(:20)

K- Yes, thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers from Keshe Foundation Spaceship Institute, we welcome you back to one of the most special sessions of the Keshe Foundation, in trying to bring the first series of connecting thousands of people and millions of people in the future, through the same structure.

As usual, the first part of the teaching section will be as it is. And after the break, we all connect into one common system. The reason is that many people will come in later on, and we allow everybody to be in, who wants to be, and we see what will come out. We don't tell you what to expect, what to be, but we leave it to you, when we start in the second session, how you feel, what you receive, and how your emotion and your thoughts will be. This session will be here for about half an hour to an hour, absolute silence. We control everything in the background, and, as usual, we try to silence those who make noise, and we don't turn you back on, we don't let you to be switched back on (you can't come back in). So, we cut the noise out. Be careful, there is no noise, because once we cut you out, the circle of this process between you and the system finishes. So, be very, very careful in how much noise you make, and the way you make noises, and keep silent for that half an hour, an hour.

People who join usually Friday sessions every month, they know the process. But this time we don't switch on, we just... you just go into attendees and you cannot come back on. And, those who go through the full process, it's your emotion. It's how you feel, and

this is how you will receive energies, (:22) from beyond the dimension (D) of physicality (P). It's the first time we are doing this in such a public way.

And next year, this will be extended, as we prepare humanity for the next step. As it goes through, and this cannot be the silent time, it will not be transferred through, what we call, communication line. If you are not in it, you cannot record it and listen to it and say, "Oh, I felt it." Then it doesn't work. You're not connected to the system.

R: Mr. Keshe, what about people in Livestream and YouTube? Are they part of this, or are they not able?

K- Yes, anybody with a headset, anybody with a headset, you are in it. Doesn't matter you're on the YouTube, you're on the Facebook, you're on, what you call, Livestream, you're on Zoom, you're all in it. We tell you, you connect through the headset, it's the information which we send out, the energy we send out, which is instantaneous, it cannot be recorded. This is why I said, in the future, if anybody sells you a unit, It's the Keshe Foundation unit, you know it doesn't work, because it's not connected to us. It's just waste of time.

R: One other quick question, Mr. Keshe. Can people with metal implants attend today and also on the 22nd? ...

K- No problem. It's just, if you don't feel good, just disconnect, take the headphones off. And switch the program off, till we come back, when you can come back on. This is our advice to you, if you, anywhere in a position, if you have a pacemaker or whatever, you don't feel good, immediately take the headphones off, and switch off from the teaching, and join an hour later, when there is no more communication. We learn slowly, slowly, and as I said, this is the beginning of a cycle, that we'll bring into, and what we call, the promised communication, (:24) that the Earth and the man and the Soul of the Man (STM) will become one.

Going back to the teaching, as part of the teaching today, is important for many of us to understand what the process is, as we come into understanding of the connection of the Soul, in the second part and the rest of it. There is a big piece of information which is missing, and it's a good time to fill it in, to bring it in, that you all understand where has been and where we go, and what Keshe Foundation has done.

In a process of the work of the Keshe Foundation over the past 40 years, we started with what we call, the structure of the physical reactors. Long before Knowledge Seekers (KS) came into operation, long before we started the teaching in the process of what we call, Gans's and the rest. What was important at that time for us, was to create a condition, that we could create flight. That we could take the physical body of the man into Space.

In that process, we created what we know now, as the process of the flight system. We created the condition that brought us the whole Totality of knowing and bringing in the process of physical dimension. And how we could change this physical dimension, how

we could bring, interact and be part of the whole process. In this process, in this understanding, we try to explain to those who are around us, the scientific world and the rest, (:26) in how we can create conditions that allows man to...

(I'm trying to get to the white board. And the system, the... Oh, it's okay).

What we're trying to do, what we, the Keshe Foundation did originally. ... The original system was what we called, the reactors, the Space reactors. In these Space reactors, we use specific materials, to create lift and motion.

In that process, we came to understand what we need to create distance, what we need to create, in a way, new dimensions of work, that it allows us to make man, traveler of the Space. We've made copy of the Earth, we've made copy of the dimension of Earth, any celestial object, where we created the, what we call, the double core system and the rest. So the system became to be known as what we call, "nuclear power generator lift and motion," or MaGrav system, electrical, electronic, whatever you called it. It became a flight system. This was for to lift, to move, and to go.

Then, in the later years, we brought you to understand the position of the working with the energies which creates life on this planet. (:28) And this was a crucial point where we needed to create a condition that, as a planetary system, in the first cycle, the first with the Iranian nuclear power generated magnetic fields, we created lift and motion, and that was the purpose of the job. That was what was supposed to do, create motion. The cycle of the Gans's and the rest, and the energies, which we brought in, was to create the condition of life. Which, this is what we call, as all of us, our physical dimension.

So, it came to be, what we call, the physical life on this planet. (My pen has gone crazy today). So, we now are in the process of what we call, the physical life. This is the motion and lift. But now we added physical life. For years we worked on this. Now we have developed a system that for the first time in the man's history, creates motion, creates lift and can sustain physical life. Which means like Earth can produce energies we call, food, can produce energies we call, medicine, we can produce systems, can affect our emotion.

So, now the advancement of the new technology, which now propulsion has become obsolete, is that we have a system which has a motion, has a lift, but now supports life, it's become a planetary system. But, what we never understood, and what has been missing, again, has been the matter state of it, (:30) motion of the material, existence production of material, has been a system, that allows the Soul of the Man (STM) to take the center part. So now, we have a system which has a Soul.

This is where the work of the Keshe Foundation, on the scientific side, on what you see as development of the physical systems, has brought the man to be. So, when man, in the coming weeks and months, goes through testing flight system. It'll be a flight system not to just take you from A to B, it gives you, it feeds you in the dimension of physicality, and then, it can feed your Soul, it can carry your Soul. It can be in the dimension that you decide to separate from it, or sit within it.

This technology now is complete. And the new Space System, new systems which are coming into operation, in the coming weeks and in coming months, it'll be the first time ever man will carry his physicality. It'll carry the food for his physicality, and his energy carries food for his Soul. And allows the Soul to be transmuted. You arrive in a spaceship on the Moon, you want to be in the safety of physicality of the man, you stay with these two, but you want to go outside, Like how it is to be, physicality of the man would not stand the field strength, the atmosphere of the Moon, you transmute and you appear as a man of the Moon, (:32) as an entity. Then your Soul decide, this entity moves with the pace of a snail, or moves with the rapid speed of light, and then you have, you are in charge.

This is where the technology, the structure of the Keshe Foundation, brings the Totality of the teaching of past 40 years together. Where, step by step, first of all, we brought you the, what we call, the physical side. Then, we brought you the life side. Now, we add the Soul into it. So, when the man travels from now on into the depth of the Space, into boundaries which has never been before, he has a full option. In a way, it's your right.

In a way, now we understand where we sit, where we are, and why the teaching has been segmented over past years. Oh, Mr. Keshe went from the nuclear material into Gans's and Nano material, now it's gone to the Soul. Now you understand where we are. Now you understand for the first time, every section is there for man. And every part of this has its own spin-off. You use the first one for traveling with a car, going somewhere, shielding and defense, with this one finding ways of medicine, food, energy, and with this one, the freedom of the Universe (U), we call it the STM.

Now, man is ready to travel. Man is ready to educate itself to travel. Now, this is why we added the second section of today. Gradually bring you into a training, gradually becoming for you to trust, "This wasn't a dream I had today, I was in control of it, it's me who goes to dream, nothing to do with anybody else." It's not, "I'm just been going through a training." (:34)

In a way, if you look at it today, you're all like that little boy, who walks into the stadium with a little ball in the hand, knowing what the ball can do, and he can make him the best footballer in the world, or it's just I kick a little bit, just because mom brought me here to test. So, any of you can graduate for your own and nobody else, and nobody can deny you the, what we call, to become the best player in the world. Of playing with your own Soul. And how to establish it. All we've done in past years, we have made this possible. We have made the transition possible, by understanding the work of the fields of the Universe, and not making a new fuel, not making a new stadium, and not making another Beckham, how to bend it.

It's you who have to understand, how where you want to be in this part of the technology. As I said before, we never see the Earth to be tanked, to fuel, we never see rocket propulsion and jet propulsion and wings on the Earth, we never see anyone as a driver of this planet. It has no captain, except his Soul. His balance of his Soul with the rest of the

Souls of the other planetary system. And it's created the star of it, and the creation of his Galaxy, together.

In a way, the second part of the teaching of today, it's for you to get behind that car for the first time and lose your fear. And the fear comes when." Did I feel something? (:36) No, it was something else, I just felt a little bit dizzy, .." How come it didn't go dizzy in past 515 tests, 515 teaching? The whole purpose of what you feel, to get confident of who you are. This is part of me which I denied, this is a part of me which I never wanted to know. And many of you will say, "Oh, I didn't feel anything, that was nothing, I just wasted my time." You wasted your life and your generations of the same.

You have to get confidence in how to be in this part, how to be the passenger of your own Soul, the captain of your Soul. Because you tested the Gans's, you know the powers of it, now you have to test your Soul. And that's all purpose of today's second part of the teaching.

Now you understand, we have brought you the knowledge of Creation, from the energy source Book number three, to Book number one. In how you go from manage, to become the Space of yourself, to physicality of the man. In a way, today we brought you a conclusion, or in a way, a summary of the 40 years of work, and 10, 15, 20 years of it, you as Knowledge Seekers, in one way or another, have been around with it.

Now you understand, why you're going through the second part. Why you are going into position of now trusting yourself, not us. You remember when most of you came into the teaching of the MaGrav making, and how many of you made MaGravs, it doesn't work, it works. And some people get 80% reduction, "No, there's something wrong with you." And some of you, "I made so many MaGravs, it doesn't work." You're the same ones which this system will most probably not work for you, (:38) because you have not understood the purpose of the work of the MaGravs. You have not understood, it's magnetic fields that you have, to trust, "Can I connect?"

Some of you in the second session, "Oh, I want to see my mom." And you go and see the mother and says, "Oh, it was wonderful." And some of you sit there, "Nothing happened, why can't I connect?" For those of you who cannot connect, in the following sessions, in the following, next year, we bring you that dimension that, and then when even you connect, "I felt nothing, I always do this." It's a typical behavior of people who deny their Souls. Denial is the best way to get by. And man has denied his own Soul for millions of, thousands of years.

So, what it comes, what it is, what we have, is the truth about ourselves. You have brought today with you, the "lift and motion," your physicality. You brought the physicality of the man, in the dimension of the food and energy you carry inside you. And today, you're testing the one you denied, your Soul. The energy within you, and the energy you decided to deny. You decided that it doesn't exist, because it befitted the Pope, the Ayatollahs, the Rabbis and the rest, to rob you of your physicality.

When you understand, you see the power of your Soul, you close all those hypocrisies. (:40) That's what I say, that's what part of the teaching to come in the following weeks and months, is when you understand it, you walk away from the mosques and the churches and the rest, and this hippocratic people of the Ayatollahs, and Pope will close shop. And as I always said, "I return the stones of Vatican back to Coliseum." Because, man sees more purpose to enjoy the game, than much to be abused by a game of the others.

In this process, it's your job to understand. It's preparing yourself to accept, preparing yourself to be there, to accept yourself and nobody else. We are not introducing a prophet, we are not introducing a guru, we are not introducing somebody else. All that prophets, all that gurus, is you on your own, and not us. You have to understand the process of Creation. You have to understand how, in the teaching of the Keshe Foundation, step by step, we have added pieces to you. For you to gain trust, for you to know yourself, for you to bring that change for yourself.

Now you understand, with the lift and motion we did with the Iranian government, with the physical dimension we gave you the MaGravs and the Gans's. Today, your Soul is to play. And that's you, and not us. We just create that cycle for you, to gain the trust. It's the way we put a week of producing MaGravs and we taught you everything, and 95% of you never got it, and the other 5% who did, made money out of you by selling the MaGravs which worked, because the ones you made didn't work. (:42) And it'll be the same today.

How do you feel? How do you change? How do you assess your own freedom? Because, when I land on the Moon, and your physicality is in the craft, for 10 years, 20 years, you get fed up. There are others outside, I see through the window, even like a stone moving around, there is a, something like a tree, which is standing there, it was John who was with me, now he's there, because I know the jacket is hanging on the trees outside, it's a Moon tree, which is different than Earth, and there is something like a lizard, which is Suzy, was with me, it's going there, the body changed to a lizard shaped thing, because that can survive the Moon. I wonder, which one would I be when I go out? The lizard, or the tree, or the stone? But I decide, because I know, within me, within the structure power of me, I want to be a lizard for a few days, and the tree the next day. But I carry the red jacket outside, that everybody knows it's me.

We are getting to that process, the process of freedom, the process of understanding. And then, slowly, slowly, this is upon you, not upon us. We are facilitators. We are not the dictators. We are not the conditioner. We give you the facility for you to what I call, sandbag testing. Test your Soul, test your trust, how much you trust it? You went to see grandma, and I don't know, I think, I felt I went to the grandma. I felt tinkling in my head, because my body tells me there is a problem there, but I leave the tinkling, I just felt the tinkling. Why did you feel tinkling, you didn't feel before the session, or after the session is done today? (:44) So, it means, again, that tinkling is you to confirm, you can move. But this time going to the Moon, you moved where your Soul hurts, the tinkling in the body of the man.

Now you understand, why we brought this teaching on. And then, next week, on the 22nd, for those of you who registered, you join in to learn how to transfer this energy. What we call, the love, the giving. Those of you who join that session, we hope that you will feel in receiving, and you will feel in giving. And that emotion is entirely up to you. Some of you are too greedy, you receive and you hold on to. Some of you too generous, you give so much, that you pull more in, and then most of you will go into a condition which you will understand, brings you so much joy, that is the love of the Creator. Then you understand why the Creator is in love. Because the more he gives, the more he enjoys, and the more he gives, and the same cycle goes on.

But then, in the sessions of next Friday, you can even choose who you want to give it to. That energy, that love you give, brings enlightenment to the one you give, if he's there to receive it. It could be a lover sitting in front of you, holding your hand while you're going through it, but he never receives it, because in a way, he's a partner in the physical side of you, not partner in the Soul of you, because the strength is not there, is not as he needs it. Or he receives enough that does not need. It could be your dog. It could be your child. It could be a stone.

So, in this process, we all understand, (:46) how we will change, how we have to change, how we go through the change, and how this change brings us to the, one step closer to know ourselves, to understand ourselves, to be ourselves, and to be part of ourselves. The, what I call, the session of next Friday. Those of you who registered and be there, will bring a new dimension. In giving, you learn to receive unconditionally. And in that process, if you go through that process and understand what happened, you start becoming what we call the Satellite (Soul). The structure of the Satellite, the structure of being transmuted, just the receiver to give, to the dimension, to divide to. And then go through the process of understanding what we call, enlightenment. And once enough Knowledge Seekers get enlightened, like a spark, will cover the whole humanity.

As I said, you go to China, you go from French speaking, when you receive, when you arrive in China, in the dimension of the Soul, the "Soul of the nation" will teach you the language, will bring you the culture, without even you being there. You'll speak Chinese, you understand everything to the culture. And a joke is a joke, because you understood the essence of the culture of the language and the language. And not just the dictionary translation.

The process in the next few days will bring you massive changes, those of you who understand it. And some of you who'll go through the same process next Friday, you will have a different Christmas. (:48) Because this time you'll truly feel the love of the Creator within. And then it's for you to build up to the next step. It's for you to understand the Totality. It's for you to mature to the truth about your own life, nobody else's.

And, as I said, those who say, 'I didn't feel anything, nothing happens to me, this is just sitting there and I feel no emotion' is exactly where the problem of the man has been. You have switched off the connection with the STM and the Soul of the Physicality

(STP), because you have to be in control. You have to feel, "I am in charge", and you're still stuck to the dimension of physicality of the man. This will come very easy for many of you, and some of you will hit the wall. Don't worry, in time to come, we'll get you not to be frightened of the road, that you have sat behind the car and you got a steering in your hand, and others going so fast passing you. You'll gradually learn, gradually start driving, and you become one of those in the coming time and in ?? the Space.

The process of understanding, the whole teaching of past 15 years, brings an end to all religions and all abuses of man, in the name of the Creator. Now you understand, why you do not need a prophet, you just need a teacher to teach you how to get rid of these, what I call, fake Messengers, connectors and the rest of it, with the Creator. Now the only Messenger and the only in between is you and your Soul. (:50) And you decide where you want to be and how shall it be.

You have to understand the process. You have to go back to understand how we have facilitated everything. In the physical dimension, in the energy dimension, and in the Soul, in the dimension of freedom of the man, from dimension of physicality.

Understand, that we have brought in the Totality of the knowledge, is for you to divide it, to break it up, the way you can digest it. It's a very big piece of cake, and you cannot eat it all in one go. Bit at a time, bite at it, enjoy the taste, and go to the next bite. And then understand, one has a taste of love, one had a taste of giving, one had the taste of finding a way to give, and all to be correct. And maybe, maybe by Christmas, you'll truly receive the three gifts of Persia, by Persia. You'll talk good, you'll think good, and you'll act good. Then, you truly understood the three wise men, which is the wisdom of the work of the STM.

Then you truly understood the Truth about Creation, about your life, and how you have to conduct in the Universe, now that you have understood the freedom of your own Soul. And no one can be your Prophet, no one can be anything but a teacher. (:52) And teaching is for the teacher, using the knowledge is for the Knowledge Seeker. And how you seek that knowledge, it brings you to understand, how to use the knowledge you've been given over centuries, thousands of years, and free yourself from shackles of all what limited you, to control you, to bring you pain, sadness, and in so many ways, prisoning the freedom of the prisoner.

As I said many times, the blood circulation of the man brought the imprisonment of the STM. And the religions fed it by the physicality. You had two prison officers controlling you. You now understand you need no religion, because you are the direct connection. You got rid of one prison officer. Now you have to allow the second prison officer, which is much tighter and closer to you, which is the STP of you, to work with you. And then it'll become the key to your freedom.

If you understand this, then you can travel the span of the Universe instantaneously. And you don't need for no one to prophesize what's going to happen, because you do. And what you've been through is your right, and no one can tell you you're wrong.

We're going to go through a break. When we come back, I will explain to you, once more, how to do, what to do. And we go on the silence. Half an hour or an hour of silence, (:54) and any noise we'll switch you off, because you disturb the process of the, what we call, the teaching. Rick, could you please start your usual repetition of the same advertising as past five years or whatever? And when we come back, we all go through the same. And we'll see what the next step will be. Thank you very much.

>> **BREAK** >> 516 KSW December 14, 2023 (1:01).

K- ... Yes, we're trying to change the control, but it cannot be done, because it's on a different dimension. Okay, what we're going to do, what we ask you to do is, is stay absolutely silent. Put your headphones in any shape or form you like. Left to right, or right to left. and phone microphone on the left side, the microphone on the right side, it doesn't matter. Then, just go quiet. We do all the things we want to do in the background. We control everything in the background. And no noise, and as I said, we just put you out one by one. It is good to have 50 people to go through the first, what they call, 'Emotional track of their own Soul', than 90, 290 people just making noise in the background. So, what I would like you to do is, just put your headphones on, and leave the rest to us. We start now, and we start the process, And I hope you enjoy the journey of your life.

(1:04)

K- Rick, can you bring everyone out of the attendees into the panelist, please?

R: Okay. If we can bring them all in at once, I guess we have to do it one at a time. Okay.

K- Carry on, just add them all, ?? one.

<<< The session begins and everyone remains silent. The whole process lasts about an hour and a half. Throughout this period everyone is silent, and we only have one specific instruction from Mr. Keshe during the period of silence. >>>

(2:21)

K- Please from now on keep absolute silence for the next 20 minutes. Absolute silence, no noise please.

(2:37)

Thank you very much for joining us. And we have switched the systems off in the background. We leave it with you to go through the feeling whatever you have. And we'll see you next week. Thank you very much.
