

484th Knowledge Seekers Workshop May 4 2023

(Transcription, Proofing done)

(Auto transcription by Elias)

Collective call of Soul; Balance STP; Earth effects rest U; Gans Gas mass delivery through government; Breathe air elevate Soul whole planet all animals; Change has started; Gans Gas will ingrain STP and DNA - permanent; Deuterium Gans; Liquidity - Water on Earth allows plasma to flow - create life with consciousness & emotion; AA creation of life anywhere in U; Fish became Man - many races; May Session end Child abuse; Create fields MaGrav; Gans in construction; Feed through eyes

ENGLISH TRANSCRIPTION

(:10).

K- Yes, good morning and good day to you, as usual whenever and wherever you listen Knowledge Seekers of the Keshe Foundation Spaceship Institute, we welcome you back as usual to add to the knowledge and learn from each other. Today's teaching is mainly on the basis of what we heard on the Intro. When do we recognize that we are listening to the call of our Soul, and when do we consider that the call we hear is a collective call? When we do something for ourselves and when we do something for other Souls.

As we discussed last week and last times, we think we are in charge of, we think we plan everything, but we find out, in-between the Soul does its job. You use the physicality (P) to do, to get work for other Souls. We never known the chap, but we crash into his car during the lunch time as we said, and then we find out why, the guy was actually in the with a mistress which was cheating on the wife, and this way he had to found out, that the wife finds out and the rest of it. (:12).

In a way, the accident was part of it that you decided to go to work. The other part of it is, that the collective Souls set for the dimension (D) that the Soul of Physicality (STP) of the man, or whatever, comes to the point of what we call the judgment, the point of the whole thing to open up, that the Soul of the wife which is aware of the misconduct of the physicality (P) of the husband gets the P of the wife to know, and then we know the rest of the stories.

So as we see we are partially working in the way under the banner of planning us, working 9 to 5, but the Souls in setting up what it has to be done, set up the rest. So we see that we actually live in both dimensions. We actually have this problem that we live 9 to 5, but at the same time we serve the Souls of the others, to free the Soul of somebody else to become aware of P of misconduct of the other, through whatever it comes. This is what we call, "accidentally." Eventually we find out there are no accidents. We have to distinguish between the work of the Soul, and the work of the P, and where one ends up with the other, or when do they work together to bring to man, to a point.

This is what is happening today, (:14). every man has lived through the birth of one way or another, and now collectively the human race is coming to the point that all Souls are becoming educated to reach to the point that the Man gains the knowledge to travel the depth of the Universe (U) through the energy of the Soul of the Man (STM). This is where most of Knowledge Seekers (KS) and most of the humanity have been blocked, have not understood. Have not come to understand that in one way we all run our 7, now 8 billion physical lives, but collectively our Souls work to organize everything for all the Souls to reach the point of maturity.

This is where the new manifestation of understanding and knowledge will arise. Where the Man will become mature to understand, not only I live a life of me here, but I live through my Soul the life of connection to the rest of the creatures of this planet. Somebody kicked the dog, and needs to be straightened because the Soul wasn't happy what the P did. So get somebody from another point of the world to turn up and kick the guy to understand that you kicked the dog, see how you feels.

So if you understand this, then Man collectively becomes one when they live the life of Mitra, to talk good, to think good, and to act good. Which means none of us makes a mistake, (:16). that for the others to be setup to. And so the Soul of the humanity, the Soul of the living life of this planet will move in one direction, in one process. To get to that point we need to create a condition that all physicality's live a correct life. A life without hunger, a life without pain, a life without poverty of the minimum, does not matter what we call, minimum.

This is the responsibility of the world leaders to bring humanity to that point. And this is why in the call to raise the Soul of the world leaders we brought you to that point. This is our call, this is the revolution and what I call, control of your Soul with us to understand what we need. To what extent would we go to produce this condition. To what extent would we go collectively to create that condition, that it is not me anymore, it's us, but us is the Soul of the Totality of the race of the man, the cat, the dog and every living things on this planet.

Then it comes if this is the case what happens to the Soul of the planet Earth in the conjunction and interaction with the other Souls. When we do good, we act good, we live good, then what does that will do in connection to the rest of the creations of the Creator? Now you see, now you understand the behavior of the totality of the Man, (:18). or living things on this planet has effects on other Souls in the U. When you do wrong then another star has to get the kick, and the galaxy has to kick it, and then it comes another galaxy kicking that galaxy and the Soul, if you understand the proportion and scale of the work. Then you understand when you have one brick set wrong the whole wall will be twisted and twinkled, and that little brick, which has gone wrong and has created too much twinkling, and bending on the wall of the Creator, is the creation of Man. This is why you all had these Prophets trying to get you sorted. Trying to get you to understand. Trying to educate you to live the path of Mitra, that the "wall of the Creation' stands straight. The wall of Creation stands correct. (... 1 sec please ..)

Then, then we understand, then we come of understanding, it's not anymore me, it's not anymore the Soul of me, it's not anymore me as one man. It's the Soul of the Creation and created on this planet as a totality of the life. Then we stand responsible to create the next generation of Man with the right conduct, (:20). that the wall stands straight from here to the Creator.

Maybe some of you will come to understand why we create all these technologies, to create food, to get rid of your pain, to create energy, to create everything else for you. Because this is the beginning of the cycle. This is the beginning of creating comfort for all created, that the life of the Man does not need to do wrong. And everyone in every shape or form, and even the dog and the cat, will live the life through the Soul, the life of Mitra.

Because man is physical, and as I said, when we come this time, we correct everything in one go. We cannot just say to do good, we cannot say just to don't do a crime. When we create the condition that you cannot feed your child. When we create the condition that you see all the wrongs. And then you have to find a way, and with the class difference, with the race difference man has created pushes one society or other in a direction just to survive, with it comes the rest of the criminality, and the rest of it. Why the majority of the crimes according to the statistic's on the prisons of the US are blacks? Because the society marginalizes them from the beginning, brought them in as a slave, but not as equal, and to change the what we call, the "rednecks" to understand that there is no difference in their blood, than the black man, and in a way they owe the life they have to them, that they build ?? a sanction of US, then we don't have this problem. (:22).

Now the time comes when the knowledge and the T we will deliver does not know any race, color, religion, or whatever. When we produce a MaGrav, when we produce the Enhancement systems we don't ask you if your color is black, yellow or white. When we teach, when we bring the knowledge I have never asked any of you in the past 20 years of teaching and promotion of the life on this planet to be equal and peaceful, are you black, are you white, are you rich, are you poor, do you have blue eyes, or do you have brown eyes. Are you Jewish, are you Muslim. My knowledge, my love has been freely given to all of you as a knowledge that we, with that knowledge, with understand how it, then you learn to give unconditionally. This is the gift which we bring. This is the way we bring, this that, it becomes the style the way of life for mankind.

With it we bring the T to teach you how to make the energy, how to feed yourself with the Gans's, that in the bigger D, then the world leaders bring Man to that point that everyone gets what they need. Where the monetary value has no value anymore. We teach the governments and we teach the citizens. Where the government fails the citizens fix. Where the citizens fail the government fixes, and this is the way it will come.

In the coming weeks, and months and years you will see the change, (:24). the evolution in the STM. Where by the time I finish no child on this planet will sleep hungry. This is the promise we gave and we keep to that promise. And you've seen the beginning of the evolution of it. You have a headphones, you carry the D of the Soul, I can reach you with

the food and the medicine, that you feel no hunger. The T sits within the framework of the KF in Linz. No child needs to go to sleep. No parents need to worry, if I can feed my child that will not go to sleep hungry. Where this is the mobile phone, just put the headset on. We feed the Soul. The Soul learns the equality, the Soul learns the peaceful to go to sleep. The Soul wakes up peaceful in the D of P, and this will change the course of humanity.

In that process we change everything step by step. Even no dog shall go hungry. No lion will kill, as the ?? limbs of ?? equality, of the noose of hunger will not be there in soul of the animal. Where we feed it with the satellites. When today when a satellite flies overhead, does it matter if you carry an "Apple" or god knows, Sony, or whatever telephone. It takes from one and gives the message to the other. (:26). This is how we planned it, and this is how with D of T man, will have a lot to create for itself, to bring to that position, that this will be the same.

It will take me 1 second to make all of you to walk away from religions. And the systems are there. Man has created systems for people like us with knowledge of U to touch every Soul. But what's going to happen if it is not ingrained in the STP of the man? You as KS in coming weeks and months you will see an evolution in the cycle of the life of the man, where we'll reach most of you. Where we'll change the D of the needs of the man, wanting peace, wanting to live a peaceful life, becomes the norm of the life. Where everything is provided.

It's not just to change the man. We have to change the mentality of the governing bodies of this planet the same. We have to create jobs that people don't do anything wrong, we have to keep them busy. Where the governments have to think, we have to create the conditions of comfort. We have to create the conditions of the maturity and wealth in the feeding of the STM, that man can walk the streets for months and years, can go from one nation to another in 1 second, and still be peaceful. (:28).

In my travels through the Universe I have never seen factories, sweat shops, refineries, the jails and the courts, except on the planet of man. Which has made himself all this mess to confirm the existence and hierarchy and control of one over the other. I wonder when we put Man on the UFOs the size of this planet, as man has seen many coming from other corners of the Universe, would we find sweat shops in there, and would we find the slaves? Would we find difference between the races? Who could took these people from that galaxy and that planet, they are lower than us, the class difference, the education difference? Or are they all given knowledge, and the information and the food of the Soul? And in a way they just pass time. Have you ever seen a UFO landing and suddenly everybody coming out and opening shops, that you go and buy, oh, I have this from that planet, or I have that from that galaxy? Man who keeps on claiming being in touch with the aliens, how much has he alienated himself with the lack of knowledge of himself. Now we understand.

As we say in English, if you were there in the seventies and eighties, why do the Pakistanis never get to the final of the World Cup? Because every time they get a corner,

they open a shop. (:30). Would the Man travel the space in their new flight systems, and as soon as they get to the Mars and other planets, open shop? One sells clothes, one sells television, one sells God knows what. Do the citizens of the Universe needs the rubbish Man has busied himself with?

How many of you claim, how many nations claim, over centuries and thousands of years, they have seen these flying sources, they've landed, they come and go? But how many of you have seen aliens market? Opens every Sunday at 6 o'clock and closes at 12 when the church bell rings. Now you understand how the life of the Man has been entangled in a mess of what they call, slavery to physicality.

We teach you, on the other hand, we open the doors to the governments to create without them knowing the condition for the change, to bring in the position of the conversion. We teach you how, and we give you why, the gas units. We give the same gas unit production to the governments to run their power stations and sell the gas to you. But there is a difference between the gas we produce through the Gans system, and the gas you get from the depth of the planet. (:32). The gas we produce touches the energies of the STM. Whoever touches the gas, finds peace, finds elevation of knowledge, finds the process of.

I cannot sell one trillion, one billion gas units, but I can get the governments to create the gas stations, to feed it down the pipelines, to get to you and through electricity to you. We change Man without the Man knowing. We correct the behavior of the Man without the Man knowing. Now you understand how deep our work is.

Do you remember, if you work with the Gans's we told you to inhale? And if you inhale the right combination, it helped you with your Corona, with the virus. Killing and destroying your life, is the habit of the Man, is a virus. I cannot sell a Gans unit to every single house. But I can get nations to pipe it down the lines, and to mass deliver it, that no citizens of this city, which uses "Gans gas" as a part of the energy of the burning in the house and electricity, will do no crime. It's easier to get the governments to change, than loads of men to change. Where without them knowing, we deliver the totality.

In the coming time you'll hear, (:34). in the industrialization of the technology, we have cities that there is a zero crime. Find the mayor, give him a prize. He has found somewhere that there is no crime. Yes. Find the Keshe Foundation, which has put a gas producer's station in the town and is changing the STM. We have our own ways to deliver, and we still play hard to get. Because if we play easy to get, then they see us as a fool. And it goes back to the habit of the past. We know Man well, and we play the game of the Man, be it from his leader to the street cleaner.

Now you understand what is set for humanity to come, and we have started that process. With this way we touch the life of every Man. Because when that gas burns to produce that electricity, when that gas burns to cook for you in the house, the Gans's energy that you inhale cooking over, change you from hating your husband to loving him. Finding the life difficult, you'll find pleasure in living. People with anxiety in the city, now cover

the same. Don't forget we said, all the time, one atom of Hydrogen can cover the Universe.

The change, the process of the manifestation, elevation of the STM in Totality has started. (:36). But we're still there to make a little patches there, and something else there, to keep you busy, to educate Man, to find a way to the governments that it changes the inner structure of the life on this Planet. And then it changes, it ingrains in the Soul and the dimension of STP, and what we call DNA and RNA of the Man. We know our game. We know how to achieve.

Very soon you hear cities which are fed and supplied by Gans gas from Keshe Foundation. And the governments have the majority of it. Yes, we know, we understand, we play the fool. But the cities become the example. We shall not see crime in them. We shall not see no child going hungry in them. We shall not see no one sick again the way they've been. And then they look for a question. What did this happened? Nothing. The knowledge of the Creator to the hand of the Man through the governments has set to do. And then they become examples.

As many of you know, today El Salvador is in that position. The president of El Salvador has become unique creature. He has managed to make prison. He's put 65,000 people in prison, all the criminals, and the crime rate has died. And he's found a solution. He has not elevated the STM. He has entrapped and imprisoned the physicality of the Man. These men, when they break out, and he hasn't solved the problem. (:38).

As I said to the ambassador, give the prisoners to me. And these lot will never commit a crime. We'll give them to cook in prison with the gas Gans, where the Soul education comes in, where the elevation of the STM comes in, and then when the Man finds Peace. You imprisoned the physicality of the Man, I freed the STM that will never imprison the physicality. This is the dimension which now we have created for the world leaders to walk into, thinking they do well for their nations, when in fact, they carry our wishes. They carry the way we want things to be done. The way it will change and ingrain in the STM, in the DNA of the Man, in the RNA of the Man, without the Man knowing.

How many of you, we have taught about the Gans's and MaGravs, and how many of you have made it the wrong way, created the wrong energy, and, you're still in the same mess. Mr. Keshe, my MaGrav doesn't work. Your system is wrong. But, the Soul of the fields of the Universe, through the MaGravs which don't work, has already reached you. Now you understand. We know our way. We know the way. We have to work on the level of individuality, and work with the level of the government.

We have to change the air the Man breathes on this planet, (:40). that he shall not commit a crime. And how can you reach the air of this planet, except through the gases? Except through the gases which blow the planet and the Man breathes. We throw the Gans's in production into the rivers, and we covered the "Soul of this Planet" with Gans's.

Isn't this the way, those of you who came to us, in different part of the world, and from different part of the world, I gave you three cups. One cup to inhale, one cup to drink, and one cup to wash the body with. Or, make it as a unit to attach to physicality. Now, in a bigger scale, we have started the change, for what this Planet brought short to Man, that made Man to live, create the condition of criminality and injustice. We... you are happy with the Gans gas. I am happy with you to burn, to change the air of this Planet. That what is breath by the cat and the dog, brings and elevates them to the same as the Man does. You are happy with the free energy of the Gas, I am happy that I change with the release of the gas Gans, the elevation of the plants, and the animals and the rest. When the Creator works, he knows how to get the Man going.

In the next few weeks, (:42). one of the first cities on this planet working with the gas Gans will go into operation, maybe in six months from now. And then we watch the behavior, the social structure, the way the citizens of the city will change. In another city we start the gas Gans power generators. That will be much easier than you're burning the gas, because they burn it for you in thousands of gallons and liters to give you the electricity. And you find the same with the citizens of that city.

We have started the process. And the world leaders have taken the bite. They are happy that they'll have independent free energy, and we are happy that we get what we want. In burning the gas, they produce waters which is embedded within it. The structure of the elevation of the STM, when you burn the gas, you create water, and the water goes to be drank by the same Souls who breathe the gas air.

I am a master in my work, and I know how to play with an infant, and how to play with the educated man, and how walk the world leaders to do what we want, the way we want, for them to keep governing, and we keep to bring the change. Now you understand, how the world of creation will evolve in the dimension and understanding of the totality. (:44). The time for the "lion and the lamb to sleep in the same den" has come. As all will breathe from the same air as the Gans gas, and drink from the water of the burning gas. And then, as it rains on, sleep on the ground, which is saturated with the same.

Where they receive the energies, not for the dimension of physicality, but the elevation of the STM and the animal. This was promised, and the promise is fulfilled. The lion being the leaders, and the lamb the citizens. There should be no king. There shall be no one to claim the crown of kingship, as all are equal. All breathe the same air, drink the same water, and sleep on the same land that we have elevated. Instead of going within, we have walked from outside to go within, the STM. Now you understand.

Now you'll come to understand more how in the coming months and years we have changed the Man from criminality to become the lover of Mitra, to live by the ethos of the Creator. This is what the promise has been. And we have managed to get the powerful Man on this planet to bite the apple. Not knowing what they're walking their nations into. A nation of no criminality, (:46). a nation of no hunger, a nation of all equal in taking what they need from the energy of the Man.

Then they will not think about, we need employment, we need to keep people busy, as the Man in the elevation of the Soul become the traveler of the universe, and this planet will lack numbers to keep the structure of life.

If the leaders of the world do not understand what is about to come, in a very short time, less than half a century, as we see there is a restriction on how you can leave a city or a country to go to another. World leaders in a handful of decades will create a condition how even the Souls cannot leave this planet as we are depleting and we cannot keep the services to the rest of the humanity the way we want to do. As we would like to protect the life on this planet.

Man has a habit of trying to find out what's behind the next mountain. Now Man has the habit to find out what's behind the next solar system, and next galaxy, and the next universe. The Creator has never created more peculiar animal than the Man. And that has been one of the beauties of the creation. The curiosity has given extension, and the need has brought expansion.

Just think of one point. If there was one man and one woman where the life started with, and now it's eight billions of you, do not forget so many percentage every year die, (:48). and a new one comes in. How from one spot on this planet, the next village, and the next village, and the next city, and the next country was created. As the families expanded and the water resources, which was the cause of the creation of life, came to its limitation. So Man went to the next village, next spot and made his own village.

But the beauty of it is, where would Man make another village in the Universe called the village of Earth? We are travelers of the Earth, but we are not the refugees. We came to expand and created. Many of you will come, and the recording of today will become one of the cornerstones of the teachings, when you understand how we delivered what we promised. When we get the world leaders working with us, it works much faster. And when we create the condition of the position that brings peace to the world leaders, they become baffled, the way the citizens will respond.

I am a master of disguise. And in a way, we teach you. And it's for you to understand what is being taught and what is to come. When I gave the key of the knowledge to the world leaders, many of you abandoned the Keshe Foundation. You betrayed us, we were supposed to. We gave you the key. You managed to do nothing for past six, seven years, (:50). except trying to be more greedy to cheat. So we went back to the leaders, and we brought you to support the leaders, to stand through their Soul to achieve the same.

The greed, the bigger, the bigger greed shall become to greed. The greed of power has allowed us to bring the greed of peace. But for them to do it for us, then us to do it for them. And we played so hard. We are not happy with what you're giving us. ?? because we actually are taking your Soul. Forget about you installing our gas unit. We're elevating the Soul of your nation and the planet.

Because opposite to criterion of the Corona, which had a new border and nationality, and in one border in one country it was there, and the next door wasn't there, it's the first time we see nationalistic virus. This time, the air you burn will travel to the next village, and across the borders to another country. It's not there that all to be inhaled by the citizens of the city. Now you understand. With the rain, love and care from the skies of this planet through the conduct of the Man and greed of his leaders. And it'll come to the point that leaders find no reason to lead, as it's done through the STM.

In the coming time, you, and your children and grandchildren will understand the teaching of today. (:52). But till that time, you sleep well and taste the hunger of the physicality where we gave you the taste of the freedom of the STM. Tonight, 15% of the children of the most richest nation on this planet will sleep hungry in the United States, as the parents do not have the money to feed them. 3% of the children in Africa, in the poorest nation, will die, will sleep hungry. Because the Africans have learned how to walk through the jungle, pick up from the tree. And how to eat very little, the little can keep you going.

The bigger supermarkets, the better shelved, the more hungry that nation carries. Every time you go to a supermarket and see it well shelved, add up how many people cannot order it. And you see the percentage of children in that nation will sleep that hunger that night. The wealth of the Man has become the shame of the Man. And this will change.

We have set to change the course, and we have got the world leaders to bite at it. And they're so pleased that they're biting at it. And we say, yes. We are not still happy, but yes. Because we know they will deliver what we want. They will deliver the promise of the greed, the elevation of the STM through the Man himself, as then it will become ingrain within the STP.

Thank you very much for today. I hope you remember the teaching of the 4th of May, 2023. We'll go for a small break and we'll come back, and try to answer some of your questions.

<< **BREAK** >>>> 484 KSW May 4, 2023 (1:00).

K- Not really, but maybe. First of all, the list we put up last week for the last pieces of the materials donated to the Foundation was completed. Thank you very much for the donations, and thank you very much for you people, Knowledge Seekers, taking the challenge up and receiving it. We still got a few pieces of paintings left, because we can't find people who value the art.

And on the other hand, everything is good enough. And we're going through the challenges of life, of any technology like us. And hopefully for those of you who participated in the Addiction session of last Friday, do not forget that we meet on Friday the same time, 12 o'clock Central European time. And we will see what has changed for some of you. And we understand and see the testimonial of some you.

If you manage, if you reach to the Soul of you and some of you did not receive the, what we call, the balanced fields of what we're looking for, then if did any of you "kick the habit" or addiction. Be it from loving, to smoking, to drinking and everything else. So we see you as Knowledge Seekers tomorrow.

We are planning what we call, (1:02). A May session of meeting with the Creator. And this session will be announced in next couple of days as we have to complete the job, which the Foundation has got himself tied up with very what we call, willingly in the past few weeks. If there are any questions we answer, and we try to finish today in an hour or so.

Q: .. You may remember that a few weeks ago I asked a question about the black stuff that I got when I was making CH3 Gans. And, as you mentioned I put, I separated that black stuff in a jar. And I tried the magnet on it and it was pulling, the magnet was pulling the black stuff up. So, is it only Iron Oxide or does it have also Deuterium? This is my question today.

K- It could be a combination of both, but you most probably, you've got this one making CH3, if I'm correct. And this comes as part of Nano materials in the Gans form from Iron. This has a lot of use. For those of you who actually get it, this has huge use. (1:04). But, we prefer not to disclose it at the moment, because then it creates another new dimension of abuse by Knowledge Seekers. This Gans you have produced, has an implication, application, in many, many, many parts of the life of the Man and this planet.

Partially could be Deuterium, but Deuterium usually is mixed in within this Gans. And there is a method that you can separate it. And then you'll see what you have is Deuterium.

The knowledge of the technology today has reached a level that we do not need to produce the way you produce Gans's to reach the point of the energy transfer. And in the coming time, this knowledge will be shared. That you create a condition of totality and not a condition of singularity of a given field and material.

But in essence, you have a mixture of both Iron Gans and Deuterium, but there is a way that you can separate it. It's very, very... You will see the Deuterium in a darkish black, where Iron in a black, black. It's very much like when you have a Zinc and CO2 mix in the bottom. And you'll see the Zinc moving to the top and the CO2 at the bottom.

Q: .. I put it also next to the CO2 Gans, (1:06). and ZnO Gans, but nothing happened there. So, there was no change to them. No field, I didn't see any field there.

K- Yeah, but usually you get that with the CO2 and Zinc. If you have the Gans of Iron, if you had more Gans of Deuterium, you'll see that pull up, but usually it happens.

In the early years, when Knowledge Seekers started working, some Knowledge Seekers touched, but never understood, the circulation of the Gans's. And if you go back to that with circulation of Gans's, you can separate the Deuterium from Iron. That's an art. I'm sure Rick knows how to do it. Years ago, a few Knowledge Seekers touched it, and they never understood and they left it.

You have, some of you, if you go back to the old videos of the teaching, you have a central circulation and you have a vertical circulation. We've seen many people posting Gans's which they circulate, like a vortex. And we've seen knowledge seekers who have posted the Gans's going to the top and coming down. If you understand this principle fully, and you understand what it means, and you can use the two in collaboration with each other, you can do a lot of things. A lot of new knowledge will break through, but you have to understand this. (1:08). And this Gans of Iron and Deuterium is one of those cornerstones of understanding this process. I'm sure if you look at the archives on Youtube, of the people who made Gans's, or go to "Golden Age of Gans" and the rest of it, you will see these things.

Q: .. So, I got something valuable that I don't understand how to use it. So, I just keep it the way it is.

K- Till one day you'll ?? learn. I'm correct if I say you're Iranian from US or Canada?

Q: Canada, yes. My accent says that?

K- No, it's just I remember something from you.

Q: Yes, yes, good memories, good memory.

K- I am old but I still don't got Alzheimer's yet. Thank you very much.

Any other question?

Q: .. Hello, good to talk to you, Mr. Keshe. So this is actually Dirk using Nikolai's phone, and Nikolai is next to me, he's also listening in. We are currently in Mexico in the state of Michoacán, and we have a connection to the local government, to a congresswoman, to the governor, and she's very much sympathetic with creating the best possible world, which is also our mission here. And we are just looking into investing into a biofermentation plant, which essentially builds and grows bacteria that are bio stimulants to the soil and hence improves the soil's capacity to retain water and life by extension.

(1:10). And we were thinking about would it make sense to either A- switch that investment into one of the hydrogen generators or Gans generators that you were talking about today. Or having them combined with a biofermentation device. And in case that it would make sense to do that, how would we go about moving forward with buying one of those and applying it here in the state of Michoacán? That being said, this is a state of...

K- What's the scale of your work?

Q: Right now, we're talking about a prototype plant. We're looking... Like, Michoacán is one of the main food producing states in all of Mexico, and they produce a lot of this food all over the world. And they also are pretty crime-ridden here. So we're thinking it could be a really good place to start creating these fields. And we have, I think, a really, really good setup to be able to scale really rapidly the connections that we have already made. But this is still a pilot plan at this point. We're talking about probably somewhere around 25,000 - 50,000 dollars that we have to invest. It's more like a demonstration site at this point, that we can show people how it works, and then we'll get all the. We have all the networks to then scale this up to potentially, you know, very huge operation.

K- Yeah, but then you're still looking for finances to be able to do it, even if you do it on a small scale.

Q: No, we do have the finances for the small scale.

K- Yes, that's what I mean. Then if you succeed, then you still have to go and find finances, especially in Mexico, for a bigger scale. We'll take another half of ?? year.

Q: Yeah, in a way, but we do have already a really established large network that would make finding those finances for the larger operation a lot easier, (1:12). because we are plugged into the Mexican government, and we are plugged into basically all of the food producing families around here, the big food producing families, that could basically see this application of the mixture between biofermentation and potentially the Keshe technology, and see a lot of value in that. And from there, since there's a fertilizing shortage all over the world anyways. Right now there's futures being traded on fertilizers. So we are quite sure we can scale up the operation very rapidly, and there wouldn't be a lack of funds or it wouldn't be hard to find the funds to do so.

K- Contact me through Keshe Foundation. Go to info@keshe.foundation. And we'll talk to you hopefully in a different manner, maybe. Sometime next week ?? I have so much on my head. We might be able to bring another force into play for you, makes it much easier. But it's a... It needs a lot of thinking, but maybe we can support you and bring other things into play, maybe, otherwise you carry on with your project.

Q: That would be awesome, yeah, we'll reach out and... Love, looking forward to talking.

K- Send your info, just put about what you said, you talked to me. I'll receive the message. And give us a couple of weeks till we settle things which we are busy with. And

we can use a Gans process with what you are doing. But we need to know more, and then maybe we can bring different games to play.

Q: Awesome. Beautiful. Thank you, Mr. Keshe.

K- Any other question? (1:14).

Q: .. Good morning Mr. Keshe and to all Knowledge Seekers. As a Knowledge Seeker in alchemy. In the past, the water was considered the large alchemical solvent, Ava or Anahita, a living tradition of reverence by water among the Zoroastrians, that respects water as a source of living, which fed plants, animals and men. Today I consider Plasma Technology beyond alchemy. Could you guide us on this great Soul called H₂O water, that united two Amino Acids, Hydrogen, the Magnetic donor, and Oxygen, the Gravitational connector? We appreciate the guidance.

K- Every life in every corner of this Universe and Unicose has a factor of liquidity in the energy. On this planet we call it, water. In other dimensions it's what we call it, we can still call it water. But, it's the essence of the two, "hold and feed." And, if we understand this, (1:16). and if we can comprehend the Totality of the implication, application, you do not need much in sustaining life.

You got to understand the principle of Creation. You call it water, Hydrogen (H) and Oxygen. Look at the Amino Acid, which is the sustainer of life on this Planet. You have Oxygen, and in between Carbon and Nitrogen. Where the life of the liquidity of life is, has engaged and engaged two other elements to create the process of dynamic life with emotion.

This repeats itself across the Universe. H is the essence of the source to the Creator. This is how we start everything from. We talk about Deuterium, we talk about H and C14, for the line of communication in the Universal dimension. And if you understood what I've just said, then you understand, let's go to Moon. Let's go to another planet. (1:18). You have the H as a source of the line to the Creator, and essence of the connection to the Unicose. And what else the Gravitational field Inertia of the environment allows the liquidity, the motion, free motion of the fields.

Then you understand life is not exclusivity of this planet, if you understood this basic Knowledge of Creation. If in another planet you have the H as a base connector, and then let's say you have Calcium, due to the Inertia Gravitational mass fields of the planet or environment. Then you'll find another two elements in between, let's say Sodium and Nitrogen, and then you understand there is still life in the Universe. Liquidity, liquid condition of flow of the plasma for creating condition of the life in remembering, reproducing with emotion.

So now, I said many time, if you change the Fe in the blood of the Man with the Potassium, what color you get? What condition Man will be? If we change it with Calcium, what kind of ice would we create? So, you always look what is the maximum holding, before it comes to the position of the solid state. And within it, (1:20). to

confirm the entrapment of liquidity fields of the planet materials or environmental materials, that it leads in dynamic liquidity to sustaining consciousness and emotion. And then that becomes the essence of the life in that place, time and position.

Then you understand more about the knowledge of the Creation. Then you understand how Creation works in the dimension of fields. How you can manifest life within the waters of one condition, one planet, than the other. As I said, you created with one drop a fish in a fish tank. Now you may understand. Strength of the amino acid (AA) you drop in that water in condition of the liquidity of the fields of the plasma of the planet, which is the water, creates condition of life instantaneous. And they'll take shape in the shape of a goldfish.

Travel the depth of this planet and find natural waterholes, and sometimes man made waterholes. And you'll find fish within it. We call it, "wells fish." (1:22). Out of nowhere. In fact, this is how life through the amino acid has created itself within the well. The same way as you created amino acid over your CO2 Gans. And not every well has a fish in it. When you test the composition, you will see why. You take the water and the condition to anywhere on this planet, it'll create you fish. It's the minerals with that water, and the current flow with that water, which creates the condition of the amino acid on top of your Gans box. But this time is within the water of the well. When you have the amino acid, when you have the nourishment of material coming from the depth of the Earth, you create ??.

This is why many times I have said, the race of the Man which now dominates this planet, has not been the only one. When the dimension of materials and temperature of this planet start reaching the position and condition of sustaining life and creating amino acid, life flourished on this planet like weed. Some of the planets, creatures are out of the creation of the same. And some are in connection with the created, and created things in the Universe, which has found its replication in the dimension of atmosphere of this planet. (1:24).

Now you understand why even in the books of the Man, we talk about, this race managed to take over the other race, and then blah, blah, and the rest of it. In fact, if the condition of life could be created in dimension of the Iron and Zinc, and then you have waters which they run in the depth of this planet, within a few meters from the surface. And they bring the energies. And then you have the condition of the flow, which creates the static current, you absorb the amino acids from the atmosphere, and you set the seed of life in that position. The fish became a man, who walks out of the river. Same as the fish in the, what we call, 'mud's of Africa', became the man and created the new generation of life as a Human race. As we were told. But now we understand, any position on this Planet, had the opportunity, and time and the position to create life.

Now we understand the creation of AA and the cycle of emotion, and the dimension in their interaction of fields. Life is not exclusivity of a place, and a time, and a position. Life is a God given right at any position, in the Creation of the Universe ??. If you

understand what life is. Does not need the red blood, and does not need to have a skin. As long as we have a Soul and intelligence, (1:26). that's the creation of the Creator.

Any other question?

R: One thing that came up that I'll ask you about Mr. Keshe, is that, it seems to go along with your theme today of changes and so on. Is a testimonial from Hassan, not sure if you're aware of it, but he has given permission to publicize his testimonial basically, of the Addiction session, that we had on the previous Friday there. And it's quite an amazing testimonial, I could read that if you wish.

K- Go ahead, I'm sure we're going to hear it tomorrow.

R: Ok. So, from Hassan. Hassan says, good day everyone, I want to give you a beginning of testimonial, from the Addiction session we had on Friday. I would like to thank all those who have donated all the beautiful gifts, from which I received a connecting with the Soul of the Creator, "Addiction Awareness." I am a heavy daily smoker, be it tobacco and cannabis. I came as advised by the team, with no expectations, but to give to the system. After the session, which lasted two hours, approximately, I felt no need to smoke again. And even though I lit a cigarette on Friday and one on Saturday, I could not smoke them. It was a heavy feeling on my lungs. I may have had two intakes and the rest was just puffing because my body was rejecting them. (1:28). I could not inhale the smoke. I tried to stop smoking in my life before and it was not possible being a 24 years non-stop smoker.

Well what is beautiful with the session is that with no efforts I can say today that I feel no need to smoke again. Another thing which happened to me is that I don't feel hungry too, even though I had dinner on Friday, Saturday and Sunday. I just went for food for no reason. I think it is because of the habit, that I can affirm and confirm that I feel no hunger since the session. Another thing which happened to me and surprised me the most, and I forgot to talk about it yesterday in the KAKT meeting, is the change on my emotions too. I feel happy for no reason, and I am less irritable. I was addicted to political information and was following political talks on social media every day, and was always irritated by the news and injustice of what is going on around the globe. Today, I just stopped following all groups and news, which can irritate me, and with no reason, I enjoy more music and smile during my days. I was addicted to my phone and internet in general. It is all gone.

What I can say is that this technology is 100% correct. And I cannot thank Mr. Keshe and all those working in the background enough for all what is brought and being done to us for the sake of love and kindness. Love you all dear Keshe family. Keep up the good work and sharing, so that we can reach each and everyone in need on Earth and beyond. (1:30). All my love and care to all, Hassan. (And the rooster here is crowing in the background at the end of this too).

K- We wait and see what testimonials we receive and how people feel about their connection. The, what we call, ritual or what we call, habits, tomorrow's session. Tomorrow's session is part of the last week's session. And, in a way it opens up our eyes to a lot of things.

The May session, most probably will become, prelude to June session, which we would like to reach the Soul of men to stop the abuse of children. And this will have a follow-up effect on the work of Keshe Foundation in the next few weeks. Those of you who care about the children of man, those of you who would like to stop the process of abuse of the physicality of the children, the way we reach the Soul of the leaders and we brought the change, you will understand the change which will come through the world leaders in the next few months.

We would I would like to dedicate May and June session to change, to bring an end through the STM, through the elevation of the STM, the abuse of children. (1:32). In reaching the Soul, that with it we bring an end to the child abuse. We'll open the session in the next couple of days that you can enroll in. But this time, come in, not expect to take, but expect to bring the change. We wish and pray that you understand the meaning of this. Elevation of the King of Belgium, both the father and son, and their entourage, in promoting and being part of the major part of the child abuse and one of the major abusive nations on this planet, will be targeted in one of the two sessions. According to United Nation and the structure which is set, within the structure of the Belgian nation, child abuse and pedophilia is a way of living.

It's us, if we raise the Soul of the leaders, is to raise the Soul of men of nations that this come to an end. Both raising in one session, elevation of the Soul of the children, and one elevation of the Soul of those who abuse children. This addiction is deep rooted in the culture of this nation. (1:34). It will be for the first time we target to elevate the Soul of the leaders and the citizens of one nation. That we can bring them back under the fold of the Keshe Foundation.

We got to understand, addiction comes through the habit of repetition and being (indoctrinated) in so many ways, through the STM and STP. In so many ways, if we look at how people who have become abusive towards children. We are not talking about only sexually, psychologically, physically. Child in many parts of the world, even in the Western Europe, still live slavery. But, it's hidden in new ways in the Western world.

As we know, this Monday will become the day when, for the last time, a King will be crowned in the Kingdom of United Kingdom. And then will it come the time that again, the cycle of abuse of the physicality and the STM, will come to an end. Once Man understand the Totality of the elevation of the STM. (1:36). It's the beginning of the end of the Kingship. And the Kings shall walk away from being higher than the others themselves, by elevation of their Souls, and not by force and by kick. We'll see the change, and you'll understand more and more as the change comes.

Are there any other questions?

R: Yes, several questions and I'm not sure if we'll have time for everything, but we have a hand up here. Pardon me.

K- I said, if you can, we go about two, two and a half hours today.

R: Yes, I'm just trying to do some mental calculations there.

K- You got about 20 - 45 minutes.

R: Right, okay, good.

K- We got a very heavy morning session tomorrow, with work, and then back again, with meetings, and the meeting of the 12 o'clock.

R: Understandable. Okay, so we have a question from Sarah, have the hand up here, And it may, I'll put a foreword to it, that it may be a health question or a... So, just to be forewarned a little bit there. Go ahead Sarah, let's see what you'd like to talk about.

Q: .. I am diagnosed by met... cancer and then my cancer became metastasis... (1:38).

K- Pardon ... are you from Iran or Iranian connected?

Q: Yes the thing is Mr. Keshe...

K- Please, please, we do not discuss. It's nothing to do with us here. You have to go to Dr. Bararpour or the doctors...

Q: No, no, no, I'm not in Iran, I contacted him. ...

K- Let me explain to you, because I'm not here, I cannot answer you to do anything with you. Send your information to health@spaceshipinstitute.org and the doctors will look at it.

Q: Okay, but I just want to take a guide to make Gans for my energy level, if you can guide me?

K- .. You've got to understand the energy level. If you have a cancer, does it feed your cancer? You understand? So, this is not for us to answer here. Send your request to the health@spaceshipinstitute.org. And then the doctors will look at it. And they'll contact you if they see they can help.

Q: .. Hello Mr. Keshe. Is it possible to convert part of the Magnetical Gravitational fields radiated by every person's individual Soul, the fields that the Soul does not need, into a field strength, which that person could use to feed their body. The same process would go for the Soul. For example, we could create a plasmatic container, in which fields that our body does not need, would go and amalgamate. (1:40). And when they reach a strength that the Soul needs it, could absorb them. That way we could create nice symbiosis between the Soul and it's person, and the person and their Soul. Thank you.

K- In the world of creation we never seen God carrying a tank of fields, just in case He goes hungry. And I've never seen a fuel station holding energies anywhere in the Universe. By the work of the fields and balance of the fields, you receive what you need at the point of need, and you give what you don't need at the point that it has no strength, connection to you, or you need it to create the connection. So, this "tanking" still goes back to the habit of the Man. Always have to have something on the reserve if anything goes wrong. I was talking to one of our Chinese friends very recently. She said, do you know any Chinese family who doesn't have a saving? They save even if they don't have money to eat. So, it's the same with a lot of human race habits. And we don't need to

save, to give, to have one day we need it. This is the habit of the Man. And it must have come from a communist nation, most probably background, because he never knew what the next day brings. So you saved it in case something goes wrong. And with a lot of other people. And this is... there is no need for such a thing. There is no need for storing it, one day I might need it.

R: When the body does that, we call it constipation. Store, too much storing, right? (1:42).

K- Yeah, you get fat for no reason. I've never seen a fat Soul. So let's see.

It brings back a lot of memories, when you speak about, we bring these things to ?? preserve the Soul. When the Eastern Bloc opens up in form of Russia breaking up, and opening up, we used to deal with Russia. And we couldn't understand how these Russians all come out every week with 100 dollars bills. Never seen so many 100 dollars bills ever. Where did the Russians hide it under the blanket? Where Russians were supposed to be poor. They're supposed to have no money. And we were crying for them, that they were communists, they have nothing. And when the borders opened up, we never saw so many suitcases of 100 dollars bills coming out of a nation. Even the Americans didn't have that many. Where did the Russians hide it over decades under the blankets and the pillows? Man doesn't need to save that one day regime will change between the Creator and it's created, and it needs to have something to eat on to.

Any other question?

Q: .. Mr. Keshe, we are trying to put the pieces together to understand the communication and the emotions. In past teachings you said that for a person to go to the moon through the Linz systems, you created a "mini soul", and that by the dynamic of the stronger giving to the weaker, you made the Soul shift of the Knowledge Seeker. More recently you said that we could do an exercise for Soul expansion by visualizing the interaction between the STM and the reproductive organs, (1:44). and that these also produce "mini souls". Adding to what was said about the MaGrav device, we have the lower coil associated with the reproductive system and the formation of the rays - the beginning of the cycle of Creation, but also that the rays are formed from the plasma of the emotions of the Soul, in the upper coil, starting the cycle again. My question is, would the intention in giving something, in sharing our love, be like these same rays, or mini Souls?

K- If you're not expecting to get something for it, it's not far from it. But if you do it with the expectation, you have already changed the course. A lot of people give expecting something and this is where the problems with the Man starts. And if you get used to understand, then even if you get it the wrong way it will sort itself out. Where you actually take because you don't have anything to give, but you're very generous to give what you don't have. So, the Soul receives what you want to give and it gives for it. In a way, you're just the intermediary of the emotion for your Soul to do the job that satisfies your emotion. And this is the way it shall be, if one understands. Then you can travel the span of the Universes.

Q: .. If you allow me another question, (1:46). trying to understand the cycle of Creation with the MaGrav. From what I understood, we have the beginning of the cycle at the bottom, and the end at the top, with new rays starting new cycles. But the system in balance, enters into a continuous cycle of give and take, creating what I think is the gravity of the system. So, if my intention for the elevation of a World Leader, for example, wishing for a new cycle of peace to begin, at the same time I am re-feeding my own MaGrav, and creating new internal cycles with the same intention, thus ensuring the balance of the continuous flow, from the base to the top of the MaGrav?

K- More or less. But you got to understand where you're taking from. You're just looking what you give, or how you elevate, or how you progressively go higher. But you always take somewhere. If you understand that take, you have become wise to live it. If you just look at how it's elevated, you have lost in the maze of the what we call, ignorance of the Creation.

Any other question?

Q: .. Hello Mr. Keshe, Rick and all Knowledge Seekers. I have a question about building a house. I'm here in South America and I am building a house. I have the opportunity to integrate Plasma technology into brick production. My goal would be to keep the indoor temperature in the house at a continuous 22 degrees, (1:48). summer and winter. My question is, should I add only the Plasma water, or also some Gans into the brick production?

K- Gans. Because the water will dissipate in the energy into environment. If you can create dry Gans, and add into the, what you call it, into your bricks or concrete, that will last much longer. But because they become center of gravity, they'll absorb, and they give and last most probably the life of the building.

When you come to construction, we have to understand what effects will have if you're using cement or concrete, or whatever, because tests done with the materials over years shows, Gans's have a direct effect in the structure, strength, and heat transfer of brickwork. So, build one side of the building with one type of Gans, and a mixture of the other, and the other side is part of the same mixture of the other Gans to create a dynamic block. And then you have to understand, when you're making things, Gans's like this, for brickwork, or a long term, try not to use any metal base Gans's, which means like Zinc or Copper. Understand how the nearest energy to it is, and use dynamic liquid Gans's. Like CO, when you have a CO2, it's different, it has no metal connection. When you use CH3, it has no metal connection. (1:50). And we have many Gans's like this. Because concentration of the Gans fields can lead to creation of other diseases within the body. So when you add Gans's into a long-term construction or painting, never use metallic base, what we call, Gans's. It's one of the golden rules.

Any other question?

Q: .. To create a plasma flow, I need either different types of Gans's, or only CO2 Gans Plasma water in different quantity. Which would you recommend?

R: Pretty much already recommended the CO2 Gans water and so forth ??.

K- You need to create a give and take, and base some in, and take some out. Which means, if you put on one wall, CH3, one liter, you put 10, what you call it, 0.1 of a liter of CO2 to the CH3, and the other way, the opposite way, that you create a flow. And then, if you understand the creation of emotion, then you can add dimension of the Gans of emotion into the whole, what we call, caboodle of the Gans's. And you find, for example, the house, a very peaceful house. Because actually, when you're sitting in, you're touching the emotion.

Any other question?

R: A few years ago, the Chinese had named the MaGrav unit, the 'Happy Box'. Because, they found that people, it made people happy, that came into the room.

K- Hmm. That's a long time ago. (1:52).

Shall we have the last question?

Q: .. Thank you for the knowledge and love received from you. I am in the way of my killing beings to feed myself. If he consumed eggs and milk and their derivatives, I am thus killing beings? Thank you.

K- It all depends how you feel. The biggest problem we will have is, for the whole environment of change, has to come collectively, that we'll see it. How we can do? You cannot suddenly stop eating eggs, eating meat, and everything else. It's just, as I always say many times, drive a car a hundred kilometers an hour and just hit it against the wall. It's, we have to go through the process of the whole environment of this Planet, the whole environment, the structure changes. That we don't see packages of energy as food. Doesn't matter if it's an apple, an animal, or whatever. And we change this habit by providing, that that sensation, that emotion does not come up. So am I eating a life if I eat an egg? Am I eating a life if I eat the raw eggs, if I eat this what we call, ?? which has come up.

It's partially as, (1:54). what we call, as Messengers, it's our job to change the course of this planet. In a way, we have set out to do to create energies that the whole race benefits by it. And sometime in the future, going to a supermarket will be just for refreshing the memories of what we used to do, that supermarkets will become like museums. Because we have found a new way to live. And this is the future.

Stopping something or the other. Unless you have reached the point that everyone around you has the same understanding and capability to feed themselves through the fields of the Soul. Then we can all move forward. Many Chinese went into the cycle of using the fruit Gans's and then putting it around the cup of water and drinking the water. One day,

very soon, when we reach the Totality, I'll teach you how to feed yourself through your eyes. And then you'll see the marvel of the Creation. We love through our eyes and that's giving. If Man learns to eat, to take energy directly through the Soul, through the eye of the Man, that's the art of life ?? .. .

Thank you very much for today. And we call it a day, sorry we had to shift the teaching of today, for a very important reason. And we'll see you next week. (1:56). And hopefully see you tomorrow in the Addiction session. I hope we have more people with the change of the habit of satisfying habit of change in the session tomorrow. Look for the Keshe Foundation meeting with the Soul of the Creator, abuse of children, to first of all to raise the Soul of the children, which are abused, that they walk away from it. And then, the Soul of the abusers. Thank you very much for today. And we'll see you in the coming time.

484 KSW May 4, 2023

END
