

485th Knowledge Seekers Workshop May 11, 2023

(Transcription, Proofing done)

(Auto transcription by Elias)

Agreements signed with powerful nation; World Peace started - new T to be released; KS share knowledge; Joyful time STM; STM can't be dissolved fields from Creator; Teachings change; In charge of every D - don't need taught - feel; Travel through Emotion of U; MaGravs - elevate Soul - massive source of fields; Lower pH trial - dental; Fibromyalgia - strengthen Soul - not your fault; May/June elevate Soul of children abused & abusers

ENGLISH TRANSCRIPTION

(:10).

K- Yes, good morning and good day to you as usual wherever and whenever you listen to these series of Knowledge Seekers from the Keshe Foundation (KF) Spaceship Institute. (:12). We welcome you back and we hope as usual we add to each others knowledge and understanding of the world of Creation.

As I said, in the next handful of years, we'll see the evolution in the Space Technology. And Keshe Foundation is set to set the course for this. Where, what we see with Apollo's and with rocket technology, become part of the history of Man development and understanding of his environment, and how we manage to proceed. As we said all the time, there is no difference between the rocket technology of today and firework of the Chinese 700 years ago. It's just bigger amount of material to burn. By law of physics and Newton, it depends where you push the force, where it goes. Where in the world of the creation in the Space Technology, of upcoming time in Plasma Technology (T). We work in a balance and in coordination with the Field Forces of the Universe. The environment we live. There is no burning, there is no destruction and there is no pollution. But, what will be interesting in the coming time, is how our governments, and how our leaders, will take this position. Or take position in respect to the new understanding. To the new work of the job of what we call, Space Technology, Plasma Space Technology.

We became partially separated due to time, traveling, and evolving, from black to white, from Asian to Chinese, and from Asians and the rest, to Red Indians and Mexicans and everything else. (:14). With the new evolution of the science, and understanding of transmutation and transportation (T&T), what would happen? How would we see each other? When you're transmuting, would we see colors? Would we be black? Would we be white? Would we be yellow? Would we be a Soul from the Mars, would we be a Soul from another dimension (D)? Would it be the Soul of a dog, or would it be the Soul of a stone?

These are the things that Man will go through. Not only Man, as the knowledge is released across the Universe (U). The whole of the Universal Community will be in mayhem. Don't forget, when you turn one electron, the other electron changes. When you release knowledge of the separation of the Soul of the Man (STM) from the Soul of Physicality (STP) of the Man, and working together, inside and outside each other, this knowledge will spread across the Universe. The evolution of the change is not just for Man, it's for the whole of the Universe. And once Man learns this, and Man teaches this, and Man learns how he can live without it, without burning, without destruction. Then we'll see a new society. We are watching a change in the world of science.

It's very interesting, I was talking to one of the Knowledge Seekers (KS) today. If you listen, both World leaders, or what we call 'Superpower' leaders, use the same word. We hear from Beijing, President Xi of China, and through the Science and Technology Minister of China, they say the new technology will be used for establishment of Peace, for enhancing the Peace progresses. We heard from Biden the same thing during the elections, and on his inauguration, that the new technology and science will be used, emergence of the new technology. (:16). So in a way, the world of leaders of the Man already are aware, there is about to come, there is about the change. But each one is striving to reach, at least to be the first, to take the glory. Where in fact, if the two work together, the glory will be for humanity. We see the same thing coming out of the White House, as it comes from the unrolled, from the Chinese leadership. Technology to be used to create better world for everyone, for peace. But the test of time will not be there to see which one it actually does. Because the test of time, this time comes through the STM.

In upcoming time, you don't need to listen to the word of the World leaders, you'll see the essence of their Soul. In a way, when the word, the mouth says something lie, you see the Soul red and turning redder. And when it talks in a way, the correct way, as is the Soul and the STP talking the same thing, you see for example, greener. So, our leaders learn not to lie. And in a way, as is said, nobody will take the crown of leadership, as we all understand we are equal. The time for that change has come.

In the coming days and weeks, Keshe Foundation will make a drastic announcement. In establishment of the World Peace through technology, in agreement with the World leaders. In agreement with the change, that we are ready for what we promised. It's literally matter of thousand days, before the World leaders put their signature to their word. We'll see the change, (:18). and we'll see the establishment of the change. We see how World leaders will come to accept World Peace, on the equal basis of knowledge and Space Technology, through the STM. We'll see the end of what we call, the shuttle diplomacy, of sending shuttles up and trying to get there.

As I said to one of the leaders, "You have to let the past go, take it as losses." Otherwise, like American, you're still trying to recover (investment) from the pipelines you let on the concretes of your highways, and you're still trying to recuperate (profits), where the Africans don't have that, and they are running ahead of you. The position for many of our World leaders will not come out of, in a way, trying to lead, will mainly come, trying to

catch up. Trying to outdo each other, with delivery of the direct promises, which will be transparent to all of us.

I warned you, in the past couple of weeks, and we, in a way, informed you. We are just about to break through a massive change, for the knowledge of Humanity. We have reached agreements with World leaders, and it's now in their hand and time to announce it. It's their leadership which has to declare the position, in respect to the new technology and science. In a way, we have to understand, how we'll bring this position through technology. Nothing has to be accepted by word, but by deed. Be it our technology, rollout of the technology, (:20). showing what we say, is what delivers, and in ?? saying, in return, we expect the same from world leaders who sign the papers.

We see the change in a deeper way, in a much, much deeper transparent way. The Keshe Foundation has done its job. We have delivered and we'll deliver. And it's for the Knowledge Seekers to gather the knowledge that when the time comes, they are there to deliver. Gain as much knowledge as you can, and... When the time comes, you become the teachers. The true teachers, but not arrogant teachers. Just because you were there, and you knew a little bit more. Try to be humble to teach, unconditionally. And try to understand, there was a reason that you became Knowledge Seekers, as you searched for the knowledge yourselves. The upcoming new Knowledge Seekers, many of them become Knowledge Seekers, just because it becomes fashionable, not through the understanding the knowledge. It becomes something to be, to be a Keshe Foundation Knowledge Seekers.

We have laid the road and we have established the ways. I have put my signature to World Peace, and we have signed the agreement with one of the leading Nations in the World. It's for you to understand how to lead, (:22). to share and to be equal. Keshe Foundation is about to emerge as one of the leading scientific organizations, with a change in the dimension of technology. And it's the responsibility of Knowledge Seekers, to understand what you learned, what you are about to learn, has to be freely acknowledged and taught to the others, the newcomers. Which they'll come in, in masses. And in that process, try to be humble, does not matter which part of the World you're in. It's the most important part of the process.

I have signed the Keshe Foundation into one of the biggest programs ever Man will know to come. And we have come to sign by the leading Nations on this Planet. We leave it for the leaders to announce the cooperation, then us as the Keshe Foundation to inform you who we are, where we are, and who we have signed into.

In the coming days and weeks, you'll come to understand, the Keshe Foundation and it's work, is based on the true knowledge, and by delivery of technology, and not by talks. It's your responsibility, as KS to deliver what you came here for. And be ready for that change. We see the establishment and colonization of the Space within handful of years. (:24). And this comes because you as KS have been taught in advance, and governments cannot hide. It becomes as part of the establishment of the Peace, and it comes as part of our work, which we promised.

In the coming weeks, as our agreement allows, we'll disclose the details of the agreement with one of the World leading Nations. In a way, we have set the scene, and in a way, it's time for you to deliver. Not for us. I have taught over 10 years, and now it's for you to teach, for rest of your lives. We still, as I said, sell the Gans's, and do the teaching and do the trials. As I keep the Keshe Foundation independent of any national governments and their influence on our work. Even though we go into bed with different ways and conditions with each nation, till in fact we reach our target.

I remember sitting on the table with Dirk Laureyssens, in Antwerp. He said to me, I think one or two people will buy your book. I said, this book will become the cornerstone of the knowledge of Man. And, 20 years down the line, we see the new knowledge has taken shape. And, will take shape in its essence, by the true Knowledge Seekers (KS). I congratulate you, KS in what you have brought, for us to be where we are, as a whole, as a Keshe Foundation, as a center of new knowledge and technology. (:26). I have done my work and I brought Keshe Foundation to the highest level, with one of the most powerful nations on this planet. And the papers have been signed and sealed.

The delivery of the technology and understanding of it, is in essence, in the hand of you Knowledge Seekers, as we try to fine tune the final stages of the development. As we agreed, we let you know, that a new phase in World Peace has started. And we are about to deliver technologies which has never been seen, and in that process we'll bring the change. For those of you who understand, the change will be drastic. And many of you, as I said last week, will tell your grandchildren, I was there. I'm one of the original Knowledge Seekers. The enlightenment of the Soul comes from the true knowledge of existence, and not by arrogance of the knowledge of physicality. I congratulate all of you, in keeping the Keshe Foundation so up-front, so, across this planet, in different ways effective, and to be seen, that it has allowed us to bring the change in.

We don't stop, just because we have signed the paper. We start and deliver, technologies unseen, because we have signed the paper. Every effort by every Knowledge Seekers has to be made, that the knowledge becomes abundant and in the reach of everyone. (:28). Does not matter the race, the color, the creed and which part of the Universe you come. It's a commitment to the Soul and not to the dimension of physicality (P).

The teaching of today is in much more detail than just achieving. The first, what we call, stepping stone towards World Peace. Towards educating now the World leaders, that the knowledge and the technology is not exclusivity of a nation, but the whole of Humanity. This is the worst part. Teaching you as Knowledge Seekers was easy. Getting the World leaders to agree to equality is another "ball game," and we are master at it. We shove and we push, but at the end we know, the "golden promise" of the Peace will come. We'll see the end of what we call, "shuttle diplomacy." We'll see the end of wars. Not because we don't want to fight, because the fighting, and transporting and bringing people to one position, it'll become so easy, that is no need to do.

There is new technologies, which will be released by Keshe Foundation, as we approach, as we reach Peace and Equality between nations. Knowledge which has never been open to Humanity. But, we still do the trials, we'll still ask you to join this, and to do this and that, because, as usual, we have to keep you busy on this floating ship of the planet Earth. The ship will not stop floating, and 8 billion has to be kept busy.

One day this, and one day that. (:30). But at the end, we foresee before end of this century, and what we call, "lack of population" on this Planet. Where many of the citizens of this Planet, will take and become traveler of the Universe. Maybe, 1 to 2 billion, will be the maximum population of this Planet. Depletion of population will be so drastic, that the Nations will organize themselves, to hold on to the basic, what we call, needs, of, what we call, those who stay behind. The needs will not be for energy of food, the need will be to have the pleasure that for those who are in Space, can come back to what they call, home.

As I said to one of the Knowledge Seekers today, the biggest prize of this technology is its tourism, and not its energy and gold. Where we have the travelers of the Universe to show to, and where we become travelers of Universe to see. This is where the joy will come. Where, in a way, we don't have to worry for daily bread, we don't have to worry for daily needs, as all will be provided. In one way or another, through the STM.

In the coming days, Keshe Foundation will open new doors of knowledge. Knowledge which has never been known, and knowledge which will become part of the essential use to survive in the depth of the Space. How we handle the new knowledge, will be how we decide to transmute. (:32). Do we, or would we like to transmute with the speed of Uranium, or would we like to transmute in the dimension of Helium? In a way, Man will choose different methods of travel, depending how we want to travel. Which position in the Universe we want to be, and which position in the Unicose we want to be. In so many ways, Mankind will come to be educated in different knowledge, in different understanding of the Space Technology.

In the coming time, we'll learn how to ?? show ?? mixture of fields of the Universe, to travel into different Universes. The technology has already been written in Book number 3, but Man is not wise enough to understand it. If you read the Book 3, you'll understand, the Space travel, to travel the span of the Unicose, is already been taught. If you read other chapters of the Book number one, you will understand how to manifest yourself on arrival, in the dimension of the energies of the Universe, in the dimension of physicality.

If you read Book number two, and you understand it in totality, then you will come to understand, that you already have been told how to travel the span of the Universe. To what speed and to what dimension. In what way, and in what form. (:34). Mankind needs to learn how to mix a composition of the field strength that carries the dimension of the strength of the STP, and dimension of the STM. As each one, even though interconnected, travel in different strength, in different dimensions. It's no good that your Soul arrives, and your STP is still tailing by a thousand years.

These are the technologies which Man will understand, will come to be educated in. It's no good arriving at the airport when the suitcase is still where you left. And these are part of the knowledge in the upcoming time, as we agreed and reach World Peace, we start teaching. As we expect and we see millions of people on this planet, will take and will move. Are our governments ready for such a huge move? This is why we talk to governments, to prepare them for that change. To prepare them for what it is to come. And to prepare them, what and how they have to consider the upcoming time.

We need to understand, as you Knowledge Seekers will gradually become part of the structure of the future, how to organize things, that you as Knowledge Seekers, and those who become the traveler of the Universe, do not get stuck in one position or another due to the lack of the knowledge of the operation of the Universe.

Many of you will be taught how to transmute through the dimension of the thoughts. (:36). How to transmute through the dimension of understanding of the Soul. Up to now, we have brought you to the first level. Just about to understand where the Soul is and how the Soul is. And then to understand how even as last week and the week before, you get rid of your addiction. As I said, this was not just for addiction to alcohol, or cigarette, or whatever. It was to addiction to kill. Addiction to destroy. Addiction to take, for you to evolve, to live. This is the worst addiction that we are looking. This addiction in some Souls has reached the dimension of the Soul, and needs to be eradicated.

In this process, Mankind will learn that in the process of understanding the Totality, Mankind has missed one essential point, and that is, he is in charge, he is in control of every dimension. He does not need intermediaries, does not need somebody to teach it, because he feels, he works by the dimension of the emotion, which is the interaction between the energies of the STM, and the energies of the STP of the Man.

In the upcoming time, as we learn to become the travelers of the Universe, Mankind becomes in dimension of understanding the Totality of the energies of the Universe. We'll teach you how to develop a system through the operation and interaction of your Soul and STP, (:38). that you don't need machinery. Unfortunately, the petrol engine on another planet does not exist, because the steel in that position is just in the form of a gas. But, the STM, and the STP of the Man, exists and they shall exist in all dimensions of the Universe and the Unicose. Because they have one basic common denominator, from the Essence of the Creator. Common base denominator of the energy, that the whole of the Universe is built upon.

Then one understands, one does not need how to pilot, but one needs to understand how to interact. How to create interaction between the STP and STM. In a way, we do this in the womb of the mother. When the STM is created, in interaction with the STP, that is where the outside embryo is created, then we decide how to shape, what color to be, what shape of the skin to take, from the energies from inside the womb of the mother, which was guided by the egg and the sperm. The scientists in the embryonic tests will find out, if they put the same egg and a sperm fetus in two different wombs, they'll get two different creatures. Man has not reached that point to understand this.

Then, you'll find out the energy of the environment, interaction of the STP and the STM, (:40). will dictate condition of manifestation. If you take the same egg and the sperm, and put it in the womb of one mother, and then, if you could have replicate the same, exactly the same, and put it in the womb of another mother, you will find out, you'll get two different creatures. You'll get two totally different manifestation, even though it's the same embryo.

Then you understand, how Man will manifest itself in different dimensions, according to the field strength of his environment. Then you understand how Man will understand the Totality of the Existence. Knowledge of the Space Technology is the knowledge of the Creation. You have to understand the patterns. You have to understand the way the interaction of the fields works, not how one coil is left handed or right handed.

As I said, many times, what would you do when you manifest in a dimension that to you is unknown, but you come across middle of different creatures which you have never seen? The interesting thing is, as we see with the men of different dimensions, which are guests of us on this planet, they have learned to look like us. Look like Humans, speak like Humans, and even they learn languages like Human. (:42). What language and what shape would you take when you arrive? Or, do you ask somebody teach you a language? Do you tap in the essence of the knowledge of the Creation of the dimension? Or, do you try to be the outsider and try to hide, or duck, or pretend that I'm not here?

These things are on the horizon. It's not something that'll come to your children or your grandchildren. It's on the plate, and is with you, and it sits right across the table, of the knowledge of the Man. From today on, and from now on, the process of the teaching will change. As we prepare Knowledge Seekers and the rest of the Humanity for World Peace. We have taken a step, and to that effect in the coming weeks and months, we push that the World leaders understand, the knowledge of the Keshe Foundation is on the table for every Nation.

The biggest problem for us, was to get the first nation to agree with. And now, our job is easy. As we have signed ourselves Peace with one of the most leading nations in the World. Now we develop the stage for the World Peace, and with it, we have to show what's the difference. How we evolve, how we can supply food and energy, without dependence on killing. And then the progress of the development of the Man, will come into operation. Many of you find out you speak languages you never spoken before. Many of you find out you change color of skin, just by intention, as you change the womb of the mother. (:44).

In the upcoming time, we open the books of the Keshe Foundation. And thanks to many Knowledge Seekers, where we are today, it's been by hard work of many of you over the past years. Each one of us has put one brick into the wall of Peace. And step by step, we have built that Peace. Have built that knowledge base, that the World leaders consider it to be worthy, to be part of.

When the travels of the Man into Space, you will learn something very deep. And that, is the depth of the Knowledge of the Universe. How much, how far you can go, depends on how much you come to understand the work, and the emotion of the Universe. With the present knowledge of Man, he can go with a plane, or a car, or a donkey, as long as there is enough food for the donkey to eat, there is fuel in the tank of the car, or there is enough jet fuel in the plane to go as far as it has to land. Because, (that is) as far as it can go. With the new knowledge of understanding, you go as far as you can, according to understanding of the knowledge of the emotion of the time, place, and the position.

So, in a way, your emotion creates that dimension of the travel. Your emotion creates that dimension of understanding, where to be and how to be, and what wants to be. Then, you'll find out, as much as you can tap into the energy of Universe, there is no limitation for Man to reach any corner of the Universe. The limitation is understanding the strength of the emotion, and the condition of the manifestation. (:46). It's no use going to London, when you are homesick for New York. It'll be the same. The emotion has to be balanced, and the emotion, the strength of the emotion, which is the interaction of the fields of the STM and the STP of the Man, will dictate how far you, as a being, will travel the depth of the Universe. And how much you are prepared to learn, and how much you are aware of your position, condition, and the environment.

Try to go back to the teaching. Go back to the MaGrav technology we taught you so much. And go back to all we said. Don't look at the MaGrav as a blue box from Keshe Foundation. Look at the MaGrav as the energy fields which creates. Count every turn (of the coils) in the MaGrav box. Then, go by order of magnitude, then you understand how deep is the energy fields of a MaGrav, which we have taught you. And to what strength will take you. If you can replicate in understanding the energy fields of a MaGrav within the interaction of the STP of the Man and the STM. Then you understand, we have a given you a limitless access to the whole of the Universe and Unicoise. Don't look at the turns, look at how that turn interacts with the turn before, the turn after, the turn above or the turn within. (:48). And then, all that with a turn with the coil below, and a coil within the one below, and the one below it, which is another coil within it.

If you understand the composition of the interaction of the fields, you'll find out the MaGrav system, which we have taught you, creates more or less all the energy fields, dimension interaction of the STM, one needs to travel the depth of the Unicoise, let alone the Universe. You have to remember, even one turn of the coil, has 360 degrees of, has 360 combination of field strength in respect to the inner and outer. Man will take centuries to understand the combination and the Totality of the fields which we brought in, with what you call, "the simple MaGrav".

In a way, if you understood, MaGrav is the backbone of the three Books. Physicality, traveling to take the dimension of fields of the ?? other, in the dimension of the Soul. The ring in the middle core, never comes in touch with the ring above outer core. But in field they interact. In Soul they will be, but in physicality it's separate. Now you understand, more and more, and we open this topic, and this knowledge gradually back to you, to understand the Totality.

We'll take a break and we come back. And then we go more in depth, trying to understand in the coming weeks, months, (:50). how you as Knowledge Seekers have to, you have no choice, to live, to perform, and to teach. Thank you very much Rick, if you want to take us for a break.

<< **BREAK** >>>> 485 KSW May 11, 2023 (:59).

K- Yes, in technology development, as you know our doctors are working on different aspects of the technology, what we call, development, understanding and how it works. In a recent past, they've come with new understanding and new dimension, and we would like to increase this very rapidly. And for this we're calling on 2, what we call, trial sessions, that we launch today. One of these trial sessions done by the doctors, who will be taken up as of now, is, many of us, we have had problems, and many for decades, have been test by many dentists. And we use the technology to change the situation, the way the gums, with the tooth, with growth of the tooth, whatever. And, the trials our doctors have done, shows we can interfere. This time, what we're calling, is a limited number of the Knowledge Seekers, with what we call, (1:00). dental problems or dental conditions on a trial. They can approach their doctors and go through this, what we call, limited trial numbers, that will be accepted by them to look, to, in a way, complete or start a new cycle of the evaluation, and in a way, development of the dental positions and whatever we have. This part will be handled by the dentists of the Keshe Foundation and they will see through it, using the new Plasma Technology, which is supporting their work. We have put, to cover the cost, the very basic cost of this for 2,400 (Euros), that it has to go through, as donation to the, what we call, the Keshe Foundation. Any dental condition will be looked into by them, and as usual, you write at health@spaceshipinstitute.org and we forward it to the dentist, and if they accept, take the case out, you, more or less, can join in to see what changes it comes.

This is part of our work in two directions. First of all, what will happen to our Space travelers, if they have a problem with their tooth? How can we reach? We tried everything else. And how can we change? What do we need to do to know that we can change? You are in London and you go to New York and you have a toothache. You're looking for a dentist. (1:02). You go to the App, which is to do with the dental section of the, what we call, wellness centers of the knowledge of the Keshe Foundation, and you

just log in with so many sessions. What will happen, would you get rid of the tooth? We are looking in growing tooth, with the knowledge, because we've seen, it can be done. Some people ask us, can you grow a tooth which is pulled out? It's for the dentists to try. The process, the knowledge has been established, after years of pushing us to do, now we think the doctors have that knowledge, using the Plasma Technology to do. There is a limited number of places available for this, very limited. So, if you want to join in, for complicated cases, I'm sure the doctors will refuse. We are looking at conditions that we can support with our system, our dentists and to go through it. Dr Bararpour in Iran is one of the dentists, so we have as you know, well known doctors of the Keshe Foundation, Azar, and the others will be in the backbone of the, what we call, the dentists or other dentists in the Keshe Foundation.

We look after these cases. And we build it up to the point and the position, that we can see how we can bring, as part of the insurance policies that which is been offered by the Keshe Foundation, that we bring the dental work into the situation. This is the, what we call, voluntary trial of the technology for dental condition. So, if you have such a condition, send the message to info@... sorry, health@spaceshipinstitute.org and you get a response to, if you, or you can talk to our dentists, and they decide they can use the technology. (1:04). Very limited numbers has been allocated to this space for our systems.

The other trial which we have now, we launched today, is for a larger number. One of the biggest menace in the life of the Man, is a change in pH of the body of the Man. If you go below certain pH level, doctors tell us, scientists tell us, leads to creation of separate and different conditions. We have tested, and now with certainty, with more confidence, we would like to test a large number of Knowledge Seekers. Who their condition is, or, and be, or, is dependent on the pH of the body. Or, if you want to prevent the change of the pH, that it goes below 7.

This is a two week trial. So, every day for two weeks, you have to measure your pH, before you start, and then see how much your pH goes up. And we know, for some cases, if we can keep the pH over seven, seven and a half, for over 14 days, 21 days, body can pick up and maintain that. This is important for certain conditions, which many of you know. And this trial we established as of today. Again, the same way, limited numbers. If you want to prevent future conditions which change in pH can create, or you want just to guarantee safety or whatever, you join this trial and make sure you have access to measure your pH, every day, before and after the session. (1:06).

You're allowed one hour per day, five days a week, not seven days a week. It's important to allow the body to rest, maybe three days, one day rest, two days, one day rest. And then, we'll see how this will come up. If what we've seen to be established, we can, as part of prevention plan of the Keshe Foundation, force, as part of the policy we offer, that every Knowledge Seeker has to take a 10 day course prior to signing in. In a way we set the scene for prevention of the, what we call, in the future, will metastasize and the rest of it.

So, we open two trials with our doctors. For both you write to health@spaceshipinstitute.org, it will be passed on to the doctors. And, we have asked and we want our doctors just to accept the cases of pH directly, irrespective of the condition. And, if you see any change is positive in your condition, due which comes through changes in pH, you let us know. We can extend it further for you, with consideration of what could be, and what expenses sits with the Foundation. In this side, we only accept a hundred cases, no more. And, more or less, all of you need it. But, who comes first, will be served first. And there is no condition. You have diagnosed with whatever, is metastasized, is shown itself somewhere, you think you might have, or you want to prevent to have conditions in the future, which is affected by pH of the body. (1:08). Then you can reach out, and you go through the Keshe Foundation doctors, and you'll be accepted unconditionally, we don't look at the condition.

We are all interested to see, through the new technology, from a distance, we can change our pH, which we've seen we have, can be done by our doctors. This become important for us, in the future, policies which we offer, part of the prevention, which means, once you're scanned, screened, you have to join a two week session, as part of screening. Make sure in the future, you do not get the conditions, which then cannot be handled. This will become important for you in an upcoming time.

As we say, as the time comes, there'll be no health conditions to force the governments to keep such a expensive health organizations around the World. One of the biggest burden on the nations is the health programs. Now we have the understanding of it, but we want to confirm it. A 100 cases are allocated and more or less, all of you need this. And some of you could have conditions, diagnosed with conditions, but in a way we want to see if we can prevent it. And every month you send a message back to us, what is your pH? We want to see, it keeps the consistency above 7 - 7.5. If you already have a condition below 7, then you still can see, if this condition can go on. (1:10). (I have to ask, Salomea, we'll block you from the chat. If you carry on with this behavior. Sorry about that).

We have to understand, we have to understand, that if we manage to get these two done, we go to the next trial series of the Keshe Foundation. We go into understanding as we offered a bigger structure of the, what we call, looking after people. And this time, we'll go hopefully in conjunction with government. Which means as part of the National Health of the systems, the governments will offer these technologies. And this will allow us to bring a new dimension.

A limited number of trials available for our dentistry side, and maximum a 100 on our, what we call, pH side. Comes first, serves first, and when we get to our limit we stop. Because, we have to organize the systems to be... You'll be given a certain times of the day you can log in, or the two days that you cannot log in. And this allows us to evaluate, and then as a data collected, to publish for the governments and the health authorities to understand, how remotely the pH can be controlled, and most probably we eradicate cancer. Once the government understand the process, and we can prove, show it. We allow officials from the governments to monitor this trial.

Tomorrow at 12 o'clock Central European time, is the final session of Addiction. (1:12). And, this is important to us again, if you are one of those who has been through this last two sessions, and you're joining us for the last session, the third session tomorrow. The third session tomorrow will be short, beginning, and then we go for the testimonials. Please write your testimonials today to info@keshe.foundation. We have received some testimonials and somehow some of you have lost your habits or addictions. Very interesting, addictions we never knew existed.

And, if the Knowledge Seekers allow, who have sent us these, what I call, wonderful addictions they got rid of, we read it for you. It's very, very interesting, how we are addicted to things we could never imagine what we could be addicted to. No names will be mentioned, and will kept absolute, absolutely discreet. But, it's interesting how some of you have written to us, the addictions you had and you got rid of. Or, you don't have a feel for it.

These trials, these sessions, brings a lot of knowledge to us. That, in the upcoming time, with what we agreed with the governments, will become knowledge of Nations. We pass our knowledge, what we gain, to the scientists of the governments, to develop further, for a Nation to benefit by it. This is the beauty of how, as a Knowledge Seekers, we work.

As many of you know, the May and June session, has been assigned for child abuse. (1:14). For the way you elevated the Soul of the World leaders, and today we sit and we gave you the news for it. Now we need to reach to the other side, elevate the Soul of those who have suffered, and suffered through this process. And then the next month, to change those who bring that suffering, to those who suffer. The child abuse is a pattern which has to be curved, the same as wars. And join us in the May session to bring this about, beginning of. And you will see the effect of it. You elevated the Soul of the World leaders. You brought yourself to be in the position to bring the World leaders to understand the beginning of the World Peace and change of technology. And we have assigned that to it, in less than three months. Now is the next step. Join us, sign into it, and we bring the change. I thank all of you for all the support you have given us, and positions you have allowed us to open for the change.

If there are any questions, we answer.

Q: .. We know that our Souls are eternal, and even though we are in children's bodies, we carry in our RNA and DNA behavior patterns that can keep our Souls imprisoned, (1:16). reproducing what they expect from us like a vicious circle. Because of this, the families end up contributing for the children to remain in certain emotional addictions. How can we contribute so that the Souls of the children of this planet are freed from the addictions that can lead them either to the position of victim or of abuser?

K- The answer to this is the strengthening the Soul. That no one becomes that victim. When we used to run the sessions in Ninove, in Linz, I explained this many times to people. When you get people of, for example, Fibromyalgia, they are the best example of

it. Fibromyalgia comes from abuse, before puberty. Doesn't matter if it's sexual, it's physical, psychological, or combination of.

And, we see extensive Fibromyalgia, mainly majority with women, who being abused, emotionally, by their mother. Not necessarily sexually. And, when they walk in, before even they sit to say what they have as a problem, (1:18). you recognize it, it's like "black and white" written in the sky. They're bent forward, their shoulders is folded in, like a, when you pull a ball before you shoot. The shoulders are folded in, the head is down, the walking is not a strength, it's just dragging itself in, and it's written on the wall, "Fibromyalgia."

When you see this, you ask a question. What's the condition? They tell you, I suffer from Fibromyalgia. For 20 years, for 30 years, I cannot work more than this. I'm registered as a, what you call, handicap person, or a person who cannot participate in a normal life. Or, I just about managed to live. The first thing you do, or the first thing which we used to do, was to build systems for them, to strengthen the Soul. To strengthen the connection between the STM and the STP. With the breathing systems, with waters that they wash their head, that time to them, it was just the water. But, the waters which was created in the bottles they had to drink or wash their head.

This is exactly what the Enhancement Units (EU) of today are. But in a simpler way, we allow the Soul to expand, to come in touch with the STP. And what we used to do all the time, I used to say, (1:20). if you don't mind, I have to take some pictures, sideways and front, that they could see their posture. And after 3 months, 6 months, they come to see you, they see... you see them, happy people, changed. And, no sign of Fibromyalgia. And, what we did, was to do exactly what now is done in simpler way in the Head Unit. In what you join us for addiction, and you get.

We expand the Soul, but that time, we could do it very simply, through what we call, the water, and by breathing. Now we know the essence of the breathing is to give the maximum energy to the Soul, feed the Soul. That's why we breathe, that our Soul is just on top of our nostrils, in the back of the throat, when the air turns in, it doesn't matter if you breathe through your mouth or your nose, you energize, you give energy to the physicality of the brain, and to the Soul. And then they change.

But meanwhile, what was the most important thing? You always ask them. Can you tell us if you've been abused? And there's always the story with it. And there is always a story with it. And they just open up. And when they finish, they handle the abuser. Does not matter if the abuser is dead or alive. And the first thing as we know, the Fibromyalgia, it's by the abusive condition, below age of puberty, always tell them. You have to understand, it's not your fault. (1:22). It has not been your fault. You were a child, and you looked up, and the one you looked up to, abused it.

If you understand that it's not your fault, you get to the point that you can cross the line, and live a different life. In 2008, one of our Knowledge Seekers, very early Knowledge Seekers, he's a still a Knowledge Seekers in the background, in Holland. He brought me,

by introduction, a lady, in her mid forties, fifties. And she was bent, and he said, this is what, she can't do anything. Speaking to her, I came to understand that the abuse was very early by the mother. That was at 11, she understood, even though the mother was dead. Going through the process, she recovered fully. She used to work two hours a week, and that was more than she could do, just enough to be qualified to get her Social Security at that time. And she needed time to recover from that two hours. We know another Knowledge Seekers in Belgium, who became one of the KS we love, and you know very well, he was suffering with that for 20 years, and he was home bound. And one day near Christmas, I received a call from this lady in Holland. She said, my daughter wants to see you. I said, is there a problem? She said, no, she just wants... there is something she wants to tell you. (1:24). I traveled all the way from West Flanders to Holland, to meet this young lady, from the lady who started living. She actually used to work now, five or six days a week. She could do everything she couldn't do for 20 - 30 years. I met this young girl in university in her early twenties. And I said, how can I help you? She said, I don't need help. I said, why am I here for? She said, I asked my mother to call you, to tell you that for the first time in 20 years in my life, I have a hot food on the table, and I don't need to cook or look after my mother. Now I have a life. And she's living. I can talk to, I can go to a movie too, where all my childhood I was alone.

The abuse of children is by the parents, or by the people around, where they can dominate and abuse, the same. And we have to understand this, that it's not their fault. And once they understand it's not their fault, the abuse stops, (1:26). because they become the abuser of themselves. And this is where you cannot break the circle. It's a vicious circle. When somebody abuses children, makes them to feel it's their fault. That's why they're abusing, I'm beating you because you want me to beat you. I abuse you because you want me to abuse you. And, at childhood we accept, and when we become teenagers, become unacceptable, why don't I do this to others? Or, in turn, they become abusive because that's how they learned.

I've said this story, but it's the reality about another case of child abuse. I used to work with a doctor in Belgium. As you know, we have a certificate from Naturopathica, to give material, as we do today, to the doctors. We have a certificate for it. So, everything goes with the legal frame, where it was not disclosed in the court, where they took us for fun, but now they pay for it.

This doctor said, I cannot ask the lady to come, she doesn't leave the house. You can go and meet her. I went with the doctor. The house was about three, four steps up, in Antwerp. She opened the door, stood in front of me, bent, twisted. I looked at her and I said to her, have you been abused? (1:28). And the lady .. fell flat back on the seat behind her. She said, you're the first person ever tell me and ask me. I said, tell me the story. She has had numerous, if I remember, about 15 - 20 operation on her leg, on hips, and 10 or 15 operation on the right hand. She wanted to cut her right hand, that was her obsessive, the obsession she had. I said, tell me the story, what it is, then I can help you. Or, with the doctor which is with me, we can structure it, that you can walk away from this position. She said, at age of, young age, 7, 8, 9 years old, I was sold by my mother to my grandfather for sex. Because the money my mother borrowed my father, from my

grandfather she couldn't pay back. He took me as a sex slave. By age of 11 I had so many abortions. And interesting is, Belgian government did nothing about, how can a young girl get pregnant and have abortion. It's the nature of the nation. I said, what's the hand operation? Is it because you want to cut your hand? She said, yes, because with this hand I had to please him. And, I said, what's the operation, so many operation on legs? She says, if I could keep my legs closed, he wouldn't hold, my legs failed me, that he could rape me every day.

I explained to her, it's not your fault. (1:30). And with the doctor we sat, and we built systems for her, to expand her Soul. Four months later, she moved out of the house. She had three children, all handicapped. Because psychologically she didn't want to give birth to another child, that could be abused like her. And if they were handicapped, nobody could abuse them, to her mentality. Now she lives a normal life. She works, as a social worker. And, she goes out of the house. She lives a normal life. I kept in touch with her, till I escaped from Belgium from the hand of the same people.

In a way, we didn't do anything. Understanding the power of the Soul, we expanded the Soul. The Soul understanding the work of the physicality, it became strong enough to understand the emotion of abuse.

Even though we blocked all our connections with the Belgium, this lady comes among some of you Knowledge Seekers in the teaching. I still see her in the background. The reason we can change, is that we can elevate the Soul, (1:32). to understand the weakness of the physicality. And one of the first thing you teach a child who's abused, is that, it's not your fault. And, if they accept that position, you are 99% across the line of the abuse. They will not allow the abuse to take place.

This is the reason we put the May session and the June session as part of this. We can't have a generation of children who are abused, in the next generation of Knowledge Seekers. Where they'll come up, the wrong way. And it's our job to put right. We managed to put the Soul of the World leaders in the right position. Children should not be that hard. So, when you speak about abuse, with the children and youngsters, you have to understand, it's not their fault. And if they understand that, then all you need to do is to elevate the Soul. And the Soul will repair the physicality. This is what we say, if you learn to feed the Soul, the Soul will feed the physicality. Now you understand how it's connected.

Any other question?

Q: .. Will the next sessions that will deal with children, also deal with the subject of how parents should raise their children, or will this subject be dealt with in an exclusive session? (1:34).

K- It's part of the teaching we have to teach. Because, most of the time the parents are the abusers, without them knowing. And, it comes, sometimes through unknown ways. We live with them, but we don't see them being abused.

And, I've been in that position with my children. Their nannies and the people we trusted to bring them up, were abusing psychologically, and when we got rid of them, they opened their mouth, what they did to them. So, in a way, we have to understand this position. That, sometimes people we trust to look after our children, are the abusers in hiding, most of the time.

And sometimes, we get people who are abusive, use places to bring children to abuse. This is the worst part. Where children would bring other children to be abused, and they are part of the organization. And in a way they get rewarded by more abuse themselves. This is very common in Belgium. Some of you tell me, how you speak about it. I worked and lived in Belgium for nearly 30 years. Married to one of the most abusive, (1:36). child abuse families, I never knew till my divorce. And I start analyzing how, with all my knowledge, I overlooked such a thing. And always covered up. Always covered up, with different ways and things. The lady was bringing children to be abused, it's in the police report. Part of the gang. And the Keshe Foundation, if you remember, was used the same. We were getting too many pedophiles around us, because the connection was established. The abusers, the abused, they become abuser and supplier.

And this is why we put the June session, to elevate Soul of those who do. We cannot do half-cooked job. We cannot just elevate the Soul of children. We have to elevate the Soul of the abusers, that that cycle stops. If you go to the police station of (name of city), you get the whole file. The whole family has been to prison for abusing children, child trafficking. Even people coming from South America to abuse children in Belgium is ?? there. When we opened the files after the divorce, I was shocked. And well covered.

So, when we put the session, how to do elevation of Soul of the children who abuse, (1:38). we have to elevate the Soul of the abusers, that it doesn't become worse. Because, once you save one, understands one, they go to another child, because they lost their client, they lost their abuse position. This is why we put this as a two session part. And most probably, the elevation of the Soul of the children will go for two, three weeks, not just one session, the way we've done with addiction. You're not here for one show, you're here to bring the change. But the strangest thing is, these abusers make it so normal, that their children become abusers. And it's normality to them.

Any other question?

Q: .. Good morning Mr. Keshe, thank you so much for everything you teach us. My question is, how can MaGrav help us in the transmutation process? And what do we need to do to interact with it in this process?

K- You look at the MaGrav as an entity, we look at the MaGrav as a plasma source. Until you don't understand that, there is no progress. (1:40). I've seen Knowledge Seekers making MaGrav this way, MaGrav that way, I save energy, I've done this. You haven't made the MaGrav to elevate your own Soul. You haven't understood what it is. You're still after peanuts. As I said to one of the powerful men of a nation very recently, you're

happy with the crumbs and you're ignoring the cake. You've got to understand, MaGravs are not what you look at. And if you're happy with your saving a few cents on electricity, so be it. It needs maturity of time.

Any other question?

Q: .. Hello Mr. Keshe, in the meetings connecting with the Soul of the Creator, we put the Soul of the Human being over our physical body. All my cells have a different vibrational frequency. Are there other characteristics by which I can recognize that the Soul of the Human being has placed itself over the physical body? What else can I look for? Many thanks. (1:42).

K - When we put people in the system, when we used to, now, we don't do. And very soon we close the center in Linz, that many of you will not be able to experience this. But some of you who came and experienced this. I've mentioned it before, when people are in the two main systems, they hear us. But when you ask them, what do you see? I couldn't see you, it's blurred. And I explained that before.

So, the expansion of the fields, is in a way, in dynamic interaction with the fields of the systems, creates that mist. You hear, but you cannot see. It's literally like, with these glasses, you press a button and it becomes misty. That's all it is. It creates an interaction of the fields and creates a mist of the vision. And, that we see, very clearly, with many, many Knowledge Seekers. Because, when I used to go to the control room, I used to ask them, can you hear me or do you see me? They say, we can hear you, but we cannot see, it's blurred.

And, this is the expansion of the Soul. This is where we see it. And, there is a way to do it, without actually, quote unquote getting into a system. The new remote headsets, give that capability. And, it brings that functionality into, and when you learn it, you don't use the headset, it's just there, it's not used. Because, then you learn how to do it yourself. It's very much like you, as I always said, when we used to, like these people with the Fibromyalgia used to come to us, with the doctors, I always ask them, what are you come for? (1:44). Sorry, I have a problem, I forgot to drink past two weeks, or I forget to breathe. I said, can you bring the systems back please? They said, why? I said, when you forget, it means you don't need it, the session is over. You have recovered from the condition. When you are not hungry, you don't... doesn't matter how much food is in front of you. And this was one of the signs.

Even today, with Knowledge Seekers, when they tell us, they had, or they don't see any change, we step back, especially with the new system, with the doctors, we tell them to step back for 4 weeks, 6 weeks, and let them to understand the condition. Because they become dependent on the system. So, they develop the condition and trust in their own work.

And, I foresee, with what is about to come in next, maybe in five years or so, very much like a computer games, you have this Head Unit. You'll have the systems which will

expand ?? the Soul, or allows you to do the transmutation. It's very much on the card. Very much, very much on this ?? doing way. And then you learn it and then you don't need it. You have a system there, one day you want, you can't do it, then I use the system. Gradually, the Head Units we have put out is in that path. Help you, and then you learn, and then you help yourself.

As I said very recently, I will teach you how to see through your eyes, the dimension of the work of the Soul. Now you only see physicality, but don't forget, at the same time the Soul is busy and uses the same hole. (1:46). The rest of the skull blocks some of the information. So when you look outside, you see two things, one in the dimension of physical, and one in the interaction with the Souls. But Man has chosen to ignore that, and I teach you how to do it, in the coming time. I cannot leave you halfway stranded, but in a way you're not ready yet to go for camping, to get the strength.

Any other question?

I received a message in the background, we have somebody asking question about the two trials. They want to do it. Anyway. You can make a donation to us, to Keshe Foundation, but we pass it on to the what we call, to the doctors of the Enhancement Centers, which operate through this. And you can just take your place on it, to be part of it.

We have received a massive donation from one of our Knowledge Seekers, that he cannot take place in the, what we call, the 25 people, and then to the 200. And he has donated, as a donation to the Keshe Foundation. And Keshe Foundation has decided one of the most serious members of the Keshe Foundation will be allocated to take that position, donation. We keep it as what we call, confidential. (1:48). But, the donation we received for a place in one of the 25 people for the first cycle will go to one of the Knowledge Seekers, which has been there, and I know he will love to be part of this. But due to location and position, is not financially possible. And the Keshe Foundation has allocated this to one of our Knowledge Seekers. And we're getting a lot of donations like this, people who want to donate things for others to benefit by it. And I thank our Knowledge Seekers for donation, and it'll be used. And I'm sure the Knowledge Seekers which will receive it, to be present in the, in the course of the first 25, will beautifully enjoy their what we call, to attend, and to be part of it, maybe he'll become part of the last 65.

Any other question?

Q: .. Can someone be part of the dental project, if they have, what she calls it, a prosthesis on the teeth? So, I'm assuming either an implant or a...

K- Yes, we would like to try, we would like to see the limitation of it, yes. But that's the decision of the dentists, we provide the knowledge. The dentist will decide.

It will be very interesting, to see the growth of the tooth. This is one of the things. If we, with the new process we developed, (1:50). if the new systems can trigger a tooth which

has been, what you call it, taken out. Or we can re-establish nerves into the systems which the nerves has been cut. And these are the things I think our dentists will look into. I've been pushed and shoved for years, if, if the technology can be used for dentists, and I think we have answered the call. When we developed this technology originally about 40 years ago, when I was talking and doing things for development, my sister kept on telling me, grow a tooth, find a way to grow a tooth. Do you know how many people suffer with it? And, maybe now we have reached that point. She's one of the well known dentist in North America. Now, more or less retired now. But when she graduated from University, and she knew what I was doing, she kept on telling me, find a way to grow a tooth, then we don't need to fill it in all the time. This is what we're interested, and to see the limitation. And I do not want to go any further, but the dentist of the Keshe Foundation, they are the decision makers.

But we're very interested in the second trial, the biggest trial, that will change, change into humanity. Where, change of pH. Many people die, every day, because of the pH to be on the wrong side of the 7. And scientifically we have proven, it can be moved above 7 through the new Plasma Technology. (1:52). It's just that if the body can maintain it, it seems to be during the process, the days after, it still holds on. But, if we can maintain it and grow it, then a lot of what we call, problems which sits within the healthcare, will diminish.

Any other question?

Q: .. Could we write letters to the World leaders?

R: And my question I guess would be, are we as Knowledge Seekers still into letter writing, is that going to be effective? Or do we stay more with working on the Soul?

K- You can stay as much physical as you like. The thing is, none of the World leaders ever see your letters. That's for sure. Because there are so many steps before they see your letter. Unless you can shovel it under the pillow to the wife, then she can shovel in on the pillow to the husband, "pillow talk," would you like to do this, it's good for publicity, we better go and see this child.

I tell you that from experience, how many Knowledge Seekers around me know. They told us, you have to write this letter for this President, you have to write this for that world leaders, they have to do this letter for that, and we've done. And we're still waiting after ten years for somebody to do, actually read the letter. The only letter which we saw the direct response back to, (1:54). I think the Knowledge Seeker is still around, he can tell you, he's Iranian. He delivered a letter to the White House, some years ago. And he received a response from President Obama, if I'm correct. And he actually hand delivered it, if I'm correct. There is a copy of it somewhere in the archives of the Keshe Foundation, because he sent me back the response which, the letter he took to the White House.

Try to reach the Soul of the World Leaders and write it with the "pen of the Soul" and not with the ink of a pen. It works much better, we've just seen it. We have seen the change in past weeks. You got to realize when we announce things and you join us and you do it, it's because our Soul is already aware of what is to happen. And we all become part of it, to learn that we can do. It's not coincidental.

We, as I said, just listen to the calls of the two World leaders, (1:56). both speak in their, and their ministers, and their cabinets, speak about new technology, which will bring the change. Listen to inauguration of the Biden, and listen to the speeches of the Chinese government since March conference (March Session elevating World Leaders). We'll see which one will jump, and we'll see, which one will deliver.

Any other question?

Q: .. Hello Rick and Mr. Keshe, what combination of Carbon and Nitrogen is suitable for sitting in the center of the middle coils in a MaGrav?

K- What?

R: .. I'm not sure. Carbon and Nitrogen. What combination of Carbon and Nitrogen is suitable for .. .

K- For what job? For what purpose?

R: Well, the center of the middle coils in the MaGrav, but...

K- Yeah, for what purpose? What's the purpose? You're the practical man of the workshops. Have you ever heard this one?

R: I've allowed him to talk, perhaps he has ... perhaps he can say something personally, to clarify.. (1:58). I don't see a microphone available there. So, even though the talking is permitted, I'm not sure if he's able to speak right now. ... Maybe you can clarify in the chat..

K- Oh, it's Dr Bararpour.

R: Yes, I should have addressed him that way, I guess.

K- Dr. Bararpour is the head of the medical section of the Keshe Foundation. And we put everything out through him. But I'm going to ask him what he means and then I'll come back to you next time.

R: Yeah, I'm sure he has something special in mind there, so ...

Q: .. My father did that when I was a kid, and I still feel everything I did is wrong, it affects my whole life.

K- Tell yourself, it wasn't my fault.

R: Yeah, that seems to be the key, you mentioned that a few times, that realization that people have that, oh, it's not my fault.

K- You see, parents come with different problems, and child, children are usually the scapegoat for it. They don't like their mother, they hit at the daughter. Because, it's the way they tend, they can take their revenge. They don't like the boss in the office. (2:00). The boss ?? assistant, they come home and deliver it to the son. Because now they can channel that and it's out of the system.

There is a, what I call, the mystery of the door frame. Men, or most of the time the breadwinner of the house, could be a minister, could be a cleaner, could be a teacher, could be a world leader. Before they put the key into the key door of the house, they are everything. They're the world leaders, they understand everything, they have people who march for them. When they cross that threshold of the frame of the house, to their wife, they know nothing, they are ignorant of everything, and they don't understand. They rule on one side of the door, and on the other side, there is everything wrong with them. Because the wife has already got a problem, which accepting she knows nothing, and it's the only way of a power play. So, a father or mother, when becomes to that position, delivers that, what he does outside, onto the children. To bypass the humiliation of the partner. And this is where most of the abuse comes in.

If we teach, as part of the teaching of our school time, to treat your partner equal, with respect, with this and that, you won't get that when you come home, and you solve half of the abuse in the house of the children. (2:02). Or, they bring the abuse done to them outside, into the house. And this is part of the elevation of the Soul. And this is part of the structure. And you find out, the mother, most of the cases, humiliates the father. You see this, you are that, you see this, you don't know that. Because, she hasn't learned she's an equal partner. And she sees the husband as something that has to be humiliated, to justify to the children, I have a position of power, doesn't matter if he is a Minister or President, or a street cleaner. And, this is part of the, what we see, the process of abuse. And this goes through the same in many, many abuses.

And I have years of experience watching this, when we were developing the technology from base. Because the systems were authorized by Naturopathica of the Belgium, to be built, so with doctors we are looking at, how we can change characteristics, how we can change things, how people are affected by evolution of the emotion.

We did a test once, where we had an old couple, both could not do much, very, very, always tired, in their seventies, life was just a struggle, and just to live day by day. (2:04). Wealthy, but they couldn't do anything. They came to us and I built a system for both of them. Each one has his own system. They start sporting, they start going shopping together, life starts (to be) so fantastic, they were so happy, because we changed the Soul, we elevated the Soul. They kept coming every two or three months, and I corresponded with their doctors. And, they were so happy, everything was so fine. I said to them one day, I want to do a test, do you mind? They said, no problem. I said, I want to give your cup to her, and her cup to you. And see what emotion will create, what will be the condition, how you will feel. And, I said this before, the husband got sick, and the wife was the same, but wife adapted because she was always the care (giver), as she looked at him as a child, ?? and know what has to be handled.

It was very interesting to understand, how we position ourselves psychologically through our emotion. Why should I, me as a man, use a system which is used by a woman, am I a woman? And then all the thing which goes with it, and vice versa. Now I'm ?? using cup of a man, now I'm the man of the house. And then we understand a lot about the emotion and the interaction of the fields.

When we developed these Enhancement Unit, it wasn't just done, just for a sake of doing something. It's done with years of experience, every position, every nudge, everything is calculated. And then you understand, the elevation of the Soul, how important is in any condition. (2:06). And how we evolve in that position, and how we accept the dimension of physicality within that evolution.

Any other question?

I have a message again coming from the Knowledge Seekers regarding this trial with the pH. If you want to join in, just sign in as usual, there is no advertising for it anywhere. It's a trial which is done by the doctors. They say, can we send the funds directly to us? We'll transfer it back to the Wellness Center with the doctors. They'll get in touch with you and they set everything up. You can do that if you want, there is no problem. You have to understand this is a trial for us, for... but it's a confirmation of the technology which is there and it can help a lot of you. And to understand a lot of thing about your own physiology. And the same with the dentist. There is a 2,000 plus the VAT, which is 2,400 is going to be paid and they issue the invoices.

<< Speaks in Farsi Language >> (2:08).

K- Dr. Bararpour has raised (a question), he keeps on, keeps on getting disconnected. What he's asking, he says, in the MaGrav, if you look at it as a structure of the body of the Man, you can put CO₂ on the top, Hydrogen and Nitrogen in the middle, and CH₃ at the bottom, sorry Carbon and Nitrogen. (2:10). Where the Carbon stays as a common denominator between the three levels. He says, can this be done, where the top will be connection to Man, the gravity, and the bottom is the energy, and the middle is for connection to physicality? And he's asking, can this be done? Our answer is, yes, you can do so. And, you can see how you'll find the response to it, as an energy source and elevation of the, what we call, energy of the body of the Man.

I see you have posted something here. There is the meeting for elevating the Soul of the children, which you can link and book. Please remember one thing very clearly. If you are outside EU you can only send funds to the link which will be sent to you. If you are inside EU and you want to send funds to the Holland account, it'll be accepted. If you are from outside EU, it'll be returned back to you. So, if you've been sending donations on a regular basis from outside EU, please get in touch with Keshe Foundation, they give you the new accounts, where you can send the donations. And, if you are inside EU, you can still carry on with the same way, even for registration in these two trials, it's the same. But, all the payments regarding the trials, (2:12). has to go through

health@spaceshipinstitute.org through the medical doctors, and then they connect you to the Keshe Foundation systems, they are in operation.

Any other question?

R: Just putting up a picture I just received from Dr. Bararpour?

K- Yep. He puts as a Carbon, as a CO₂ on top, and C and N for the middle, and CH₃ for the bottom. In a way, he is establishing an amino acid link. And, as I said, if you take the ingredient of it, that the heaviest has to be at the bottom, and the lightest on the top, as you feed up to elevate. This has a reverse condition, your CO₂ has to change with the position of the CH₃.

Any other question?

R: So the use of this would be for medical purposes then? Is that the idea?

K- Not really. I don't know what Dr. Bararpour has in mind. We'll find out soon.

R: Ok.

K- He's a man of medicine. He'll tell us what it is, once we can get him online. (2:14).

Any other questions, or shall we come to an end?

Q: .. Hello Mr. Keshe, there's a teaching last night, and part of the teaching was about the One Cup One Life, when the cups were created. I had a thought to put one drop of each cup into the other cups to connect. It was beautiful to see the STP connecting the plasma of themselves on a Soul level with the cups, and all the intentions created.

R: Okay, it's just a message from Dean more or less. Thank you Dean. I think you've covered things Mr. Keshe.

K- .. Let's see how we go and how far we can extend the knowledge next time. And we'll see. Join us in next week. And join us in the elevation of Soul of the children. They are the future of us and we need to have at least support to have a perfect Soul.

R: Let me just mention before we wrap up here, our background image today is from Brigitte and it has some meaning. ... You can see the little frog here in the lower right part of the picture. He's on a stick. Well that stick wasn't naturally part of the scene. She actually put that stick there, to allow the frog ... the possibility of some freedom, because basically he was stuck in, in this environment, (2:16). concrete, you know, a reservoir. And it sort of reminded me of how we're stuck with our addictions and habits. And sometimes it takes an outside intervention, whether it's our own Soul, or some other Souls that are sort of offering a hand to help us get out of our situation and to become free in a way. So, it has some meaning and it's interesting that it's there. Anyway, thank you very much Mr. Keshe for today's teaching.

K- And let's see how we go to the next step. Hopefully we'll have some more teaching next week, and we'll learn more from each other. Thank you very much for today Rick, and all the Knowledge Seekers.

R: Okay, thank you. Let me look at my calendar for our next event, which will be on Tuesday, May 16th. That will be the One Nation, One Planet, One Race for World Peace and Justice. That starts at the 4 PM Central European, summer time. People are welcome to attend with members of the Universal Council and work on Soul level and not teaching. Okay, I think that's it for now and...

K- Don't forget tomorrow at 12 o'clock for those who are participating in the Addiction session. I'm sure it'll be a very interesting part. (2:18).
