced city of London, in the Western world. Now you can make that communication. And then gradually get trust in it, that it works. You test it to understand its limitation, and in time you come to understand we played with the box too long. We played with the box far too long. Now is the time to take the toy out of the packing and start playing with the toy, to understand what knowledge it's going to give us. What education it's going to bring us and how the man will evolve with this knowledge. (:40).

Which other toys on the table, which I can play with different, that I had up to now, and I didn't know. The teaching and the knowledge of today is that step for the man. We brought you the box as a MaGrav, and you're still playing with it. Those of you who understand it, will put it down and start playing with the toy.

The Combination Unit, which now we have put in, and you will see how you will play with it, is the beginning of the new generation of the communication in the Universe. In way, a Universal System, through the packages of energy. You can feel the emotion of a planet before you arrive. How would I feel? How would I find myself in this planet, on this star, in this position in the Universe, or in that part of the Universe of the Unicose? Would I feel happy in the dimension of the Soul to go to Planet Zeus, even though many people come from there. But I cannot stand the weather, I cannot stand the weather in the dimension of the fields, not in the dimension of the storms and the rain.

What do I need? What would I eat? Would I kill an animal or another being in the Universe to take energy from it? (:42). Or am I educated to know where the fields which I need come from, that I can tune into it in the strength? Then the most important part of the game, even you tune to it, become humble enough to receive from it, not to become arrogant that I've got it. The law of a plasma works everywhere the same. To receive it, you have to become humble. Then you attain the strength of it.

When you see a lamb, you don't slaughter it. But you become humbler than the lamb, that he can feed his energy to you, and you can enjoy the pleasure of the emotion of it. In a way, you become the lamb to the lamb. If man understand this, man has broken the chain of understanding the knowledge of Creation. I have taught you from the beginning, the bigger plasma gives to the smaller. If you are arrogant and you think that you are bigger, how can you receive?

Giving is the job of the lover and the Creator, and not the man. Man always has been the receiver, and shall be the receiver. As without it human cannot exist. Be humble to understand, that you understood more, now becomes, that you actually understood nothing. And then you strive for more, to understand more, to be, as we say in Farsi, (:44). "the bigger the tree becomes, the more it bends down to the ground." Bows to its Creator.

This is the key to understanding the magnetic field of the Universe, what you call, magnetic field emotion, what we call, energy. If you understood this, you have made that strive, you have made that change, you have made that what I call, leap in the knowledge, from the matter to energy.

Then how many of you will still looking to make a MaGrav? Or you make MaGrav in different shapes, forms and dimensions to get access to the world of Creation, to the energies of the Universe. Try to understand, try to evolve to the next step, try to interact with the fields of the Universe, and then see what you got from them. And when you got, you understand, you must have been the weaker, not the stronger.

In the dimension of physicality of the man we become bosses, the kings, the rulers to take more, to receive, to take what we want. In the dimension of the plasma it's reverse. The humbler, the weaker you become, the more what we call, humbleness, understanding that you know nothing, the more knowledge you receive, the more energy you receive. (:46).

Then you have to understand how the fields of the Universe works. How you travel from A to B. You are a tiny little Soul trying to go to a giant star. How do you get there? How do you make your way to there? And if you go too fast you absorb and become nothing, because the fields of the energy of the Sun will literally dilute you, does not, absorbs you in the totality of the fields he has.

How can you live within the center of a star, the biggest star in the Universe, and still be your Soul? Still understand, still observes, still enjoy the existence in the center of a star, or on its surface, or on the way to it. Then you understand you still have a lot to learn. You're still on the back of a donkey, and you see a jumbo jet flying above. But this time the difference is in knowledge, not in the dimension of physicality. The knowledge of understanding the world of the Creation. Then understanding the process, which this world of the Creation of the Creator works, not by a wheel, by a drill and a jackhammer. It cannot do, what you've done in the dimension of physicality. You have to live exactly the reverse of what you do in the physicality, (:48). in the dimension of energy.

In the recent past week, we have developed a beautiful observation point of this in transmutation and transportation. We watched our Knowledge Seeker seeking to travel in the dimension of the Soul, but he falls in the dimension of physicality. And we see that change, we see the shift of the Soul coming out of the body. For the first time ever, scientifically we can show when your Soul moves beyond the boundary of your physicality. We have the tools, we have made the measurement tools for it.

It creates a funny shape like a double M, literally, it's like a McDonald's upside down or the other way around. When the man goes and tries to go to transmutation from the dimension of the STM to the dimension of physicality, what we call, the Spirit and back. For the first time we have recorded how the Soul is engaged within the Soul of Physicality (STP), the STM, and all that with the dimension of physicality and the physical dimension of the environment.

For the first time we have recorded how a man tries in the Soul to jump out to extend it, but he fails to. For the first time on the 19th, we'll watch how you as Knowledge Seekers (KS), as a collective Soul, will strive to attach, to detach from the fields of the Universe. (:50). Now we have a tool, the first basic tool, that the man can understand.

The first, what we call, understanding of the Totality, the first combination of the fields, the interaction of the fields. How the STM, how the understanding of the STM will come to exist. It's very simple. I show you something, then, you understand. If I put you in a position, that for the first time you can understand how your Soul works, how your STP sits amongst its dimensions. And then you will understand you have understood nothing. You have to come to understand the Totality, and then you understand, how physical man has become.

You will observe the flight of the first man. Then you will see what it means. This is one of you, as Knowledge Seekers, who was trying to reach Linz. You see the game of the Soul. (:52). The green line is the STM. The blue line is the Soul of the Environment, it could be the Earth, it could be the Mars, it could be Universe. Then, the yellow and the red is the STP, and the physicality of the man. These are tools, simple tools, that I could explain to the Knowledge Seekers that they could make for them, for the first time, to see their P, to see the Soul.

Then observe, on the left side, the Soul is subordinate, is engaged in all three. The man attempts to make that flight to free the Soul. And on the right side, you see the Soul is above the physicality, the STP, and the Soul of the System. This is the point when the man takes that leap. This is the advancement in the knowledge of the Creation. This is the advancement in understanding. In this new picture you see he has made that leap. But he fails, and he tries again, and he holds on. Now you see the Soul encapsulates the physicality of the man, the STP of man, and the Soul of his environment. Now, with which environment the Soul can interact with? (:54). Because now he is engaged, what he has engaged in for centuries and decades.

This is a graph of you, one of Knowledge Seekers who was flying through the Soul. He's been trained, he works relentlessly to get to this point. Now we move that Soul, and now in moving that Soul, we bring the physicality and we bring the exchange. You see in this picture, how that "double M" comes in. Where the green lags behind the physicality, and going through a transition, leads the physicality, comes out first. And we see the Soul switching from extending the physicality of the man in the system, to becoming entrapped by it, when he wants to.

These are data's, now man has that first "hello." For the first time we have created systems, measurement systems, and in the coming weeks, more complicated and sophisticated systems like this will come. That we can show you, when your Soul expands the dimension of your physicality, and when you become physical. And what is there give you that fear of leaving. But the beauty of this question to ask on this graph is, did the man die, just because his Soul extended beyond his physicality? (:56). Or did he get in touch with mom, who passed away decades ago?

Now you understand when I explained to you that the knowledge we have brought is beyond the understanding of the man. It will take you a long time to decipher this message. Switching, jumping, wanting to be in the dimension of physicality, and then jumping to embrace the physicality. Then when we ask from, he says, I'm in Linz, I'm there. He's truly there, because he came out to come to Linz. This is the first time you see the flight of a Soul recorded.

We haven't spent billions to create these systems. You don't need CERN's, and multinational operations, and financing of trillions. Knowledge Seekers with the true knowledge of the Creation and a few pieces of tools. (:58). The graphs we showed you from the 16th of December and 20th of January were from kilometers away from where these systems sits. This time we flew directly inside the system.

What you saw last time was how you collectively interacted with the Soul of the Creator. Now in this, how you see man interacts with his own physicality in dimension of Creation. Then you'll see how transparent man is to his Creator. As he does not see the what we call, the red, the blue and the yellow of it. Interacts, he interacts with the green, with the Soul. Now you understand what is to come. And now you understand how is to come.

This time is not that first, "hello", that somebody else comes and makes a transistor, and somebody else comes to make something else, and 200 years down the line somebody comes and makes you the Apple phone. Now the knowledge seen in this graph will be the same today, and a billion years down the line. (1:00). It depends what you choose, how you choose to get to the path to reach to this level of understanding. Communication through the Soul, interaction with the STP, and how and where the man decides to be.

Do I need to get on the jumbo jets or in the back of a donkey? Or do I get on the line of the magnetic fields of the Universe through the dimension of the plasmatic energy and land where I want, instantaneously. This is, maybe for the first time you understand when they say, there is "no time" in the Universe, as you created that time. There is "no position" in the Universe, because in the interaction of the fields you choose, you create that dimension.

I have to tell you something very strange. This Soul you see, wears nothing, is not in the system. It sits next to a system. So the Soul has learned how to come out. But the beauty of it is, if you understand it, we have created the most humble in strength of the field of the Universe in our labs, that he can come to us. We are not there to give to him. We just

put that little torch at the end of the line, we are here if you want to come. (1:02). It's you who has the strength, you're humble enough to receive. Not that we have the most powerful unit sitting in Linz, and we attract in ??.

It's a way, in a way, when you take a baby for the first walk in a shopping center. We all walk, we're all busy to go from one shop, to another, to another, and this child holding the hand of the father takes the first steps. She's so beautiful, that everybody looks at her, enjoys her seeing the first steps of the life. A man is that child in the supermarket of the magnetic fields and the radiations of the Universe, taking that first steps. I'm here, now I want to join to walk.

Now, physically we have systems which can show you. Physically you can follow where your Soul goes. And then you see the beauty of it, the gap between the STM and the STP of it, the physicality of it, and the Soul of its Environment. (1:04). You can always go above in the strength to interact with a higher order. And when you reach that point, at one point, you reach to come to touch back itself, the point of Creation and the Creator.

Mankind soon will understand, will unravel and will understand this graph. How man switches between the dimension of physicality for the Soul to be subordinate. And how he can jump to become in the strength lower, that he can interact all to be within. Not the strength to be higher, that I encompass everything. This process of understanding the fields of Universe is interesting if the man understands it. Then we'll see the new tools in the dimension of the strength of the travel, in the strength of the fields of the Universe.

I brought you to the point of creation of love. You give enough, you give enough, to understand the strength of your own, and not others. I said to a KS, we test you with love. We give you more, that by you choosing you understand how much you suffer, (1:06). that the love of the Creator is more important, than the love of physicality. By loving more the dimension of physicality, you come to understand that love of the Creator is far beyond the love of physicality. We test you with love, not with gold. In the dimension of Creation, that's how it works.

Man in the dimension of physicality, as it was said, we made gold to test the man in the dimension of his existence. In the dimension of the Soul we test you with love. That's giving, unconditionally. The way the Creator did. and led to the creation of Mitra and the Earth, and the love of their existence with each other.

Now maybe you understand. Look at this graph, and think, where am I, under? And in understanding, I can be free. On the left side of the picture you see the struggle to move out, being inside to get out to, change the phase. And then as is tradition with the man, every now and then, falling in the dimension of physicality. Is it there? Am I still got a connection with it? But you see, does not matter where you go, you come back to it. Treasure this picture, if you understand it. (1:08). And for the first time you understand the work of your Soul and physicality.

I hope today I brought you for the first time to see the confirmation of your Soul, and struggle man has to keep between its energy fields and its physicality fields, which itself is a D of energy. And then maybe in the future, we'll see more. You understand, we come to comprehend the process of existence. And then I decide to ?? apply, at the point and destination, because I know the field strength of my Mom. I'm coming for dinner, Mom bring me the soup of the energies of Universe and its knowledge, even though you died in the D of physicality (P) 40 years ago.

I hope you understood a lot today. And I hope as I said, we're opening the path to the Knowledge of the Creation. And it's so simple, because you've been educated in the D of other sides for past 10 or 15 years. We'll go to a break and we'll come back and I try to share knowledge, as much as possible to see how we go from here on. Now that you have seen your own Soul. I can put you through the same system, and you can see who ?? the flight of the Soul, (1:10). is extremely beautiful. You took a picture of yourself going somewhere. Now you have the picture of the separation of the physicality and the STM, there is no ?? Christ in this. Rick can we go for a break and come back.

<< **BREAK** >>> 470 KSW Feb 2, 2022 (1:16). ..

K- No, we see what comes up and how we can answer you. There are a couple of things which we have received, a lot of question from a number of people is, about a couple of new products, which KF released last week. We get a lot of inquires about the "Knee" Gans. This is a specific material developed by the Keshe Foundation. We've been holding it for a long time. It's mainly for what you call, it's a clinical, what we call, trial, internationally, for all of you. You have to fill in, as you did with the glasses. Because we have a plan for this for the future, that you enter as part of a clinical trial, to see how it brought you, what changes it brought, how it reduces something, or brought you comfort in the other. And it's part of the Wellness Units of the Keshe Foundation.

This has a very specific structure, and you will find it in the, what you call, the Gans section of the Store of the Keshe Foundation. It's called, the "Knee" Gans. It can be used anywhere, where there is a cartilage or ligaments, and it has a specific way to use it. As usual, many of you always participated in these trials, when you take it report back to us. Because then, as you remember, when we introduced the glasses and the other things. You reported, we developed, we understood what part was needed to be corrected and strengthened, and for what purpose, which led to the, what we call, by the research and development of new technologies. (1:18).

This Knee Gans is very, what we call, important for us because it will teach us, not teach us, confirm to us in the conversion of the energies into plasma of physicality. Because when you're dealing with a knee, you have a bone, you have a cartilage, you have ligaments, you have more or less everything to do with the dimension (D) of physicality, in that position. Be a joint in the shoulder, be it the hip, be it whatever. We want to know which strength, which way it goes, how would it reduce, how would it give you enhancement, report back to us. As we learned from the glasses, and we learned from the other parts, we go to the development of this position.

Those of you who are with the Keshe Foundation, close with us. When you look at this, for example, the Enhancement Unit (EU) that now we managed to bring to the dimension of the Soul. The original one of this was created and tested some 4 years ago with, in China. We built the first bases of this in a different D. We shipped it from Austria to China and we tested them on Chinese Knowledge Seekers in China, being with us, testing it with us. Gave us a lot of knowledge in the background. The things, the limitations of what needed to do which now you have the EU of today. But all these units were manufactured, produced in Austria. Now it's the same position. We want to understand. Follow the instructions and tell us within a week, within two weeks what happened, what changed. What strengthen, loose kneecaps, (1:20). get their position. I want to know how long it took, how it took. If you put (added) something new in the usage yourself, that shows us another way to do things.

So, this is not something for just buying and holding, it's for you to test. You have a problem with your cartilage, you have a problem with your joints, pain or whatever. We want to know all of it. It's a limited amount of supply, it takes a long time to produce it, it have taken me years of research to develop it. It's something we need to know now, as we'll use this knowledge in the process of the manifestation of physicality in the dimension of Soul. I'll explain this more in the future. It was the right time to release it.

So, if you have any kind of un-wellness with your joints, or whatever, with your cartilage, or whatever. If you enter this trial, we want to know immediately around the world, what effect you've seen. And then from this, we go to our what I call, next steps of understanding.

Where the same time last week we launched the Combined Unit, which is the new Communication Headset Unit with its communication pack, which gives you a small amount of energy reduction, if you use it. It's a tabletop unit. And, again, we released this, it's on the Store, as a combination pack. This will be good when you start communicating with us and with each other without the new telephone lines.

When somebody tells you, I love, in Sydney, to the one who is in New York, you know the true love. (1:22). It's not anymore games on the Internet. The Head Unit is separate, than the Transmission Unit and the Energy Pack Unit. And these are literally market as one. These are the first telephone calls, as I explained to you. We kept it this way, and we release. Then hopefully very soon you will see it in the demonstrations as one of the Blueprint Days. As we said, this is the next step. The Energy Enhancement Unit, Plasma

Units for the what do you call it, the domestic use, again is in the market. And actually deliveries should have started this week, but we had a slight problem with the, what we call, the situation internationally. So, next week or so should be, those of you bought it, on the way to you.

So, you can see we start delivering advanced space technologies in a very simple way, and understanding the new understanding. And then connecting with each other, connecting with communities, connecting with the needs of communities. And then we go to the next step. The same as we now see how you helped us with the two brothers (with genetic defects), which some of you helped us. And we still need huge amount of help, because it's an ongoing project. Yesterday, I had the pleasure to watch, with the mother showing, that the boy for the first time can touch the ground. What the mother explained to us is that, what if you remember, both boys have a genetic defects which destined for them not to be with us in the dimension of physicality, by young age, in their teens. (1:24). The mother and father say, for the first time we have seen the evolution of deterioration has stopped. The mother put the camera on the floor and she says, "look for the first time he can touch the ground, and the toes move." So, what you helped us and what we participated in the life of two young boys, the parents have seen the results.

We have interfered with genetic, what we call, correction. I will see these two boys again in the next seven days, ten days, when physically we can see how much we have brought what was destined for them to die through the genetic defects. To correction, to be able to touch the ground again. Or, for the first time a child kisses the mother. The technology is, we reached the Soul of the child, not the physicality. And the dimension of the love of the parents give the existence to change.

We don't work in the world of medicine, we work in the essence of the love of the Creator with the STM. You helped us, we initiated the move. And these two boys, two brothers, see the change. The knowledge is deep. The knowledge is understands the Creation, the process of the Creation. Then we'll see what comes up next. What will be other games. We cannot go faster than our Knowledge Seekers understand the process. And then we'll see the change. (1:26). Then we see the change through the knowledge and technology scientifically, and not by prophecy.

Are there any questions?

Q: .. In the graph of today, .. if that is the way to expand the Soul, then what is the graph of the meeting with the Creator that showed through our own line of connection in December, where the lines merged perfectly? Could you compare them?

K- There's no comparison. That was a different system. This is a different system. Though, just because you see graphs on the same machine, it doesn't mean the same thing. The graphs we took, we showed you on, during the Christmas, what we call, time on the 16th, that was a collective work of all of you in the physical dimension.

This graph we showed you today is one man in the dimension of the fields of a totally different system and totally new technology, what you call it, new environment of technology. This is an individual person with his own Soul. The other one is the struggle of the totality, (1:28). and then how you reached a unity. Even if you look at this picture, you see sometimes if we show you we have a number of pictures taken through this process. We reach that point of equality when all becomes one. We have quite a number of it. When the STM and the P becomes one, we see it. I can show it to you very clearly.

This is the same man, in different part of the test. But the system in the 16th and the 20th is a different measurement, it's a different understanding. You see on the left side he reaches, and sometimes jumps up, the P wants to confirm. He has that struggle to jump out for the Soul to takeoff. When you look at the three peaks, if you see the green comes up fast, out last and is still superseding the P, and the STP, and the Soul of the system. Somewhere in the middle, he panics. You see, he still wants to confirm that he still exists. You see that little jump in the middle, all the three jump, but the Soul carries on. Because Soul cannot make a mistake, when it comes to itself.

It's the P which makes the Soul to react. This is when you do the sins, (1:30). when you do something wrong, you see the P does and the Soul try to compensate later on. If you understand this graphs, these pictures, the way it is and how we communicate with the person on the other side, we know where these things come in.

You've got to realize when we make these tests, the volunteer has tried to keep his Soul still in the motion of coming, but he still has to respond to us in the dimension of physicality tens of thousands kilometers away. When we can add, which now is getting built. You saw that Vertical Flight System, Vertical Unit, which was just shown a few minutes ago. That unit, part of it is nearly complete. It's going to be installed in, in the next few weeks, and then it comes into operation. With that, we don't allow this change of mind, or the fear of travel. You get the comfort of the guarantees.

So, if you look at this picture, the straight line, this is a man with his own physicality which become the truth, they want to go. You saw the same straight line in another system for another condition, does not mean the same. But in essence the whole of world of physicality of the man and the Soul become one. There the whole world of the physicality of the man became one with the Soul of his Creator. And it was 150 - 60 of you. Here is one man struggling with his own Soul. (1:32). That's the difference.

Any other question?

Q: .. Did the graphical system show the results of only the participants who had their microphones open during the event?

K- Yes.

Q: Or 100% of the participants?

K- It's those who participated. The microphone doesn't .. We did a test especially yesterday in the flight test, to confirm this. So, yes. If you're there you have a microphone

open, your headphone is on and you're connected to our system, yes, you come in. Let me explain to you something, I'll show it to you. How we know it's there. We do a lot of work, and if you hear me today, the snuffling and a sniffing it's because of this. I spent in a very cold weather in the Center, and I've got a very bad cold. (1:34).

<<< Here Mr. Keshe has problems with the white board >>> (1:37).

K- Now I lost the tread of thoughts. What were we talking about?

R: It was about the... The question had come up about the graphical system showing the results of only the participants who had their microphones open during the event, or 100% of the participants?

K- Yes, now I explain. Thank you very much. If you remember, you're all familiar with this now. That, in the room, we have... Oh, my finger is better than the pen. We have a system here, we have a system here, which this was system one, this was system two. And we have three initial system, if you remember, months ago, you started with Seat number one, and then two and then three. (1:38). These new systems since last week, have been installed with the Universal Communication System. Which means, in the 16th of December test, we had telephone call, telephone communication between here and the Center. That's how we did the first.

On the 20th we did a test, we cut this off (the telephone line). Which means the only way our system communicate with the Research Center, which they received their power and everything else of the expansion, is only through the new (plasma) communication system. Yesterday we had to test this. Does it work, or is it only there? We put a person in here with the communication, and a person here, on remote. Not in the center. Two different parts of the world. And we took the graphs back in the center. What we saw was very simple test. We took the graphs, we watched the way you seen the variations. And we have in our graphs, I think you've seen it before, what we call, constant fields of our system, which is like, goes, beats up and down, as you've seen it. Then what we did, (1:40). having these two for at the same time 10 - 15 minutes in, we monitored the graph. And the graph was very, what I call, very much, if you look at it with all the things you get and everything else. But when our system is on the what we call, a standby, with nothing going on in these two with the line of communication. The graphs has a constant rhythm of like this. So, this is when we have one person in, and one person out, and this is when the system runs. When we have nobody in. And we see this, we know, we are on our standby condition.

What we did, we withdrew this out of the room. In a way, we took this out. Instantaneously, this graph disappeared, with what we had was gone. And we had this graph, even though we still had one person in one system, through telephone lines, sitting in the room. So, it confirmed to us, our system communication works within this environment. And anything outside is not affected.

So, if you're not connected through our system, in the setting, it doesn't matter where you are. We have it now, we had to do this test yesterday, because we have to confirm it. And now, because now there is no connection between the Uno Center and the Research Center where the backup structure is. Now we've seen. (1:42). So, the backup structure in our Research Center is connected, and what goes inside this, inside here is all of you 100 - 170 of you, whatever, when you come in. These two systems are slightly different from each other in what you call it, performance, even if they look the same.

And we have seen now, we are going in advanced way of bringing transmutation in. Now even our reactors, as of yesterday or this week, are set to specific angles, which is the gravitational field angle of the Earth. We go into the precision, we're fine tuning. The X axis of the Earth is slightly tilted. If I go 2 degrees that way or the other way, I land in Planet Zeus or in Planet Zips. All these fine tuning has started. And all these tests we do in between is to find out what we need to tune, what we need to adjust to come in.

So, if you are halfway connected, non-connected, you are not part of it. But the, again, we've done test with the microphone set open and closed, and we still get this graph. But we prefer the microphones open, because it gives us a more detailed communication both ways. Don't forget you send us information from your Soul. But you close the microphone, we cannot send you one ?? strength. But through the other strength, as you're connected with us, we connect back with you.

So, when we give you these kind of graphs, and these kinds of tests, (1:44). now we do this and that, it's a lot of scientific check behind it and connecting, collecting and checks. The interesting thing is, in the coming time i'll be, if you're in the system and your graph goes like this, and then the next day this is talking to Mom. The next time we put you in the system and your graph goes like this talking to your lover, then we know this is the sign of your emotion to your mother and the sign of emotion to your lover. Physicality lies at this point, and the truth shows through the love of the mother at this point.

So, you know, now they put you on a truth machine, if you're telling a lie or not. Very soon these machines will come that, when they take you to your own judgment, you see what I did, or what I didn't. This is why I will always say to Knowledge Seekers, I never lie, because I know where the graph sits. You hear what it is as it is.

This is in a test which we do on the 20th (19th), you will have the same thing. In a way on the 20th we still, you are so involved in what taste you make and what fruit you do. But you will see during the test, then we can make a graph. We see this is for banana, we see this is for orange juice. (1:46). Then we, in the collection of the data, when we tell you, we put in the orange juice, this will be included in that wavelength and the other one will introduce in another wavelength of the field strength.

And dining with the Creator on Sunday, the 20th (19th) of February, it'll be one of the most interesting parts. Because this will teach you how to feed yourself, if you understand it, then you do not need to kill in the space. When you sit with the Creator, Thy shall not kill. So you learn His ways. And this is part of the work, which you've been

involved in past 2 and 3 (sessions). Join us on the 20th of February, and maybe it'll be the last time you will eat, nobody knows. If you learn the whole understanding of it, you find the path to it.

Any other question?

Q: .. Which soul was created first, the STM, P, or the STP?

K- It was first the Soul of the Earth. (1:48). The STM came from interaction of the fields of the, what we call, Gans matter states. In the specific talk, I have explained this step by step how life was created on this planet. It's in one of the lectures I gave, I can't remember where. But I explained the process of creation of life on this planet. How the Soul of Gans of matter state, led to the creation of the Soul of the Collective, and then interaction wise, became a collective Soul of collector, which means it became what we call, the STM.

Now with the new teaching in the process, which is now even available, we can do it is, we create dimension of the perfect Souls of the Universe in the embodiment of a woman, to create that perfect child. The child of Mitra is created that way, and she is amongst us. Then that Soul of Creation, decides in the womb of the mother, the dimension of the STP, that it will be happy with, to exist in the dimensions of the Creator. Not the genetic inheritance of the blue eye of the mother, and the color of hair of the grandfather. It's a very big difference. When the child is born, I want to have a brown eye. Why was I born with blue eyes? Why do I have a curly hair of the grandpa, (1:50). when I wanted straight hair.

Now when the child is born, because it's through the essence of the Soul, as the perfect image that he chose for itself in the dimensional existence of man. No mental disorders, and no wanting something which I cannot (have). But knowing that he has the power to have that blue eyes, if he decide to.

The new cycle of life, not only on this planet, is done through the Soul, not through the dimension of interaction of physical life. Fields create the matter state, not matter state creating the fields, even though both exist, depends on which way you want to go.

In the coming time, if you remember, we are looking for new partners who want a child. A couple, two ladies, two gentlemen, whatever, two people who love to be with each other, but they don't want any physical interaction to have a child from each other. Because one of them wants to have, we create that Soul. And we allow the Souls to interact. And then it chooses the dimension of its physicality.

You saw the STM how it moved, we showed you with the passenger. Now will be the same, both is existence. But one is decided by the random chances of the physical, you call it, RNA and DNA. Or one is done by the dimension of the Soul, RNA and DNA of the Universe. (1:52). Because this child will travel the span of the Universe. It doesn't

only consider how it looks on this planet to satisfaction of his existence. But how does it look which is perfection to the others in other parts of the Universe.

Game has changed. When you see the child of Mitra you adore the Creation, it doesn't matter where in the Universe you are. When we see a child we look at the dimension of physicality. That's what is there and that's what is to come.

Any other question?

Q: .. How are the seeds of the STM, are planted in the Universe?

R: I think you sort of covered that, but maybe you could explain a little more.

K- It depends on the strength, where it chooses to be. A lot of things... You have to be scientific, we don't create theology. And scientifically you. Whenever you don't understand in Macro, you go to Micro, and you don't understand in Micro you go to Macro.

But always when you do test with these things with magnets, understand, a solid magnet, when you use a ring magnet, a circle, it's the state of the matter. Whatever reaction you see. (1:54). When you want to work with the dimension of the what we call, like a Soul, which has no dimension of physicality, use a ring magnet.

To you when you put two solid magnets of the same size as the ring magnets, observe the position, observe the behavior, it's different. You're so involved with magnets, that you have not understood the soul they create inside the ring. What soul is the magnet in the D physicality and in the D of the Soul. Then you can replicate, you can understand the essence of it.

If you remember, I always said, everything I made, I used a huge amount of ring magnets. In, for example, when we used to make the Cups, the Cup of Life you now make, I made the Cup of Life 15 years ago, 20 years ago. But that time I could not explain about Nanotechnology and Gans. When the cursed nation of Belgium, these hooligans opened the containers of the breathing, and they just saw magnets, they never understood. They called it a fake. Now you drink a Cup, you walk away with Corona.

I use solid magnets, square magnets, ring magnets with a pipe going into it, that it changes the existence of the D of the STM. (1:56). If these ignorant people of Belgium could understand the technology and these Cups as the technology of Creation, they would be ashamed of their own existence, what they've done with the Foundation. Curse this nation, and it's blood. How backwards, how much they delayed the development of the man. A bunch of pedophiles and rapists. From the king down to the soldiers and the police.

Some of you who are listeners here, you still have my Cups, made in my own hand. Those Cups you carry, is the essence of the Creation, life of a man. And in it, you see what now you see as Gans's. How you play with the fields of the Universe. Many of you

especially in Holland, have these Cups, still with you somewhere, treasure them. They carry the fingerprint of my Soul. Every single one has been made, handmade. And that's why you found salvation in them. You feel how. You see if you open it, the bends, the twists, the position of magnets. How I pressurize the Soul to release its, what we call, Cosmic Rays. How when you breathe in the system, your breath gives from dimension of physicality and it takes the dimension of the field of the Soul. (1:58).

I never touch the physicality, with all the fields. I always play, where you hold the cup, how far you hold the cups, what interactions it makes with your Soul. The water you create when it passes your nose, the smell when you're drinking it, how it touches enlightens your Soul. And then you see satisfaction in the D of physicality. I'm a magician. You looked at the Cup. I looked at the fields of the Cup near your body, even the body bits I made for you.

Understand the interaction of the fields. Then you understand how you still play with the fields, but not with magnets, but with Gans's. Not with Gans's, with the fields they create. Then you understand the process of Creation.

It was a pleasure to be in Holland after some 10 years or so, in past two or three weeks ago for a few days, to sort the affairs of the Foundation and Sticing. And it brought back a lot of pleasure. It brought back a lot of understanding, where we started. And how I could go to Philips and tell them, your X-rays machines you've built here has become the Space Technology. Understanding the same radiation, (2:00). but in the dimension of interaction of the Universe.

Now, you have to understand how the fields work, how do they interact? And what is the outcome. In the intro we spoke about the Soul of your children, how would they interact with other Souls of the Universe, which leads to the Creation of a new cycle of life? Now you understand what that Intro means after years. Because we've got the Gans's, now we have the machines. We can create the dimension of the Soul of a perfect existence.

In the very near future, following sessions, monthly meeting with the Creator, we'll put all your male people on one, and all the females in one. We separate you. And then we see what the Child of Creation ?? you'll be, as a child of this planet. I will not announce this, when it will be done, but it will be in one of the sessions when the time comes. Because now we have the knowledge. You ladies will come with the lines of the Soul of a giver, (2:02). and the man comes in the line of the giver too, but both connected to the love of the Creator.

In the last teaching, in the last meeting on the 20th of January, we knew of the presence of the Mitra, and the Child of Mitra in the meeting. We recorded it. When they sit amongst us, then we ?? are us. No, what I call, theology. Keshe Foundation is a scientific organization. We recorded it.

So, as you see, when in these sessions you mature, more and more, and understand. Then we end up with where the next step for the whole of Universe, it's not only humanity.

Any other question?

Q: .. Hi, Mr. Keshe. Thanks for having me. My name is Yue. I'm originally from Taiwan. And I'm currently stationed in the UK.

K- The two brothers, who came?

Q: Yes, yes. Normally I sit in the background to ask questions. (2:04). But this time is a bit different. Because I wasn't sure how I can phrase my question in under 200 characters. So yeah, so my...

K- Are you the younger brother or the older brother?

Q: I'm the younger one.

K- The younger one, ok.

Q: So, the first one is more, not so much of a question, but of a statement. I want to know if my line of thinking is, you know, in on the right path, and if my understanding is correct. So, I attended the 20th session. And since then, I've been trying to look back retrospectively to see what I can learn from it. And is it correct through the logic, to say that the session in a way, was a learning lesson for us to show the importance of the Soul and the STP when it comes to traveling? So, is my Soul and STP is in unison, and if the Soul was in touch of the Creator, which will then I'll be able to have the ability to access the Creation. I would. If there's a need due to the environment, because my STP is in touch with the Soul, I will be able to access whatever I need. And then that in return will be able to feed and nourish the physicality. So, in that way, I will be, I will survive in every dimension. And yeah, to be able to survive in every dimension. And I guess another way to look at it is, (2:06). by not abandoning the STP. I guess, in a way provide another way to enjoy the Creation. Not just traveling with the Soul, but also the STP, which is part of the Soul.

K- Let me explain something to the Knowledge Seekers about my impression when I met you and your brother. And I think you know, when I spoke about it after I met you. These two brothers are amazing. Very gentle, very humble, even though they're all educated, and they're in masters, and PhDs or whatever universities in England. The knowledge and the positions it has brought them humbleness. When I met the two brothers, the behavior, in the short term I met them, brought back a lot of memories. It's amazing how you feel. The system changed when they came into the room. The behavior, the environment of the two systems, as two brothers, more or less like very much unison's, changed in the system. And it's a pleasure to see this kind of what I call, Souls. (2:08).

In the interaction with the system in the testing of the 20th. The essence was for you to get to know your Soul and how to be able to communicate, how to be able to exchange. Exchange of communication comes, you are by STP, you are looking after me as a Soul inside. Now, I want to look after you, with you inside.

We see it in the graphs which we have just shown, one of the graphs, where the STP and the STM exchange, they become equal and one hands over to the other. And this is done by man, remote outside the hall, even the continent of Europe. And the whole of the 20th

exercise was that. For you to start learning how with trust, with the understanding, that you can be in charge, or I can be in charge. We are they're both loving each other to protect each other, like the way you two brothers came in. This is the actual the work of the 20th session.

In a way, we heard from many people, the experiences they had on the 20th. How they felt, (2:10). how they interacted with the Soul of the Prophets. It was easy for us, and there was a reason that we chose the 3 Prophets. Because I could not tell you to get in touch, or meet with the Soul of the mother of another guy in China, or the father of the guy in Canada.

But the whole process of the 20th was, how you can come in interaction with your own STP, you call it your Spirit, and then in trust, let you go, to be looking after it. It's just, I'm not trusting you, or can you do in the dimension. People will see you, and they don't believe me, you know, that you can come out like a schizophrenic.

But we entrusted you with interaction of your Soul with the STP to extend. And then we entrusted all of you to one point of reference, which all know, which was Moses, or Christ, or Muhammad.

This was the whole purpose of the teaching, or the process of last session on the 20th. To understand the expansion, and then it was .. "oh, I expanded." But now you're out, go and see someone, that he can interact with, that he can confirm you have gone. Many of you did that. Many of you have felt Christ, or Muhammad, but you didn't feel the other one. I was talking to one of the Knowledge Seekers yesterday, he makes me laugh. I love the guy so much. He said, what's wrong with me? I cannot go anywhere, but my brother has been everywhere in the 20th session. (2:12). I went through the system, he came to Linz, but he can't go anywhere.

I explained to him that, you are too attached, you are too physical. Your Spirit, his holding tight control over the Soul. His the only guy we let loose in Linz, for two or three days. He went in as many sessions as he likes. He went in session till I think, 10 - 11 o'clock with another Knowledge Seekers in the center. But he said, I cannot get my Soul out. But he doesn't understand his Soul is already out. Why do you want to be out with it, when you're trying to force it in?

This was the whole purpose of the 20th. To show you, you can trust it. And he came back and we finished the session, Has anyone of you lost your Soul? Or have you become better men? We had a session yesterday. It was funny. But I read it to you. We're going to a test without the Knowledge Seeker who is going through it. Because we communicate in the background with what you call it, with our team. It was a very funny situation. Because even the Knowledge Seeker who was going through the trial does not understand it, but we know what we are doing in the background.

It was at about 17:12 yesterday, because we see everything and I said, we lost him. We literally lost the Soul. He's not answering. Because we are in touch with his Soul for

certain like two minutes, three minutes. (2:14) And then, oh, he is back, because I can see him. And it's a communication in yesterday afternoon in the transportation and transmutation. You always go back, you cannot be lost.

I'm in Linz. Our team is in the laboratory, and our transmutation guy is, but we can't tell him that we lost him, because if he panics he won't do it next time. Between, in two minutes, actually 90 – 60 seconds, or so, we lost contact with the Soul. And it's in writing. It's like you know, it says, NASA, we have a problem. We don't have a problem, because we are assured that the STP is back in his position, it will come back into it. We see it. He doesn't see it, but we see it where it's deviation.

The communication is very simple. And it is very interesting, if you look at the communication we do, and we watch, and we monitor, and we see, we know exactly where we lost (him). This is what sits with us. (2:16). What to you is a word, but to us is part of the work. We literally, I try to share with you that you understand what goes on. This is, you know, an extract in the communication of yesterday. 17:12, silent, we lost him, he's not answering. And then we see him back. This is a real trial this.

This is real travel of the Soul, extending beyond. But he on the other side is not aware of what we see, because we can't tell him. But we see it on the graph. You see the double tick on top, that tick on top, that's what it is. So, when we speak about these things, it's what is in technology, in physical dimension. .. (2:18).

So, the 20th was for you Knowledge Seekers to have a trust, all of you to meet with one, or two, or three, and then come back. You can never be lost in the space. I explained this before, if you understood the position, it's very simple. Nowadays they give you a cable to go out of the space lab. Now they give you a space suit to go out, if you walk on the Moon, with all the oxygen and everything you need the time you are there.

Now if you understand what we've done on the 20th, even if you go with the dimension of the physicality, get on the UFO and you go on the surface of the Moon, you cannot land on it, go on the surface of the water, planet, whatever, you cannot land on it. No, you don't want to land on it. What do you do? Do you go “Beam me up Scotty”? Or now that you learned the process of the transmutation, extension of your Soul to the STP, then you interact with the Soul, and the soul of the dimension of physicality, called the Inertia of the planet, you decide how you will manifest yourself.

You will be a stone, but rolling on the surface of the Moon. But you still have life, you decide. Or you will appear with 20 legs and 5, god knows, lungs, because you need more energy. Or would you make the surface of your skin so shiny, that absorbs all the dimensions from the what we call, environment, but you decide to be in the shape of the man. (2:20). Two legs, two arms, this is how I want to manifest myself. But I don't need the lungs inside. Because my skin absorbs, I'm in the shower. Knowledge Seekers have to learn this a lot, and the 20th was that purpose.

On the 19th of February, we show you which stream of that shower you want to connect with. One of the holes in the head of that shower is a carrot taste. And the other hole on the other side is the love of the Creator. Which one you're more hungry for? How do you want to feed your Soul, with a carrot, or with the love of the Creator?

And these experience in these sessions are that process, it's a training session. And you've been through it on the 20th. To see, can I expand my Soul to meet my physicality, the STP? Would I feel it? Would I emotionally understand it? And then go to the next step, extend it. But this time, I'm only going because we came together to camp. We all came to enjoy the same trip, we are on the same bus, we go to the same tour, we're here to see Moses, or we see Jesus, we see the Soul of Muhammad, that was the purpose. Out to see, but all the time he came back to the Soul, you always had that connection with the physicality.

Any other question?

Q: I've got a question, (2:22). if that's okay.

K- In this place we always allowed two question, Jalal started it.

Q: So, my second question is about the future of the human race. So, if our Universe, you know, and I think of it as a giant plasma, (will) our Universe, then change position with respect to other universes as a result of this technology. So, you know, within the big giant plasma, if all the souls through this technology sort of got close, free teaching of the Soul got closer to the Creator. Will the strengthening of the field of that plasma affect the positions of the overall Unicose? And if so, how would that entail?

K- In a way, not really. But in a way, yes. If you're connected and understand the Soul of the Creation and the Creator, sometimes the macro can affect the micro, and sometime the micro has that pull to affect the macro. .. It'll come in the future teaching when more and more knowledgeable our Knowledge Seekers become. On the 19th, or on the 20th of January, you went to the extent of extending to be in touch with the Soul of the Prophets. And through giving to the Soul, or what we call it, the Soul of theirs, (2:24). to their STP or the Spirit, to change that course.

It's very interesting, if you observe what I have observed. In past 7 - 14 days, it's amazing. A lot of you are not aware of what's going on in the background. We did, and I said, as I said, it works. Knowledge Seekers 20th job did the job. But we have to see what's the next one. And I'll explain this to you very soon.

If you managed to extend to the Soul of the Prophet, which is within the structure of this planet, why, and do you think you can limit the expansion of your Soul to embrace your physicality? Or share with the dimension of the Soul of the Prophet to enlighten his Spirit. Because it's the way he contacts, interacts with others who follow him? What stops you to expand this beyond the Earth, that you encapsulate the Soul of the Totality to elevate? What stops you to extend this beyond the Solar System, beyond the Galaxy, and beyond the Universe? What experiences will you have?

Is the elasticity of your Soul in the dimension of field strength strong enough to embrace the Unicose? (2:26). Or when it passes the Universe, it creates a new dimension and position, or our Universe, as you say, to find a new dimension and position its own Unicose? Because now you introduced a new strength, so it has to be a new position.

The outer fields dictates the position, not the inner fields. Inner fields create their own Inertia. So, does the Soul of one man, one entity can change the course of the Universe in the Unicose? If you have enough energy, yes.

Q: So, in a way, the effects from within is unlimited? Is it because...

K- There is no limitation. There is no limitation. The limitation is only in the brain of the man. That's all. Limitation of your own understanding of your own Creation.

Thank you very much. It was a pleasure to meet you two brothers, and you brought a lot of good memories. I used to be the same with my brother. It was nice to see as one, and your politeness, and what I call, humbleness, (his name). It was nice to meet you two brothers.

Q: Thank you. (2:28). It was my pleasure to meeting you and the members of the Keshe Foundation.

K- Thank you very much. Something which might have passed you. You listened as a news. But I look at it in a different way. And it was very interesting when you look at it in a different way. We had the meeting on the 20th with all of you Knowledge Seekers elevating the Soul of the, those who you believe in the path of. And I always said, give it 14 days. As I always told you, what we see in Ukraine is a position of the inside Catholic Church, towards the Church of Russia fighting with each other, who was stronger.

We saw now the extension of, and how it's changed of. And we have to sit and watch the reaction of what happened last Saturday, Sunday morning. We were warned of the catastrophic interaction, if the state of Israel attacks Iran. The Israelis tested it last Saturday. By remote drones they attacked the military base in Iran, and some other places.

The Israelis out of their stupidity thought, they pull Iran into a war, and then they get what they want. (2:30). Seven days passed, we see silence. It doesn't mean nothing. But this is again, the war of religions. But what you put in on the 20th brought the new dimension. In a way, what the Israelis wished, that they pull Iran into a massive war, up to now has kept its silence. A bluff, which did not work. Otherwise, today we would have had different stories.

Now you see the effect of the elevation of what you did on the 20th. I promise if that session would not have taken place, we would have seen a massive war in Middle East today. After the massive attack by the Israelis, they tested it. We were aware, we were

waiting for such a test. It wasn't something unknown. But in a way it showed the weakness in the structure of the defense of Israel.

We will see for sure a counter attack in a very short time, but conclusive enough to bring the two states of Iran, the Islamic world, and the Jewish world facing to each other for peace. As the new defense minister of Israel said, we had to do the first attack. But that was the most stupid thing you did, sir. (2:32). You should have sent the message of peace. But as was the wish of your Prophet, it had to be done this way.

I am meeting with Iranian officials tomorrow. And my message, to the Iranian government is, take the path of wisdom, and go by our way, and become the tool of peace. But with the strength of knowing that we talk, not because you bombed us out of nowhere, but we can bomb you to smithereens to nowhere.

It's a position of the religions war, because it's coming to an end. We've seen the new administration in Tel Aviv, with the most disgruntled man, as a prime minister, who doesn't like to speak to Keshe Foundation and Mr. Keshe, because he knows that he's chosen the path to the end of its structure. And that end has to come through his Prophet, not through his subjects.

And what you did on the 20th, you actually stopped a cycle, which we will not see. As we see, I hope, I hope, that knowing, understanding what sits within the structure of the military power of Iran, a mayhem in Palestine. (2:34). What we saw was waiting to provoke, to show. And that provocation has come, but the show is a different show.

My Soul goes to the Iranian leaders, to elevate them to choose a different path than what they're planning. But we'll see the conflict of two religions, as I told you. It will not be any more matter condition of Vietnam ideologists, but it will be matter end of the religions. Christians killing each other in Ukraine, the Jews and the Muslims in Middle East. For what reason?

But if you would have not done what you did on the 20th the story would have been different today, seven days later. The war of religions has started, but this time it will come to an end. Because you, as Souls of the Knowledge Seekers have brought a different condition. We'll see. We'll be here for weeks and we watch what will this scenario will bring. And how will end, how will bring to a point. (2:36).

As a Knowledge Seekers, as a Keshe Foundation, we have put both hands out to the State of Israel and Iran to protect, and we have offered full security to Iranian government on a direct call with the government. In case of any nuclear accident Iran Keshe Foundation has put all the facilities to deliver to Iran, unconditionally. The same as we did with Ukraine through AEIA. In my communication with Iranian leadership through the officials, they know every tool is available. if attacks take on any Iranian nuclear site. The same is available to the State of Israel. A citizen of a nation should not pay for the stupidity of their leaders.

Any other question?

Q: Good morning Mr. Keshe. Can you hear me?

K- Good morning. Are you on the way to Mexico? Or are you still in Mexico?

Q: No. I'm in New York still. It's 5:40 in the morning. I leave later. ..

K- God help the Mexicans, Azar is going there.

Q: Mr. Keshe, you kind of touched on what I was going to ask when you talk about Iran and Israel. My question is, when we go do these sessions, that we did on the 16th and 20th. Is it changing a Soul relationship to our physical soul? (2:38). Our relationship in totality, both physical soul and Soul to the environment, to people around us, to the Cosmos, to everything? I feel like, you know, if you go to, you know, like, go to a Persian house, you see the curtain, they have the three layers of curtain, the thicker one, the lighter and then lighter. I feel like you're standing in a room like that. And suddenly you remove the big thick curtain, and then remove the next one big, and next one, and then you see so much clarity. At the same time, you become more, you have no desire. Like, you know, when the Sun comes out in the morning and shines, and then at night it goes in, you just become like that. You just get up in the morning and then you go through life.

And the funny thing is, you have no desire. But for example, if you say, oh, I want to have an apple. Suddenly an apple shows up. Recently, I give an example, I'm sitting in my office and I said, like yesterday it happened. After a couple of times I thought different, going places, people showing up, talking about, thinking about the person that you want to talk to. Suddenly the person calls. And then I'm looking at it, is this stuff happening coincidentally, or suddenly as if things that you desire it shows up? Yesterday in my office, I looked at the schedule. And I see the hygiene side is completely blocked, booked except five o'clock. And I said, oh, we just need one patient for five o'clock, then we're complete. Then five minutes later, as I was saying it, somebody calls and I say, okay, the funder says, we have an opening for five, would you like to take it. (2:40). And then it's booked. Then I'm looking at that and said, what's going on here? Or for example if I go to a place that I want to have, like three afternoon I haven't ate lunch, and I wish they have my favorite food they have, usually they finish soon. When I go there is only one left.

And then I was thinking, what's going on here. Like you asked for something and it shows up. It's for me fascinating, like the relationship with people changes, people respond in a way that as if they accommodate you for what you want to do. It's something, so much clarity is happening. (silence) So is this supposed to happen, the whole relationship changes?

K- In a way, it's the "Soul of Understanding." What it means? It means your Soul creates that interaction, which brings that position or action. If your what I call, position is real, and then it's good for what you need for your Soul, STP, or P, will take shape. And this is important that we understand this. (2:42).

This is what is, what you call, you wanted a fish and it was the last fish. What about if you wanted something else? Was one guy there before who wanted the fish, but the Soul said, no somebody else has booked it through the Soul, leave it behind. And then you call it a coincidence?

Q: But Mr. Keshe, was the system when we go through the session, was the system interaction with us, that create that kind of interaction that changes?

K- No. We create the environment for you to test yourself. The whole purpose of these sessions is for you to learn what you forgotten. To relearn. The purpose of these sessions is like, you know, you've been walking everywhere and doing everything, and then you have an accident. Then you go not using let's say, your leg, or arm, or whatever, or you go to a coma. And then when you come back or you get the possibility of functionality they say, you try to retrain yourself to walk. You have to teach yourself to walk again. It's that process.

Man through the Soul knows, he does it every night, every day when you're asleep, you call it, a dream. Now you're going through the processing of the teaching your STP, (2:44). that I'm retraining you. I go out for a while and I come back home. I'm home all the time, you leave me, you shout, I'm back. And we saw it in those graphs.

Q: Mr. Keshe also is a feeling of, like for example, everything has a soul. But then you kind of feel them more. Like for example, even when I look at like a door. Last night I was stuck behind my apartment door I forgot my key. But then suddenly the door as if invited me to go pass through it. And it was as if there's a communication going on, but then and it was just like, as if the door, something is opening up and you can go through it. But I was hesitant. And I was pausing a little bit and I said, is a communication going on... because then ...

K- Let me explain to you something. It's your fear of physicality. That's what I said to the other Knowledge Seekers. It's your fear of physicality. You've been through the sessions, next time, if you get stuck behind the door, see if you can extend your Soul, which is an energy. And if that energy can take you to the other side of the door, come in back to the dimension of physicality.

Q: But Mr. Keshe, I don't have the fear.

K- It's the subconscious fear.

Q: But how can I know, to where it is, to get rid of it?

K- It's not getting rid of it, it's training that I can do. It's like that little boy, put a stone on the brick and tries to breaks it. The first few time, you know, crushes the finger, and hand and cries from the pain, but he carries on until he knows. And one day as a Judo master with one hand, he cracks that brick. The brick is the fear of man.

Q: Mr. Keshe, also like, for example, if you have a cup, say you drink water from everyday. Or a cup, you drink coffee or tea, like suddenly it becomes alive. Like it's your best friend. I mean, you never knew it is your friend. And it's just like, you. And then you can talk to it and communicate with it. But then it's just everything becomes like, everything just like is alive, but we never pay attention to it. Like even if you have a painting, if anything I wonder, it's just fascinating. And suddenly everything. I always look at the cartoon, they made animation of objects, suddenly there's no longer animations, it's actually real.

K- It's trusting in oneself, which is the biggest problem. And that was the purpose of the all situation in the last two months, and in the coming months and weeks of the training and teaching.

Many of you who attend these monthly sessions now, will become the teachers of the future for the next cycle of Knowledge Seekers and humanity. And don't forget, in the past two sessions, in the session to come, you come from every background, nationality, religion and the rest. This was the purpose of these things.

Because if I come as an Iranian and try to teach you something, you ask why. Why is he here? (2:48). Every time we take the knowledge, as was the same when we went to Belgium. Why Belgium? Why here? Oh, there must be something in it. But if you as an Iranian tell the Iranians, there is no. It's not foreigners bringing it in. And that was the whole purpose of the teachings on these processes which we have taken. Without you knowing we have made you the ambassadors of your own culture and nation. Because then there is no mistrust in color, race and religion. And gradually, you as Knowledge Seekers will start delivering these things.

Q: Mr. Keshe, another question I have regarding the microphone. When you go to the session, you said, have the microphone on the right side, not the left side. But what's the purpose of it? And how do you manage that? Because I couldn't do it.

K- Have you bought these headphones? Some of the headphones you buy, inside it has written L and R, right and left ear. So, when we tell you your microphone, and look where is the microphone connected. It's usually to the right side. Our system is set on the right hemisphere, and that has the ?? left hemisphere of the brain of the man. You have to follow the instruction, because otherwise we give instruction, you become a schizophrenic. We tell you to put it on the right emotion, because let's say, the feeling of hunger comes on the left hemisphere in such a point, and you put your headphone back to front. Now goes to the right side of the hemisphere. Sorry this is the place where I make love with. You understand? (2:50).

Q: You weren't talking about the microphone on the phone, you were talking about the headset. Because I did...

K- The headset has a microphone.

Q: Because I made my phone upside down.

K- We're very correct with this.

Q: So Mr. Keshe, I made my phone upside down. So the microphone on the phone itself is on the right side.

K- .. There's a reason for it. Because our system is set that way. Some of our Knowledge Seekers have even tested it, we can decide if we interact with your left or right. Knowingly or unknowingly. If you go back in the picture of the room, we have 3 seats on the left, three seats on the right. We have a unit on the left, we have a unit on the right. We have a left hemisphere and right hemisphere in our system. It's not coincidental.

When you come in, now you saw it on the graph. The physicality, the STP and the STM, yeah? When we started these tests, from the beginning, when you came in tens and hundreds, you sat in the STP, the P and the STM chair. Nothing has changed.

If you understand the principle of the work of the brain. You call it Twinity, in the world of science. We say every star has a counter star, (2:52). for it's balance. So is the brain of the man. And the difference in the energy between the two of them creates the current for the existence of the brain. The brain doesn't bring its energy from somewhere else, in interacting with itself. It absorbs energy from its environment, those blood cells goes through it, it absorbs energy from the blood cells, which go through it, but not in it. And the difference between the two creates the working of it. Yin and Yang. One side is Yang, one side is Yin. And collectively together they make that brain. And in that interaction, they create the current and they create emotions.

So it's important when we tell you to put on the right, to be on the right. Because we are sending information for you to love each other.(If) you are back to front, you're putting the information on the other side, where it says, hate each other. I came in but I felt so drained, I came in it was so... And the other one says, oh, it was the most fantastic session. Because we all receive the same. The left and right, we emphasize on, has a reason. And that reason is your own brain. You created it that way, we just following for you to receive the right information.

Q: .. When Jesus said, when you tell the mountain to move and it moves. Now we can understand it. Because the Soul has that power, because it's God himself. So when you command. Actually it's instantaneous. (2:54).

K- Stop there Afar. He said, make a mountain move, yeah. The mountain wasn't the mountain you think about, the mountain was the ignorance of man. We just created that mountain for himself, to understand the Creation and the Creator. You're still physical.

Q: But Mr. Keshe, when I talk about the command means, because when you're born here, whatever you want is available to you. But only thing is, you wanting that it is not, how can I say, it's not really important. Like, whatever you want is here. Just ask for it.

K- It's desire.

Q: Yeah, but the desire most people have for example, I can sit here... People sit in their home. And for example, I was talking to this guy, he's an Uber driver, and he's from Tajikistan. And I was actually, my mind was blowing up from pain, because the way he was talking. He said, he is suffering, he is 25 years old. And I said, why are you suffering. He said, my parents are suffering. I said, why your parents are suffering? He said, I call my mom and she says the neighbor, they had for example, bought, say a chair or something. So the neighbor has this, they don't have it. So she's upset and she's suffering. And I was thinking, why people are suffering for things it doesn't matter, because do you have a chair your neighbor has? I mean, if the thing that you wishing for, you suffering for, so this is really miserable life. Because this is not a desire of a person who wants to live on this planet. The planet everything is given to us. I mean, look at the planet. It's just people suffering for things really doesn't matter, (2:56). because the neighbor has a car, I have to have a car, or neighbor has this, I have to have that, or that my family has this...

K- Okay, so I'll put it this, the other way. Now, we hear from the Knowledge Seekers who were there in the 16th and the 20th session that, how come the others managed to see the light, or they say they've seen the essence of the Soul of the Christ, or Muhammad or whatever, and I can't do it? What's wrong? Why can't I have it? We still have the same situation, it doesn't matter. You change it to a chair, or to something else.

Q: Thank you Mr. Keshe.

K- I'm just reading something, which I don't know if I can share it or not. But it's just sent to me by the doctor who is in charge of the two brothers, and it's touching. It shows knowledge of the Creation super passes any physical dimension. It doesn't matter if you have a chair, (2:58). or you have managed to see the Moses Soul, or whatever. It is interesting to see, one craves for a chair, and one craves that he enjoys the extension of the motion in the movement of a small thing, for a child you love so much.

What do we value in life? The mother has written. The mother explained to you with the permission from the doctors who are monitoring it. This is a message in writing from the mother. It says, I cannot even put into words what all this is doing to me. I thought I knew how energy feels. And now I am confronted with goose bumps, deluxe, everyday. Because it all feels like a big miracle and a huge gift from God. This is what make me think, one is happy, to have a child back to normality, and one is still worried about the chair of the next door neighbor. (3:00). What a hypocrisy is the life of man.

Any other question?

Q: .. By trying to learn about the interaction of souls I have noticed that we always collect some essence from others, and usually the soul collect something it needs in that placement to develop something. Some souls share love. And this creates a connection between them due to the humility of understanding the happiness of just being there next to each other. Other souls collect it and use it for control, to hold power for themselves, or for a certain group, and to feel the force of being greater usually in the physicality, or

the emotion of others. When this happens, is it a soul's lack of understanding of physicality? Or is it just a conscious stealing habit of that soul?

K- It's a combination of both. (3:02). As we say, ignorance is a bliss. When you're ignorant, you're not aware of it, you're still ?? bliss because you do it your way. And even this is the wrong way, you end up in the ditch. Or when you know, you try to avoid the ditch, you hauled in a bigger ditch, because you thought you missed the big ditch, which the big one behind it. It's how we decide, and how we go, and how we change it.

As I said, this year is the year when the man meets the Universal Community. But in reality, if you understand it, in a very small way, at the beginning, we bring the Universe to man. To see what is missing behind. In a way, we bring you a taster. And see what you decide, what you test. It's a combination of the two, but depends on your knowledge, understanding about the condition and the position. Nothing else. Then it's up to every individual and their own understanding.

Any other question? We're nearly three hours into the session.

For those of you who got around the Foundation, we try to deliver all these new systems into the March session, before March session. You will find out the sessions will be very, very different. In what I call, (3:04). One Planet, One Nation One Race, that you will feel different way of connecting. We allow you to connect first with your mobile phones the way you're used to. And those who bought the Combination Unit, we switch to you. Where you only will communicate through the new technologies. And with that, we create that expansion, those who are understanding. We, as I said, our team will try to deliver as much as possible in the second quarter.

Then you will see the monthly sessions will be a totally different meeting and it will be right across all of you, across the planet. As I said to the Keshe Foundation, it comes on the basis of first order, first served, that we built up the structure. You will see, you will understand a different way of life. In a way, you will feel, you will understand what it means the realm of the Creation and the Creator. Because you don't hear through your ears, but you feel it through your emotion.

It'll be very interesting to see how when we separate two sides of physicality and what we call, plasmatic life, how you will react, and how much you will be enlightened. How much knowledge you gained in one. And after sessions, (3:06). how much of it would you bring back in the dimension of physicality?

As I said, where the Knowledge Seeker asked, please, please do not switch or give your Head Unit to anybody else. I'm very, very specific. The reasons we'll explain in the future. It's like when we told you, don't share your Pain Pen. Do not share your Head Units with no one else, don't allow it to be used, not even for you want to put on your head (Do not let somebody try on your Head Unit) . It's important to understand this.

The combination of the knowledge on both dimensions of physicality and Universe gradually will become part of your life. Maybe Azar doesn't understand how to go through that door without actually opening the door. Maybe you understand how you go through a planet without actually touching the planet. Maybe you understand how to tell the girl you love how much you love her by the essence of the Soul, and not by the word of the mouth. Then you see the reaction. And then we'll see how we change the position.

As I said to a Knowledge Seeker, if you don't see and you have not bought it from the Keshe Foundation, what we have, what we developed, and anybody else offers you, it's fake. (3:08). Because we've seen a lot of people trying, especially we've seen in Romania, they come up now. Nobody was anywhere, now they got this dick of the cosmic rays and features Iran. A lot of what I call, BS has going running around, especially in Romania. But people believe in it, so they go with it. Unless it comes and you bought it directly from the Keshe Foundation. And nobody can match to what it is. It doesn't matter if they opened it. They do not know what else we have hidden in there. It's like when you buy a fake medicine. And believe it, secondhand will be no good, because it already is carrying somebody else's Souls in it.

So, we try to bring you in the direction and dimension to understand. You've got to realize, the process has and will carry on. It will not stop. And the process has to be continuous, on the peace process. Whatever you learn, has to be used to bring peace. And those who've done wrong to you, or wrong to create condition, will come to themselves.

When you get these units, learn one thing, always ask. Always ask through the Soul, always ask. Because if you're given by asking, you have not stolen, because you are given. If you take without asking you have stolen. Even if you want to make love to your partner. Ask can I make love to you. Because I don't make love to you physically, I give you, (3:10). make it available for you to take what you want from me, which is love of me. Then you see the position changes. Can I love you? Because if it's yes, it will be received. And the other one which is ignorance says, why do you need to ask me to love me? Because I respect you. Because you will be at the strength of receiving my love. Otherwise I'm watering the pavement, and the doors, and not watering the flower I love to ??.

Always ask, now we go through the system. Thy shall not steal. Because when you ask and you're given, you have not stolen.

Q: Mr. Keshe, can I say something?

K- You always say something.

Q: Okay? You see, imagine you're not a good cook. You don't know how to cook. You go to a restaurant, and then you go to the kitchen and take the chef, and tie it to the chair, and put a hip on his mouth or her mouth. And you start working in the kitchen trying to make yourself a meal.

K- You watch too many movies Azar.

Q: No, no. This just came to my mind. So this is the way I look at it, because this is what I feel was happening to me. So what you do, you do you try to cook everything by yourself but you cannot, you're not a cook, you mess it up constantly. And you say, why I cannot eat, why is this, why is that. But then if you just untie the chef and let him talk and you sit at the table, (3:12). the chef is going to make your meal. That's what happens with the physical soul and the Soul, because the Soul is the chef and the physical soul is that person wants to eat, because you don't allow the Soul brings you what you want. Because you just want to do things yourself that you don't know how to do it, and you mess it up. That's what came to my mind.

K- You see, when you work in the dimension of Soul you cannot mess it up. Impossibility. Even if you think it's messed up, that's the reason, it will be perfect when you eat it.

It's a very strange thing when you talk about the kitchen. If any of you have been through the culture and the state of Austria you will notice it when you go to a restaurant. I've eaten around the world, maybe traveled 80 - 90 countries around the world in my lifetime, in this cycle. And I have never known a nation which saturates their plates, it doesn't matter from the soup, to the chicken, or whatever, with salt. And in some restaurants it's so strong that you refuse to eat. But to the Austrian it's normal. I've never known a place like Austria in consumption of salt. Usually they say, nations by the sea use salt, because of the ocean and the rest of it. By a landlocked nation using so much salt. But the beauty of it is, it is not to my taste. But I look at the table next to me, Austrians eating, (3:14). and muddling their mouths, the most delicious food they ever eat. Do I go and change a chef in the kitchen? Or do I come to understand it's another culture and respect it?

Even if you go to the Chinese they have the same ?? use . Because if they don't put enough salt the Austrians won't go to it. When you go outside Austria and eat outside, you say, oh my God, I understand.

And it was a pleasure we had, when I told you recently, we went in with our team in understanding the process of the exchange of the Soul. What do we understand? Is it too ?? much ?? or is part of what we are missing in the knowledge, in the strength. We don't need to tie up the chef, we have to understand what that restaurant was built for.

If you lived in England in the past years ago, when the Chinese came to become well known and popular, they still used to go out with the English people will come to the Chinese restaurant and the ask for a fish and chips. Excuse me, this is Chinese. But the good thing is, the Chinese have learned. They get English people who only want fish and chips when they go to a Chinese restaurant, because the others, have come to eat Chinese, they want to be with them. So, it's you who has to understand. And it's only for you.

Are there any questions? (3:16).

Q: .. Did Jesus Christ feed on physical food on Earth? And if so, does this mean he killed other lives?

K- In the dimension of the Messengers of the Creator, they had to live amongst man, and be and look the same. Otherwise that would have been a stranger. And they always followed the same. Does not mean that they killed to live. But they lived to be part of, that they don't. Christ became outsider anyway, most of his life. He did everything outside the framework. One day I tell you stories about Christ that is not known by man. The things he did. It's the same with Moses. That's how we brought the balance of the what we call, Commandments. We've been amongst man, we've been with them, we've been part of them. And these are not ??, sometimes gives you indication to one check. There are markers left behind.

The Prophets, not to be out. They had to live amongst man to do the same. Many, many times. (3:18). Many, many times this happens to all the Messengers and teachers. As Azar said, you're a cook in the cooking school teaching the students, ?? but one of them makes ?? a mistake, everybody gets sick. But the teacher knows if he criticizes bad, the guy will move out, he won't have a student. So, the teacher swallows the food which is cooked, and it's uneatable. "It's always nice." And it's the same.

Many times I say, why don't I stop? I know how. But if I do, then it becomes another magician. I've said many times, I'm ashamed to be in the body of the man. Not ashamed to be .., the shame is that I have to eat what is killed. I have to consume what is wrong, just to be amongst man, and nothing else.

So, it is not that they can't. But you can imagine what they would have done to Christ, he would have become a hermit. Nobody would be with him. Buddha had worse condition. If you know the true story of Buddha.

And the best of Messengers was Zoroaster. He lived in the culture where everybody understood and lived the same culture. He lived the most perfect life. (3:20). He brought the temples with the fire. He said, keep the fire going. And the man looked at the fire as wood to burn, to keep the fire going, and it's still going on for thousands of years in the temples. What we call, "?? malads." But in reality his word was to keep the light of the Creator, keep your Soul in interaction with the light, with the Soul of the Creator. That the light from it will give you, will keep you, what I call, alive, shows you the path. And the man again in dimension of physicality chose to keep a fire going and worship it in the temples.

He spoke about the fire of interaction of the STM with the Soul of Creator, and the man took it as a burning of a wood. We used to have a joke when I used to be in high school in Tehran if you ?? look that up, because we were Zoroastrians. And sometimes we used to tease our colleagues, because they had a fire in the temple, just on the side of the wall. And the students used to pull a joke, because we couldn't speak about religions, .. it was forbidden by the rules of the school. They used to match up a match and they blow it.

They says, oh, your God disappeared. We used to laugh. It was a joke. And the Zoroastrians started understanding what it meant. In the beginning it was very offensive. And they used to do it themselves. They said, you see, we are the light you blow us. You're left with the wood, but we still carry the energy. And it was a beautiful relationship with the Zoroastrians. (3:22).

That's what is the essence of life. The Prophets can take, they could, they had the ability to take from the energy of the Universe. But you can imagine what would have done to Moses, and what would have done to Jesus. One would have become claiming to be the Creator himself and the rest of the murders he did. The other one would have been the most beautiful womanizer ever known in the Universe. With the light of the Creator he would have shined like a star. It depends how they decided.

Any other question?

Q: .. Can a man love more than one woman?

K- Muhammad said, ?? 4 full time and 40 part time. Christ never indicated. And Moses brought the other way around, you love as you like. It depends on what you call, if you look at the dimension of physicality, or you look at the dimension of the Soul.

We love many women. Woman as a wife, woman as a daughter, woman as a mother and a woman as a sister. (3:24). Which love is more important? And which love at what point gives you more pleasure? But woman as sharing life, is best to be one. Because then you have your love, you give and take from the same.

Any other question?

Q: .. How is it programmed for a Soul to be born or manifest here on planet Earth? Who decides if we will be born, when and in which family? Is there a department in the Universe responsible for all this?

K- Oh my God. Nobody is responsible. Creation is a combination of the accidents, and some accidents set to be at a given point in time, point and position. There's no department, sorry. It's not human job, we don't keep your registry. The Creation of life on this planet is so random. That's one of it's beauty. (3:26). Randomness, and how we love that randomness creates very good, the ?? bedrock of variation for the world of Creation.

In the future teachings, when Knowledge Seekers become more confident in what they see, in how they do things, I will teach you the emotion through the Soul, not through the physicality. How you love in the dimension of the Soul. How you give in the dimension of the Soul. There is no hate existing in the dimension of the Soul. How you exist in the dimension of the Soul, and then you compare it to the what you call it, physical dimension of the man. Then you understand more and more, now much of it was manmade and how much was actually in ?? existence of the Creation. And it becomes very easy.

Then you understand the question of the one before. There is one Soul for one, even though it interacts with others, to be one of the same strength and the same position. But with the diversity of the what I call, energy consumption of the man on this planet, you create a variety of emotions, which is man connected, not the Creator connected.

When you see, the structure of this planet has many, many variations of different materials and the rest. (3:28). When you look at the monocycle stars you see one light, and that's the ultimate goal of life.

Any other question?

Q: .. Is MaGrav plasmatic energy to be utilized in the future for our energy requirements, will electricity become obsolete in the future?

K- Electricity is obsolete. If you KS understood the principle of the working of the MaGravs.

Even the Power Enhancement Unit we have put out, which is going out in the coming days, it's the same. You still, if you learn in this power source for thousands of kilometers from it. But the man is happy what comes up with a tiny cable. All our technology is based on the fields, and the fields have no limitation. It's the man's understanding which puts limitation on it.

In the new Enhancement Units you see, are very strange things. But in fact, it's understanding of the process of the Creation. (3:30). People who are running tests on them, you will hear it, we will go out very soon in the next few days or a couple of weeks.

We're not putting it out. But just to let you know, because we had discussed this. Some of you bought MaGrav systems originally from the Keshe Foundation. And you said that it doesn't work. It came in only from Italy base, or from our factory in Arizona. The new Enhancement Units, which will be released next few days. If you have the original MaGrav System, which you say it doesn't work, and you send it back to us, we deduct the amount you paid. You say it doesn't work, from the new Enhancement Units. But with the new Enhancement Units we give, Foundation gives a guaranteed reduction between 30 and 60% plus. Unless you cheat. Because we test every unit before its dispatch.

You'll find out what we put out, where we are involved with it, is exactly the way it works. The reason most of your MaGrav systems didn't work, in the original ones from Italy. We found out later on, you were, partially could be correct, is that we employed a man, which had no understanding of the technology. He made the coils and piled them up like a heap on top of each other, damaging everything. By the time we found out what happened it was too late. But some of you got the results, because it depends what, whatever. (3:32).

But this time with anything we put out we test before, we do, and I have asked that for every single unit has to be tested. Some people have asked. There's no refund. We deduct that 500 Euros, you paid and we give you a guarantee with the new system, because I sat on it, I know exactly what goes on in the new Enhancement Unit. But this time, don't look at the reduction in the power electric bill.

In the future, we tell you how to use this for many, many options, that you cannot even imagine. We give you additional units, which in conjunction with this, will give you a new dimensions in life. As I said, don't buy a copy (pirate). Because you say, it doesn't work, ?? Keshe Foundation. Because we put a technology very much hidden in that work. Even our workers who make it they don't understand what it is.

We brought the prices from 5,000 to 3,000 to make sure that we push to the next step from these units to what we want to do. Anything we put out from now on in plasma technology has a reason, has a connection to the future usage, it's not just what you see as it is. It's the same within you, we put a package for Head Units and the Power Unit.

And the beauty of it is, (3:34). this time, whatever you take from Keshe Foundation, you subscribe to Keshe Foundation on a yearly basis. We gave you the systems, you ran and everything else. We give a system, you stay in touch with us. And we keep developing on your understanding and what is there. It's not a dead end anymore. You don't get the unit directly from the Keshe Foundation, throw it in the bin. If you receive from us, there is much more into the unit and technologies we put in 2023 out. As I said to a Knowledge Seeker, don't come back to me and say, I bought the system, somebody made a copy of it, and I'm doubling my electricity bill, my wife is ill more, and the rest of it.

That's yours. That's why I told you from the beginning, when I get in it, and it's done, we give what we say, now we are in it. And we delivered. We left it to a bunch of, what I call, others, we taught a lot of you for ?? feel the energy, now we deliver the technology. But it's all connected, it's all connected.

In the coming time, slowly in 2023, you'll see new products. You don't buy directly from the Keshe Foundation Store, do not touch it. Because this time, these are systems which are set to interact with what is coming in the future. (3:36). And don't forget, there was a reason we put out the policies for what was there and you've seen it. For family, for individuals, and for the rest of it. It's all get connected to all these systems which we are putting out. We set to change the course of the STM, not in the dimension of physicality, and it's the only way man knows.

Thank you very much for today. We will see you next week. In the next few days, maybe a week or two, we will announce the, what we call, Blueprint to show you the Head Units and the new .. Compact Units, which is connected to them. Then the Plasma Power Units, which are now going through to meet the energy demand of the Europe, especially. Then hopefully by the second quarter, now that we have produced Plasma Power Energy we will release the Gas Electric Unit. Because a lot of you cannot convert from one to another, there are no gases in your house, it's all electric, ?? .. totally gas based. So we try

to meet all demands on one unit. These units are in a working condition. Then we, what you call it, developing at its maximum capability. And then as usual, (3:38). the nation of Iran will supply the part where ?? out of you. Thank you very much for today, and I hope we can share more knowledge next time.

470 KSW February 2 2023
