(:12).

K- Yes, good morning, good day to you. As usual wherever whenever you listen to this series of Knowledge Seekers, programs from Keshe Foundation Spaceship Institute. As we are here to share knowledge, we try to understand a little bit more and add knowledge in a direction, that can serve the purpose of extending the understanding the world of Creation. Today's teaching will follow the same as last couple of weeks. As now we're trying to explain the scientific part, plus connection to everything else we've done in the past, as the technology and knowledge and technology has been step by step.

As we said, with a new knowledge, we cannot just theoretically speak we have to deliver scientifically, and systems that can prove and show it is, that we don't become another religion, or another sect, or whatever. So it's knowledge and science together, what we call, ?? theology, we theorize, and then we bring the systems that it can bring that knowledge into reality.

We have seen in the past few months, we spoke about the Soul. We understand the Soul, even itself is a creation of us, it was created from interaction of the fields, which creates a plasma. (:14). That a plasma in interaction with the field of its environment creates another dimension (D) of field interaction, and that with the environment of the wherever it is, creates the manifestation of physicality (P). If you don't decide to manifest your physically yourself, you can still do so, but you still exist in both dimensions of the physical feeling the environment, and one interacting with the rest of the universe, what we call, the Soul of the Man (STM).

The teaching of the Cosmic Rays (CR), which was started a few weeks ago. And then we'll come later on to it, with Universal Rays, which man has no knowledge of at the moment. It's not something new. In 2006 - 2007 and following the work we did in Belgium, as we explained before, when University of Brussels, ?? , and then the company which we interacted with, brought the condition of confirming the technology, different aspects of technology. We were, we came across SEK the nuclear center of Belgium, which is now more or less a central European Research Center, with Germans

moving in there. Making ?? their ?? nuclear reactors for isotopes for medical application, and the rest of it.

The scientists were ?? by the Belgium's, but behind it, the Americans, and the rest of western world scientists watch, and look into what is this technology. They asked me for what, that time, was what we call, the production of electricity, power, and everything else. And how this works. (:16). What it is. How did you come to this arrangement, and understanding. And with the presence of the notaries, and representatives of the Keshe Foundation, we agreed that I give them three conditions of materials. I said, I chose which ones I will give you. I've said this before, maybe you'll find it in the other teachings. I gave the scientists of the Belgium Nuclear Center, a bottle.

I said this bottle, the material in it, represents the condition of the body of the Man. Now you call it, Gans's. At that time they couldn't, didn't do, not understand it. I gave them a second bottle. This represented the condition of life in the solar system. And then I give them a third bottle. I said when you understand this, this gives you the condition of the life in the universe, what we call, Cosmos. Each bottle was about one liter, Coca Cola plastic bottles. And we gave this to them to test. And after about couple of weeks, they called back and said, can we have some more water. What you gave us.

And they had two reasons, they already gone through testing these things, they found things that couldn't see. Later on we found out, what they found out. And it was to see if the material was not proved, just "willy nilly," or accidentally. And it was, it had a scientific structure behind it. And after they received the second bottle, (:18). second bottles, they asked for a test to be done in SEK. I was invited into this test, and they vacuumed the one cubic glass container to absolute total vacuum, they could get, and we started producing the material inside this vacuum.

When test was done, they discovered a lot of things they couldn't understand. And I was told by the scientists at a SEK, that before these tests starts, the policy was that whenever we moved any nuclear material from one building to another, it had to be registered, that such material has moved from which building to which building in the nucleus center. With the test we done now, with your material, the policy of has changed. Anything moved from one room to another has to be registered? We didn't know, we couldn't understand how easily nuclear materials can be produced, at will. And you have understood, and you created, but we don't understand how you do it.

And I explained to them, the knowledge, understanding of the process of Creation is in stages. You start from the low. If you live in the atmospheric conditions like Earth, or you start from high, break down to low, if you come from cosmos. And the material provided was essence of Creation, essence of life, what we call, CR. What we call interaction of the process of the fields of the universe (U).

In the past couple of months, 2 or 3 months, I brought those cups to you in a different shape or form. And it was like a movie, (:20). watching you as Knowledge Seekers (KS), how you watch this movie. If you watch some of the movies, they show you the end at

the beginning. And then they show you the movie. And then you chase to see what happened at the end, which what you saw, happening to you to get to the end.

We did that with you. The "Christmas present" was the beginning of that movie. A hundred odd of you, or maybe 150 - 160 of you came in. And in a very simple way, we showed you the end, when you all interacted with the Soul of the Creator. And we showed you physically. But at the beginning, was just you as humans, souls of humans coming into the movie theater, not knowing what you're going to get. A lot of you came with different expectation, but you never considered possibilities of, that your Soul come in interaction, in interaction with the Soul of the Creator. So I showed you the end of the movie at the beginning of the movie, this is where you're going. This is where the STM will meet the Soul of the Creator. And you were just happy going around.

And we started the second session, which was the 20th last week. This is preparing you to be ready, to take that journey into the path, into understanding, into interaction with your Creator, which .. was the end of the movie, showing in the beginning. We showed you in the first session, what is going to come.

But now we show you the way. Last week 160 to 170 of you came in. We see massive interactions with a lot of you. (:22). Some of you went through a dimensional change, and understood. Some of you felt very much deeper, in a deeper way, the understanding of what is the STM in interaction ?? Soul of.

Last Friday 20th was the first step of the movie. And that was to show how you interact, how you bring your Soul out. You cannot start this journey, if you're a steal encapsulated, imprisoned inside the physicality (P) of the man. The session of last week was to show how you can expand your Soul to touch the Soul of Physicality (STP) and embed it.

This is why in that session we told you, you'll see a flash of light. If you see, if you feel that flash, is when the STM, and touches the STP of the man. And the second flash is when your Soul interacts with the Soul of the Cosmos, the Soul of the Creator. And then to see, and to, for you to understand that you past and you interact with your STP, we asked you to interact with the Soul of the Prophets, and elevate. Because you elevate, at that point with a soul, what we call the Spirit of the Prophets.

Their Soul is perfect. Like your soul. Your Soul is perfect. It's the STP, which brings all the miss functioning of the physicality. And then, as you were there, we asked you to the next step, and how you interacted.

So, you started the journey, to meet, to live to understand the new cycle. But in this journey, (:24). plasmas give, plasmas take, and you need to be able to give what you don't need, and take what you need to elevate your Soul to the next step. You need to feed it. In the physical body, you eat food, to sustain, to grow, and to mature, to understand more to live a life. It's the same in that world of the creation of the Soul. It needs to give and it needs to take to be able to survive and know what it takes, that evolves to the next step.

This is why we have called in the 19th of February. What do you call it, "dining with the Creator," which means you learn how to feed yourself, how to feed STP, how to feed the Soul, and how to feed the Spirit, that holds on to the Soul.

You cannot travel the span of universe, if you're a Soul alone. You have a purpose. So inside you, what you created as the Spirit, becomes the inner core. Does not need the physicality.

It's you who decides at what point the Soul interacts with its environment, that allows the STP to create the physical condition. So when you travel the span of the universe, in a dimension of the plasma, you will travel with this, what you call, the Spirit within the Soul, that at a point, interaction of the 2 create gravitational fields and dimension of the existence. Now we understand the process.

So on the 19th of February, join us to dine with your Creator, dine with your Soul, dine with your Spirit. And in a way, dining is not to eat, to interact, to give and take what you need to survive this ?? (:26).

I cannot make you passage of universe if I still have to .. hang a reactor behind you to feed you with it. You have to learn with it. You are not at the school child with a backpack of food pack in your rucksack. Mom put in there, that when you get hungry during the school time, you can dip in. Now, you understand the work of the Creation, you give you take.

So we have started the journey. Those of you who came in, and many of you felt a lot. It was in a way for you to be able to expand your Soul, to pass, to see, to come in interaction with your Spirit. Some of you don't see the light, because you're start looking for the light. The light is not a physical light, it's the enlightenment. Those of you who came in and waited to see the light, "oh, I didn't see the light." You're still in the D of physicality. The light in the dimension of the Universal Community is enlightenment, not the visible light to the eye of the man.

Enlightenment that I don't need to see. I know that what I do is there for me to survive the correct (way), the ethos of Mitra. Now you understand how the knowledge comes together. In the what we call, "February the 19th," we brought it to a Sunday, because we all have a Sunday lunch with the Creator. We take you to this process, through this process to the D of physicality, and then to the dimension of Universal Community.

So, now you have learned to get into the car. (:28). Now you have to fuel it. Then it comes in the other sections and in the March and April. The other parts, how you interact, how you recognize the others, and we start the journey of the man into space.

In the past few weeks, the Keshe Foundation Knowledge Seekers team have built a system. Today, later on today, Keshe Foundation will make the first attempt, complete attempt, or stage attempt to bring the first man into Linz. Everything has been prepared

for it. And we test to see from the other tests we've done, because our volunteer in the first test has felt his organs to be opened and loose. In the second test, he has felt that he's lifting up from his legs and taking off, ready to go. And today we attempt to see how far we can bring him.

So the first transmutation through the teaching, understanding and now developing the technology and science for it, is on the way. It's not something to be done. Our volunteer will do everything possible. We have brought part of him into Linz, that we have a point of reference. And we are ready to take that step. To take man into the stage of transmutation. As I told you, February, January or February, we start doing it, and by March, April we're ready to land the man on Moon.

We are within the framework of the Keshe Foundation as we did. Even though we had a huge setback financially, we still carry on. In the process, at the same time of understanding everything else. (:30). The doctors of the KF in the background are doing a lot of work with their patients in the wellness. And we are monitoring how these things take shape, how the Soul expands, how people overcome the conditions of mental condition, that shows the expansion of the Soul. How they come, the physical condition, and with .. in conjunction with the emotion, which brings in the interaction of what we call, the Spirit's interaction, and the rest of it. So it's not just me targeting something, we're taking a lot of knowledge from our doctors. A lot more knowledge from experiments we do. And a lot of things which are happening in a background.

Developing the new energy system, developing the new plasma energy System. This week, our scientists have achieved on the same stage, as what we did with SEK. The production of the Plasmatic energy, no connection to any matter state, but creating power This is part of the total development of what we call, "Plasma Power Generators."

Now, we have managed to prove, to create power in a sufficient way to be able to increase voltage and to add to our technology for the next stage, which now the system will feed itself, and then it becomes self-sufficient as a generator.

Our scientist on the other hand, are working, maybe during the today's session, we'll release a new system, is on the test. And once our laboratories respond, if they do during the teaching we'll let you know.

And a new product known as a "Plasma Compact" unit will be released today. What this is, it's a small box you put on your table, you plug it into the system to your electricity. (:32). And you will see savings up between 30, 40, 50, 60, 70%, 80%. The compact unit is very small. And the commercial unit of it has already been released, which will be delivered this month, or beginning of next month as it is, arrives. So, the technology is moving on all directions.

In that proposition, we will make announcements after the teaching for many of you, you've been waiting for a lot of things. We're opening a new dimension in the work of the Keshe Foundation. So what I started with today was, what we are teaching you today

regarding the Cosmic Rays (CR), regarding the interaction and creation of CR. What I started with the X-ray machines last week to show you how X rays are created in, when you go to a hospital and other X ray machine, and how that knowledge understood can lead to the creation of X ray in a plasmatic strength, not in the matter strength. And with the work of the SEK, it shows you, explains to you that this is not something just done just to come up. It's been on the work for 17 - 18 years, to show.

And most of you here, once you've been through the process of the interaction of the Souls, now you make Gans's, you're far, far, far more knowledgeable than the top scientist of the SEK nuclear industry of the Americans, and the rest. Even though you're a housewife, you are a mechanic, you do all sorts of things, or you're child in the school. Your understanding, on the correct basis, is far beyond the professors in the universities, in nuclear industry, in cosmology, in the interaction of the fields and in the work of Tesla. (:34). So, you have become the new generation of scientists. As I said, in the universe there are no universities, for you to graduate. In what you understand in the process of Creation it graduates you to what, and where you can live, and how you live.

Many men in the past millions of years through their own contemplation and understanding, have reached different parts of this technology, technology of the Creation by the Creator. Technology of understanding how things done and then they had to put it in a frame, that others can understand you, according to their own intellect. Today's teaching is very simple. We created the Cosmic Rays, we created the plasma.

In general, all the fields, even the ones which have created you are cosmic rays. They came from cosmos. They have not appeared out of nowhere suddenly, and then become a cell in your body, or a nail on your finger, or a hair on your head. The hair on your head is part of the cosmic rays, in their interaction, and with another interaction of another part of cosmic rays will create in another way, you call it, Inertia, leads to creation of the balance what you call, your hair. So, you're still part of cosmic rays.

When you die, what happens to your skin? It releases a field, and it comes in the path of the cosmic rays. It might become a cell of an ant, or it might become a cell in a body of another object in another part of the universe, in time, in billions of years. But today it's part of you. But at the same time, (:36). this part of you, billions of years ago was part of somebody else's, in another galaxy, in another part of the Unicose. Where in interaction with others have led to be at this moment of time, in this framework, in this shot of the screen of life, is your hair. So, when we talk about the cosmic ray, don't get focused it's only beyond the Solar System. You are part of that system, you are part of the cosmic rays. So, we study macro and micro together in one position. Micro is your hair, macro is the cosmos, but they're all the same. It's the process of the Creation.

Now you have to understand how you can mix the fields of the cosmos to create hair. Then you will come to understand how to mix these cosmic rays in different way call it, the Inertia as part of the cosmic ray, gravity is part of the cosmic ray, the matter you eat is part of the cosmic ray. How you mix these things together to make that hair, to make that skin. And then how long you allow it to exist, how long you allow it to expand, how long

you want it to be there? Then if you understand this, you become that guy in the hair salons, with different dyes to make your hair blue, green, black, white, whatever you like.

So, the hairstylists of tomorrow will not work with the sprays, (:38). you go in a Head Unit, they create the condition of the blue hair, and you come out and your hair are blue, no chemicals. This is not something imaginary. If you go back in the history of the Keshe Foundation in 2009 - 2010 - 2011, and the Knowledge Seekers in Holland reported after going through the system, the wife was so excited that, my husband used to have a white hair, he has more black hair, and she was flaunting it. So we already understood, but at that time you did not.

In this process, mankind comes to understand the reality of the Creation. How do we interact with the fields of the universe? How do we interact with the fields of the cosmos, that leads to the creation of me at this moment of time, in this frame? Now you understand when I tell you, I've been here a long time. I've been here for a long time, using different cosmic rays, different strength of the fields of the universe through the Soul, I became the Moses, the Christ, the Jesus, Muhammad, Mehran, and the rest of it.

In essence it's the same. In how you feed it, you collect it. In you have to understand what you've been, what you become, and what you will become of what you are today. (:40). Now there is no secret in the knowledge. Now, you met last week, you met the week before with the, in the dimension of the Soul, you came in touch with the Soul of the Prophets. You've been touched by the knowledge, you've been touched by the warm, you've been touched by the emotion in the dimension of physicality. As one Knowledge Seekers wrote, I saw that 3 lights. As one other Knowledge Seekers wrote, "I felt my Soul, and I felt my spirit."

So, what you need to understand is, where the man is going. But the problem is, you don't know where you came from. And this is the enigma you are with, and you have a problem with. In the new technology, in a very soft way, we show the creation of man in the physical dimension. Even we took pieces of the man, parts of the man, and we let another man to create, that we don't create the Jesus who rose the dead. We saw a father created the piece of the brain missing in the skull of his daughter. When Naomi's brain was created, regenerated by her father. So, you have seen it, but you never understood. To you was a magic, now you have the tools. (:42).

Now, we have built systems that can bring structure to any Soul. We have brought the system to show how structures of the Soul and the Spirit can lead to the creation of the man. Now all you need to do is to understand the work of that X-ray machine. How you collect, what field strength, and how much you energize it, of the energy of itself, which levels of strength of the fields you use, you choose in that bunch you call, plasma? And how you bring it in the interaction with another Soul, with another pack of energy, call it your Spirit, called the Soul of your mom, called the Soul of the Christ, call it the Soul of the Creator. And in that interaction you see yourself in the dimension of the emotion of the Soul, not in the dimension of physicality.

Because if we show man can be, look, and be as part of the Creator, man at this stage (will) become so arrogant, that he will call himself the Creator of the Totality. Where we are all part of the total Creation. Now you understand the stage, which the systems are built. The stage that the technology is going is enough, at the speed, that a number of Knowledge Seekers can understand, a number of Knowledge Seekers can build, and KS can go through the experience of it. When we look, when we see, we understand, and then we go to the next stage, and then become to understand the next stage. (:44).

So, the journey of the man in the movie of life of the man was shown to you on 16th of December, 2022. When what was promised was fulfilled. When you saw the man, the STM come in touch with the Soul of the Creator. And the journey of the man to understand how to get there has started. You have to come out of the house to go somewhere, and you have to have with you the nourishment, the food you call it, that you carry on the journey, that what you don't need, or what you need is with you to consume. Not in the shape of an apple and banana, but in the shape in the strength of the field of the universe.

When you came to Linz, some of you when you finished the trials, I took you back in. Or while you're in the room, I showed you the reactors which you sat in, because you see it, because these are open panel system. And I said, you see, this one is vertical, this one is horizontal. One unit works on the horizontal fields, one unit works on the vertical .. fields. One works in the fields of the universe. One works in the fields of the essence of the man. One is the bottle I gave to the SEK as the creation of the magnetic field of the Solar System, in conjunction with the universe, and one is the magnetic field bottle of the man. So, the knowledge hasn't changed. It's the same knowledge, but it's put in different shape or form for different application, for different understanding of that point. (:46).

The reason that we tell you that the new system is coming into operation today, we have brought the cosmic rays of the universe, the cosmic rays of the STM, the cosmic rays of the what we call, planetary system, and the cosmic ray of the Spirit of the man into one system, which is going to be tested today.

In a way, in a unit, which is now getting completed, we have created the universe. When the second system comes into operation in a few weeks time, then as there are two universes we see, and in the future man will learn as part of the teaching, the work of the Unicose.

When we bring the two other systems together, the old one, and the two of the new one, we will see the interaction of the fields of the Unicose, the universe, the planetary system and the man. This is why we don't abandon the systems, which are in use now, because they are part of the structure of the bigger.

Then we will see the beauty of the Creation. Then we will see the manifestation of the new cycle of understanding for many people. You don't need to understand and feel the emotion, if you are already part of it. You just got to comprehend, how did I come here? How I am existing as I am, and what is going to be the future of me?

Then you understand in the teaching when I said, (:48). when the man, cycle of life finishes on this planet, as a physical dimension, the death, it's just the beginning of a new cycle, you follow where the Soul is going. You don't wait for man, your father, or your friend to pray for you to elevate your Soul, you elevate it yourself. You correct what was done wrong, to be correct in what comes out right in the future. Then that way, you don't need no prophets, you become the "propheteer" of your own action, of your own understanding, on your own intellect.

Now, you understand where I said, 2023 it's the time when the man matures to the knowledge of the Creation. In 2022, on the 16th of December, you met your Creator. Now, you want to find a dress and how to get to it, and then become part of it, that you can create the others.

How do we produce these cosmic rays? And how do we put them in a position to interact? How we create the generation of the fields. How we understand where the fields centers are, that we can tap into to receive? I run out of energy for such a specific strength in my Soul. There is no supermarket to shop. There is no specialist garage, that you can go to fix it. But if you understand the sources, the energy sources of the universe, where they are, in what specialty, then you can tap into, and you learn how to do it. (:50).

As I said, with the teaching of before, when we send the first passengers of the man to the Moon, in a few months time, we just don't shoot a rocket. As I explained to our scientists, we take the essence of their Soul, and a small amount we target to the Moon. We leave it, not where we want. Where it wants to be. And then by the law of the physics of the plasma, .. the bigger tries to feed the smaller, and the smaller tries to get from the bigger. And in that process, the bigger gets attracted to feed, and then it moves.

Then it comes a point of balance, where then you have to decide, I still want to have a spot back on Earth, but I want to take most of it to the Moon, because I want to see how the Moon is. In a way, when you dream about your mother, you send them what you call, an outrider (a little part of you) out. Mom, are you awake? I'm coming. And if the answer is, "I'm ready for you," the soul goes, you have a dinner with mom, and then you call it a dream, I was with my mom having dinner. Now you understand.

Then you have to understand how to travel. In the future teachings we teach you how to travel. You have a road which goes from Rome to Paris, ?? so and so is an European road, and it's all fast road, you can go fast track. You can go on a plane in a shorter time. But you still spend a lot of times in airports sitting in. It's better to drive. I want to go from Rome to Paris, but I don't want to get there fast. I want to go through "B" roads and see the beauty of the nation, the beauty of the universe. (:52). I want to stop in different places, or I go through "C" roads, that it means I go to the villages, if it's good I stay for a while, I call it Earth. If it's good, I stay in Planet Zeus for a while.

But still the path is to the Creator, and still the path is to get to Paris. But I see everything. The guy who goes on a "A" road takes five hours. I go on a "C" road, I take 5 million years. But the journey is the same.

When I came in the body of the man, I decided, this is what's going to be, so I take my time. Call it 5,000 years, call it 2,000 years, call it 1,500 years, it's all the same journey, it's the same Soul. I decide where I put the tent, and how long for, because I want to see all the beauties and all the cultures. I call it a Moses, I call it a Jesus, I call it a Muhammad, I call it a Buddha. And then I soak in into the dimension of the world leaders to see how they lead, and how the man needs to be, and how, and who and where.

So, you have to understand the process. And the process comes through the knowledge, and the knowledge given to the man, are learned by the rest of the Universal Community, as now the man through the presence of the Creators Messengers, then the what we call, the Universal teachers is showing the path to the universe, to the Creator. The guys in UFO's have no clue. They know there could be a way, but they're still in their UFO's and you're marvel them. (:54).

Now the whole of the universe marvels the man who has come to understand the knowledge, the system, the craft that will take them to their Creator, what they've been wishing for, and they've been searching for. As I said, the frog has become the princess. And now it depends who kissed it. Would you get a prince? Or would you get the princess out of it? It's the dimension of understanding of your Soul, as there is no difference between the two.

You've got to understand that with the new technology, with the new understanding, with the new frame of work we set in Austria, we set the first steps for the man to gain the Knowledge of the Creator. Now you have systems, that the man in his physical greed can produce to reach that point.

We set the scene to you, we try to bring somebody from one country to another. But in essence, we want to show you how you can travel the universe, understanding the fields of the interaction. What field strength you need to create to go to Paris, what field strength you need to create to go to the village on the way to Paris. Then if you become educated well enough, how you create the fields, that you like to go to the center of the Earth, to the center of the galaxy, to the center of the universe, to the center of the Unicose, and to the center of the whole Creation, and the Creator itself.

How much of the, (:56). what I call, the onion peels of the knowledge, can you peel to get to the center. You interact the fields, you create combination of the fields, you create condition of the interaction of them, that in essence you create a cosmos. And their interaction with each other releases fields, which you call, cosmic rays. And the interaction of the cosmic rays with different cosmic rays, which are created in different stages of the same system, gives you the Spirit, the Soul, the matter state, the planetary system, and everything else you have ever seen with your eyes, or you can imagine.

So where would the knowledge go? How do we create to interact the fields and not get entangled with the MaGravs? Even though, we produce MaGrav still, because it's one of the best ways to create the fields, that in the future, you can create the cosmic rays from if you understand the work of it.

With the new understanding, it brings a new intellect. And with a new intellect, it brings new expectation. With new expectation it brings new challenges, new, what I call, friends. It brings knowledgeable people together to be in that level. I was talking to one of the Knowledge Seekers past few weeks. And she says something to me and I know exactly what she says, and it's pleasure to see. She says, "I don't need old friends." (:58). She knows, she's on the line most probably listen, I want the friends, the friends in the Keshe Foundation, I can make Gans's, I can talk about the Nano, and whatever the plates or whatever. Because those ?? sheets our f the old time has no value when you can see the essence of the Creation. When you become part of it, when you see the beauty of it, and when you get benefited by it. Then you understand there is more to life than a "chit chat" and a coffee drink.

The whole structure is to elevate the Soul. And the whole structure, in ?? the elevation does not come with a light. It comes by intellect. It comes by understanding where that light came from, how it was created. Is that the light of my Soul and my Spirit? Is that the light of my Soul with my mother, is that the light of my Soul with the prophets, or is it the light of my Soul with the Creator?

Or are you actually looking for a light or enlightenment? If you look for a light, it means you're still in the dimension of physicality. If you look at the end of the session, say, what I understood, that's enlightenment. And this needs a separation. One to understand what it means in the dimension of physicality, and one to understand what it means in the dimension of the fields of the universe.

"I didn't see any light," but you thought it was very interesting, I realized this, this and that. So, (just) because you didn't see the light, (doesn't) mean the thing doesn't work. But you understood that it means, you added to intellect. This shows that a lot of Knowledge Seekers have not reached that point of maturity, or they are in what you call, the schizophrenic, (1:00). they don't know if they are in the physical dimension, or in the Soul dimension, or they take one or the other. But they have not realized the beauty of their own creation, that they are in both dimensions.

I see the light, but I understood the light too. So, I have been enlightened, while I've seen the light.

This process will continue. In March and April we'll bring more light into the whole understanding. We come to the point in February to join us. The panel, the lines has been opened, you can book your place to "dine with the Creator." As the last time you met, and you went, and you did the first stage of expanding your Soul to encompass the Spirit. You're on the road, now you've got to feed it.

Then you come to understand what has been fed. The first time ever, we recorded the testimonials after the session, that in the future people understand who was enlightened, and who has seen a light. Or did the enlightenment come after you seen the light? As I said in the session of the Friday, some of you will come to understand after the session, in the next few days, about what happened. Then, those of you who are there, what happened in the next few days? Did you come to understand more, which is the true understanding, you became enlightened, even though you didn't see the light in the session. (1:02).

Now you understand when I explained to you on Friday in the session, that the next few days, you will see the light. And you're still waiting for that flash of light. But if you have thought and understood more about what happened, whatever, you're enlightened, and that's the true knowledge, that's the true light, not the flash of light in the eye.

So, join me on the 19th on a Sunday, to have a Sunday lunch with the Creator. Dine with the knowledge of His, and not with an apple and an orange. Understand the true meaning of the knowledge. Understand now you have to create systems, which brings the interaction of the fields, as I've told you so many times, you're so bogged down with the MaGrav and Gans's that you don't see their fields. And now maybe you gradually you start seeing. Even though we still provide you, we make you MaGravs, that one day the enlightenment received from them, we enlighten you to understand the world of the Creation.

The MaGravs we give it's not a power unit that you get electricity, it gives both. It has a physicality, and what we call, the spirit, which the fields they create around it, that it adds to your Soul. This is what I told you many times, sit on top of the MaGravs, go on top of them, put something on top and you'll see the fields there. The electricity is in the box to light your house. The fields on the top to enlighten your Soul.

It's you who has to understand. We are making these so compact and small, that more of you come to be enlightened, that as you had enough electricity from beautiful Tesla. Tesla gave you the physical dimension of the light at any point, (1:04). and I give you the enlightenment. Even the Soul is the same. You just have to do the first part, that the physical side gets satisfied, and a couple of centuries later in the D of the Soul. As I said, the cycle of the new Messengers comes form both sides, the matter state and the theology, that no one can fool no one.

We go to a break, we come back, we have some beautiful announcements to make on the commercial side of the KF, and then we answer your questions. And I hope today's teaching opened your eyes in where you are going to and how you are going, and you are the only driver, passenger, the car, and beneficiary. Rick take us to break .. (1:05:21)

<< **BREAK** >> 469 KSW January 26, 2023 (1:10).

K- Yes, thank you very much. On the D of physicality and what we do in commercialization of the technology (T) and application of T, in working with the doctors, and seeing their patients, and introducing the new wellness systems and technologies, and the cost of providing the services has created a lot of dilemmas for a lot of people, in a way, what can be done. I've been aware of this. And in the past few days, even though we lost huge amounts of funds in the past few months trying to expand the technology in the physical dimension, we have secured understanding with certain people, organizations. That the Keshe Foundation as of today for a very, very short time, for a number of limited cases, will support the doctors in the financial side. And we'll provide two things, that is in small payments by the Knowledge Seekers, the Keshe Foundation will support through the support we receive on delivery from the our what we call, the backers in that. Because we had a small backer who helped us a few weeks ago with four cases of Parkinson's, and then we went to the big organizations, (1:12). they are of the same position, they'll support the Foundation. A limited number of cases, except coma and cancer, will be looked, and it will be given the go ahead to go with the doctors for the process. The numbers are limited and the time is limited.

We have to respond back to our people within a few days, that how many cases we have, and they expect elimination from the side of the what we call, the volunteers for the doctors. We provide the services only through doctors, nothing to do with the Keshe Foundation. We are provider of the knowledge, we are not doctors, we are not in the world of medicine. We provide the scientific background to what is to be there.

The understanding with our people, sponsors, is that, some of the prices you heard is 30 - 40,000, some cases much more. Some cases Keshe Foundation subsidize some of the moves. Through what we have a very few limited numbers, we cannot, they don't want us to specify. We'll accept whatever the Knowledge Seekers paid to the doctors at the fee of 5,000 Euros for any case, it doesn't matter what it is, except cancer and coma. They will accept to cover the rest, which means if you have Alzheimer's, if you have Parkinson, if you have whatever, to go through the doctors, your case will be automatically accepted. (1:14). We provide the technology and the know-how to the doctors, and through your doctor you will receive it, autoimmune system, deficiencies, whatever.

The reason for it, what they see is that it gives a rapid boost for system to be developed for technology to be complete. And it will stay in the hands of independent organization like Keshe Foundation. We do not get involved in medicine, or health and that kind of things. We provide technology to doctors, they know what to do with it, how to use it, and there is no limitation. As of today for a very, very short time, a few days, because they think if they run it they will not be able to sustain to support it. Maybe 10 - 20 cases,

maybe 50 cases, we do not know. But any of you can come up with the 5,000 Euro as a donation to your what do you call it, to your doctor, or whatever. In next few days, the Foundation will support it through the subsidiary we receive from our people in whatever means they provided to us to support you. So, it's not that huge amounts, which was asked for. For a limited number of cases, and we have put no cap on it, at the knowledge side, because the reason and the understanding is, we have to learn more, what we can do, what we cannot do. This will close in a few days time.

So, if you know anyone with any cases, just go through the Keshe Foundation info, we pass it on to the doctors, and the case is accepted. If you can deliver the 5,000 Euro to the case of the doctors immediately. And don't come in, oh, I cannot do this and that. This is a once opportunity we are given and we deliver it. (1:16). If it comes to a certain number, you have to understand it has to be subsidized, and there is a certain amount they do. Maybe this is one of opportunity, we had a beautiful pleasure from one of our Knowledge Seekers who went through the processing. He has offered 4 cases to the help of the Knowledge Seekers, and we have put that out for it.

Now, this is a very special case, I've been told not to disclose the numbers. And there is a very time limitation on it, that it doesn't go for weeks that then they say, oh, you said that. By Sunday night, we close the case, which means you have 4 days. It doesn't matter what condition, this will be subsidize to see if we can support through the wellness, through the doctors, and to change the course.

Those who have already been going through cannot come back and say, "oh, you did this," this is something to do. It's a special package by what we've been offered. How many cases we can accept, we do not know. But if you can do and make your payment complete by Sunday night, we can push through the process, it'll be a pleasure for us, because then we can understand it. And the reason for it is that we have more system available to support the doctors. We could not accept this, now we have more systems, we can expand the numbers and the doctors will support it.

Don't come back to us and tell us this and that, we have received an offer, support, we pass it directly on to you and you have a very, very few limited time. And the cases from the past still can be considered, but that's up to your doctors not to us. But the 5,000 Euros has to be completed, that they not what finances they put in. (1:18). This is part of what is the annual accounts of what some companies and some organizations can give for charities and they can force it through their books. So, if you have, you know people with any condition, where if you come in next week, two weeks time to Keshe Foundation, we send it to the doctors and they ask for 20 - 30,000, it stays. You can't say, it was 5,000 (now it's 5K I want the lower price, the original price stays).

This is something we received, we have to go by it because the 31st of March is the closing account of the people who are supporting us, and it has to be put in that framework. So 10 cases, 20 cases, talk, get it done, put it together, and we'll see how we can get it on. You'll get an answer by next Tuesday, Wednesday, latest because we get an answer by Monday. So if it's 10 cases, 20 cases, whatever we submit, we get approval,

we have to prove to them that we received they have a reason to make that move, and then we'll get subsidized somehow we get our funds through different ways of support from them.

Please make sure, send everything to, as usual, health@keshe.foundation, or info@keshe.foundation and they will respond to your very rapidly. We asked a couple of people to be in the back to respond to this very rapidly. As you've seen, before it used to take weeks and months before you get a response with the what we call, the presentation on the 16th & 20th you've seen the rapid response, even days before all the things are in book, ready to go.

So, if you suffer from any kind of whatever, that you become a knowledge to us, (1:20). and you can put the 5,000 together to be paid to the doctors and then it'll go back to what we call it, the process. And within the next few weeks, two or three weeks, you'll be called in to take part with a doctor's order process for the processing as it is.

The other point of what we call, commercialization is that Keshe Foundation "Plasma Power Units" will go on delivery. And, most probably, as I informed, we might call in, or what we call, "Blueprint Day," that you can see the operation of the units. Most probably, I'm still expecting for a message today from our people, as I said before, that we'll introduce a compact unit.

You've got to realize Keshe Foundation from now on does not sell units. You buy, or you purchase, or you come to an agreement with the Keshe Foundation. You buy these units on a contractual basis of 150, what I call, 15 Euros per month, or 180 Euros per year for 20 years. Means you save 50 - 60 - 70% electricity or power at home, and you share a small part of it with the Foundation that we can run operation. You do the same thing with Apple. You buy Apple, then you buy the apps for it, the contracts for it to receive what you call, the processing. This will stay with us the same. So, it doesn't end up that we have to keep on selling units to sustain research. What you buy you get benefits by it, you pass the benefit for us, and we pass the benefit into research and development of more things to come. (1:22).

The compact unit most probably if it's done maybe confirmed, completed, will go on sale in next few hours. And the Enhancement Power Units, which you all put in, will go down from 5,000 to about 3,000 or 3,500. Already has gone in the what we call, the Keshe Foundation website. They are two different systems, and they're totally different applications.

We have, as I said before, creating more possibilities for developing new systems, new what we call, technologies. In the next few weeks, once we complete our tests or the what we call, the Enhancement Unit (EU), Keshe Foundation will put out what we call, the "Enhancement Communication System," which is actually very much like a headset. You will start communicating in a new way with our systems. Those of you who will come to be the volunteers with the doctors will receive one, or your purchase one through your doctors. And instead of buying these head units, and headphones and mobile phones, we

go through our system, our technology. You don't need a headphone, you don't need a mobile phone.

In a way you live what I said, the two lives. In the everyday communication, you use your mobile phone, and in expansion of the Soul in feeding yourself, in keeping yourself healthy, and keeping yourself well, you use the other unit. And then gradually you learn using the new unit, how to communicate with your friends, the other ones who have the same system. (1:24). So, Knowledge Seekers, you get in touch what we call, through the Soul with each other. And this is the new system, it's already on the way of development. We have tested it, it works.

The first test was done last Friday in a complete way, where as I explained, we connected the laboratories to Uno Center without any telephone communication, and we saw the results. We tested on the flight again on Sunday, and we've seen the result. So the new what we call, communication systems which now is developed, we use it, we've seen it, it works. It will be commercialized as a head unit. So in a way, as you have a, what you call it, Apple and you have a Samsung, now you have a "Plasma Head Unit." And you have to see who has the App, which you have, which is your headphone, to the others.

Somebody in America has one, and what to speak to someone in Australia, you don't talk you feel each other's emotion. You understand, you arrange a meeting, you meet with each other, or you do the research together, then you understand you learn a new language. This is part of the, what I call, March, April teaching of the Keshe Foundation.

When you're in the space, how do you communicate back with Earth? How do you communicate with your friends and family, when you are in the space? It takes a few seconds and a few minutes for the information to go from here to Saturn. And if you're in another cosmic dimension, it will take you years. As our scientists tell us 10,000 light years for a message to come. (1:26). When you have one of these Plasma Units it takes you, as long as you think you're there. So we start learning living in the two dimensions using the two tools. We go for camping, we take woods, and we make charcoal. We stay at home, we use gas and microwave. Still does the same job, cook the same food.

But now we have to learn a new method of communication, a new methods of understanding and interaction. These units will be up at about 2,000 Euros each. Most probably we start advertising for it in next couple of weeks. Then, Knowledge Seekers around the world, the way you learned to connect with us in Linz, you learn to connect with each other. Communication, enlightenment.

You'll find out, most probably, what I tell you now, you'll come to understand it. You will talk to the people around you and they tell you you're crazy. You go on the line with your Knowledge Seekers (KS) on the other side, you see, you'll find somebody who speaks your language. As the KS said, I don't have time for the old friends and the old chitchat. So, you'll find out, you gradually become man of space.

You will link to the Keshe Foundation in Austria, and you have a feast with us, you have a dine with the Creator anytime you feel like it. And then we'll bring in the new dimension of technology. As we expect, if everything goes to plan, as things are building up, we will start mobile transmutation and transportation once we complete this side. Then we go, and we go to the other side. As our Knowledge Seekers said, every time we try to test a flight, (1:28). he carries his passport with him, that when he lands in Linz he can say, he comes from the States, and he's here with his ID. This should become a norm.

So, we have shown it, you traveled, you met your Creator, you went last week to your what I call, prophets, in what you believe, to elevate their STP, what we call, the Spirit. And now you have to learn gradually you can move and go to the next step.

In this process, we will bring more and more technologies that you understand step by step. Hopefully the new Flight Enhancement System will be completed this week. As I said, today, this afternoon, we have the first volunteer for space, and we have the first volunteer for wellness. And we'll see the effect of the new technology on both. Through the doctors monitoring, and through our understanding of the system.

You do not need to be here, there is no place that anyone can go and say, this is where I am, or whatever. You can be anywhere in the Universe and still benefit connecting to the system. You need knowledge, you come to, and through connection with the other Souls you gain the knowledge.

Something which I would like to bring to you, because in the future you will understand, but we put the seed down. Is, in the universe, like here you go to go Google, you go to knowledge sources to universities to get access, or to research centers to get access to certain knowledge of virus, or whatever, (1:30). or equipment, or whatever. In the universe (U), we have the same kind of centers, where the knowledge of the U has been gathered.

It's a knowledge centers of fields, it's not knowledge centers of books. In the coming time, as you understand it, you will understand the App, how to get to it. You understand which fields of U leads you to which knowledge centers. The information of every piece of the creation in the universe. It's not somebody collecting it. Because of this strength field, gathers there.

It's a big difference, making a computer, making a memory bank and putting all the information in. Somebody has to do it. If you understand the work of the universe, if you understand the work of the fields, everything which is at the same as strength gathers, it connects together. So, if you want information about the dimension and the position of a star in the galaxies or in universe, these are centers which connects these kinds of information. It's gathered in the plasma. We teach you how to connect to these centers.

There are centers where you want certain strength. You need potassium, or you need calcium for your growth, or for certain purpose, you tap into it instantaneously. This comes as part of the teaching in the coming time. How in the space you connect to the

sources, the centers of the what we call, fields, and it's instantaneous. As many Knowledge Seekers told us, it was just like a flash, I was on the Moon. (1:32). It was just a flash, I saw something. But it touched, I remember, it touched the Soul, and the Soul has received the knowledge in that flash.

So, now you go to supermarkets, you go to the libraries, you go to Google to get information, to get food, to get knowledge. Now, you will learn as a passenger of universe, how to connect to these centers. Where it's connected and collected by the balance fields of the universe. How you get into highways of going from one place to another. These are the teachings to come. These are the system which are getting gradually developed. Understood by our Knowledge Seekers to develop it. I just guide, I give a step by step and then they build on it. And then the next step, and then the next step. We are getting, reaching a point of understanding.

So, in the next few days, we give you the systems which we call it, a "Compact systems." We would like you to leave it on the table, near where you sit. Don't look at it, that it saves me energy. Look at it, it feeds my Soul. It doesn't just give the plug to the electricity to light up the table lamp, to light the room. At the same time enlightens your knowledge.

The new compact system once we introduce it, it's what I was telling you. Look at the fields not the ???. When you sit in front of it on your table, understand what I looked in the light of the table lamp, (1:34). and in there, is the light where it takes you to the Creator. And going to the Creator means enlightenment, means understanding the process of the Creation. This is part of when you do this Compact unit, plus what we supply with what we call, the new Plasma Head units. Then you understand, the full communication system is on.

With it, in the coming time we'll deliver you the small generators, compact generators, which as a whole allows you to become a new dimension of the life. Independence from the energies of the matter state. Where you create energy from inside, and then you allow it outside. You don't need to wear a jacket to keep the physicality warm. You create energy from inside, that does not need a jacket. This is how you will travel in space. But you have to learn it here first before you get there.

So, a lot of materials we have put in the past, and what comes in the future, has been part of this process. And now you're going into very advanced technology, space systems. And it's all coming out of one structure, Keshe Foundation. We're not sending you somewhere else, it's done by the Knowledge Seekers, for the Knowledge Seekers for the humanity. So, in the new compact system, may be advertised today. And we even start pre-selling the Head units, which should be delivered in a few weeks time.

You now start the connection in the next level, you see the light on the table, (1:36). and you receive the enlightenment from the same system for the Soul. Then we teach you the next step, then we'll go through the process of the completion of understanding the STM.

We have to lay out this part very clearly, that you understand what you're going in, and what is the next step.

When you have a Head unit, when you have a Compact unit on the table, and you're sitting in New York, and your friend is in, let's say, Melbourne, he can go to each other for dinner, and you come back. Mom says, would you like something to eat? No, mom, I'm not hungry, I already had dinner at Melbourne. Then this become part of the life. Thy shall not kill. As the food you had in Melbourne was on the resources of the universe, as you were in the Knowledge of the Creation.

So, we go through this process, step by step. And as you know, I'm a very good magician and a very good teacher, I know how to hide things and then when to show it. 2023 it's the time when a man meets the universe. And we have to prepare you, we can't just drop you in the ocean and expect you to swim.

When we release the Compact units, with it we release the Glasses, what we call, the Headphones. And then, I let something out which I should not have done. (1:38). We'll introduce in the coming time a specific Plasma Glasses that allows you to see in the dimension of physicality the soul of the passengers of the universe, if you wish so. This will allow you to interact, create an Inertia in the position of their existence, not man's gravitational magnetic field of the Earth.

It's a highly technical system. We sent this out as Vision Glasses couple of years ago. And when I read the report, people sent me some information back, it allowed me to see how it needs to be done that it become practical for you lot. So, you'll see everything we do has a step job, and we go through. It comes to a point of what we call, when you understand we can... We gave you the MaGravs, you haven't understood for 7 years, now nearly six, seven years. And now we use the same fields to do what is needed to be done.

On the other hand, I was with our doctors in the meeting with some of their what we call, patients, and the gentleman, most probably he is listening, because he is a Knowledge Seeker. He has a damage, he has a hip replacement, he's got damaged, what you call it, joints, and knees, and cartilage damage and whatever, age come to it. I explained to him, we have this material for, what you call it, (1:40). for allowing the body to be processed as part of the Keshe Foundation. It has to go through your doctors. But, Keshe Foundation, and from today, most probably again, later on today, will introduce a Gans called, "Knee." Read the instruction on it. The same as you use for the Pain Pads, use this to add to a Pad to your knee.

(Note: Do not mix any Gans's with the Knee Gans's in the patch. The Knee Gans has to be used alone. You can use a pain pen or a pain pad with it)

You make your own Pain pad. And use it for maybe 4 or 5 nights on your knee, or your joint, back and the front, you know the process. And mix whatever else you think you want to mix with it, we just create a base for it. And don't use it more than 7 days, and take it off. Only use it at night when you're asleep, let the patches to be on. See how the

cartilage regeneration, all the, what we call, all the ligaments regeneration will come, if your pain disappears or reduces.

And then leave it (off) for a week, and then use it (later for) another few nights. Because nighttime it's when you don't use your joints so much. It allows the building up of the cartilage and everything else. Then use it sporadically as you need it.

I explained to him, it's very expensive. But overnight, I thought maybe it's time to let this go. This is part I told him we have. I have 2 or 3,000 different Gans's which man doesn't even can imagine exists. And we put this on sale just on "Knee". (1:42). It's an expensive thing to do, and it takes time to produce. We have a very limited amount of it. I built initially, if you remember, ?? Mehrnez said, I had a ?? joint problem. I explained to her, yes, I (also) have a joint problem. I remedied it that way very quickly (using "Knee" Gans).

It's just that I don't even get time to heal myself from the pain of my body, and I go through the processing when I get a time. And it's gone, it's not existing. And it all came back, because from childhood, the structure of my body, I have a loose kneecap. And for the first time in 60 years, my kneecap has locked itself to the position, that even my pain is gone.

So, this knowledge is with us, and I put it into the Keshe Foundation. The value of it is 500 Euros a bottle. When you receive it, as usual, don't use the Gans, use the water. And you can order it maybe from today, tomorrow. It's again limited amounts. I cannot, because I have to produce it myself. I don't have the time for it.

So those of you who have knee problem, cartilage problem, loose ligaments or whatever, try it. It's not sold as a medicine, it's sold as a Gans, which you have to develop yourself as a patch to use. It's like a CO2 and the rest of it. You have to find application for it. And don't use it more than 7 days, because if the cartilages grow too much, then you have a problem. If your ligaments grow too much and then it solidifies. So, use it for seven nights, leave it and see what the improvement you see. Let us know.

This is a research development. I put it as a research, it's enclosed as a research development, it's clinical trials. (1:44). It works for me, I have seen the benefit of it. Now we put it as a trial clinical, and you have to report back on it, how you felt, what it was. And then we'll make the systems, which you go into it. You don't need the Gans's.

So, we gave you an insight into four or 5 new products of the Keshe Foundation. I think many of you suffer with this knee and joint problem. Try it. It'll go on sale most probably today, from the Keshe Foundation as a research development. It's not the products as any other purpose. You have to report back on it to us and see how it is that we can develop it in the future as a product. You will get the, what we call, the Head units, which will go on sale. Maybe today or tomorrow we do the same with the Compact units. And we will do the same with other products which will come up.

The offer for any diseases across the planet, except cancer and coma. With the support of our what we call, "supporters," at 5,000 Euros, has to be completed by Friday night. If you have made a payment or you make a payment, send a copy to the Keshe Foundation and we can over to the doctors that accept the case, and we go forward.

So we brought a new step in commercializing the technology for the physical dimension, and the new set of the systems plus your Head unit it's now, it starts gradually introducing to a new world of communication, new world of knowledge gaining. It'll be very interested, it'll be very, very interesting to see, if you're looking for a knowledge in the world of medicine for, let's say, heart operation, or disease with a heart, (1:46). or how it can be helped. And we have another Knowledge Seeker who is a heart surgeon, and how you connect to each others (knowledge). Through his knowledge, not only you gain the knowledge, you receive what you need for your heart to remedy, through his knowledge. This is the extent of this technology will go.

So you find out, the doctors will not put the Headphones on, or what we call, the plasma unit on. Because if you come to him, he cannot refuse. And if he's here to serve man he will do. Or with you, or somebody (else) comes to him, and says), I need this. You don't need a heart surgery. I know how to do it through my Soul, I can repair your heart. You buy a Head unit and you use it, and you connect to the Soul of the heart surgeon.

These are the new technologies which in a few years time will become as common as the mobile phone today. But in the next few weeks, Keshe Foundation will start introducing. We'll put these up for what you call it, commercialization as of next 24 hours, and then we build on it to the next step. Now we go to the, if you have any questions that we can answer please.

Q: .. Hello Mr. Keshe, thank you for being. (1:48). What becomes of the man who leaves this dimension with no knowledge of his creation? What has happened to all the Souls who know nothing of transmutation? Where are they?

K- The Soul knows, that's where they transmuted to.

As I always said, Earth is a nursery. Where it creates that seed, that bulb. And it takes you, you buy it, and then you planted, you water it and then gives you that flower. I was in Amsterdam a few days for work of the Keshe Foundation. I love Amsterdam because, it doesn't matter whenever you pass through the airport, they have tulips. And people from all over the world going through Amsterdam, buy these (tulip) onions (as seeds), or these tulips and take it to their nation, or to their country or to their home, it doesn't matter.

Earth is that flower shop, is that nursery where the flower shop gets his flowers and its onions. It's the seed. Where it plants the seed of the STM, which needs that little ignition to start a cycle. As I said in the past, to get, to feel the strength, to come together in the space takes billions of years, and especially for them to become a plasma.

Where now the STM through the life of the man, (1:50). 50 - 60 - 100 years on this planet creates that seed. Now you just need to let it loose. And then those fields in universe, which are coming to become the seed of something to start, already have the onions or what we call, the seed of the Soul for it to grow.

If you go to Scotland, they do what we call, "shrimp seeds", or one day shrimp, or three day shrimp. The people who are in the shrimp world, they go to Scotland, and they buy one day old shrimp, and they take it to Africa, and then they let it grow. Where in Africa for them to grow that, there is no facilities. So it's the same.

The universe has the Earth as the seed for that, to be faster to create the next generation. You have to understand, the light of the knowledge of the essence of the creation of the Creator is so fast, and it's so fast in its vastness, that it needs it to find a point of control, amalgamation and creation. And the STM, is those, is that greenhouse.

Sometime when I hear, scientists talk about the "greenhouse effect" and the Earth is getting hotter or whatever. I laugh. I said, God created this greenhouse to create the STM. What the hell are these people talking about? So this is why, when you build a greenhouse, when you put your flowers and the plants on it, you go and check to see how beautiful they are, (1:52). how they're growing. If there is any infection, if there is any diseases, you correct it.

And this greenhouse called Earth gets a visit by the Creator, to see what needs to be done, how needs to be corrected, how you get the disease of killing and everything else out of the man. Then He sends what we call, the gardeners, the teachers, to polish it, to perfect it, that it goes out as a perfect seed, and that's our job. So, the Earth is that nursery. And the Creator loves this nursery, because it was created by Mitra. And it's looked after by His love, and needed to be corrected and we perfect it. Now it reaches that point, which we access through essence of love.

When you buy a flower from a florist you will feel two things. If he sells your flower he bought from a market a plant, he just gives it to you. But if it's a plant which he grew and he sells it to you, he gives you love, information and love about that, because it's part of him.

So it's the same with the man. The Soul created on this planet is done, touched by the love of Mitra, and God has handed it .. and it has to be perfect. So, when it goes out in the universe, it becomes perfect tulips. Of one we call Creator, and one we call Mitra. When they kiss, it creates a new life.

Any other question? (1:54).

Q: .. Emotion in vertical beings, in the 217th Knowledge Seekers Workshop (KSW), at one hour, thirty five minutes. He has a quote here from that, apparently. Vertical beings change their colors, lifecycle and their shapes. Because for the first time if you understand this, you understand that Vertical people have emotion. Emotion is a

confirmation of existence in guaranteeing its existence. To Vertical People teaches us about given take and that this process is the same with everything in the universe. And the quote is, the assessment of what you can take should be considered first, to get what you need and what you can give. So the question is, man has not yet progressed in this learning with Vertical people. Could you guide us better in this learning with the Vertical beings? We appreciate your guidance.

K- The essence of accommodating is the essence of the Creation. How you accommodate, and how you create that position.

Vertical people have chosen to stay put. (1:56). And staying put means you don't expect, but you chose a place, that allows you not to do anything else, but to enjoy the environment. You don't need to kill for it. You don't need to reach out to destroy something. They receive the energy, what they need in the environment, the cluster they have created around themselves.

Then that allows what we call, as part of the "ethos of Mitra." And what I introduced today, the Compact unit, and what we call, the Plasma Head unit, is part of that process which is started. It's part of that process. Did I exist? I live, I sit in one place called, Earth or my table, I carry my plasma Headphones with me, my unit is sitting on my table in my house. And I go to New York, and I don't need to kill, because I'm in New York to eat something, I'm connected to my unit. It's the expansion of the room, expansion of the environment.

I go to another dimension on another planet, I don't need to kill, because I already learned to access the Universal Energy. That head unit in my house has become the center of energy units in the universe. When you look at the plant, (1:58). the vertical plant, being, it doesn't grow in one place, but it grows in another. Because it connects to the field of that center where it can survive without doing anything else.

And this is what we've got to learn. How to tap into the universal energies. And this what I call, Compact units, are an interim system till you learn gradually, that you don't even need the unit or the plasma Head unit for it. Because your Soul expands, and it learns, and then gradually, as it brought part of your physicality into itself, and it works. Now it brings the systems which you put on the table on your head as part of the system inside it. And it learns how to do.

It's part of the learning of the expansion of the Soul, from the center to the Head unit, from the Head unit to the table, and then from the table to the universe. You cannot get a marathon runner out of the man who doesn't even know how to walk, unless you teach him. And now we're going through that process of teaching.

I don't know how to explain it. But in a part of communication, understanding or enlightenment, whatever you want to call it. This question was (from the Universal Community or "Aliens"), how did man, suddenly became to this position. That us, spending millions of years developing these machineries, crossing the universes, could

not understand. (2:00). What did we miss, that the humans did not? I said, one thing you missed, it was the love of the Creator. You should have managed, you should have found out how to attract Mitra, you would have received the flower.

The human race, the planet Earth, knew how to see this, how to put the seat of love, and that's your beauty. You lured the Creator to the beauty of the planet, and the rest is history. When you lured the Creator, you'll start receiving it, but at the same time He had the time to do, to put things wrong, which went during the wild time of what we call, the "wild west," or during the time of the creation of this planet.

Any other question?

Q: Wang Lynn .. Hello, Mr. Keshe. In the last teaching you further explained reincarnation. No individual Soul is reincarnated. But part of one's own information field will continue to interact with the environment at the time of death, creating a new individual Soul. I would like to know more details about the newly created Souls, namely. (2:02). How many old Souls does the information field of the new individual Soul generally come from? Do the talents of the new Souls such as musical talent, emotional patterns, such as fear of the dark, belief patterns such as believing in the existence of the aliens since childhood, etc, come from the old Soul? Is the wish of a new Soul such as Mr. Keshe, which to take humanity to understand the Soul and the principles of Creation into the vastness and the vastness of deep space, a continuation of the wishes of the old Soul of the past? And finally, do the old Souls separate themselves and become part of several new Souls? I hope you help us sort it out further. Thank you.

K- Who's this from?

R: Ruthie Lynn.

K- Oh, Wang Lynn. She's traveling, I know why she's written this. She's in the teaching somewhere.

You've got to understand, when you reach the dimension of a Soul, there is no old Soul and new Soul. You have access to all the knowledge of all the Souls. So, just because you are born today, does not mean you're a new Soul, as your Soul is connected to all the Souls. So, you are a new storage capacity. (2:04). But with access and connection to all the storage capacities, the capacitors of the before.

Terminology of the old and new, when you understand the totality of Creation is meaningless. There is no time in space. Because once you're created in the womb of the mother, you have access to the totality of the knowledge of the Creation, even to the Creator.

None of you who came in touch with the Soul of the Creator on the 16th were brought, and trained and the rest of it. You were part of it at the inception in the womb of the mother. So, the terminology of old and new, is a man's lack of understanding of the Creation.

And as I said a couple of times today, once you become a plasma, it's a full spectrum of the whole, you have access to whole of the knowledge of the universe. It's just man who chooses to ignore it. Because you don't need it on this planet, you've got the cows, you chose to eat them, you had the water, you chose to drink it. So, you didn't went out to look what other sources of energies are in the universe.

The laziness of the man brought man to be a killer. Where the Soul doesn't kill. Most probably the soul of the pig you ate, shared knowledge with your Soul, fed, when it was alive as a soul, but your Soul didn't kill it to gain the knowledge. (2:06).

Go back to the teaching of some times ago. And I said, everything your forefathers have done is recorded, and has become a knowledge, and it's there in your Soul. Your father, forefathers doesn't come to be your great-great-grandfather, it comes to be the Soul of the Creation. As much as you have access to Soul of your great grandfather, you have access to Soul of the Creator and the Creation.

And the beauty of it is, now if you understand it, as man is a "gadget man", you can make a system to create those fields to match, to get access to, to bring back. You can create a plasma of the knowledge of the routes of the travel in the universe. And then you open an agency. You can have the knowledge of the travel to any point in the universe. And you put a placard outside there, and people who want to go to planet "Zibzib," they come to you, I want to go to planet "Zibzib," and it's, "oh, the system is the strength you need," and you're instantaneously there.

It's understanding which will bring the enlightenment, and once you're enlightened you don't need anything else.

By the way, as Lin is here. This week, on the 22nd has been the Chinese New Year. We give you all the best wishes, and one of the most prosperous time in the time of the rabbit year. And I think it'll be when the humanity will do the what I call, (2:08). "the leap," like a rabbit, and we gain the knowledge. I wish you all the Chinese Knowledge Seekers a prosperous and wealthy New Year.

Any other question?

Q: Hello, Mr. Keshe. Hello, Rick. Hello, everybody. It's Mehranez.

K- The spy from the Iran. Are you still in Tehran?

Q: Yes, sir.

K- They won't let you go, hm.

Q: I'm drinking tea with saffron and thinking of you. And I thank you. Because I just got the Internet a few seconds before you make your, you put my ?? name. That's exciting for me. I am so excited that I have Internet. I can't speak. And I just wanted to report my results with 20th of January. It was kind of more than I could expect. And for those who didn't feel anything, I think they had to work before on themselves and just give, give, give peace. And I think that that's why I really, really, really had a fantastic results that it shows. It sounds for people around me. (2:10). And I just wanted to thank you very

much for giving us opportunity to practice this kind of exercises. And I wish you all the best ?? to go on, that we can use and we can let others use. I got your program late, but I will listen after that, and that's my fourth dimension. When I listen to your teachings, I just the solutions are very... Give a lot of hope, a lot of hope. I always talk to people around me, people believe me. So, I hope everything is fine that you come and bring your technology (T), because people really know that there is no other solution, but a solution like yours. Which is clean, which is just, which is equal, which has place for everybody, every race, every religion in it. And just everything is ready, I hope from our side. Then at your side and U Council decision. Just thank you for being here. We are honored to have you here. And we wish you all the best of health, success and happiness.

K- Thank you very much. Enjoy the beautiful winter in Iran.

Q: Thank you for your encouragement. Yeah, it's dry. (2:12) And it's very agreeable to walk. It's not humid in here. And people are very polite, very calm. No noise in the path in the ?? It's amazing. It's just a miracle this people are so polite and so wise.

Sometimes, every few days I notice a person who is so philosophically wonderful. And they don't show it, they don't ?? I really enjoy this part of this trip. And I learn also.

K- When are you going back to France?

Q: I have no idea.

K- I think just about enough there to stay for the new year.

Q: I have no idea. Honestly.

K- Okay, enjoy it.

Q: New Year. New Year's finished. Oh, which New Year? Oh, New Farsi. Oh, I hope not, because I'd like to go back home. But it's okay. I have to be here. Thank you very much, sir.

K- Thank you very much indeed.

Any other question?

Q: .. I was the present at the Soul Plasma Flight Experience on the 16th of December, 2022. And also on the 20th of January, 2023, held by the Keshe Foundation Spaceship Institute. (2:14). And I am very interested in learning more about this technology and how my Soul can interact and evolve with its help. My question is, do people who participated in these events have any kind of connection with the flight improvement units in Linz?

K- Can you repeat that, please?

Q: Do people who participated in these events have any kind of connection with the flight improvement units in Linz?

K- Yes, yes.

Q: If so, is this connection made through the cell phone? Or does it not depend on that device?

K- With the people who are ?? sit, you all used your headphone, that's how you connected. But in the 20th session, between the lab which is the backup generator of the new structure is wireless. It's what we call, plasma connection. It's the new technology.

I think when we start putting these new plasma Head units, and you receive it, you will see the experience will be totally different than when you used the (mobile phone). When you use the head units, like the mobile phone, you reach in the dimension (D) of physicality to get to the Soul. Where with the plasma units, there is no conversion into matter state. It'll be a totally different experience.

We know that, because one of our team actually sat in the system, and watched the monitor. (2:16). And I couldn't tell him that, you're watching "no man" communication system in the connection between the plasma and the Creator. It shows different, it interacts different. And in the 20th teaching on, what I call, on the 20th of January teaching, those of you who were with us, we announced it afterwards because the process was set, planned, and monitored and recorded.

When the Soul of Mitra and the Soul of Child of Mitra came in, we recorded it. And it's very, very clear, clear interaction for those 10 minutes. As I explained to the Knowledge Seekers who were present during the 20th session, I stay with a mobile phone in connection with you as Knowledge Seekers and our control system. But I do not ever interfere through the Soul. I never come in to interact. And I informed our people in the background, that in such a minute I go through the Soul. And immediately we saw the response.

I'm very clear about the two distinct positions I carry. One as a human, and one as a Teacher. And even it was in the process with the interaction, when there was a presence of the Knowledge Seekers interacting with Christ or Moses. (2:18). We carry that strength, and for the first time it's physically recorded.

And this is all getting piled up as a report by the people who are in the background, that in the future we release this in exact detail. It's all marked when and how. We brought in Mitra, and the Soul of the Child of Mitra once before in the session, and we watched. And then I have informed in the background, that they are present at this time, can you record. And we see the change. It's physically recorded. And you see the change, in the same as you interacted with the Soul of the Creator, we see it.

Then when the Soul of the teacher came in, we again see it. We can release the data, the graphs are available. We explained that in the 20th session. So everything is there, it's just that, as once my sister said to me, "I watched you downloading." We can download the knowledge to every STM, but the man still have that bit of ingrained killing and destruction in it, and that can ruin the rest of what is there.

So, we have the knowledge we can do that. Then we take it to the next step. It's you who is not ready. (2:20). The table is set.

It'll be interesting, those of you who will register for the dining with the Creator, how you will react after it. How the eating pattern of you will change. How you look at the consumption of the energies. How you will effect the others around you. Does it become like, because you become a vegetarian, "mom, I become vegetarian," you don't cook meat. In this process, because it's through elevation of the Soul, you elevate the others. You'll see the response in the others without speaking, because the interaction comes through interaction of the Soul.

Any other question?

R: Jefferson goes on to say, I constantly use a Nano coating (Infinity) loop on my cell phone. But I removed this loop on the day of the event. Does using this loop after the event prevent this connection from being made? Should I stop using this loop if I want to stay connected to the flight Unit?

K- I use it all the time. With our phones it's always there, constantly. These are a matter state, the state of the strength of the Soul is much higher. It doesn't interfere with it.

I can give you, I can build you a system which will interfere with your Soul. When you put it on the back of your phone, then you get your ?? interference. We showed that in the 16th teaching, there was so much noise in the background, that everyone was complaining about. (2:22). But when it came to join the Soul of the Creator the background noise was irrelevant, because the strength of the Soul is totally different.

Any other question?

Q: .. Can the MaGrav Plasmatic Energy enhance or amplify the non electromagnetic energies of radionic machines?..

K- .. They're all part of the spectrum of the magnetic fields. And if your system happened to be at their strength, they will interfere.

It always remember the dog whistle, if you understand the principle behind it. If you comprehend the knowledge of it, in a way it ??. You blow a whistle, us humans none of them hears, but the dog responds. It's the same with the knowledge. It's the same interaction of the field of everything.

The magnetic field of the strength, full spectrum is always there. It depends if you are matured, or if you have the equipment, or you're keyed up, geared up, built up to receive that strength.

Whenever, you have such a question to ask yourself, remember the dog whistle. It's a whistle, you see it getting blown, but we don't hear it. But the dog responds, because it's the right strength. So is the STM. So is the enlightenment. (2:24). If you change the structure of the ear of the man, you will hear the dog whistle too. So, you will come enlightened to the voice, to the noise of the dog.

I asked this question once before, maybe now you might understand, maybe now you could answer it. If you remember, I've explained, the time of the departure of the STM from the physicality, tearing through the full field. Because it's not in the ray, it's in the plasma, which literally explodes out of the body at the time of death. Scientists have measured, the explosion after leaving it's round about "18 Hiroshima bombs."

If you understand this. If you understand the field strength behind it, then, the same as the dog. If the dog hears the noise we don't hear, so is, we don't hear the communication line of our Soul. Even that whistle goes all the time, which, in the dimension of physicality (P), we don't see it. But sometime in the line of communication, we register some of it, we call it a dream. (2:26).

Even while I'm talking to you, you're listening to me, you're concentrated here, you see the light, your eyes closed in the middle of night, or you're sitting in the Sun, on the beach, or some of you are up to, and many other things, your Soul is still communicating with the grandma, with, god knows where, and where he's going and what he's been doing. But you're not aware of it. It's like that dog whistle.

We have chosen to ignore it. Because otherwise we wouldn't get to do anything. We won't have the physical life the way we have concentrated, only listened to five senses instead of the rest. We ignore the rest till the time comes, when it's at death, then we listen to the Soul. This is what we chosen. We chosen not to hear the dog whistle. Because we ignore that frequency, even though it's in our body to absorb it, we can pick it up. We have it in us to get pick it up.

We have chosen certain fields connected to emotion and physical interaction, and we blocked the rest out, even though the rest exist. Now we are opening it the other way around. See through the interaction of the fields of your Soul, you call it, the eye of the Soul, and then see what else comes with it. This is where we are bringing the man to.

Just because he ignored it does not mean it doesn't exist. Just because you ignored that bandwidth in your ear not to hear the whistle that the dog does, then doesn't mean it doesn't exist. How come the dog responds? But the interesting point is, if the dog hears that noise and responds to it, how does the Soul of the dog interacts with other things that we don't hear, because it's in its own element. (2:28). Another dog does, but not the human. Another dog knows this emotion means ranking, this emotion means hunger, this emotion means something else, this emotion means fear. But in our system, that emotion doesn't exist, because we don't, we ignored it. This is not the strength we use, even though it's there. It's we are not tune into it.

It's like, when you go to America, you have a thousand of channels, television channels you chose to be on one channel, it doesn't mean the others don't exist till you go into it. They're all there. You choose where to interact or watch. And exactly, it's the life of the man.

We can tap in, not just at the point of death, at any time. All the fields of the universe. Many humans have done it in the past, it's not the first time. Now we put it in a physical system, that you all can go in the physical system. It's in your brain, we have it, you do it. And you've seen this one. You came to Linz, we told you to go to the Moon. All of you, the ones, went instantaneously. Some of you said, I don't want to travel, I just wanted to go and see my grandpa and you went to see. So, you have a control over it. You don't want to do it. You don't want to go to the Moon.

Any other question?

Q: .. Why is the MaGrav so expensive, even though the MaGrav components are so simple? I am from Indonesia.

K- Yeah, this gentleman has been trying to get hold of MaGravs to mass produce it for his own commercial use. (2:30). And if it is, you make it, you decide to do it. We had this interaction with this gentleman. Give it to me. It's so expensive, I understand, I use it and then I can commercialize it to my own benefit, to what I want to do. And to give to other people some of it. We understand that if it is... We've given the knowledge to you, but the knowledge comes at the expenses. When we make the MaGravs, would you like to pay thousands, ten of thousands, hundreds of thousands of expenses Keshe Foundation go through it every day? No.

How many of you been on this Knowledge Seekers teachings for past 10 years? How many of you come to centers? How many of you have used the technology, the Gans's, or whatever and put .. anything back into the Foundation? We saw the Italians, they came to steal and they stole. But what they stole those were the crumbs, go nowhere. Every day, every day, even during, we can give you the cost per hour for Keshe Foundation. Which one of you pays for it? And when we ask for support, "oh, they can do it, go make gold, get something else done, whatever." No. .. Just to keep this program going, even though a lot of volunteers help in the back, they get supported by others and themselves, it cost the Foundation thousands every month, just to keep the Internet structure of the Keshe Foundation going it cost about 25,000 a month. (2:32). Which one of you help? Which one of you send us 25,000?

This is just the structure of the Internet, back supports and all the expenses of it. We pay thousands every month just for service. We don't own it. All the backup. Microsoft, Google, god knows, Amazon. The bills come up, you don't pay one month, you don't have services. You pay through the costs of the MaGravs to keep the structure going. The Linz Center costs us tens of thousands every month. How much do you pay? Have any of you come and say, 200,000 - 100,000 I pay for one month expense of the Foundation? No.

You complain when we cover our expenses in things? You are thieves not us. We produce, we operate it, you like it, you pay, it allows us to run. You are thieves by nature. When you asked the question, why it's so expensive, because you're used to stealing, it's your habit.

Just come and see, we pay hundreds of thousands every month just to keep the Keshe Foundation going all around the world, and I've done it for 20 years. We saw it. We asked the help from you, some of you helped. We lost through fraud. So he came back, it doesn't matter, you made a mistake, we want our money back. We pay you, we'll find, we develop, we are a structure dynamic, but we seen it. When is, (2:34). we can come and put something and take more, it's ours. When is the problem is yours. We are man, we are not ladies like you crack ?? We find a solution. Then you know why it's expensive.

We gave it to you, make it yourself, you don't need us. How many of you made the MaGravs and you say, it doesn't work. We sell the new units, the Compact units, the energy units, the plasma energy unit, we guarantee 30% minimum. If it doesn't send it back to us. We come and sit with you, and watch. If you get 80% pay back some of it. No, it's benefit in my pocket. As a Knowledge Seeker told me in Italy when we were walking for dinner, he said, we became a Universal Council to get people to buy our products, we have no interest in Keshe Foundation.

Any other question?

Q: .. Do the Compact Units replace the Power Enhancement Combined Plasma Generator Electric Gas?

K- Not really, no. These Compact units I developed it deliberately for the next space, what you call it, space development. (2:36). The Compact units are tabletop. And even though they give you something on the generation, it's an essential part of the next space development. We explain more and more the use of them.

They're very powerful. They've been built in a very special way, and they, what you call it, they create that condition for the next generation of space travel. In a way if you look at it, we bring you into the system into Linz. Now with the compact system you take it from home, you don't need to travel. It's part of the mobile system transportation, when you decide you don't need the Linz Center, even though it will be connected to us here.

We are dissipating the knowledge and technology through Knowledge Seekers around the world. And this is part of it. If you remember when we put the first MaGrav unit, one of the Knowledge Seekers opened it up, and he went through it, and he put every picture. How this one, how they placed that one, how we cut the MaGrav open and see what's inside it. Has any of you benefited by it? (2:38).

Some of you will do the same, but you won't understand it. And the beauty of it is once you do it, you lose the knowledge. It's very, very interesting.

These things is carried with the Soul of knowledge, and you have not understood. You steal, thy shall steal from it ?? In a way you don't receive it, you've already stolen it from yourself. And, yes, the Compact units are the part of the next space development. But you're still looking at the energy side of it. So, god be with you.

Any other question?

Q: .. Last Friday I felt like someone was pulling my big toes to lift my legs. And you said that today. Can you explain it for me? And I saw a shiny orange color in Prophet Moses section, and bright green in Jesus section and bright white in the Prophet Mohammed. And after that I saw a shiny magenta color.

K- A lot of you interact with the Soul of the Creators, and the way you have perceived in the position of the Prophets of the past. In reality, you should see all the Prophets the same color. When you see different color, as I said in the teaching before, when you travel the span of the universe with the interaction of your Soul with the Soul of who is, what is in front of you, (2:40). you know their intention. Because it's the same color, it doesn't matter where you go, the Souls are of the same strength.

Then, you understand, when you see the different Prophets as different color, not only one is of the recognition of them, who they are, but in essence they should be all the same color. It was the same Soul. You touched my Soul. So, you see me that way.

You touched the Soul of my physicality, you see me different, than it's my physical intention towards you, I love you, I want to be with you, but in the Soul it's the same. When you see in the color of the man, a goldish color in the Soul, it's the time when you see the Soul of purity. It's how our Soul set. White is a sign of clarity, we see clearly. When you say gold it's what we recognize as Totality. And this is what you shall see. When you see in, what I call, the aura of gold. You have touched the Soul of the Creator. The white is the interaction of purity of intention.

And then how you see different colors is a perception of your emotion in respect to, or the interaction of. (2:42). If you are not educated, you're not put in the position of different faith according to your own faith, path of belief, you should have seen all the Prophets is the same. But the intention was to interact with the STP, the Spirit of the Prophets. So, different colors showed you different intention and understanding of who they are, what they are, what their intention was. And the one which is more favorable with you, you don't see no fault with him. So you see ???. So, you can see very simply what you said, your emotion, interaction with your Soul, and the STP and the other STP.

If they would have made the same picture as your Prophet, with the other Prophets, you will have seen them all the same color in dimension of the Soul. But you decided, or because of your background understanding, even you could be a Jew and see Muhammad as a bright light, and Moses as a red or green, it's what your Soul has a perception of in respect of dimension of physicality.

Muhammad waged war on humanity, and how many people him and his followers killed, and they're still killing in the name of the Islam. Hasn't stopped. How did, Moses did the same. He went, even waged war on the people who brought him up. (2:44). In the dimension of STP.

How come you see one in one color and the other one in different color? It's a perception of the emotion of the Soul, what I want to see, because what I believe to be.

Any other question?

Q: .. Hello, Mr. Keshe. Will you or could you repeat what we did on the 20th to elevate the Messengers and to connect with the Creator?

K- What you did, if you were in the session, is you made it available for them to take. That's all it is, you cannot force it. You cannot take the horse to the water and force it to drink. And if you, or any of you in that session created, or were at the strength of their need, they have received. So, you have added to, and that adding gives elevation, that it brings it out of that state of killing.

And the Soul of, the Spirit of the prophets, is what it communicates with their followers, not their Soul. (2:46). Their followers are in the dimension of physicality. So it's the Spirit of man, which interacts with the Spirit of the Messenger, not the STM which interacts with the Soul of the Messenger, otherwise man would have been perfect.

And when you elevate one plasma from you, when that goes higher, understand, realizes, evolves, and elevates. In understanding of what it was done, was wrong, and will not be done. So does the Spirit of the Ayatollah Khomeini of Iran. When you elevate the Soul of Muhammad. So is with the Jews. The Jewish people will not kill. So, shall be with the Christians.

This is the beauty of something a lot of you don't, maybe have never understood. And that is, you call it, the Old Testament and the New Testament. Adding to a little bit of the past. So in fact, what we see the killing in the Christian communities, like Americans, British and the rest of it, it's still based on the rules of Moses.

When you elevate the structure of the Soul of Moses in the Spirit side, and Christ, then you see the change in the two communities. Even you raise, give and raise, elevate the STP, it (was) has built of the what you call, Moses, will affect the Christians. Because it's part of them. And this is why we see this position. You call it Old Testament and the New Testament, (2:48). but it's the same principle, the same message. The other one is done, the other one is written by what we wanted to add to, to make it to be. But in fact it's the same one. And when you elevate the STP of the Moses, you elevate the STP of the Christian too, because it's the same, came from them, same blood. Where Muhammad was from a different tribe.

Then you understand what happened on Friday. And how you connected, how you elevated, how you interacted. I heard some people saying, "oh, I saw no lights." Means that you're not at the strength which they are, that you could add to. But it was so rapid that you did not even feel it, because you're looking for the light. But look, look a few days later, what enlightenment you received. What emotion from Moses, or Jesus or

Muhammad you received in response in giving to them. Did you understand something more? Was that the gift of thank you in elevating me?

You've got to understand, billion plus, some of them on a regular basis, give from their Soul to Christ, but nothing has happened. Man become worse in killing. Millions of Jews go to synagogue, and pray at home, and bang their heads against the Great Wall, in the name of Moses, but nothing has changed. (2:50). The same as with the Muslims, and the same with the Buddhists, and the same with the others. Because you have not found the what I call, frequency, the strength of the Prophets to elevate them. They're still in the doldrums of their time.

And you've got to remember, on the dimension of physicality, for the murders they've done. If you go back to what I said about Hitler, then what I said about the Pope in abuse of children. Their Soul is so low, that nothing can raise them. It's the first time we have allowed that to happen, to raise the STP of these who carried so much heinous crimes.

You gave, it was like that dog whistle, it just passed, they didn't hear it, they can't receive it, is too high for them. Their Soul is elevated, it's at the highest it could be, like yours. But the STP god ?? help it. The Spirit of these Prophets has not even reached the level of yours yet, to receive from it. Sometimes the STP, the Spirit, wishes it was at your level. You have killed none. Now you understand why you elevate. You cannot give if you are weaker. Now you understand why we put this process in. (2:52).

You become more intellect, you become more to understand in the time to come. Why do man need to interact with the Soul of their (Prophet), what they believe in, and they can give to. You don't put a crown on top of the crown of a king do you? But you add the jewels to shine better, to be shown it is there. It was made of iron, you put a diamond on it, now has a value, and this is what it is. This is what mankind will come to understand more and more.

Why did you need, why did we need to put a session, the process for you to find a path? And one of those paths was to be generous all the time. And we didn't ask you to give it to your son, we didn't say elevate your daughter, we didn't say elevate your dog. Elevate the STP of (the Prophet of) what you believe in. Because that becomes your guideline in the path to the Creator.

Everything you do in these sessions is a way, a path, the position to understand to be enlightened, into the working of the universe and the path to the Creator we are part of, which you yourself as a Soul are part of. I am all and all is me, and within. (2:54). And in a way, because of me being within, I'm in of all. I interact with everything, and when it is within me, it's the same.

In the next sessions, as step by step, the elevation of the physicality of the Soul of the Messengers comes, you'll find out as much as you are getting ready, they're getting ready, and the whole structure.

Not only humanity, but the universe and Unicose comes to move in the new direction. What you do, you're not aware of, in these sessions, is, you just don't connect with the STP of the Prophets. At the same time, as your Soul is dynamic, it covers every direction of the fields of the universe as a sphere, you have already interacted with the Soul of the created things in other dimensions and the other strengths without you knowing it. Again that dog whistle. And this is what the process is, and that's what we are.

Any other question?

Q: .. Where or how to see the light? I have experienced not in the eyes, but golden and warm light radiating in and from my chest and out into my arms and around me. Is that the right light?

K- Who says? Is this the position where the STP and the STM comes in? (2:56). When we spoke of it before, you hold your hand out and you see the light, you can create a light in it. The hand is the STP and the STM when it interacts in that position creates the light. Maybe you have managed to reach that point.

When you see a golden light it's a pure light. It's a Soul interaction in the dimension of the man. And your heart is part of that process where the interaction of the fields come. The emotion sits within the heart, and the physicality sits in the hand.

Years ago by one of the Knowledge Seekers, I was told that every time they see my aura is only gold color, they don't see anything else. And I said, you don't know deep enough. Because they should see their own Soul as a gold color too. Then you understand more about the process of Creation and elevation of the knowledge.

Any other question?

Q: Irmgard continues, when my memory does not work right, is that because a part of me has resistance? Or if I have trouble with the computer, (2:58). or phone to connect to special sessions, or I don't wake at the right time or sleep through it?

K- That's the dimension of physicality. We've got a little bit ?? .

Man has to realize more and more he lives two lives. One in dimension of physicality, and one in dimension of the universe. Do you need to wake up to listen to the teaching? Or do you connect to the soul of the knowledge during the teaching?

The universal people don't have a radio, or a mobile phone to listen, but they gain the knowledge through the spirit of the elevation, sharing. And I said that many times before, when we teach we teach for the universe, not just for man. Man looks at his physical side, the teaching of the Soul which goes, reaches their Soul.

When I accepted this at the age of 40, I knew the challenges in the physical dimension. The prosecutions, the pressures and everything else. But it was worth, because I achieved

everything in the physical life man could achieve. And then at that point to you become detached.

A Knowledge Seeker wrote to me this morning, you know this is costing so much and I look a few hundred dollars, we put in billions, we put the lifetime of thousands of years. Then we see the separation and the value of the man. (3:00). And you understand you will have to live both sides of the fence, one as a man, and one as a teacher.

In the time to come, some of you, some of your Souls will reach that position and become the teachers. Then what you went through as a cycle of the man will be ingrained in it, you understand how to handle the citizens of the universe who come to that point. When you comes across them, to bring into them the understanding of the Totality.

Teaching never stops, and a cycle of the evolution of the fields of the Creator to create new life will never stop, it's impossibilities. And in that process, there's always a need for teachers. Then, do you choose to be a nursery teacher? Or do you choose to be a professor in the University and the graduation of the race? Then you decide, I speak to them in the language of the "dudu-gaga," or I speak to them in algebraic numbers, and figures, and philosophy. You try to teach "gogu gaga" to a toddler, you have as much success as you have teaching a cat to do something else.

This is the beauty of understanding, and how much you understand is the next level of what you call, progressive evaluation, and elevation. And the beauty of it is, we are, and I keep on telling, till one day you all understand, we are not a religion, (3:02). we are not another Prophet. We're here to show the prophecies, what we made and done, that brings no hypocrisy in understanding the Totality.

In these systems we have, you can create these fields, the strength of the Soul of any of the Prophets of the past. And because you created you come in touch with them, and you can see them, you can understand them. And then you can ask them the questions, "Why did you do that?" Did you need the Soul of Mrs. so and so in Sidney, that was just about the right strength to bring you to the tipping point, that you could now tell your followers, don't kill? Put your crowns, fake crowns down and become like the others.

None of you knows at what point which one of your Souls creates that tipping point, or what we call, level for elevation of the physical soul or Spirit of the Messengers of the past, then in tipping they change the others.

The Jews have been banging their head against the wall for how many, Great Walls, how many years? How much Muslims have circled around the Black Stone? And it is as black as their heart. And the rest of it. How many of Christians have done the pilgrimage, walk from one place to another in southern France, and northern Spain and they never pilgrimage anywhere. (3:04). You need to do that in your Soul and then you find it.

And now there are technologies which shows you what it is, how it is. We can measure it, we can see it. Then it becomes out of theology, it becomes the science, it becomes the

knowledge. And knowledge brings elevation. And that's what we do. We created through a system the strength that you could interact with the Soul of the Creator at a given time instantaneously, all of you in one go.

We didn't see the Soul of Rick above the others or below the others during the time of interaction with the Soul of the Creator. It was part of all of the same. And that's what the man will learn. Be humble to be the same, and then you become humble enough to understand you don't actually know nothing compared to the Knowledge of the Creation.

Any other question?

Q: Dean .. So you've gone in very deep today, you've touched the Soul aspect. And for many people that... I've contacted a few people this week, and I know many, many of them, it will be brand new information. So that'll be on a physical level, and they are in a world that's in, (3:06). I don't want to go into great detail about the conditions that have been created, or are present in the moment. However, they are unaware of it. So on a Soul level, we know that they've touched this knowledge and they received the field strength. How, where's the knowledge, where is the Foundation in its present moment we've been able to bring this to the masses, so that the whole planet receives, it starts to interact with this knowledge?

K- The Soul of every man on this planet has come in touch with the knowledge. Because once you share it unconditionally it's received. The physicality is, the STP is another dimension of life, which is here.

And I always said, it took a few hundred years for Christ to find a number of followers who understood his Spirit, Soul. Because he didn't take a sword in his hand. It took a few years with the sword and killing for Mohammed. Even though it was a fake life, people still has the statues in the back garden they where they're praying to. And we saw the same with Moses, and we still see the same with the Buddhists.

But in teaching of the technology, physically we see millions of followers in very short time. But as soul wise, we have reached the totality of the STM. So, does it matter if CNN decides, (3:08). or BBC decides to talk or show about the Keshe Foundation ?? We are that ?? coal which burns inside underneath. When the fire will come, it's irrelevant.

Q: I've noticed Mr. Keshe many interactions. I've got many Gans's, and many, as you know, tools I've developed and done through your teachings, and they're all present with me. And I've noticed interactions here in my emotions or my conditions around me have a direct influence, in very small things sometimes. But when you interact on the next level, the small things you notice. And I know that this then escalates up.

And so, the planet itself, is this still deeply connected to the consciousness of mankind and reacting to its, the way its contributing to the field strength at the moment? Does the planet feel this?

K- What did you mean?

Q: Is the planet vibrating? Is the planet aware of mankind's intentions?

K- Something I've said before, and maybe some of you heard before, and some of you don't. You have linked in a specific way the whole of the planet together, as Knowledge Seekers. It's done in a very subtle way, but it's done in a connection with all of you in both dimensions, (3:10). physical and the Soul level, or emotion.

And that is, we mine a copper, let's say, in Iran. This copper is sold in the international market. It's the same tonnage. It goes, let's say, to China. Chinese have made things from it, bars from it, whatever. And these have been sold across this planet in every country in the world. Some of this has been changed into sheets and wires, and whatever. Some of them other things in another country's, but from the same mine.

And you Knowledge Seekers in different parts of the world have bought part of it, and you made Gans's of it. And you have it in bottles, and you have it in MaGravs, you have it in all sorts of shapes and forms. So, all of you in one way or another are all connected to each other now, which you did not, you were not aware of. Because, once you interacted, understanding that matter state still as a plasma state, as an atom. (3:12). So, in a way, by getting you to make the Gans of CO₂, the Gans of Zinc, the Gans of Cu, we have made that interaction of you lot together, with the Cu in dimension of P, with the Zinc in the dimension of the emotion and Soul.

So, maybe for the first time, you understand, you lot, you're all connected to each other. The Zinc from Zimbabwe, or South Africa, or somewhere else, has traveled the whole planet and in different parts. And some of you have bought different things, and some of you didn't have the money to buy the Zinc plates, you couldn't get hold of it, or the copper wire you couldn't get hold of. You stripped the wire from the cables of your lamp or whatever, which we know many people did. And it came back from the same source 20 years ago, 50 years ago.

So, without you knowing, we have connected you all together in a field strength. Now, it's for you to become aware of this connection. And for us is to tap into this connection. And we have started tapping into it.

Q: Mr. Keshe, many Knowledge Seekers, we say we're all connected now. So, many Soul of Knowledge Seekers will have many different emotional experiences? And some will be experiencing something on a, on the Soul level and interacting on that level. And some will still be having the you know, the STP, they will still be having interactions there. And so when we all connect, (3:14). are we receiving emotions from others that are from the physicality as well as a Soul dimension?

K- Yes, of course you do. You bought the copper wire, you bought the Zinc plate, what do you expect? You made ?? Of course. You see, I walked you into it, and I walked you all the way around it without you noticing it. I have connected you with everyone in ??

the stream. You all bought and you all made Gans's. Without knowing contaminated the love amongst all of you with each other. Now you understand?

K- Yes, Mr. Keshe. So this process, what does it mean? Where is the point? We know we want, to going to elevate the humanity. We know...

K- You don't elevate humanity, you enlighten the humanity.

Q: We're going to enlighten humanity, okay.

K- It's a big difference. They understand, when you make it to understand. When you make it available. When you gift it and the gift is accepted.

Q: And is that . That gift Mr. Keshe, is that received by all, at once?

K- It's available, it's available. (3:16). You made the Gans's. You made the Gans's with the intention to help my pain. You made the Gans's and you spread around the city, in the lakes and the rivers. You made it available to your physicality, to the STP, you made it available to the rest of the people. It's them, if they're going to take or not. You can't force it, but it's available if they want to take.

The cycle, what we try to do this afternoon in a very more powerful way, by bringing one of the Knowledge Seekers into Linz, is not going to happen. We know, the chance of it is maybe 5% - 10%. It's developing the full spectrum of the knowledge, that our system and our technology allows our Knowledge Seekers, who are building it to understand, to go to the next step.

It's a very strange, I sit and look. All the pieces of the jigsaw are on the table in the lab, for man to meet the Soul of the Creator. But our Knowledge Seekers have not evolved to understand it. So, we are moving pieces here, pieces there, they see a result, then we go to the next step. Because it's important for them to comprehend. And then we can go to the next step. (3:18). The evolution in the knowledge is vast. What we achieved with our Knowledge Seekers in the lab, it will take tens of years for the most clever professors in the most advanced physics universities to understand. But they (are) understood by the layman. By the man who has no knowledge. But he got enlightened step by step. He's never even been in the world of physics, and they're building the most advanced space technology of the universe. It's amazing when I look to our lab.

We have one man who is knowledgeable, understands, and it took a time for the others, and gradually they're getting enlightened to the understanding of the work of the Universe. It's amazing how the processes is, how it's developing.

Q: Being that close to the core Mr. Keshe, those Souls that are present there, how are they responding to that?

K- What do you mean?

Q: Those Souls must be very pure Souls to be able to be that close to the core...

K- I have a very bad habit, has been with me for a long, long time. A very good habit. I'm not a lonely drinker, as you call it in English. I always go with the friends. And you know the English habit, you always get with your friends, pub, have the same friends in the same pub, or you go to another pub afterwards. We come with these Souls. We came with these Souls. (3:20).

Q: These Souls Mr. Keshe, that are present and here with you, helping to elevate, enlighten humanity. They become the teachers that move across and teach in other places?

K- You see, we come with the Souls, but sometimes the Souls get too much entangled in the Spirit, and the life of physicality (P), and we see them disappearing in the dimension of P, but the Soul stays for the next cycle.

This is the way the life is, and life of, progressive life comes from. We come with the Souls. And I always said, it's never "I", it's what we do, it's a ?? few of us come. It's a mission. It's something, each one comes, does his part, and goes away, and does another part, and the next one comes. But the cycle of delivering comes with the specific Souls we have come with. They're the technicians, these are the people who know how to deliver. And each one has got his own work in his own pattern.

And a point will come that they complete their work, and the Soul of knowledge and work will ?? be the Spirit of the life. And you see the man back in again. I've seen that in many, many ?? of them. I know when the Soul has left, I know where I deal with is the man. It's the progressive development. (3:22). And that's all it is.

You know when you build a house, you get the plumber, you get the bricklayer, the bricklayer comes and does the brick work, and when he's finished, even though he's a friend, he lives next door, he is still a brick layer, but his job is finished. And then you get a friend, whose another next door neighbor is a plumber he comes. When he's done plumbing he's finished, it's no use ?? because ?? he did the plumbing. You understand? And this is how it is. We came well equipped this time. Well, well equipped.

Q: So the situation that we have, again, I go back to the physical side with the conditions that are happening. The enlightenment of the Souls of the KS is collectively bringing a position that the conditions will elevate across this planet?

K- Yes, it's not this planet anymore. We're dealing with the plasma, so it's universal.

Up to now, Muhammad could speak to what as many people as could hear his voice. So did ?? whoever heard and went and said to somebody else what they heard. And it became a "Chinese whisper." Koran is written 40 years after Muhammad. Some of it is from the first people who heard the voice, and some of it is from ?? Hadees, which was said to be.

This time is with the Soul. When you speak all the Souls hear the message, (3:24). right across the universe. There is no "Chinese whispers" in the middle. It depends what you decide to hear, and what you decide to whisper. It's as simple as that.

There is no more, only people who are here as Knowledge Seekers, gain the knowledge of today. Every being on this planet, at the level of the Soul has heard the message. And every being beyond this planet, because it's added to knowledge of the center, what I explained. So now it's the knowledge, and anybody can access it.

And the Messengers of the future, teachers of the future, will show people, or creatures where that reference for this knowledge is. Then they don't need to be Chinese whispering. You want it, it's at this strength such a thing, you can. It's like me teaching you, telling you about shouting, and telling you about crying, and then me teaching you how to create that emotion inside you, that makes you to tear and shows you are crying. You have to create that emotion to create that tear.

Q: So will .. if this is taking place, if this is the position now, has anybody come forward and has this field strength, this knowledge, this ability to tap in and be part of it. So anybody can raise themselves and become more, become part of the beauty instead of... (3:26).

K- Of course, it's just that how you decide, what you decide.

Q: Collectively or singular, Mr. Keshe?

K- Either way. You cannot force everyone to be what you are, otherwise Creator would have created one race, and it would have been all the same, copy machines in the rest of the universe. Diversity and the choice of diversity is the beauty of the Creation.

You're British, you're brought up with the fish and chips on Sunday lunch. You come to Austria, nobody eats fish and chips the way you do. And nobody ?? the way English do. But you're still an English man in New York, as you call it. Has it changed you? Or have you managed to show the beauty of a Sunday lunch with the roast to those who are in Austria, and they had a taste of it? Would they choose to have a Sunday lunch again for themselves the same as British do? But would they make it the way you do, and not to their flavor? You understand? It's the same.

You bring it and they add their own flavor to it. But in essence it's still a Sunday lunch. When we were deciding to do the February session, Dining with the Creator, I said, no, Friday's a very difficult time, people are working. Sundays most of the places in the Western world, not necessarily in the Islamic world, take a Sunday off. But the majority of the nations take a Sunday off. (3:28). Even some Islamic nations close on Sunday. So it's a good time to bring people together and put together, and let them eat at peace and gain the knowledge with peace. The February session is one of the colorful ones in knowledge and science for you lot.

Q: Mr. Keshe. So I wasn't a participant in the last one on the 20th. However, I did have an experience, I don't know if you want me to speak about that. But I did, I definitely felt I ?? let down when it was taking place. And I connected my thoughts and intentions. I felt, I had many experiences with, seemed like images and multi dimensional things coming into my thoughts, intentions, into my .. on Soul level eye, not on the physical eye. Then I had physical interactions on my body where I had the same interactions I had when I was a participant. In fact it seemed to be more intense. And I wasn't connected to it with headphones or anything. This time, I was just myself as a human being just ?? let there.

But I still definitely felt it and it was very powerful. It felt very, very connected. And the Soul connected, but I know the STP needed to catch up, because it tended to, at times, you know, when you completely blank out, or become unconscious, I suppose. And then there are times when I came back, I was very, very conscious. (3:30). And part of it. So it was an interesting experience, that's for sure.

K- Oh, yeah. It's just, once you connect you establish. If you know your way you can always connect.

I'm like a little child knowing he's going get a new toy, waiting for it to arrive and knows exactly how he's going to do it. I played with it before, now I want to know if this one toy is the same as the toy I played with before. And that toy is there for this afternoon. Transmutation and transportation has been a life of millions of years, but now we'll see if this version of it works today for the humans.

Is the excitement the same? Is the maturity of the people who are doing it is the same as the past? I was last night thinking, it is just a strange way of thinking things. But, we come with the Souls, or you've done things the same before they know. You're just going to see if it's as good as before, or this time there's an improvement on it. And waiting for that toy to see if it's upgraded compared to the past. Where the last one was made millions of years ago somewhere else, and the upgrade version for human is the same as we done before somewhere else. (3:32).

This one is delivering what it's supposed to, because last time it wasn't done the right way, it was done. So we learn from it, redesigned and done the way, that the users can use it, with the right manual. It's interesting how, what we see with the new toy. I've seen it, I watched it being put together, developed and done the whole understanding. Now you see the toy to play.

If the system goes to what it is, what's supposed to do, whoa, you lot will got an amazing February dining session. Don't forget, I hide something in the 16th. And on the 19th of February (December ??) session, on Monday. If you look at it, it's the pattern of what we are doing in January, February, March and the rest of it. Addiction, we served the food, and other parts. We traveled.

So, what we set up, is what is coming up. Some of you who had the experience ?? were there. And what will be next? As a Knowledge Seeker said, I felt the mango, I tasted it, I

felt the digestion of it in my system, and I felt, not consuming it, digesting it. (3:34). And let's see what brings today, and in the future days.

Q: Yeah, I've experienced that myself Mr. Keshe with this, with the feed in. So yeah, I understand it. I have moments where I suddenly feel very hungry and eat. It's changed, my appetite has changed. It's very strange.

K- You're eating from Gans's, in a way, without knowing.

Q: I think, maybe. Yeah.

K- In the test of the 19th we did a lot of things in the background to see the interactions. When you come to these sessions like the 20th, I stay fully alert in and operating, and monitoring with our team back in the labs, or back anywhere else, to monitor things. To see what is the outcome, what's the physicality ??, what's the behavior of the man, a collective man.

Don't forget, on the 20th we had over 100 races, nationalities and religions. So, it was a best mixture we could get. In the future, you will have more of. We had 4 "Passengers of the Universe" with us on Friday's session. And you could see them jumping. It's part of the structure. (3:36). We gradually in the sessions to come, when we have more of the Passenger of the Universe with us. The behavior changes towards Man as well. There was no respect for Man before we started to teach. Now man will be respected for the love of the Creator. As he stops all his violence.

Q: I wish for that Mr. Keshe. Thank you very much Mr. Keshe.

K- I don't wish, I know. I don't wish, I know. We'll see what time, how it comes.

Q: Thank you for your beauty, Mr. Keshe. Thank you very much for taking my question.

K- I would hope I'll see you next week.

Q: Yeah, you will do. Thank you Mr. Keshe.

K- Any other question, or shall we call it the day? It's nearly twelve o'clock, twelve thirty seven.

R: .. Some quick questions maybe you could answer.

Q: .. Can only ash natural Nano coating work for MaGrav power unit? So, can they use the natural ash in the Nano coating process?

K- They can use anything they like. You can use anything you like. You just create different strength of layers, compactness of them all, what you call, a space gap between them. That's all. It's the same copper.

Any other question? (3:38).

Q: .. Is smoking tobacco a bad thing?

K- Depends on. What does it do to you? One day I will teach, I will explain about the smoking, and it's interaction with the STM. Knowing that the STM sits just on the back of your throat, closer to than your stomach and your heart. What do you do, what energies do you give to your Soul on a continuous basis when you smoke. And then, is the smoking a psychosomatic condition? One day I'll teach about this, because we have to do it. And then we'll see if anybody touches it. And ?? why would with certain Gans's combination man stops smoke.

R: Ok, very good. We look forward for that.

Q: How does one measure the strength of a plasma in a rotating ping pong ball?

K- You buy a machine. Or you create another plasma rotating, or solid position, to see what condition, what outcome you get, and you start charting it. (3:40). You have to learn two things. Up to now all the measuring tools we have is a matter state. The Knowledge Seekers in the future time, they have to develop technologies, which measures the true field of the plasma, not in the matter state, by using plasma itself.

Should we call it the day?

R: I was just going to say, so do we have any equipment, measuring equipment nowadays to do that, or is that for the future?

K- It's for the future. At the moment we have developed certain numbers, the initial one which we set out in a specific way to do in a matter state. It took two years to develop. .. One of the best ways for you to understand how to make measurement tools for plasma is, use one reference. And for example, make the simplest one, because you're an observer of an event.

For example make a Gans of CO₂, a large amount of it, in one go. And keep it totally isolated from any interaction, in a given position. And when you want to measure, take a sample of it, put it in the glass and put it near another Gans. (3:42). And see how it changes color, how it changes the space gap. If you are precise enough, then you start building measurement tools by the interaction of the fields of Gans's. And you have a solid, completely, always the same reference point in the Gans. Does the color changes, does the space gap changes, does the other side changes color, because now it's giving?

In time it will be made. It's just like, you know, when you go for a driving test, and they test you for alcohol, they have a measure of, this much alcohol creates such a noise or such a thing. You will establish such a thing with Gans's, the interaction of the Gans's.

Any other question? Or shall we call it the day?

Please, those of you who look at the Keshe Foundation website. We try to get it up today, regarding the Compact Units, regarding the Head Units, and regarding the Gans's. And those of you who have wellness problems and go back, we'll keep the lines, we monitor all of it. It doesn't matter what condition you suffer from. We received instructions for cooperation to accept. Because it adds to our knowledge for the future. And our acceptance that we send this to the doctors for them to analyze. But make sure before you do, everything is there done, that we don't need to come back, and, (3:44). "oh, I cannot do this." You do your part, we have already got the agreement with ?? your part. How many cases? I can't tell you. Maybe 10, maybe 50, maybe 100, maybe two. But we try to bring a position that it can be reached by those of you who need, who want and can do.

Thank you very much. And we'll see you next week. We might have a surprise for you next week, and we'll see how it goes. Thank you very much Rick.

R: Okay, thank you Mr. Keshe. You always have surprises for us. So, we look forward to it.

K- Let's see what happens.
