K- Yes, good morning, good day to you. As usual whenever and wherever you listen to the series of Knowledge Seekers from Keshe Foundation Spaceship Institute. We welcome you back. Some of you are here from eating and bringing food in the past couple of weeks. And some of you are waiting to be fed more by tomorrow when we close the table.

We would like to bring many of you back in the following days, maybe Monday or sometime next week to discuss with all of you who took part in this dining with the Creator to analyze. We hear beautiful results, some people have achieved. Other things, some people have managed to do things, they didn't know they can. And this is the feedback, we need for you to understand, and for us to complete the "table of dining" in the space, where you're on Mars, or Moon, or in Planet Zeus, and you still want the food you like, and it's available to you.

The way you came to Linz and you left the fingerprint of your Soul. And now the system has become in a way, connected to all nationals, and races, which we could do, this is the way to bring your national foods on the table. If you are American, and you go to space, and would like a Chinese food, our Chinese friends have left the fingerprint on it. So you understand everything we do, has connected to, and is connected to what we are doing the next step.

So in our process, we have set up another session, which is with the world leaders, which is on the 24th of March in two weeks time. Please try to join as many as you can. This is important. (:06). The way we bring the fingerprint of peace.

We've seen today, in the Congress meetings of the Chinese leadership, CPC, the Science Minister of China has opened the door for science and technology to develop in China to advance the nation to be used as a peace of tool, tool to create peace, not to create more war. New technologies, new advancements in technologies through the Chinese government to become a tool for peace, and not what we've seen in the West, the

advancement of technology has become bigger and bigger aggression and war, selling equipments.

We welcome this movement by the Chinese government. And accordingly, we have conveyed our message clearly and directly to the Chinese leadership, in the past few hours. We join the Chinese program to bring technology (T) in exchange for peace. In my upcoming visit in those two, three weeks to China, we'll make sure the full technology from purification of the nuclear material to 100% purity within hours, to establishment of the new satellite system to farming, to military defense of the nation of China, and South China Sea, and across the world. To bring peace will be upgraded. And new technologies will be handed over to Chinese government, especially the Defense and Military, to make sure if what they have written in their Constitution in the last week, to bring more advanced technologies to create peace will create that our condition.

Unknown technologies will be handed to the Chinese government which will paralyze the defense technology of the West, and the rest of the world to bring everybody to position of the peace.

It's the biggest step for us. We knew we were told by this Congress, (:08). Keshe Foundation technology will become part of the work of the Chinese government. And as they have done, we are responding accordingly back. We are, we entering to delivery of nuclear material at the highest purification to any nation for development of the space technology, not for weapons. The technology we deliver is not a weapon technology, it's a space technology. Without it, you cannot go into space.

On the other hand, we make sure that the nations stay safe, with the power and the conditions, which creates through new technology, through our collaboration with the Chinese government. On the other hand, we are straight forward with what we have done, and we are doing. And this work of the 24th of the March, "Dining with the World Leaders" to bring your essence of peace, the way you brought food on the table. Now you bring peace on the table, ?? it will in fact ?? touch the world leaders, and we'll see the changes. We expect a number of ambassadors, and we expect a couple of world leaders to be present. I have asked ambassadors and world leaders if they want, because they come through hidden numbers, to introduce themselves if they want, if they want to participate to be part of our program, part of what it is.

On the other hand, we allocate in April, a day for addiction sign in. Get people who have addictions, instead of paying thousands and thousands, and god knows, a lifetime of suffering, to join in. We have had addiction section in the 19th session of the December, part of the Keshe Foundation and we have seen good results. So, in a way, if one session can help you to feel what happens, then other sessions can come to complete it, (:10). to walk you from any kind of addiction sex, comes drugs, comes gambling, comes alcohol, come in, join in. And sign people who you love to it, and get them to sit for a couple of hours with us. In a way, we bring the change in.

If you look at the Keshe Foundation website, both sessions have been put up for you to sign in and come in. On the other hand on the 24th Session, the Universal Council members are signed in to be there. It's your obligation to be there, as you carry the connection to the next step. In Keshe Foundation website, we have released new bundles for peace. These are to promote the Keshe Foundation products, and at the same time to bring in a way, that what is still there, and what is developed to be released.

Coming back to the teaching, in the teaching of past few weeks, we have come into massive what we call, "understanding of technology beyond the present knowledge of man." In the last weeks, when we entered the carbon 14 (C14) and carbon 12 (12) understanding, many of you were left in two dimensions (D). Many of you could not understand what is exactly your position, and how you dream, and how you walk, and how you become part of something, which you were not aware of.

In a way, you've got to realize something, when I teach when I start teaching something, there is a reason behind it. It's opening another science and technology. In the teaching of the what we call, the past few weeks, we spoke about hydrogen (H), which is as a plasma, not as a matter. (:12). Which on its line and energy gets "piggybacked" (rides on top of) by C14. The energy of the H is there. Without C14 connection is not made. Carbons are the connectors. Be it in a diamond structure, be it in the body of the man in your "Mr. COHN" amino acid (AA).

So in that process, many of you, you should have guessed what is to come next. This ray this Cosmic Ray (CR), this "piggyback" H, which is the essence of even the essence of the source of the Creator itself, with a package of energy we call, C14, which actually comes from the interaction of the H itself as a, what we call, a field not as a ray.

In interaction and reduction with itself, creates that C14. That's how carbon 14 is created. Is from interaction of the fields of the plasma of the hydrogen itself, coming into stability of the connection, carbon 14 is created. It doesn't just come from nowhere.

If you look at some of the teaching early teachings, we always explained when the rays interact, in their interaction, they become fields, and this is what you get. If you understood that part, then one of the biggest mysteries of the Creation for you, should have been resolved. Why can't you move and become another creature in another D in the Universe (U)? (:14). To you up to now has been a puzzle. To us it's understanding it, which moves that puzzle to a new D.

What happens when in the language of the man we call it, "Mr. COHN," which you all are very familiar with. You need a combination of the minimum 4 matters to become biological. In conjunction with the field gravitational environment, you become entity, become a muscle tissue, you become a cell of a body. But that AA is the foundation of it. Once this AA attaches itself to calcium (Ca), you become a man. That Ca allows you to become created in the entity in the life of a man on this planet.

Now, you should see the connection. Now, as Knowledge Seekers, you should have become wise. You already have this (C14) and you already have this (H) in combination of the AA, what we just talked about, if you look at it. You have the stacking. The carbon and hydrogen are within the system (CR). (:16).

< break in audio >

So, what happened what we saw. We seen the hydrogen stays as a hydrogen. The carbon 14 changes to C12 in interaction with the gravitational magnetic (GM) field of the Earth. In interaction with the skull of the man with Ca. And this carbon 14, becomes the embodiment of the plasma. Again playing the game of an odor, crystal structure. On Earth because of the calcium, presence of the calcium, you need a nitrogen and an oxygen which is gravitational fields in the dimension of the gas and liquid, to connect the amino acid to Earth, and create a source of energy, which is nitrogen.

If, not if, you all understood this part, (:18). then it becomes very easy for you to understand this part, in going into the world of the Creation, you have the basis of life anywhere in the Universe. Now, what happens to you. Now, what is going to do, when as a human life, you go up into the space, if you want to go to back to the source of the light, you saw as a star. You have the carbon 14, you have the hydrogen, this is the fundamental construction of life in the Universe.

You want to go to Planet X, but X has the storage capacity of replacing oxygen to the gravitational field force of let's say uranium, and has source of the energy, which has to be above uranium, which is plutonium. So, in having the line of the common denominator of the hydrogen and the connection line of the carbon. In arriving at a point, in interaction with a condition of the environment, you automatically move using your hydrogen and a carbon in a backtrack of it, into the new entity. You exchange the nitrogen and oxygen to uranium and plutonium. Now you understand why we make it available to every nation, the possibility to have access to 100% pure plutonium and uranium that allows them to travel the span of Universe. (:20).

We are not entering a military game, we are entering a space program. We're entering, understanding the process of the Creation and dimension of the travel. Now you understand how mankind will transmute, and what tools of transportation man will use. You use the hydrogen as a baseline, and carbon as a connection line to the rest of the Universe, this Universe.

In the education of the Unicose we'll teach you how these two will connect to the other Universes, that you can transmute from man to another Universes and other dimensions. And if man become intelligent enough, he can find the path to his Creator in one instance, one second. Now you understand the whole purpose of the teaching, why we went into Cosmic ray, why, step by step, I explained to you last week how your body changes C14, through Ca, to whatever.

If you don't have a condition of creation of the matter state of the Ca in a given position in the Universe, you still have that beautiful Soul, which is within you, which you brought with you. You still have that "Spirit," what we call, the Soul of the Physicality (STP), which is an energy pack, still with you. And if in this point of the Universe, there is no what we call, matter state condition of manifestation, you manifest yourself as energy pack, (:22). as a Soul, as a plasma.

If in that position that you feel you want to be like these creatures on this planet, you have access to a spectrum of the energies, which is available to them in the atmospheric and gravitational field forces. Now your skeleton instead of being made of Ca for the plasma of the amino acids in respect to the Inertia of the gravitational field of time and position.

Now, you have, let's say, whatever you like. You have Fe, as part of your body, or any other entity. So, your bones, your structure, in that position does not have to have a chest, and four arms and legs. In condition of the existence in that position, when you come, you become made in a physical matter of Fe, Fe becomes dynamic solid, like our bones, allows you mobility, motion and move. And what are the elements with the matter state of the position you create, you manifest yourself in the dimension of the position and time. No one knows you're a foreigner, you're from another dimension.

In connection with their intelligence, the way we have taught you, you came through the teachings of past few weeks, you will know their language, you know their life of living as part of yours. Information and emotions are field strength connected, and you can connect to any dimension and position in the Universe. The way you connect in your dreams with your mother, (:24). and you feel her crying, or laughing, or cuddle you. The way in dreams, what you call, you have fear, you're running away, or you have a joy having a drink in a party. So now you understand. How did you know that fear of mom, or cry of mom, because it's inherent in the body structure of the physicality of the plasma of the life of the man.

This is why we explained you. You will know the children of Mitra will live in the space so easily, because they're created out of the plasma. They do not need the connection of matter state to convert. This is why so many of you have a problem in transmutation from United States into Linz. Your children when they're created out of the love of the Mitra in the dimension of the creation of plasma, don't have your problem.

You're the last generations of man who will suffer with this not trying to be able, not being able to transmute. Still have to transport. Children of Mitra will switch from transmutation to transportation, manifestation and reverse.

I did not come here to teach the man who is killing for thousands of years and change in one go. That's your dream, it will not happen.

The children of Mitra which the man will create, will come with that essence, will come with that dimension. They do not fight, they transmute. They will not stand argument,

they move on in the energy dimension in another position. (:26). Or they see the point of the argument, they create energy, they give that the argument doesn't even start.

You are those who see the last man standing in the dimension of physicality. And, if you understand this, if you can elevate your Soul to go beyond the dimension of physicality (P) in the interaction of the Ca to become a man, you will do that transmutation too. When we say to detach, is to detach from gravitational fields, from the dimension of Inertia of this planet, not from your physicality. Because you need that to be able to manifest yourself somewhere else.

Now, you understand the process of transmutation. You go to an airport, you get on the plane and you go to another position. You come out of the plane you're still Mr. Jack. Here through transmutation you travel without the plane. In essence, in the Soul you are Mr. Jack, but in this environment, they don't speak languages, they understand emotion, and you're Mr. Joo Joo. Inside you know you are. It's the same as when you dream with your mother. From the fields you know it's me who's feeling the love of the mother, and you created that position that the mother sees you, that talks to you. If you go to the mom and mom doesn't see you, how can she serve your food, come and sit down darling? Is she crazy in dimension of the Soul and is talking to herself? Or have you manifested yourself in this dimension of Soul in front of her, that she recognizes, this is my child? (:28). You have the same essence when you're traveling in the dimension of transmutation.

Now, you see what goes through that little eye of you, the dimension of the man, in dimension of physicality, and in the dimension of the man, in the dimension of what we call, STM. Now, you understand why from the beginning of the teaching in the medical teaching, in the health teachings, and everywhere else, I spoke about schizophrenic, the "beautiful people." What is beautiful about 6 of these living in one skull. Because to those in that skull, dimension of the physicality does not exist. They are there as a one bunch. They live, they exist in the dimension of the Soul and physicality.

Individually. It's like a neutron and a proton inside an atom of Ca. Each proton has its own connection of what we call, neutron. And in interaction with the others in the dimension of the energy transfer electron. How many of these are within one skull? You have three characters, (:30). but in essence, each one of them has access to both rays of physicality and C14.

One might reside inside your skull. But in fact in dimension of physicality, lives in another dimension. It was created here, but has found no room and he has left, but still has connection. Man of science will see many of these in the coming time.

So, if you look at it, you were born, even if you are the only resident in your skull as an energy, as a schizophrenic, anyway. One connected to Universal Community, and one connected to man. As I said, exactly like the "Chinese eyes." Which one sees what?

Now you understand why we come this way, why we taught about the Cosmic rays, why we taught, we explained about C14. Why, as I said, from the beginning of the time, when we spoke about "Mr. COHN," that carbon is a connector, connects inside the man, and through C14 connects to the Universe.

You already had, this is the channel you go and see mom in the dream. You travel on the C14 line of your Soul, and inside the body, you speak to your brother alive on the C12 line. I had a dream about the mom last night. I traveled on the junction 14, not on junction 12. I'm telling you 12, but I saw my mother on 14, you are not there, (:32). mom was going somewhere else.

How many times you have woken up and you said, I saw mom, and you were there, and we were having fun? I have no clue, just looks at you, you were dreaming. Because how many of you ever spoke to another person and said, I went to see mom. I say, oh yeah, we were there. Do you remember this and that. But we were both asleep.

Now man has to understand the characteristic of his schizophrenic life. Man has to understand the dimension of his existence. Man has no choice, as I always say, you're ?? lumbered with it.

Now you understand, there are no magicians, and there are no protectors of the magician. Be it the Pope, or Ayatollah Khomeini of Iran, protector of the faith. Faith of who? Except their own lies and imagination. As now you have the knowledge, you have, and you don't need any protection. As the protector of you is your Soul. This is how the end of religions has come, that you have become aware of the truth, and not us becoming a Methi.

Now you understand how you as a being have access to two lives, in the dimension of the Soul, or in the dimension of physicality. (:34). Once you called a dream, once you call reality, but in fact, you ignore the reality, and you're stuck with the dream of physicality, and with all its suffering.

Now, you have that choice, because you have access to the same line, the same thing as before. It's you who has to fill up the other two parts (C & H remain - fill up the O & N to specific location of AA) to be manifested in a given dimension, position and space.

Your mother could be living in a dimension of let's say, K or whatever, and your father lives in the dimension of phosphorous somewhere else. Because their Soul in working and developing, created the strength fields, that position them in two different positions in the Universe, even though they'll still be communicating. How do you know that your mother who passed away 20 years ago and your father passed 10 years ago, are not in communication, are not worried about you children, how you're screwing up your life as a physical dimension. How many times they would have said to themselves, why didn't we, how come we cannot go back and teach them, and show them the reality of their life in both dimensions.

How many of you, which come up with this nonsense of near death experience, and I've been to the other dimension and comeback, (:36). you cannot do anything. Because you didn't see anything. The completion doesn't come till the, what we call, separation is completed, because then man finishes with the mess he has created in the dimension of physicality.

Those you call Prophets, those who you believe, and a lot of have made a lot of lies with them. For a few minutes in their lives, they managed to live, to get information in the dimension of both through channel 14, to a knowledge of the Universe and the rest. Then now that all of you understand this, and if you can make this connection, you're all prophets. There is no need for prophecy. There is need for understanding. And the knowledge of the Creation and the Creator is a logical physical interaction of the fields, that when you understand how they interact, you see the outcome. Some create emotion, some create physicality, some creates motion, and the rest of it.

Those who mix things and abuse it to their benefit like Moses, bring it to this mess of man today. And those who add to their lies, and the cheats of their prophets, like Ayatollah Khomeini of Iran creates a bigger mess in the nation in the mess we see today. (:38). The same we see in Ukraine between the Christians from the Pope, to the Church in Moscow. There is no prophecy in their work, it's ?? visibility in their work. What is the "profit" in their pocket, what do they get? And then you have the rest of the mess created, their children and their supporters who steal the rest of the nation with it.

If mankind understand this, if mankind become wise to the end of the prophecy, because now he has a knowledge to be a prophet both in his pocket and in his Soul by himself, none of the mayhem we see today will exist.

You cannot get to that point till you have access to the energy of the higher order, that you can see, you can connect with, you can gain by, gain from, and then move to the next step.

As one of the close allies of the Iranian government told me recently. He said, the biggest nightmare of Ayatollah Khomeini is you returning to Iran. Because they have no ground. If the Iranian nation, if the Christians, if the Jews understand the truth about themselves, why do we need these hypocrisy's, liars, and cheats and murderers.

Now you understand how you can create a life in another dimension by changing the amino acid of the Universe, not the amino acid of the man. (:40). Then what would you do? You want to become a plant, you want to become a shrub on this planet, you still can go through this process. You still can feel how the apple tree feels. You wanted to become a dog, you have the access now, having this knowledge to become that dog. To feel how a dog feels when you kick it, and how it loves to be touched and kissed. "When I am born next time, I would like to be a cat." Why do you need to die? Now you have the knowledge you can transmute to understand what field interaction comes, that makes the emotion, that creates that animal.

In essence, they all have amino acid. In essence they all interact with Ca. So, what's the difference between the man and a dog? Except the ignorance of the man who thinks he is higher than the dog. Now at least you have the knowledge to become the dog, and you have the pleasure to teach the dog how to become a man. Teach him to his Soul, not kick him to his physicality.

Now we understand with the knowledge today how you can transmute. Up to now we sold you jet fuel and ticket for jumbo jet. Airbus 380, (:42). or 747 jumbo jet, or a propeller to get your physicality across. Now you know how to take your Soul across the Universe. How to convert yourself into the energy and come back another position as a dimension of physicality. This is what we do with you on the "table of the food of the Creator." This is what we do with you when you come to the system and we transmute you. We energy pack you. There is no prophecy, it's a knowledge, science of Creation. It's the totality of understanding. It's understanding everything needed to be understood by the man. And how the man meets in his own totality, in our own understanding of everything he needs to.

How did man get himself to this mess, it's something in the future, one day I might explain. How did you as human race got yourself in this job? In this mess, in this, what I call, "caboodles of misunderstanding the totality of life in the physical dimension." (:44). Where did the man go? Where did the man went wrong? What happened to the man? How did man progress to this position?

If you understand what's on the screen, in conversion, connection, transmutation between different lives on this planet, and how you connect to the life, and life of the Universe. Then you understand you become a prophet. Because you can prophesize your own destiny and nobody else's.

In the world of matter state, you hold somebody's hand and you drag them in, "we're going for lunch, you're coming." In the dimension of the Soul, you can't do that. Unless I want to come. Gravitational magnetical positioning. I can position myself according to the will of me, and not the force of you. According to the love of me for you, and not your what we call, arrogance and bullying. (:46). Now you understand the life for the man to come in the space is a peaceful life. It's what is needed to be changed here for the man to be able to live in the span of the Universe.

Now the future, your destiny is in your hand. Now you know, you need a car to go from A to B. Now you have to find and search within you, to find the connection with the C14 in your body. One of the biggest problems, which you have faced, and we became like magicians for you in past few months, is that, with this skull you have, with the magnetic fields of C14 coming in and becoming 12, and then going 14 in different strength. You could not expand the STM fields to go out to become in touch with the C14. That's all we do in the Enhancement Units. We put you in a machine, we give you two headphones, and we get this guy out of his cage. And now the rest is yours. Chillin kebab, as Azar said last time, or another friend was telling me, he stopped eating chocolate since he went on the table, he sees no need for it.

You go to see the grandma, or you travel to the Moon and you swim in the oceans of the water underneath the surface, that no man ever knew existed. That's all we do, for you to understand you can do. (:48). That's all has been the purpose of the teaching. We had to teach you the Gans's to show the body's made of the Gans's, it has field. And now the expansion of the fields brings you to our system which says, come on guy, get out, you can do what you didn't think you can. And now you're out, you're on the tracks of C14. Then it's not a dream. Now you're in the dimension of the Soul's Universal energy.

I promise you one thing, and as man you will understand, on the line of the C14, either way, we have no Prophets, no Ayatollahs, no Pope, no cheaters and no Rabbis. No kings, and no one is higher than the other, except being the passenger of the Universe, all equal.

When the time comes, we'll sit to see the judgment of the Soul of the world leaders on their own physicality. In the next two months, we will see one of the world leaders will come to his demise. In the next two or three months, we'll see he will kill himself or he will die. Because during the time of his reign, he's done so much injustice. We are not telling you this just because to say, we're telling you this because we know what the Soul has decided. (:50). Every cheating, every murder, everything possible, going to bed with all people for his own benefit, will come to an end. And now he has to answer to his nation. The Soul is aware of the outcome, the physicality has to accept the heart attack, and the brain hemorrhage and the prison. Because when you live in the dimension of physicality, you don't abide by the laws of the Universe. And whoever is done wrong will come back to themselves, because the Souls ?? will ?? balanced it.

Now we see how you as Knowledge Seekers have become more knowledgeable than those who pretend they read the book. The problem of religions today is that the new generation does not accept the rubbish of their churches and mosques, the Ayatollahs and Pope's, and the priests. Because now they have access to Internet, they have access to everything else, that the guy who cannot even read claiming to be a priest, now the youth confront them. Because the knowledge is common to all. (:52). This knowledge of Creation becomes common to all.

Many of you have started living the normal life, which is you both understand the dimension of the Soul and dimension of physicality, and gradually you're trying to adjust. What happened here, why happened here? This must be the Soul, this is the Soul and this must be the physicality. I have to accept, I live with both dimensions. Then sleeping and living becomes irrelevant. Because the STP and the physicality and the brain within the STM are in a working condition 24 hours a day. You do not even know when you're awake. You do not know when you're asleep, physically. The wife says, you've been snoring. You say, no, I was here doing the job this and that.

Because now, in the dimension of the STM, and the brain of the man and the physicality it's all unison's work. The body has to park itself to recuperate. But the Soul and STP don't. Now they can openly interact. They do half of the work while you're asleep. Dimension of understanding now is in the hands of the man. It's you who can become

ignore it. Or it's you who come to embrace it and live your life. You do not need no Methi. You do not need no prophet. And there is no "Day of Judgment," as you judge your day. (:54).

I'm no prophet, we are "Teachers of the Universe." We teach really the knowledge, and we move on from one school to another. Today's school is Earth, we teach. The next school is where the Creator and the Soul of the planet requests from us to elevate their knowledge. We are no prophets and we are no Methi's. We are the universal teachers. We understand the knowledge of the Universe, as teachers we teach unconditionally. We appear in the body of the man as the man is the only thing he accepts. Otherwise it becomes a ?? mysticism again, and another light, and the fire on the tree, and resurrection and the rest of the rubbish which is gone with it, to be abused. Man allows the abuse himself.

When we teach you the knowledge of the Universe as a universal teachers, we are universal messengers, we just bring the message of knowledge, nothing else. We don't judge, we don't execute, we don't do anything, we stand the suffering in the body of the man to understand how the man suffers to stop that suffering. To enlighten the Soul to teach the physicality. Methi, Messiah, ?? Misha and the rest of it is the rubbish which the man has created for himself to cheat the others.

The only Methi, the only Messiah for you, is you understanding the work between your Soul and your physicality, and nothing else. (:56). The rest have cheated you. They've cheated your forefathers. And through their ignorance, they will cheat your children if they stay ignorant. Educate your children to the best knowledge of the Creation. As Bahauallah said, educate your daughters first. Because she teaches the child not to be ignorant. To understand the process of the Creation, as it's her who spends most of the time in educating. The father is outside "hunting and gathering."

We've got to understand. We've got to be able to comprehend the Totality of the whole lot. We have to be able to understand the Totality of the process, we have to understand the Totality of the knowledge of the Creation, and how we will come to understand the Creation has been done. How we have been created in the true essence of the Creation. (:58). How we have become part of it. How we have chosen to become and how we have ignorant, and use the ignorance of our own process to be achieving the ignorance of the Universe.

Mankind is ready for that change. Mankind is beginning to understand the change, and mankind has the responsibility to accept the change through knowledge, educating itself and not to be told what to be educated with and through. And this will create a mayhem for you as a human race, for yourselves and nobody else. Try to understand the teachings, and try to become aware of the truth about yourself. Now you have no choice, unless you decide to live the life of ignorance and allow Ayatollahs, and Mullahs, and priests, and rabbis to cheat you.

It is time to understand the connections, and how you connect, and how you're connected. And bring that connection to understanding of the more, and not to become prejudices about the less you know. And then you move on. (1:00). Then you have no choice but to move on, because the educator and the teacher is your Soul. You cannot, unless you decide, cheat yourself. You can shoot yourself in the leg and try to run a marathon, because you do it yourself. But nobody else can shoot you in the foot and ask you to run the marathon, because they want to win.

Understand the process of the Creation, understand what everything which we have taught in past 10 years. Keshe Foundation now is in the tenth year of teaching, public teaching. And then we understand what the next step is. When you listen to the teaching, when you read the books, now, look at everything in two dimensions, dimension of the Soul, dimension of the physicality. You will see the teaching runs parallel with both, because both have the same. One is in the dimension of the entanglement with the matter state Inertia of this planet, called, the physical life, and one is free from that shackle. Because it has no field to match the gravity of this planet. It cannot be shackled to it. It comes and goes, it's on the line of superconductor, C14. (1:02). And the man has got stuck with the physicality, a conductor, C12.

Can you imagine if you could make a transformer with C14 with the knowledge of C12? Can you imagine if you create a receiver and a transmitter using C14, but the knowledge of C12. The whole Universe will hear you. Then can you create a combination of the C14 embedded in C12, or C12 embedded in C14. Then you can move the Soul to cover the physicality, or the physicality to cover the Soul. Then you can transmute between the two. I'm in a office in New York, and I'm physical. I change, I go in the dimension of the fields of C14, I'm in London in two seconds. I'm on holiday. I don't need to spend 18 hours in airplanes, airport, driving to the airport and the rest of it.

But ask yourself, how I'm going to carry my suitcase? What about my child and my husband wanting to come with me? I would have gone on holiday on my own. Then you'll find consensus, then you'll find agreement of the Souls. (1:04). We're going to London and we're going to enjoy ourselves. This is the address we all are going to land, so we go together. Then no parents can drive their child for holidays, which he or she does not want to go. Then the parents will not have a child who does not speak, because the parents have to understand the language of the Soul, teach the Soul, the physicality does not need to speak.

Then there'll be no dimension of dumb and deaf. The dumbness and the deafness is to the man who cannot hear the dimension of the Soul. Why do we need the sign language? When we can speak with each other through the Soul, understand the emotion. Then we all become dumb and deaf, then no one can cheat us. The process of the knowledge is understanding it according to your intelligence, and embracing it, and applying it.

And when you apply it, don't make yourself ?? wonder and puzzled. But enjoy that you understood that you can do. I didn't know I can cook, but I made a beautiful pizza. I didn't know I can sew but I sew a beautiful dress. I didn't know I can go to my Creator, but now

I do. (1:06). I don't need for the mom to come and make the pizza, I don't need for auntie to sew the clothes, and I don't need Ayatollah to take me to my Creator.

One of the funniest things with you will come notice, it's why religious people interfere with the politics. If their job is the connection between the Creator and the man. Because they are not what they say they are, their businessman in a frock of the Pope, and Ayatollah's, and Mullah's, and priests, and rabbis.

We have the responsibility not to allow anything to happen to our Soul. We're responsible for not allowing nothing to happen to our physicality. We are responsible when we allow it to happen. But what are we going to learn from it?

Our doctors today are searching for cancer people, because they think they have found the combination of solutions for cancer. You know what's interesting when you speak to these people, is that they're dying and they come in and still argue. If you come to the doctor to ask to help me, why do you argue? So you should have done yourself. Or you know how to do what the doctor does. Or you know how to elevate the Soul that the physicality look after itself, (1:08). then you call yourself a doctor.

Today, cancer is resolved matter. If the man, if the knowledgeable doctors understand what the cancer is. The cancer to humanity today are the religions and the religious leaders. And when we take those cancers out by elevating them, the world leaders, for them to understand, man will come to live a life. You have a cancer in your body which kills you. You have a cancer in the society in the name of religions and leaders, which they kill the society of man.

Today, the reason I explained we are going into development and delivery of the high enriched nuclear material for space technology it's not something new. I wrote this to the head of IAEA six months ago, Iran has access to 100% enriched uranium. But it's for elevation of the STM, for man to transport across the universes, not for Ayatollah's to make a bomb. As they're short sighted, they said, "oh, he is an Iranian nuclear physicist, he's doing for his nation." I do for the "nation of man," for the humanity and the citizens of this planet. But to apply it to elevate the Soul, to create the dimension of the transmutation and transportation at the same time. (1:10).

Try to understand the teachings of past few weeks, connect all the lines together. Why we asked you to come in and meet us in December, in January, in February, and we fed you on the "table of the Creator" for two weeks, was to elevate your Soul. Now, you ate on the "table of the Creator," you come to the table of the leaders to tell them we don't need anyone to lead us, except ourselves. That's your responsibility for 24th.

And then the next step. You came to take, but you didn't understand it. You're taking from yourself the pleasure to understand the process of the Creation. When we talked about your Soul, many jumped up and down. He's a Soul taker. No, we are there to teach you how to free your Soul for yourselves. We don't need any. With a flick of a finger I can take a Soul of a Universe, forget about humans. I remember in discussion with Dr.

Elyia Kostova. A few times she said, you know why you people come here? Because the Earth is a very good state, for you to take what you need. I said to her, you have not understood what we have come to give you, that you don't need no state, no nothing. We give you the Universe. (1:12).

It's how you have perceived, and how they made you to perceive. No man should be subordinate to no creature in the Universe, let alone church or mosque. Let alone synagogue or the temple. No man should be shackled in the dimension of physicality, that the Soul is imprisoned with it.

Now go back and try to understand what you had as a dream last night. What was the reason for it? Who did you see? And if you have learned the teaching well, you can have the same dream immediately or tonight. And then you say, why should I have this dream again. Because you wanted the replay to see if you can go back to the same place as you've been before. "I made man in the image of myself." But My image appears in trillion ways and dimensions across the Universe in other men of the Universe. Because what is the image of Me in the man is the essence of My generosity and love, and nothing else.

Man can be blind, legless, or armless, but man cannot be harmless. To cheat is dimension physicality, to dimension of the STP with the Soul of itself. (1:14). Now, understand the technology, understand the knowledge and try to understand the fields, not the Gans's. Today's teaching is very deep. But you as Knowledge Seekers have been taught enough to be able to swim the depth of the knowledge. And don't get entangled to physicality of the MaGravs and the Gans's, and your own false imagination.

I am the Messiah, but the Messiah for my Soul only. I cannot save your Souls. But I can teach you how to save yourself, if you understand it and choose the path for yourself. Not the way I came and the way I did it, otherwise you become a monkey on the tree of the monkeys of the Universe. Understand the technology of the Creation.

And man has a habit, that once you understand the technology, he creates the machinery for it, to be able to do it. That's what we've done in Linz for you. In a physical dimension we have created the Enhancement Unit. In the dimension of the Soul, we allow the STM to be freed. It's you who has to choose the freedom, not us. We open the cage, it's you who has to be the bird who comes out of the cage and takes wings in the fields of the Universe, and flies in every dimension. But the cage is open for you to come back in and live the dimension of the physicality. (1:16).

This image on the screen has a lot of meaning, and is, if you understood, takes the shackles of physicality from the man. Without any prophet, without any intermediaries and cheaters like Ayatollah's, and Mullah's and the Priests. You might think I refer to them a lot today, because we've finished with them today. We don't need no intermediary. When the man now understands his connection with his Creator and the Universe. No cheating and no cheaters, unless you want to be the monkey to be cheated.

It's you who decides how the Soul expands. And when you expand you accept the expansion and understanding and interaction with others.

Thank you for today. And I hope as Knowledge Seekers your seeking of the knowledge has led you to freedom from the shackles of the man. The rest is for you to find out. We are here as teachers to teach, and claim no more. We are the same in essence as the Creator. Thank you very much for today. And as I said, we have to go to a meeting important meeting ?? And we'll come back to normality of the teaching next week. Thank you very much.
