

517th Knowledge Seekers Workshop December 21, 2023

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

300 online - mass travel Soul; Soul of Creator (STC) manifests as STM; We are from Creator; End of one transmutes to being new - I am beginning & end; Soul suffers endures for STP & P to mature - love; All Creation carries STC; Ray of Creator hidden in egg & sperm - manifest You; Egg/Nano - Sperm/Zn CO2 Gans; Secret of creation of Man; End of religions; Need teachers to understand- not Prophets; 99 Attributes of Creator; Purity & sincerity to understand; Mitra brought Creator to Earth - experience beauty; new Flight Sessions all day; Satellite Souls; Complete work in China; Christmas celebration of Mitra - add 3 days Ethos get 25; Walk away from darkest ignorance to light; Americans set Khomeini destroy nuclear industry; Shah studied N physics; How to use multiple headphones; Leaders sell Soul; CO2 - AA Global Warming - dismantle; Mental work & Souls need fast energy; Limit Soul expansion to brain - get enlightened; Sexual customs create different emotion children; Middle East marriage age 9 - Mohammad's rule - stop growth of Soul; Mature to find Soul Mate - offspring; Scalar waves - MG fields; Faraday Cage.

ENGLISH TRANSCRIPTION

(:18)

K- Yes, thank you very much. Good morning, good day to you as usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Space Institute. We welcome you back. And we hope you had a nice, turbulent, exciting week, since the last session. And I hope some of you managed to reach, what I call, emotional conditions that you could not explain, or some of you, as you wrote, you felt things which was not usual, and some of you could manage to repeat what you wanted to do, you've done before.

This is part of the work of the Keshe Foundation from now on. We are preparing you as Knowledge Seekers, and those who become as part of permanent, what I call, ?? fitting, to join, to become part of the, what we call, travelers of the Universe, in different way, in different dimensions. Usually, when you do a test flight and you want to become an astronaut or whatever, you go through trainings in different dimensions (D), in different directions, physicality, psychologically and the rest of it. Fortunately, for traveling with the energy of the Universe (U), there is no psychological test, there is no deep holes, and you can jump in it and do all sorts of physical credibility, if you are credible to use your physical body.

The training for man to become passenger of the Universe, is exactly as it's done, and will be done. And in time to come, it'll be taught the same way. And as we saw, we started the first steps of it, some one and a half years ago. Gradually, last week was 300,

all of you together, (:20) that you can see, mass travel is possible. And then, it was interesting to see how some of you reacted during the process. We kept a full track of exactly how it is, when you, as a lot collectively for a few minutes, took to the skies of the Universe.

And it is interesting how this training will carry on. And how we, what we call, endeavor to train you as a whole, as the Passengers of the Universe, step by step. Some of you will join us again in other sessions, which is a continuous development, expansion, and understanding, till one day you do it, it says, oh, I've done it, but I think it was a mistake. I don't think it really happened to me. But in fact, you have taken that step, and then you can repeat it, and then it carries on.

To this effect, as we said before, we will start introducing from the 2024, new series of, what we call, Passengers of Universe, for you to learn to become, to be able to transmute. Those of you who are interested in transportation, we're still working with the governments and the rest, to bring it, make it possible to be able for you physically to go. Those of you who take the other direction of the energy transportation, called transmutation, you are getting gradually prepared. It was interesting to see how many of you were there testing it, and trying it, and just wanted to be part of it.

The transmutation of the Soul of the Man (STM), is the essence of the creation of the Creator. Maybe for the first time, (:22) I can explain something to you that brings a shock to you and maybe enlightens you. If you listen to the Intro, it said, "I am the beginning, I am the end." It said, that we manifest ourselves from interaction of the fields in one given time, position, and space. But, stand still and think for one second. Does not matter what you do in the dimension of physicality (P), how you look, how criminal you are, how good you are, that's your physical manifestation. Looking at the dimension of the STM. You should have realized by now, that in essence, as you transmute from one position to another, to manifest yourself in the dimension, wouldn't that this transmutation will be the essence of the creation of the Creator, which you call your Soul? Transmuted from Him, and from Him in the interaction of the fields of the Universe, at a given time and position, becomes your Soul and manifests itself as the STM? Is there any difference or is it just limitation of your own understanding that you are the manifestation in dimension of the Soul of the Creator itself?

And if you have not limited your understanding just to be according to your own comprehension of the Totality, (:24) as you now getting ready to transmute from this Soul to another position to manifest yourself in another shape or form, in another position and dimension, hasn't the Soul of the Creator done so with your Soul? Now you understand. I am the beginning and I am the end, because I am on the end when the Soul of the Creator manifests in the Soul of me, and in the transmutation of me, I lead as a part of the Soul of the Creator, to another position to manifest itself in another dimension.

Now you understand. If you were looking for transmutation from this position, this dimension of physicality, to another position, on the end of the physical life of the man, you call death, and now that you learn to transmute at the point of the will, hasn't it

created the will to manifest itself in another position, which has become the STM, you. How can you let Him down, in your dimension of physicality? As in essence it's pure, as in essence it's the mature and in Totality, and now he can understand, if He's so beautiful, if He's so just and correct, how much that Soul suffers with the conduct of the physicality of the man, and He sees it's not him.

And then you understand, what the loving is. Even having the power within it, to change the dimension of the man in the physical dimension, and even the Soul of the Physicality (STP) of the man, it endures all the pain and the suffering. For that child of physicality, for that STP of the man to mature. (:26) Then, you understand, there is no end, and there is no beginning, Because, the beginning is the end, and the end is the beginning. The Soul of the Creator manifests itself as a STM, you. And then, you in interaction of the physicality of it, create the manifestation of your own physical dimension.

In a way, as I explained to the children about the STM and the Creator, it's very much like a big dough. You make a big dough, and you take bits of it, and you shape it, and you put it on the tray, to see what will spring up when its put in the oven. Not all the cakes will look the same, when they put through the same oven. One crinkles to the right, and one burns on the edge, and one gets bigger and one is more fluffy and this is what you are. You are that bits of dough which is taken from the bigger dough and then put in the condition of the what we call, the Earth, the existence, the time, the presence, everything else and you manifest brown, black, blue eyes and the rest. But in essence, you're all from the same dough. In essence, what you are, what you have, what you call your Soul, is the collection of the interaction of the fields of the Creator, from the, what I call, division, interaction and every other condition a field can go. (:28)

Now you understand, you transmute, you're hoping to be able to do, to manifest yourself in New York, or Mars, or another galaxy, where the Soul of the Creator in transmutation has ended up to be the Soul of you. How can you let Him down with your conduct. Then you understand the Ethos of Mitra, which is the Ethos of Creator. Do good, think good and act good, because you are me. And in me there is all the goodness.

Now you understand where we are targeting, where you are going, where you end up being a stone, being a bird, being a fish, another planet, another creature, you still carry the Soul of the Creator in manifestation at the time, space and place. If you understood this, you understand there is no religion. As He manifested within you, and you manifest yourself within the conduct of His behavior. Understanding whatever you do, you say, you think, has to be in line with the line of His Creation, otherwise you haven't understood a single thing about transmutation. You want to transmute your Soul to another dimension to manifest yourself, but you never thought where did this Soul come from that it manifested itself as me. Isn't this a ray from the, what we call, the Soul of the Creator? (:30) And He's been so clever that he's hidden it between egg and sperm that when they come together they create the plasma strength of the field of the Creator.

And now you understand the mystery of the Creation. When the egg and the sperm come together in that dimension of the field strength they create, they create the field, the

condition, the what we call, the womb, the condition, the space that creates a field strength of the Creator's Soul that manifests as you, and then, in the interaction with the other fields, makes the physicality of you.

So, when you say that, we create the condition of the egg and sperm to create that fetus, in fact, the egg and sperm are only there to create gravitational (G) magnetic (M) field of the Soul of the Creator, that manifests itself as you. Haven't you done this before yourselves, as a Knowledge Seekers for past decade? The egg is the Nano coat of the Copper (Cu) and the sperm is that zinc plate. And in that position and condition you know does not matter how you distance it, how you change the salinity, how much water you put in it, at the end you end up with CO₂. Different strength, different plasmas and you pile it up, billions of them, replication of the field strength of the CO₂, the Carbon.

Now you understand, you call it Nano coated plate and a zinc plate, Nano coated of the zinc and the zinc, sperm or an egg, or whatever. (:32) You create that condition, magnetic field strength of the Creator, that manifests itself as you. This is the gift of, gift of Mitra. Tonight this is her birthday. And maybe now you understand. How you, as a Soul, have been created as a gift of His love, as a gift of His dimension of existence.

How can you do wrong? How can you let your master down in the conduct and behavior? In a way, now you understand when He says, "I'm the beginning and I'm the end." The egg and the sperm create that "end" for it to manifest itself, and nothing does. The shape of the physicality of the man is the interaction of that field with its environment, with its dimension, with its characteristics. And even man have not understood how he's born. How that Soul in the environment of the dimension of the womb of the mother, is drinking and needs no lung. And once you change its environment, it needs lung to breathe and food to eat.

Then, what is the next womb for the STM? In the dimension of transmutation, at the point of death when it's freed, when it's born into another dimension. Now you understand the secrets of Creation. Now you understand who you are and what you are. (:34) And is there any need for fallacies of Ayatollahs, and the priests, and rabbis, and the rest of the crooked behavior of the man in the dimension of stealing from the Soul of the Creator. Next time, when you go to the mosque, next time when you go to church and to synagogue, stand there and see if you are any lower than the man who created you. And does he need a place of worship, or you worship him within you? Then you understand the end of the religions, as you have to become to mature, that you are the essence of His creation, and the correct conduct of the man, does not need buildings and spaces.

And as I said to the religious leader at Jeddah University, "What does your man do in Space, when he's rotating and evolving and revolving?" Which Mecca does he bend and bang his head against it, on the floor? Except, that he has to come to understand the truth, that within him is the Creator, the Soul of the Creator as the STM.

Then, if you understand this, you understand how you transmute, when you arrive at the point of the destination of the next field strength of your Soul. Be it your wish to be New

York, or be it the dimension of the field strength of the Soul at the point of death, that you appear in another Universe, another Unicose, in the center of another seed, and the rest. (:36) Now you understand the gift of the Creation. Now you understand what all these teachings has been about.

Now you understand that in the course of the time, in the next few months and years, we keep on strengthening for you to understand yourself, to understand the power within you, to understand that you do not need no Prophet, and you do not need no Messengers. But in the process of teaching, you need teachers, that they teach you the correct conduct. But, they do not take place of the Creator. They just show you the path. They show you the way that the conduct of the STM has to be. And, they have no rights to any other, but to teach.

You got to understand, in the time, in the position, and the position of the Soul of the Creator within you, you have to be at all time, representing Him. As it said in Koran, there are 99 attributes of the Creator. If you understand it all, you find 100. And 100 is the Creator Himself. When you put all the 99 together, you have found, you have understood, that is the Creator, the God. Whatever name you put on it, the completion. But in so many ways, the 99 are the attributes as understood by the man. When you become the Passenger of Universe, then you find another 99 attributes of Him in the dimension of the creation of the Universe. And then, if one day you mature to understand the Totality of the 99, (:38) maybe you have reached to be as part of the Source, as part of the Creation and the Creator.

Today, we celebrate tonight, the birth of Mitra. The longest night, when the man walks away from the longest darkness in his knowledge. Darkest part of his Soul, that now he enters the dimension of the light. Understanding, an evolution, revolution in his own intelligence, in his own comprehension of his own creation. Maybe, those of you who join us on celebrating Mitra's birthday tomorrow, you'll find out, in that, a new dimension will be added to your life. That dimension is the dimension of the Creator, the giving, which is the attributes of loving. And in that essence, and in that promotion, in that extension of your Soul, you come to see the first steps towards the transmutation and trust in doing it.

When the Creator emitted the light, the rays, the Cosmic Rays, or whatever you call it, that He ended up as you, He did not decided that, "I'm going to end up on Earth and it will become the shape of you." He trusted in itself, that it'll be good at the end. And in end, you have to trust the same, that where I land, it'll be good, as is the point of the manifestation of the man. (:40)

In so many ways, today's teaching, on the eve of the birth of Mitra, is the point, as I always promised, will bring the change for man. Those of you who join us tomorrow, and you're pure enough to understand the Totality of the Creation, in the womb of the Creator, created dimensions, you will come to understand, you'll feel His love, you'll feel by giving, you'll reach Him, in the dimension of your Soul. In a way, those of you who

give with purity, will touch His love, and you'll feel it, if you reach that point of sincerity to understand the Totality.

Destination of the STM is not decided by the man, unless the man still has a mission of the physicality. In so many ways, you say, "I get on this bus and I don't know where I go." But where I go, this bus will come as part of the world I live in and I trust it. And it must be good. And then you find the point, the time and the place, that the Soul has chosen for the man to exist, to survive and to nourish, to create. Many of you, will go through this transmutation, at one point or another, you will see your final point of the next journey. Where you call it the death and the new position of the Soul. And that point, in that point of transmutation, (:42) you'll feel it, this is home. And, with the luck you have, you can change it, that when you actually arrive there at the end, is good to show, to manifest the beauty of the Creator, with all His attributes.

Man has never had that chance, because he never understood the process. Now you understand the process, you have that chance to find a way. Once you see the point of destination, that's where I'm going to be, if it's good enough to create the beauties of the Creator, or I stay in the dimension of physicality, till I elevate my Soul to the dimension of the position, that when I arrive, I show His beauty, I show His love, I show His, what we call, eminence.

Isn't this what Mithra did? When she came to Earth, saw the beauty of this planet, and she was so touched by it, that she wanted to bring the Creator to see in the dimension of physicality of itself. And in one way or another, ended up as creature of this planet. For it to ?? feel it, He had to manifest itself in the dimension of physicality, to see the beauty, to feel the beauty of the physicality, the dimension that Mitra fell in love with.

In so many ways, when we talk, when we understand the essence of the Creation of the manifestation of the Creator, in every position, in every Soul, of every existing thing in the Universe, (:44) now we understand His love and beauty is limitless. His devotion to what He creates does not distinguish between black and white, man, Martian, stone or flower, that every one of them is beautiful, and is in the essence pure. When you walk on a beach and you see many shells. To you, one of these shells is so beautiful and it's so amazing. And the others who passed you and passed there, seen it, they discarded it because they saw no beauty in it. Where the Creator saw the beauty in that shell, and called it the mankind. And nourished it, and nourished it, and fed from His Soul, to bring it to the point of maturity, because for Him, to show the love of Him to Mitra, was more important than anything else.

Now you understand, now you comprehend, that what is the reason of the Creation, and where you come from, and who you are, and you find out, you are not an orphan, you're always been the King, you're always been chosen, you're always been there, in the essence of the Soul of the Creator. It's you who have let yourself down. It's who has put His hand in all the wrong doing, because you never been told. And the only way you could correct yourself was the punishment of physicality, with the abuses of the physicality of the man in the name of religions.

In a way, we all suffer in the body of the man, because we allowed it to be abused by the abusers. (:46) We are, as I said once to a doctor, we all ?? Fibromyalgia. We all have Fibromyalgia by the hand of the priest, the rabbis, and the ayatollahs, and every other ruler in the name of the King and the President and the rest. As we collectively absorb the sins and abuses of us. Now is for man to understand his own limitation, that there is none, except what he puts on himself.

Maybe one day, maybe in Totality, one day, as a collective Soul of the Creator, we become the Creator, and in that dimension, we understand to elevate all the Souls, which are at the strength field of its ?? Soul. Maybe one day, when the egg and the sperm come together, they create only one Soul, that will be Totality of the Soul of the Creator itself, that in its existence, will come to divide and create another Universe, another dimension, and maybe, in so many ways, a new race of Creator.

But man for now, has to understand his, or what we call, truth about himself. You studied the interaction of the egg and the sperm in the womb of the mother. You studied the creation of field strength of the Carbon, that led to creation, interaction with the field of it, that manifests itself as CO₂. Now you understand that every egg and sperm coming together, (:48) they create a field strength of the Soul of the Creator, that a rays of it will be embedded in it, and now you understand how you are connected to your Creator.

And if you understood this, you understand the word in the Koran. It says, << Farsi Language >>. Which means, we gave every beauty and the kindness and love of the God into it, and this is the beginning and the end. It's for you to understand, that it come from His kindness and His giving, and man has been blind to it. Today, for the first time, you might understand, for the first time, that the Soul of the Creator, how He has come to be embedded in you, in your Soul. as the egg and the sperm of the field strength, to gather all the field strength of the Creator within it, and nothing else.

You baffled by how genetically you modified a DNA, but you never understood. It does not matter how do you modify. In essence, those eggs and the sperms have created a field strength of the manifestation, transmutation of the Soul of the Creator, and that point and place in the womb of the mother, that He has in His interaction with His environment, has created you.

Now, we have unraveled the most deepest secret of the Creation for man. What you understand from this, is for you to mature your Soul. Otherwise, you still will be blind to the truth of the Creation and the Creator. (:50) It's for you to understand how to conduct, when you go through the process of the transmutation. And it's for you to understand what you want to transmute yourself into, at the point of arrival. Or, you still stay in the interaction of the fields of the environment, another Soul to lead to creation of another dimensions of lives. And then, it's for them how to manifest themselves in the physicality of the time, place and position.

I have unraveled the most secret essence of the Creation today for you. And some of you understood, and some of you it's another voice, and your great-grandchildren one day might understand and elevate themselves to it. Maybe now you understand why we talk about the Soul. Now you understand the essence of the creation of the Soul. And it's for you to decide.

And this is a gift from us to you on the birthday of Mitra. For you to understand why we celebrated this for thousands of years. And because at that point we understood the knowledge, and nothing else. When the man walked away from the longest, darkest night, to be enlightened and mature to the longest day. And the celebration of Mitra is the celebration of man and his Soul, in essence of understanding the Totality, and not just physical dimension of the light and the rotation of the Earth around the Sun. (:52)

We go for a break and we come back. And I hope you learned your biggest lesson in past 10 years being with us. You understood who you are, where you come from, and what is to be your destination at your ?? will. Rick, take us through a break and we come back.

>> **BREAK** >> 517 KSW December 21, 2023 (:57).

K- There's nothing changed, we just, as usual, a few announcements, which are usual with us. A lot of you join us tomorrow, in the celebration of the birth of Mitra, in a way, to Love. (:58) And Loving is giving, and there's a reason for this, that in trying to learn how to give, you learn how to start the process of transmutation. As you let part of you to become, or be given to another position, that in a way, is the first phase of what we call 'Loving', becoming part of the process of the transmutation of loving to give, that in essence it becomes another seed for another Soul, or adds to another Soul.

This session tomorrow will be amazing for those of you who go through the process and it'll change many of your lives, if you're touched by it. If you don't feel it or don't feel the Totality, then it's maybe time to mature to another level, that one day you'll reach to that point. But it'll change those of you who touch, you will touch the love of the Creator and Mitra. You understand what it means truly to be loved, to be in love and to give from. It's

one of the few sessions I'm looking forward to. To see how and what we see, how and how things will take shape, and how we shall see the Totality.

At the same time, to follow with this process, that we start making people to ready as Knowledge Seekers (KS), for the process of transmutation. Keshe Foundation has announced in past day or two, the setting up of the 6th session, 3rd Friday of every month till June, of what we call, 'Whole Day Transmutation Sessions'. Which means, we start at about 9, 10 o'clock every Friday, 3rd week of the month. (1:00) And it lasts maybe 6 hours, 8 hours, 10 hours, but it'll take a whole day of you. and you learn the process of, the phase of, what we call the loving, and the extension of, to start become the ?? transmitters, and to be able to transmute.

Somewhere around March, April, we bring in the work of the Satellites (Souls), and we train you to be ready to be in that position, in time and place. There are those who joined us with the travelers, they join in, in this part, from beginning of next year. So, whatever we set up in the past, now starts coming in. Once the Soul learn how to transmute, those of you who became Satellite, you become those ?? posts. It's very much, I want to go from here to New York, those who you are Satellites, you make sure through your Soul, you will understand it very clearly, that the Souls travel with the purity of purity. In a way, you become the filter, you become the direction and position of the direction of the Soul.

You will feel this, many of you as Satellites, will find out, you'll come under a lot of freedom of the Soul. You will feel the change in you, and as more and more Souls transmute in the direction of understanding, you become part of that process. Then we'll see, in the time when the Knowledge Seekers start their transmutation in the Universal dimension, the work and the conduct of the Soul of those who became Satellites and Universal Councils will come into operation. We expect this sometimes by the end of the year, as more and more mature. (1:02)

It was very interesting to see that on the last Friday session, how many of you gathered to be there, to do. And some of you wanted to be in, just doesn't matter what it was, just to be part of. So, the process of the transmutation, in essence, training for you to become the Passengers of the Universe, will start in January. We accept very few limited people for this, because you lot tend to make a lot of noise, and make it impossible for us to control. So, if you come in, please try, even tomorrow, to keep your noise down. Try to... that we don't need to switch you off. We had to do this for a lot of people, last week. And it's not nice, because you interrupt. And you... sometimes the noises are so much, that it literally disturb, we see it on our graphs. Everybody has to start from zero, because they have to come back to the dimension of Physicality. And start again.

And sometimes it takes a long time for those of you who shouted at each other, or whatever you do, you leave your microphone, you know it's open, to bring everybody to zero. "Thy shall not steal", you're stealing from the time. From now on, when you join in, please make sure you don't fall asleep, because we get a lot of snorers, and then we see we affect the Soul. There is a reason sometimes, some of you as Knowledge Seekers, you

are very quiet. But I switch you off, I mute you, or during the process I open your microphone. Because we are aware of you as a Soul, and what your Soul will add to us. Or it needs elevation, it needs gathering, (1:04) it needs bringing in.

The reason I switch, or we switch those of you who Make noise off, in a way that point you're receiving more, to get back into normality of the condition of the rest as a group. So, everything has, is not disadvantage, but it's advantages on it's own, but sometimes you disturb even on the mute condition. So, please for tomorrow session, for the love of Mitra, in the presence of Mitra, be very quiet.

We will have the presence of the "Soul of the daughter of Mitra" with us tomorrow for sure. You will feel it when she'll touch it. And many of you will mature at that point. And in time I will explain to you the process and the system and the way it does. In a way it's a guiding light for your Soul to be enlightened.

At the same time, we carry on with the expansion 2024, to at least to bring a large number of you Knowledge Seekers, to be able to transmute, to learn the art of flying with the Soul. And sometimes, in the first session, or what we call by somewhere in February - March, we'll try to put you through transmutation, Especially the couple which are there for transmutation to the Moon.

And many of you write to me, "We would like to be one of those who gets transmuted to China." You have to register for it, it's there as part of the World Universal Transmutation. We can not just promote you there. We're still working on these bases and we will carry on with this process. (1:06) On my return to China, we'll try to organize the final phase and the final steps for this process. And in the process of what we call finalizing the completion of the work with China, we see how things will develop and how we will bring all under one cover of One Nation and develop it further.

You got to understand, my job is not to tell you how to do it, I'm not a prophet. I'm a teacher, and my work is when you make a mistake, just to show you how to rub the word you've written wrong, or the letter in the word which is misspelled, for you to understand the correct spelling and the work of your Soul. Therefore, when we put you through these, it's just for you to learn the first alphabet, and then guide you how to do the full words, and then the letters, and then the sentences. It is for you to do that job. Otherwise, we'll, by interfering in how to do it, we become another false manifestation. As teachers, we are there to guide. We are not to set the law to suit, as it suits us, when it suits us. The law for you and us stays the same, as there is no difference in the Soul of the dimension of the teacher, than a Knowledge Seeker. And once you understand this, you gain to understand you're the teacher of your own Soul.

In a way, (1:08) it has to fit you, and you only and no others. And it's for you to understand the Totality. And not to be as part of, just to suit the time and the place. It has to become a way of living, a way of loving, and a way of being there to be loved, to be able to receive, to give love.

We celebrate tonight the birth of Mitra. There is something I have, maybe, to teach you culturally. In the West, we celebrate the birthday. In Iranian culture, where Mitra is celebrated, we celebrate the night before the birthday. That's why it's called ?? Shaviyan, the night of the Yalda, the night of the birth of Mitra. In a way, we celebrate that day, the night when the life will take over the next day.

So, when we celebrate tonight the birth of Mitra, it's fundamentally understanding it's the end of the longest night in the darkness, knowledge of the man. And maybe by tomorrow session, some of you will see the light and be enlightened, and could be the shortest night for you, as you walk away with your Soul, from the darkness of the life of the physicality of the man.

Join us tomorrow, and there's many of you, I've just been told, a number of you, large number of you have registered, for us to celebrate the end of the darkness of the age of the ?? man. And then we'll see where we go. Please make sure we start at 12 o'clock Central European Time, and there is no limit in time. (1:10) You never put a limitation on the time of celebration. Could be one hour, could take you all the way to midnight. It all depends what we see on the STM. And then we leave you, and we leave the lines open, till the last one of you will move out. The session tomorrow will not be closed, unless the time runs out on the Zoom, unless you decide, "It's my time for my enlightenment." Those of you who control the Zoom panel, do not switch the panel off. We wait till the last 5 or 10 people. And if you snore, we switch you off. It means you have already joined the land of the lovers.

If there are any questions, we try to answer, and if as usual, Rick thinks there are some questions left from last week, we try to answer.

R: Okay, thank you Mr. Keshe. You were talking about the longest night of the year, which is true for the Northern Hemisphere, I'd like to tie in with Doug's question here in the Q&A. Because Doug is from "down under," from the Southern Hemisphere.

K- We count on the Northern Hemisphere. We don't count the people from the Southern Hemisphere.

R: This is what, probably why Doug has a question that's rather important to him.

K- Most of us live in the Northern part, we don't have much to do with the Southerners.

R: So what happens in the Southern Hemisphere, which as Doug says, "Today is the longest day for them." (1:12)

K- This is a mythical dimension. It's not in dimension of reality. The darkness and the long and the shortness is just for the Earth. And there is no such a thing for the, what you call, dimension of life in the Universe. So, it's symbolic, and in so many ways, it's the essence of the light of the Creator. So, it doesn't matter if you're a North Pole, South Pole, you're on Mars or Moon.

R: Right, okay. You still celebrate the coming of light, even though, now, actually the coming of darkness in a way.

K- No, it's in a way...

R: We don't have it, we don't celebrate the coming of darkness, so...

K- No, it's the enlightenment. Because, it's the enlightenment in understanding the essence of the Creation.

I don't know how many Earth years is one year on Saturn, but if you get on the, what you call it, the day of the, what I call, 22nd of December, you most probably spend about 20 minutes .. on Saturn. Because their year is so long, and their days is so long. So we, we don't have, we call it, one rotation cycle, but again, it's what I call, you call it, the light and the dark, we call it, the enlightenment, when you walk away from darkness, ignoring your own existence. (1:14)

I've said this once in one of the teachings, if I remember correctly, in the ?? previous years. It's like a baby born, and suddenly, for the first time, you discover you got a toe, something sticks at the end of something, and you put it in your mouth, but that toe has always been there, from the day you were born. It's the same with enlightenment, you suddenly find out, "Oh! This is there, and I'm aware of it now." What I'm going to do with it in the future, I do not know, but this is called the foot and the toe, they call it, and then one day I might walk on it. And I may become a world champion running with it. And it's that point, when you discover, you get enlightened of the existence of it.

And that's the same with the man. When you get enlightened, you don't get enlightened with everything in one go. You just discover, "Oh, this was stuck to me, I didn't know it's called a toe." And then you discover the foot. And then, what you do with it in the future, you kick it, you play a football with it, or you kick it and you kill a man with it. One become the most beautiful game and one become the end of a life of a game.

So, this is the enlightenment. Not by the day and night, whatever, but it's symbolic. And it stands for that. And you have to come, you have to understand the essence of the culture, to understand it. To you, it's birth of Mitra. To me, is a lot more, (1:16) because it's part of how I (was) brought up, and maybe one day you understand and you do the same. Tonight we celebrate with a candle, with fruits, with dry fruits, with all what the Creator gave us to survive, and we sit down and grandmas and grandpas tell us stories and it's a wonderful time. And the rest of the world passes by as in the night. But even that we celebrate is for the light of Mitra, the essence of the Creation, and the love of the Creator.

If you... In a few days, you celebrate the birth of Mitra, as the birth of Christ, but in fact is the birth of Mitra. They moved a few days, not to fall on it, that they could have separate things. And if you think of it, is added by three days, three gifts of coming from the

Kings of Persia. The birth of Mitra on 22nd, as you call it, the three attributes of the Creation. Do good, act good and live good, which makes it 25. And this is how they managed to make 25, when even Mitra is created, understood the love of the Creator, with the conduct of physicality of the man, which gave birth to the physical dimension of the Christ. Now you even understand, the 25th of December comes.

Maturity of the Christians to the enlightenment of Mitra, with the gifts of his existence. (1:18) There is a lot of work done, negotiations were done by the... Those who wanted to be Christians and those who were Mitraism's priests, that everything had to be the point of reference. But as Christianity took over, the Christians ignored and wrote off the birth of Mitra from the back of the calendar. But that is in essence what you have, the 25th.

Tonight we celebrate the date, birth of Mitra, which is a... we call it, ?? Shabian, the night, the birth of Mitra, the ?? next. And then you have the act good, to think good, and do good, which makes the three attributes that matures the physicality of the man, to the physicality of confirmation of the birth, which became the birth of the Christ.

In fact, Christ was never born on 25th. It's mythical, because it fitted both priests (Mitraism & Christians) to come up with something. And this has been, this has shown the ignorance of many, many of the priests. It is negotiation to what it fits and what it does, and the rulers has done the same.

It's something very interesting for those of you who understand how some of the world leaders are so ignorant to a lot of things, but on the name of the religion, force their way. One day I tell you about Ayatollah Khomeini of Iran and the life of nuclear industry in Iran. And then you understand how he befits this, how ignorant this man was. And on his arrival in Iran, (1:20) he ordered the execution of Iran's first, Atomic Energy, head of Atomic Energy of Iran, and a bunch of the top scientists of Iranian nuclear industry. He said, "We don't need this." Because he was ordered by his bosses from United States, the deal has gone to Germans and the French, destroy them and we'll come back in.

Religions always fitted to the pocket of those who called him to abuse it. Read about the history of Iran nuclear industry. The Shah brought nuclear industry to Iran, as an educated nuclear physicist. Shah, when he ordered to join nuclear industry, he was educated. He was more nuclear physicist than actually Iranian or world physicist. One day, I tell you the story about him. He studied in depth and Eisenhower gave us the gift of a third world nation to become nuclear, peaceful way, we give you a small nuclear reactor. And Shah said, "Yes."

We became nuclear out of the gift of Eisenhower. And for him to run it, he got educated day and night, for six months, with one of the top Iranian nuclear physicists, when he understood it, he said, "We go nuclear." He actually, like a student, worked at night, to answer, to study, how to answer the teacher the next day, on the subjects of the nuclear. And he accepted Iranian nuclear industry, with well educated Iranian nuclear physicist, and then he accepted it.

And when Ayatollah Khomeini came, Khomeini came to Iran, (1:22) the one of the first orders he gave was to execute the head of Iran Atomic Energy Authorities, and major top scientists of Iran. He said, "We don't need it." Because he was ignorant to the knowledge. Because he wasn't a religious leader. The cloth of the religion was to benefit of the bank accounts and the power.

And it was the same during the Roman's time. Now you understand why I, in a way, I support Iranian nuclear industry. Because the wise people brought it back. They understood it. They were real religious people, understood the power of the nuclear. Supported by the Ayatollah Khomeini of today, and others who actually been executed by ?? them.

So what you believe in religion as day of Christmas is a made up day to confirm the beauty of Mitra as a birthday, and the three attributes of her from the Creator, which is, do good, think good, and act good, which brings to 25. You celebrate the day of Christmas, the completion of physicality. Now, as I said, many of us will come to understand, religion has no place and point, it's us who have to understand the beauty. The concept behind the, what we call, intelligence, or enlightenment.

Any questions? (1:24)

Q: ... First I want to say about last week. After the session I went to donate my plasma, plasma of my blood, and I saw the, I saw my plasma lighter and pure and more, more better than the other weeks I went there, and it's so amazing. Can you explain what's happened?

K- I wasn't there. You are witness to it.

The point is, it's a point, last week's session. We saw some problems, we tried to ratify, at the same time, Rick was going like, God knows, crazy, trying to switch everyone one by one, and some of you won't come on, because you just wanted to be there, but you didn't want to participate, so... It took an hour, more or less, to get you in, but it was good, because we could see how those are in, and who come in, make difference in the, what you call it, in Totality of the expansion of the Souls.

And at one point you all collapsed, literally the system went to zero. (1:26) Somebody made a huge noise and a lot of things, and then we saw the collapse. And everything started back again. And in the same process, we added systems in the background, and we saw how we could, what I call, elevate your Souls. We could see by adding one system, how we suddenly changed all of you. Because, even if one of you stays out of the frame, then the whole system goes to zero. Which means, we had all you traveling together, you had all expansion of the Soul. It's very, very clear, when we work with these things. We don't estimate, we don't guess. We continuously monitor the process, we continuously watch what comes in, and we continuously monitored the expansion of the Soul. And in that process, we have a lot of understanding what's going on to you lot. And we see some of you collapse, we see, when we add one Soul in, how the last one coming

in bring a change. It's very interesting how things change by you lot, not by us. And how you interact with each other.

Some of you, maybe by now, have received your first part of the Communication Bundles. (1:28) The first batch of the first half was this batch last week, before we go on the annual holidays. And we know one or two people have received it. You cannot use those with the teachings of tomorrow. They are not connected, they are no way connected. The one, those of you who have a UBESUS (Universal Body Enhancement Spaceship Units) Head Units, you cannot use it because your Units are locked away.

So, those of you who use the Head Units tomorrow, you need, if you have three Head Units, it'll be fantastic, if you have four, it'll be absolutely beautiful. If you have one, you still will go through. Those of you who have one Head Unit, headphone, just put it on your head, no problem. Those of you who have two headphones, put one in your ear, one on the back of the skull, where the curvature of the, what you call, skull is, and one on the forehead, somewhere a little bit higher on the line with your headphones, and then you go through a totally different transmutation. Those of you who have four sets of headphones, some people do because you work with the Wellness Center, you put one in your ear, one pair, one pair in the center, and one pair on either side of the skull. Which means over your head you have three units and one unit through your ear.

Those of you who have this 4-set facility will go totally through a different experience than those who have (only) one. (1:30) Because our system is set up that way, to support 4-way system. Tomorrow's session is so complicated, but so simple. But it's set up to receive Cosmic Rays, Universal Rays, and through the STM, transfer it into the physical dimension, or what we call, subdivision of Cosmic Rays.

We never tell you what we do, it's a very simple process, and this time, due to accident or by course of the thing happening, we have an operator, who has no knowledge of the system in a way. His job is just to place systems where they should be, and then it's nice to see how we will work through operators. This has happened in the, what we call, Wellness Centers, as new doctors are taking over, they are learning, so there are new operators in the system. For the first time, this week, you, we will go through this process.

And, those of you who come in with the four headphones, you will experience something absolutely amazing. You... the ones who are with the two headphones, you feel the expansion of Soul in different way. Those of you with the, just the, what we call, different sets, you will have the different experience.

You have to have a headphone to be able to be part of the session tomorrow. You can't go on a computer and just listen to it. (1:32) Because, it's to do with the Soul and it's precise positioning. Then, you will feel different, totally, than last week. The experience of tomorrow will be added to, in the 6 months, how for you to, with the flip of a finger, gradually to go into transmutation and come back. And then when it comes to March and that part, when we use the Satellites (Souls), we ask you which part of the world you

want to go to, we know where the Satellites are and we bring the Satellites from that point into operation. And it's very complicated, but gradually you understand, you have masks, now you have the STM, dimension. And those of you who've been saying, "I don't... I... ??" You actually join to be a Satellite, you start going through that process. It doesn't touch your Soul, you're just a position of transfer, as your Soul has agreed, because it was born to be that.

We set up systems for this, when we go through the Satellites, and as I said, as Knowledge Seekers you start really this life, the first cycle, the first steps to become Universal Travelers. And it'll be interesting to see how the rest of you follow and how in the future the rest will be taught.

How you feel, it depends on you and how much you allow to be in charge of through your Soul and not your physicality. And it'll be a wonderful experience. As I said, tomorrow if you join, if you have registered, (1:34) I personally looking for an amazing experience, even I don't join you, I always switch off in the systems totally, but I know what is going to come. We are literally looking forward, when for the first time your Soul comes in touch directly with the Soul of the child of Mitra, and you feel it, then you understand the love of the Mother, the love of the Creation, and it'll change. It'll change many of you tomorrow.

And we'll see how the progress and system will go on. But for the sessions we announced for the next six months, we will control very, very much who and how people would join in, and we might even refuse your place. This is what we call, not by choosing people, it's just that if in the first or second session we see too much problem with your presence, we just ask them not to join in the others. It's not that you're not ready, it's just that we can't ?? take disturbances in operation. And the number of people for the six-month session, for these Fridays, will be very limited. So it will be restricted to numbers and how we do it and the way we do it. And it will be, you feel the first trainings, steps to start transmuting.

We will split you somewhere into two groups and then four groups and we allow you to transmute between each other. How you feel. You choose out of the group, (1:36) I want to go from group A to group B, and see how many of you, you transmute, and the others on the other side. And there we go individuals, how the other person in another group feels your presence, and what you do together, what you bring together in that position. And this needs training, this needs, in a way, knowing where to land. You're just on the air. You want to be in New York and not in Washington. You want to be on this chair, not the other chair.

So the training for real transmutation of the energy starts in 2024. And the last, every month, the third Friday, we'll have these sessions. Till gradually we'll go into the mass numbers, into thousands and hundreds, and then I'm sure it'll become governmental organization, set up control and the rest. But those of you who register, very limited numbers, because we have to have control over everything, for these six-month sessions.

And then, this following six months, we'll go to the next step, and they're all into all transmutation and physical manifestation.

Any other question?

Q: ... Can change in a food diet, being helpful in a process of transmutation and finding a new path?

K- No, no way, no. No, it doesn't, it does not. (1:38)

Any other question Rick?

Q: ... I want to share something with all of you and Mr. Keshe. Thank you because for the first time I was able to see everything flying during your workshop Mr. Keshe, three years ago during the pandemic. And you are amazing. Your presence, the fields of your presence made me to transmute and to see with the eyes of my Soul, STM maybe. I see everything outside. But I didn't go in the Universe, only I have seen the church and I see a light and a golden light. And I was thinking maybe it was my Soul and the Soul of Mitra which united together. So it's a good opportunity for all of us today to unify with the Soul of Mother Mitra and to feel the totality, to become healthy, happy, to have the consciousness of unity of everything on this earth and of all our essence, (1:40) because our Soul is the reflection of Mitra. And now I have a question. What desire we can put all of together tomorrow or even this night in order to manifest the peace on earth taking into account Israeli, Palestinian and Russian, Ukrainian conflicts? And to make a common wish with you, Mr. Keshe, and what we can do together as a group and Keshe Foundation in China in order to get this peace. For this peace we struggle because Mother Mitra is peace, it's pure love.

K- The only way at the moment for human race we see peace is an end to what I call, not an end, but put it this way, amalgamation and dilution of the Soul of the... those who think are privileged and call themselves Jews, with the rest of the Universal Community. Because peace on Earth will not take shape in full, as long as these Bedouins calling themselves Jewish people, find home or peace. The whole thing, backed in the rules and regulations and the power of the Americans, has brought this through the backing of the Jews and the Jewish community. (1:42)

And we will see an end towards when this, this what I call, misguided Souls, see themselves equal to the others. And as they have done so, they make us, the rest of us, accept this unjust condition. And it's not an end to the state of Israel. It is, as I said, we've taken the love of the Creator from this bloodline. And, has been from the time Moses received the messages, and that abuse has come. As I said once in, with the religious leaders, we got cheated, by Moses. He showed to be the Soul, but the STP took over the Soul. And that mixture stays with the dimension of physicality of the same.

Even though I'm half Jewish blood. It's not being a Muslim, it's not being Christian, it's not being whatever. It's just that if you look, this 4.5 million people, killing like flies

people, and the rest of the 8 point something billion, cannot even say a thing. We see if you kill one person, if you kill 50 people, you're genocide and the rest of it. We have world leaders in prisons in Den Hague, in prison for killing less than a few handful of people. And we see the killing in thousands, and 8 billions of us stay silent. (1:44)

And this is not just. It's not bringing an end to, it's just diluting it, that it disappears in all of it. And, they see it as a right. Yesterday, no, the day before, I was sitting in an airport. And two of these guys walked in with big curtains on their head, shouting and howling, reading Torah in the lounge. Nobody stopped them and tell them, "Can you shut up?" Everybody looked away, these are Jews, they do what they like. Disturbing hundreds of people. If two Muslims bring their mat and pray, they say, "Look at them." Where does the difference has come?

I was with a person with me, and I said, "I am ashamed I carry this blood in me." Because the abuse has got no limit and is the time to come to an end. You'll find out very soon after the end of the Gaza situation, a lot of things will change for Israel. A lot will change for Israel. Netanyahu will be chased out of everywhere. He's hoping to be there, but he'll be chased out of. He should be submitted to Den Hague. 10,000 children killed, on what basis? Where is the human right? (1:46) Where is the protection of children? How come when it comes to these people, they can do what the heck they like with us? So there is no justice. There is no correct unless it's usually the beginning of an end. They have to uproot themselves. If we do it, we are anti-Zionist and the rest of it. If they do it themselves, they're out of it themselves.

So, we got to understand and we got to be very, very, very careful in how we conduct the situation and how we are. Because, they sit and anybody who wants to get the point of power has to sing their song, otherwise they get nowhere. And this is not situation in Gaza. It is not humanitarian, it's animal-ness. And he has to stop in one way or another, but stopping it doesn't save. This bloodline has come to be in the books of history, no one to believe in and to live it. And they have to do it by themselves. And they are doing it by themselves to themselves. And the peace will come when this bloodline has gone. (1:48) All the American armed soldiers back in the places where they have invested money. All the wars is where they have invested money. And this has to come to an end. Promoting their Soul is the only way for them to walk away from misconduct of the past.

Any other question?

K- ... I have a note, I'm sorry, just one second. I have a note from Azar, she says, "You misspelled, you said the wrong word." I didn't say the wrong word, exactly, the way, exactly it is. Ayatollah Khomeini of Iran, when he came to Iran, ordered the execution of the head of Iran Atomic, read it in history. And most of the Iranian scientists which were paid by the Iranian government, by the Shah, to go to European countries, and Americans to be educated, came back, they all escaped and some got executed. Because the guy was so ignorant to the power of the technology. He wasn't even, he's illiterate anyway.

In the whole process of the Iranian nuclear industry coming back up, has been primarily, primarily, Rafsanjani who became a president and the inside of Ayatollah Khomeini of Iran. (1:50) Khomeini ordered the execution of nuclear and now Iran is getting prosecuted for becoming nuclear and bomb, or the rest of it. Where, this is not told outside, because it doesn't fit the man who brought to bring the country out of most advanced technologies, to time of Bedouin, where he came from.

And, as one of the most powerful man in past few days, has sent me a message, "Mehran, don't go back to Iran, it's too dangerous for you, because you speak too much truth." And I said, "I've got no fear of going back anywhere, because where we go, we are protected." And this is what it comes, illiterate people.

Some of you, maybe I can add to you, it's part of the history, we learn. Eisenhower wanted nuclear to be equal, that doesn't become like the Second World War, be used and then most of nations will have it. Then we find a peaceful use application of it. Because he wanted to get the fear away from the, what we call, Hiroshima bomb and the rest of it. So he promoted sharing the nuclear industry with other countries who wanted to do. And Shah of Iran took that opportunity and was given a gift, a nuclear, what you call, teaching reactor, now produces most of the isotopes for Iran, to Iran. But we had no one to run it. It was sitting in university in Tehran for years, till one educated nuclear physicist, Iranian, was educated from Switzerland. And then went to Paris to become a nuclear physicist, came back to Iran. He met with the Shah and he explained to Shah, (1:52) "Which way do we go? We go nuclear weapon or energy?" He said, "We do energy, but we keep an eye on the nuclear, if we need we." And when he heard the Israelis are going towards weapon, he said, "We go for weapon." We learn that we don't fall behind, one day Israel attack us. We always have to be ahead of our neighbors. And this is how we became nuclear. And proliferation was, that time, supported by the Germans and the French, and the British, for Iranians to learn about this.

And, I'm one of the cycle of those people. But I was outside the framework of the government, because I went through private education. And this is in the history of Iran. We lost some of the most talented nuclear physicists by execution, or torture, in prisons in the first months of Iranian revolution. Because Khomeini said, "We don't need it." Well, sorry, Khomeini said, "We don't need it." And Khomeini, with the wisdom of ?? Asfanjanni, brought it back, because they now knew they can do something after the Iraq war, that we could not get weapons, and this time we technically advance ourselves.

And this goes with all the world leaders. They're illiterate, bribed to the hilt, and they do what they're said to. Part of the agreement, Khomeini signed in France, was with the delegation of Americans, which are sitting in the village next door, telling him when to go in, was to make sure Iran nuclear industry is paralyzed. And that's what he did, it was part of his agreement with them. The present, or what you call, (1:54) the old Iranian Islamic religion came, what you call it, religious leader, and his entourage, came purely by the support of the Americans. And they want to distance themselves that they are not told they're American. Even the Americans told Khomeini which date to fly into Iran. And then, we see all the rigmas, without the Americans, there would have been no

Iranian revolution. And a lot of people don't know the truth. Read about the history of Iran revolution.

And then it's the same with all other world leaders. They come into power by selling their Souls. And you have to understand, he is not Persian blood, he's Indian, from East of India. His father and his ancestors are all Indians. He had no connection to the land, peaceful land of Iran. When you are given the freedom of a palace and you have no connection to it, you rob it, you destroy it, and loot it. So he did.

Any other question?

Q: ... (auto translated from German). At the Knowledge Seekers Workshop, you spoke about the security of sending the Communication Units. Would security be improved if the Units were picked up in person? (1:56)

K- We have nowhere for you to pick it up. We have closed the Exhibition Center and the systems are not allowed to be going anywhere else. This way we have full control.

K- ... There will be another set sent out in the second or third week of the, what you call, January. Another batch will leave sometimes end of January, first week of February. And it'll go through the same process. These Communication Units are never connected to the UBESUS or our section. Once they become complete and you receive, we start teaching you how to use it. How to get benefits from it, how to connect with the others. And they're all kept in secure plasma boxes, that they cannot communicate outside. And it's all controlled by inside their own system. And they're not connected to the system, tomorrow for sure. And it's the same with the UBESUS.

Any other question?

Q: ... Thank you very much for this beautiful gift of teaching. That was really special. And as far as we know, which is not that much, about Iran history, recent history. (1:58) I know that Khomeini, when they were bombing Iraq and there were collateral side killings and destructions. He said, "You stop it. I don't want collateral destruction and people killed. And you go and make the bombs, which are what you call it, surgical, means like at the point, that they went and made the arms like that. And also I thought, I think Khomeini also said that we don't like the mass destruction bombs. That's against the way of this religion of us. And now when I see after years, the Iranians are very welcomed in Iraq. They really respect the Iranians. Where they go, they don't need visas to go, I think. So, how the Iraqis respect Iranians, because maybe during the war, they didn't do atrocities towards them?

K- There is no respect in Iraq, in respect to the Iranians. They put the rulers and they made the decision. We have to understand this very clear. The present part of it is the sect, which the section they control, they are mainly Shias, and they have a problem with the Sunni side. And this not needing a visa, because they control the president. Iran dictates who the president of Iraq will be, and the most of the cabinet. (2:00) And this is

part of the structure which the British set up. The whole financial structure of the oil industry of Iraq is in the hand of the British at the moment. They get fraction of the export, and nobody knows how much British export. And that part, and the political side, is mainly dictated, and the Iranians dictate majority of the ruling in the ??, or what you call, through gun policy, more than anything else, supporting changes in regime in Iraq.

Q: And, as far as the conflict, you said that we should raise the Soul of the people who do wars and put the bombs, so that the level goes up and they start to create peace. Is it something like that?

K- That's the only way, that's the only way.

Something very, something very interesting has happened with us around Keshe Foundation. One of the Knowledge Seekers who has been with us, has proclaimed to one of the government that the Keshe Foundation is recruiting spies, training spies. And Mr. Keshe is a spy. And has managed to convince part of the National Security to this. And we heard in past few days, that this office of National Security has reported in National Office that Mr. Keshe is a spy for Americans. This is one of our own Knowledge Seekers. (2:02) And we are very open about it, because they are listening.

And the interesting thing is, if we spy for our own technology, that it means they have not even understood. If you are teaching Knowledge Seekers, to be aware, to understand technology and the knowledge, we cannot be a spy. And this is one of the top Knowledge Seekers. Getting into problem, finding out that, was reporting to government, from inside, has convinced National Security Officers that Mr. Keshe is working for Americans and he's a spy. And he's recruiting. And I will release the name very soon. We have to sort out the... we clean up the mess in the background and then we'll let you know.

And, this is the way, I said, "There are two ways to do it." Cleaning a mess in the background for me, is elevating the Soul. Otherwise, I can do a lot of damage. And I sit, and I watch, and I said, "There is a reason for it." The ones around me, they said, "You have to react this way." I said, "No, we react the new way, we elevate the Soul." And we protect the others from it. And, the new way is to elevate the Soul, that they walk away.

And in a way, the reaction from the government leaders to this, has been that, if he's spying and it's good for our nation, let him spy. (2:04) That's to the officer who reported the spy. But, if he's not for good for us, it will stop. And I said, that's fantastic the way it is. And, because in communication with the leaders of the nation, they saw the clarity, they see the clarity of the work. They're elevated to what it can bring. And this Knowledge Seeker, thinking very clever, by doing this, I get rid of Mr. Keshe and then I rule. But, the governing bodies will look after that part, the way they do.

It's happening to us on today, this is in the past few days. So, it's not going out and battering, it's just elevating the Soul. Knowledge Seekers who are involved in this in the background, they know what I'm talking about. We don't go shout and howl. We just

elevate. And the elevation came long before this comes in, because the leaders of the nation have said to the guy, who is he spying for? Who is he recruiting for? If it's for us, he's teaching our people, then it's to the benefit of the nation. And this is how it should be. The enlightenment, the knowledge, understanding of the knowledge should bring that position. (2:06) And that's all we can do.

It's the same, I always tell about Netanyahu, I ?? hope he gets enlightened. But you have to understand the psychological path behind even Netanyahu. He's doing all these anti-Palestinians and everything else, go through the life history of him. It's because of his father, his father was kicked out of Israel when he was a young boy. Netanyahu ?? went to America, because he wanted to get the rid of the Palestinian, the far right, ?? leave. And he brought his sons up this way, the three sons. He's just doing to please the father, follow his father's doing. He has no brain of himself. And he worked that way to get to this position. And he used every opportunity in his life to be in this position. He's a criminal by essence of his life, Netanyahu. Go back and read about his history. His father was kicked out of Israel for a far right, what he's doing now. And he came back to Israel. He managed in time of small gaps to make himself the, what we call, the ambassador of the Israel in United States, in United Nations. And he looked for opportunities to come back in and made himself out of death of his brother, to find notoriety, not himself. So, he needs elevation. We understand the process, why he is where he is. (2:08) He's trying to satisfy the wishes of his father, to be a far right, and kill as many Palestinians as he can. But, the time will change. Read about his life, the guy is brainless and clueless.

Q: And what happens to the Soul of these babies who are killed, and go finish their life?

K- The same process, the same, there is no difference, the same process.

Q: Do they get higher, to a better place?

K- No, it's not martyrdom, it's not martyrdom, it's a natural process of separation of the Soul from physicality. But those Souls are aware of, the mother who lost a child, the father who lost a child, it's all connected. It doesn't go unpunished, but not the human way.

Some of you which go through that transmutation of the Soul, test yourself, during the phases of the work, where you know physically you've done wrong. Doesn't matter what. That, that wrongdoing of you, touched someone, the wrong way. You did it deliberately or accidentally. And go and see the structure of your Soul at that time. And understand what was taken from it. And go back during this transmutation to the ones you think you helped, maybe even they're damaged by your help, but you think you helped, you gave them elevation, and see where your Soul stands. And then you'll understand it, this is part of the light, the enlightenment that you will learn. (2:10)

Those of you who go through the six months of the transmutation cycle, you'll come out in a different dimension of life. Totally different dimension. Because that's what it's

supposed to be. You get access to your own knowledge, to your own essence of creation. And that's why we want very few people in these sessions.

Q: It takes a lot of love and understanding from your side, to only see that from this side of elevation.

K- It comes from all of us. The love of a teacher has to be responded back by the love of the Knowledge ?? Seeker. And this is how the cycle is, this is how we understand, this is how we educate. Is no use when you put 1 + 1 and then student writes me and bash him on the head, "This is 2." He's put his finger together and say, "One minute you say, this is 1 and 1." How many do you see? For him to understand.

Q: This is truly a revolution in Soul dimension.

K- We'll see. We start up real process of teaching << audio cutting >> Knowledge Seeking << audio cutting >> ?? is different .. (2:12) Just one second, please.

K- Sorry, I had to reach over for security reasons.

Any other question?

Q: ... I registered on December 13th and signed up for the Soul of the Lover session. Is there any more information about the Zoom channel? Are German language skills sufficient? Thanks.

K- Can you repeat please?

R: He's looking, he's signed up for the "Soul of the Lover" program and is there any more information about the Zoom channel that he should know about... He's apparently German, so... I know that we have a translation usually.

K- All the invitation is going out by tonight. Or already has gone out for those who are coming in. And there is a German translator, I think there is a Portuguese. (2:14) The Italians, there is a number of them, and we have told Stefania about it, she's going to be there. I think Mario as usual is there, if Mario is not there, we'll bring another person in, but he should be there. We try to accommodate everyone. There's a Iranian section, if there are Iranians, we are monitoring it today. That maybe we ask Merhnaz to translate, we give her the opportunity to translate in the background tomorrow. Because last time she was typing the translation in the last Thursday session. Azar used to do this, but she's not there or they translate afterwards. And so, we try to accommodate everyone as we go bigger in this process. And we will see how the things will take shape.

The problem is, there are other people who will do the translation. But it has to be set up with you, Rick, in the background. But in sessions, because you allow the translators to translate, or in sessions we allow the, what you call it... I think what we got to do, Rick, with these sessions, instead of translating one by one, we have to bring the structure as

you use in Zoom channels, in the Livestream, that they do the translation in the background. That we don't get this interruption of translators in the sessions. We're looking at that to complete it, maybe by this session tomorrow or next week. Or next time.

R: So, for people to work outside of the Zoom format, you mean?

K- Yeah, that they can... Like the way now you have, (2:16) what you call, Rafael and others are doing. We don't have other translators we need, we have to bring in to do the translation, for the sessions in the monthly sessions. Because at the moment is a... it disturbs a lot, they have to translate language by language. We have to go like the way it's done in the Thursday teaching. Simultaneous translation, that things don't get disturbed so much. The interpreters are inside. We'll see, we're learning. But the most important thing is, once we go into translation on Thursdays, they go, once the translation is done, they go back into the mainstream because they connect to the main line. They don't go to the translator's line. This is one of the problems we had. Interpreters go in, give them information and come out, and people stay with the main line. That's why we have a problem on the other side. Anyway, we learn.

Any other question?

Q: ... Hi Mr. Keshe, I feel some energy in the background. It wasn't there two or three hundred meetings ago. (2:18) Can you explain please, is there any connected device to the meetings? My feelings are like when, when I go around rotating Gans's and I feel them in my head, it's like CO₂, Zinc Oxide and Copper Oxide Gans's.

K- No, no, no, no. In the teachings we don't use anything like this. In the Thursday teaching. In the sessions we have systems in the background we use. We add a lot of other things in the background and the, what you call, Sessions are totally... Teaching sessions, Thursdays, except last Thursday, is usually as a normal as it is, we don't connect you in. You've got to learn, when we connect, there are two numbers, usually appear, 004 and 005. When you see those two numbers as participants or attendees, is where we literally play game in the background. And even when they are switched off, there are other things happening, because we switch it off, that you cannot talk to, you cannot send, what we call, fields to us, we block it, on the physical dimension. So we load up your Souls. << audio cut >>.

And you are like a hungry mongers, you just take everything from us, we see them as ?/ mothers, ?? eating time, it's started.

When we open your microphones, it's a simple structure, if you understand. It's like you eat and eat, keep energy, till you have enough energy when you go into play, you don't, you're not hungry. And when you go, ?? you use your energy. (2:20) The way we monitor, you've seen, we open your microphones, is when we take the surplus from you into the system. When we shut your microphones in sessions, is when you are receiving from us, and you are, you are literally loading up any shortages, anything you might want

to take. We might give it to you, but you are still hungry, "But I don't want to eat this food." That's how it works.

So, sometime be, what we call, you see all the microphones are off, but Unit 4 and 5 and couple of other Units are open. This is the time we are opening some systems in the background, we are changing things in the background, and as you are, microphone is off, you are loading up, you are receiving from us what you need. We can't force you, you just take what your Soul ?? needs. And then, you see us, for example, switching the microphones, but the numbers 004 and 5, but your microphones are all open. Which means, we are not giving anything to you, we're just taking it.

There is a system, we know exactly how we are doing it, and we, we monitor in the background, what we do, what we change, what system we use, what systems we add, for a specific purpose for us to learn, and then in the future we use that knowledge.

So, if you feel energy is from the Soul of the people present, because you're all connected at the same time now, and you're connected through the Zoom system, not through our system. We are like you, we're just connected, we don't load anything up. (2:22) But it is good to see, or to hear, that you feel more energy, so Knowledge Seekers are becoming more and more, what you call, in the tune with us. I see ?? Mr. Ekhbar tells us that they're translating in Russians. We have to check to see how many Russians are in the teaching, or if you want to join as a translator to the Russians.

Any other question?

Q: ... Good morning, what about the appearance of the one they call, the Son of Man appearing in the tabernacle, in view of what you have explained today?

K- Where did it start? Who started it? And what do you call the Son of Man? This word, the Son of Man, or Son of Man, is used a lot in Hidden Words, by Bahá'u'lláh. And, there is nothing hidden anymore. In a way, the Son of Man, depends what you call the Man, the Creator. And his son, which is the man. (2:24) And, it's different ways of putting, what you call, literature, to make it holy.

Any other question?

Q: ... Are all Universes located inside the firmament? And if so, will all transportation of the Soul also be inside the firmament?

K- Translate please Rick.

R: Yeah, I don't understand. I think he, he or she means the ... located inside the firmament, I thought was usually referring to the Earth, so... But I'm not sure, maybe ... there's another definition of firmament. I thought you might know Mr. Keshe.

K- Next.

Q: ... We have birds knocking on my windows around the house. Any suggestions how to stop this?

K- Maybe you have too many Gans's in the house. We had this. We had this in China. I used to carry a lot of Gans's in the house, (2:26) when we were in South China Sea area. And when we looked in the other houses around us, there were hardly any birds, but all the birds were in the garden. We used to get a lot of birds coming in. And it brings that position. We had this in the Mongolia. When we did the harvest time there, every day we had a complaint, I've said that before, from the farmers, from the people who are running the tests, that they never seen so many birds landing and eating. They never seen so many birds, and they're eating from the harvest. And they were eating from the harvest when was the Keshe Foundation section. And at the end we ended up the double and three times the harvest. And I said, "Can you imagine how much was eaten by the birds that we had so much complaint?" It must have been five or six times more.

The structure of the fields with Gans's brings in comfort of the Soul, which is Zinc based. And then you connect it with the Carbon. And if one of the spectrum of the fields matches to the bird's emotion, you attract its lover, isn't it? Run a test, I've done this, sometime it brings interesting results, sometime you don't see anything, because maybe it's in the wrong place, or wrong way. Put a, what you call it, a dish of water with Gans's on one side of the garden, and put different mixture of Gans's in different pots in it, and see which one gets drunk off more of from.

You'll find the one which has a Copper in it, (2:28) don't give them Gans's, the water of the Gans, attracts the sick birds. The one which has more Zinc in it attracts those who are, you know, when they jump a lot, what I call, hyperactive ones. And those who are normal, they drink from the normal water. And just observe it. It's very interesting. The bird which limps or has a bit of physical problem, somehow ends up on the Copper side. And then you see the same bird jumps on the Zinc side. Then try to trace with the amino acid and without amino acid and see what a big difference it makes. You see insects going around and all sorts. You find more insects in one pocket in the morning than the other one. It's observation and then you learn a lot from it.

And yes it does, we done tests with the house which has been a lot of disturbances in, and with a specific Gans's which you lot don't use, you don't even, you haven't got to that level yet. We change the household into a peaceful, loving people. Because... But you see, the Gans's in the boxes change. Color changes, size and amount changes.

Any other question? (2:30)

Q: ... What technological solution would the Keshe Foundation have to alleviate the temperature, which has increased a lot, putting many people at risk of death? If there is a technology to cool the environment, could you teach us about it?

K- The only solution you have, you have to understand the science. Not just because. The only solution, at the moment, available for us, which at the moment is under consideration in very different ways, is reduction or conversion of the CO₂ to its Gans. Because the Carbon, there's a lot of things we don't, we don't understand, a lot of things we understand. The whole process has to be understood.

<< Mr. Keshe tries to open the white board. >> (2:32)

K- ... We have in the atmospheric condition, at the moment, what we call, the CO₂. And this CO₂ has a characteristic of two things, (2:34) which one is the Carbon, (if I can take it out and redo it). What is the characteristics of the Carbon and what is the characteristics of the, what we call, Oxygen. But this CO₂ has in its structure connection with the amino acid (AA) which is created in the atmosphere. If the CO₂ attaches itself to the AA, then we have a new condition which means creation of the what we call, the Carbon we have the creation of the Carbon as a CO₂, and attachment of the amino acid, which this itself creates a new dimension energy which attaches to other elements, which are floating as energy pack in anything else you have in the atmosphere. (2:36) So, our amino acid combination with, which is the energy level, with the CO, Zn or any other atmospheric material, gets glued to CO₂. And this gluing creates the poisoning of the atmosphere.

Now that we have developed the technology to extract this Carbon out, this structure falls apart. So, in the position of what we call, the Carbon extraction, in your CO₂ boxes, which you attract this, and then in interaction with the Oxygen energy, because now it's a magnetic field box, allows this structure to dismantle. And by dismantling this, the air pollution changes.

But now, you have the Carbon, the Zinc and the Phosphor, whatever is in the atmosphere, to land on Earth as a matter state. Then you have the amino acid itself to create a new condition. What we see through test is that this amino acid lands as on its own on the body, or on the surface of the seed, man, and the rest of it. (2:38)

So, the solution to clean up the atmosphere of pollution, is to extract the sea from the CO₂ which is added. This will change the climate change too, because this thing creates, absorbs fields from the Sun and adds to the heating elements. It's not the CO₂, which is global warming, because scientists have not understood, as I usually say, this process. And we connect the increase of the Carbon Oxide (CO) to production of the Oxygen, which is not the... it's the wrong way of explaining it, but you understand how now. Because CO₂ has always been in, and this CO₂, when you absorb the Carbon, in your CO₂ box, releases this Oxygen in atmosphere.

And they say, the cycle of life started when the CO₂ started. This is, this salt water and the Carbon and the Zinc, we call it, the oceans. This is the job they did. And, most of our teaching in physics, is the wrong way around, because we never understood energy aspects, production of the energy aspects of the Carbon, as a Carbon Oxide, attachment of the amino acid to it, because of the two line of connection. And then the, what you call, what we call, the present pollution.

And most of this amino acid cycle, with connection with these matters, is what, when we teach you about absorption of energy by the STM. (2:40) Because, this amino acid attaches itself to the skin, you say, "Oh, I have a fatty skin." This is, this darling, coming on you, is not coming from inside your body. This is a wrong understanding of it. You have, then you see the same on the leaves of the trees, the fattiness, the oil. It's the same as us, but we don't understand this, our body. And then, the attachment which comes with the Phosphor, the Zinc, and the rest of the energy, gets absorbed in the body of the man, which feeds it as a feeding of the STM. That's 80% how it's absorbed by the body. This knowledge has not been understood. And this is where you have the problem.

But in the cities, when we set up the CO₂ structure absorption, which we actually absorb Carbon, we produce the Carbon level, Oxygen gets involved in the water. The CO₂ section, Oxygen part of it, becomes added and adds to the water. Some of you, I've said this many times, if you look at your CO₂ box, if you know we really produce Carbon Oxide in your tank, in your containers, you should see the level of the water rising. This is where it happens, this is how it comes in, this process.

This is carried on the same way, throughout the time. But, we never understood this. Now we understand, so we can change the, what we call, the process. We can change, we, with the CO₂ absorption, we can bring the changes. (2:42) And, once we absorb these CO₂'s in the "CO₂ Centers," the Carbon from the CO₂, you'll find out that, because this amino acid attachment is disappeared, then the pollution disappears too. That's all it is. We separate the connection of the amino acid as energy to the floating CO₂, which comes from the exhaust of the cars, which that will allow the other materials to become as "energy packs," as food. So, with absorbing Carbon from the atmosphere, we stop these materials and the pollution to disappear too.

It's not just absorption of the CO₂ in the atmosphere, it's understanding the process. And this is what I've been trying to explain to, what you call, scientists, very recently. That we understand the process. But, if we carry on with the trend of .. absorbing as much Carbon, because now we can use the CO₂ as a, what we call, as a Gans for the energy, then national governments will run into problems, because this cycle, this amino acid cycle, is very important in life of the man.

Part of the process of, we see a lot of people increasing in size or get fat, is this link, which is not understood. The increase in Carbon Oxide, increase in the amino acid attachment, (2:44) to the Carbon Oxide, we live in an environment, attaches to us, delivers more protein to the body than actually we need. We just need to create the emotional connection to it, without eating we just get fat. And this is part of the knowledge. What's understood, then you understand the rest of it.

Controlling the CO₂ extraction of the Carbon with the CO₂ box. This will clean the environment of the buildings and cities very easily. But it has to be controlled that does not become the reversal. The more CO₂ we produce, the more oil we produce. Because, in this process, it gets attachment for the amino acid, which leads with the salt of the sea

to physical amino acids. Then, lands to the bottom of the sea, through the waves and everything else, and then by saturation, lands to the bottom of the sea and becomes what we call, oil.

Any other question?

Q: ... (2:46) Mr. Keshe, thank you for the teachings that are so connected to our lives. A question to understand more about the processes that came after some (plasma) events. I always liked chocolate, but I didn't eat it much for health reasons and everything else we learned. But after some events this changed and I started eating more spontaneously when there is a desire. What is the limit between addiction and the satisfaction of existence.

R: Mr. Keshe you don't have the microphone right now.

K- I said, .. "Ask the Creator."

But you have to realize something very crucial in the teaching. Sometimes, when you receive energy as a Soul, you create a new dimension of energy inside the brain, to absorb that energy, that comprehension from the Soul. And that needs energy. And that energy has to come as a matching amount in the physical dimension, that the rest can be supplied by the environment.

There is a lot of scientific papers, (2:48) if you look for them, that a face worker, a miner which sits in front of the face of a coal mine and hammers chisels to get coal out, in 8 hours, uses less energy than a scientist sitting in the lab, working as a scientist. The energy needed by the brain is much more than the physical dimension. That's why many scientists are so "slim like a stick." Because, the energy is subconsciously uses all physical dimension of the body of the man. It's like you're doing a marathon.

So, when you receive energy from the Soul to elevate the STP to another, what we call, whatever, you're trying to achieve, the brain of the man needs energy to substitute for that transmutation, transformation, that transition of energy fields and knowledge. To you is nothing, you haven't changed. But subconsciously, you receive a lot of other things. So the brain is working. And when the brain works, usually looks for a fast, rapid energies. Eating a food takes time to digest. This is why you see a lot of people with a scientific mind. They, they sit in front of you, they finish a one liter of Coca-Cola bottle with all that sugar in one go. And they do it every day. Because that feeds, fast food to what we call, to the brain for operation. (2:50)

Go to universities and go to the, what you call, dining rooms, and watch how many fat scientists you see, how many slim scientists you see, how many medium sized scientists you see. Usually, scientists with, unless it's inherited, are very slim. The ones who work in industry and science University, you'll see them chubby. They have more fat than the rest. It's very nice to observe it, it's not 100% common, but it's very, very common, you go to University. I spent some time in the Universities, when they always invite you for lunch, and I watched this, I said, "This must be a scientist." "This guy is doing a bit of

commercial work, and you see the guy, really think he's got nothing to do with the science, he's just sitting there, as whatever."

So, it's the energy level you need, and how you feed it, how fast you can feed it, it can keep on operating. And this is why you go for chocolate, it's CH bond, and the Hydrogen is needed, or sugar is needed, which is again Carbon, Hydrogen, fast delivery of energy. A lot of people with psychological problems go for this. A lot of, what you call, people, "beautiful people," they are heavy drinkers of things like Coca-Cola. As they have to eat for 4 Souls or 2 Souls. And one physicality, they are really burning it.

Any other question? (2:52)

Q: ... Good morning Mr. Keshe. When I was in Linz, you put me in the middle of the flight room, while my friends were one in each of the Units. I watched as you were very intrigued by watching the fields. You asked me briefly, "Did you see that?" and I did not. Perhaps, I did not know how to look, or perhaps where. Is this something we can all do? Or is it a particular amino acid condition within the body, which allows for the observation?

K- We all have the capability of. Nothing is exclusive, it's just that we have to find how it's done. How it can be done. And the process. And we are all. As I said many times, "The color red to me is not the same color red to you." I call it red because it's nearest to what you see as a red. It depends on the Soul, when it comes to bigger dimensions.

Any other question? (2:54)

Q: ... If one looks into candle light daily for a few minutes, turns around one's own axis, does breathing, uses the inner eye and intentions as gating tools, would one have a chance to achieve enlightenment that way too?

K- Repeat please.

R: If you were to look into candle light daily for a few minutes, turn around one's own axis, do breathing, use inner eye and intentions as gating tools, gating, for a gate, I guess. Would one have a chance to achieve enlightenment that way?

K- The breathing, as we explained scientifically, how it affects your operation of your Soul. It's to do with the amount of energy which is available, becomes available to the blood, or the way you extract it, to reduce it, to weaken it, or you pressurize it to expand it. And we understand the knowledge, the scientific way around it.

But while breathing, you... depends how you breathe, the way you breathe, we explained this many times. You can dictate the expansion of the Soul. And then, how far can you expand it, and what does it bring in? In the future, I will... (2:56) as part of the teaching will come up in next months, how you don't need necessarily to expand your Soul beyond your physical boundary. You can expand your Soul to the limitation of the fields of the

operation of the brain, inside the brain. And interact between the Soul and the STP at that level. This is where you match the pain in the Soul and the pain in physicality, in the dimension of emotion. It's a sphere, expands and contracts.

If you expand it beyond, you create an envelope, you go through transmutation. But, if you expand it to the certain position, which the Soul goes, before it goes beyond the boundary of the physical body, interacts with the energies within the brain, you create and you feel something, and you feel it inside, and then it creates the emotion of the Soul and emotion of the physicality, STP the same, and it touches you. This is mostly the time when man changes a point in the life, they call it a "turning point."

You change the habit of loving, you fall in love, you change your diets, you change your understanding of something. It's when the Soul actually, fields of the Soul, actually interact, expand, but they don't go beyond. It just still interact with a given position, field strength of . . . The science tells you, this is where the knowledge is. You suddenly touch that field and you can speak all languages, or certain languages. (2:58) And, without ever being there.

It's recently in the papers, I don't know if it's been confirmed or not. A young boy, two years old, out of nowhere started speaking Chinese. Never been to China, never been in contact with any Chinese. And it's not something occasionally, it happens quite a lot. This is where the Soul touches the information, and if the information balances, it becomes that point, that knowledge.

You don't need to expand your Soul all the time, to go beyond the physical boundary to transmute you need it. But when you do it inside, it brings enlightenment in. And then what knowledge, what field you develop, absorbs, connects to that knowledge, that point in Space. This we'll teach later on, because then, you have to understand the emotion of the Soul. How it feels to be in a given position, and transmutation. When you feel it's right, but you're still transmuting. It becomes, maybe you call it the third eye, but becomes a knowledge of the presence of time and the place, awareness. Because you connect the energy of the Soul, to the energy of the STP, on the spots in the physical dimension of the life of the man. And then you ?? feel it. (3:00)

This has a lot of application and implication, even in the ordinary life of creation of man, and behavior of man. And how we expand, and how we have different behaviors, in the Northern Hemisphere, or in African cultures, and other cultures. I studied this for... I had to study... I observed it, and it became a study for me to understand it. As I used to travel a lot to Africa, and then in Northern Hemisphere.

Even the way we interact sexually with each other, brings different emotion and line of loving and caring, even for our offspring's. The "missionary position," because the two heads always are in touch, the Soul expansion is next or close to each other, creates a different kind of fetus. The girl creates a different kind of emotion, than the Africans that they never interact face to face, through the culture. It creates a different kind of children, different kind of emotion. Where, what we call, the missionary position, it's like the way I

explained to you, with my children, I put their head against my head and I connect with them. We, you create a different information, expansion of the Soul. And, we are more connected, we get more attached to our children in a different way, than the children are brought in different position and way of creating child, due to culture or whatever. (3:02)

We never studied it, we don't consider it, but you have to. Because how, it's how our Souls in creation and expansion in the Universe works. How we share, how we interact. And where does the interaction of the STP come in?

It is you have to consider even why homosexuals, especially the male, have a different kind of emotion and interaction than the female similar sex, or the same as what we call, the missionary, or the Africans. And this creates a different and being with it, and it's all different .. logically, and creates a different emotion.

The psychology of the society has to be studied. If we travel the span of Universe in vehicles, close quarters, confined spaces, and the interaction with each other, and the social interaction. Otherwise you'll have a mayhem if you don't understand it. And I've done a lot of studies, it just came in my trips 20, 25 years ago to Africa, that Africans don't treat the children the way we do in Europe. No way. The love is there, the care is there, but handling a child, breeding a child, bringing up a child, is totally different than European. (3:04) And even totally different than Middle East. And in how we do not see the, what we call, the interaction of the emotion of the Soul. How in Arab nations we allow or is... << audio cut >> allowed to ...

K- ... And then, in the West, we see this as illegal, because it's underage. Where with the Arabs, marrying a 9 year old, just because somebody said so, has become part of life. And what kind of children it produces? It kind of... realities come into play with the interaction of the Souls. And it's just what it befits. Why did Muhammad made interaction with a 9 year old legal, or part of religion? You read the history of it. How it came about. This marriage of, or having, what you call it, interaction with a minor, we call it, under 18, but who, at the age of 18. When does it come to maturity of physicality, or does it come to maturity of mentally, or what we call, evolution of the puberty?

Muhammad fell in love with a 6 year old girl. (3:06) He actually engaged her at six, when he was 52, 53. And he waited till the girl was nine, when became a woman, or went through first menstruation, and then he married her. And then, with that he made a lot of rules, because it befitted him, for his action. And that's how, marrying a young girl at 9... But you have to understand, in Arab countries, that .. girls, usually at 9, have their first menstruation, they become a woman. They can reproduce. And this is, it is in the history of Islam, read it, as a historian.

His second wife was, and then after that he married two more. He actually died in the arms of this young girl at the age of 18. This is the history of Islam, read it, and how the emotion has brought the Prophet of God to a position to make orders for life of man. He literally fell in love with a young girl, with a 6 year old girl, and at 9, and the girl was with him till he died. He wanted to die to be with her, out of all the wives he had. And

she was only 18 when he died, at a very young age of sixties, early sixties. (3:08) And then to justify it, he made rules. And, which is abused now.

But again, a 9 year old child brought up in a different ways of interaction of Souls in Europe, is not even mature yet, in most of the times. But, we still see abortion, at the age of 9 and 10, in European hospitals now, it's a normal position. Are we taking the cycle of physicality out of, or emotion of the Soul out of? And, which one is correct? And, which one leads to creation of the new Soul in the right dimension?

We have to understand cultures, and we have to understand how the cultures were built, and how we interact, and what it is. This situation of 9 year old girls coming in to Europe as wife, is one of the biggest dilemmas for the European nations in the, in, in immigrations. And, the policy is now, we just ignore it. We just, because the girl always carries the name of the husband, we call it as a child, let it go that way. This is how European, American legislation, have by-passed the marriage of the 50, 60 year old man, with 9, 10, 11 year old coming into Europe as wives. It carries the name of the husband, so it's treated as a child of the family. I used to handle ... be in this, in nineteen seventies, eighties, with the immigration officer, said, "This is the only way, you're letting it go." Because the girl marries, entitled, because the name of the husband is on the passport, because cannot travel without it, he say, he's the father. (3:10) But, by law you cannot do.

And then, what interaction of the Soul brings these interactions? And what Soul is it created out of this? And what's the expansion of the brain in the emotion within the center, when such a interaction takes place? What Soul brings to what limit? And does it confine the Soul to itself, it never grows?

This is where I say, hypocrisy of the religion goes out of the window. Then there is a bigger question for you Knowledge Seekers. When is your Soul mature enough to find its twin? That it can match with, pair with, and from it, emanates other lives. In physical life, we call it 9 years, 10 years, 18 years. Does the Soul has a time limit of maturity to find its twin? Or when does it happen? That the interaction of the two can lead to the creation of life, extension of the Soul of the Creator. Now you have to answer that, (3:12) and then you have to understand how the rest comes in, and how we feel, and how everything is connected in reality, physicality, is what we call, the interaction of the environment.

Any other question?

Q: ... Is it possible to tell us the names of some scientists who were killed by the order of Ayatollah Khomeini, please?

K- Just read the head of Iran Atomic Energy, when he arrived in Tehran, was executed, and the rest are there. Some disappeared, and never appeared, a lot fled Iran, immediately. And, Rafsanjani, and the others, later on, invited them back in a very few came back. The rest stayed and became part of, especially, American, German nuclear

industry. In American nuclear, and in German and French, especially, you find a lot of Iranians. They are retired, now most of them are retired, who have been Iranian physicists, nuclear physicists, trained by them.

The story, the history, not the story is. When we have a scientist, a guy, who studied in Switzerland, electrical engineering, went to... He saw an article in newspaper, French want to train nuclear physicists, just after the war, and he went there, he became nuclear physicist, came back to Iran, couldn't get a job, was nuclear physicist. He went, became a lecturer in University, even he was a doctorate in Nuclear. And then when he found out that Eisenhower has gifted Iran with a nuclear reactor, (3:14) he went to Tehran and saw the authorities. You are the only nuclear physicist we have. So, you become, go and see the Shah. He goes, see the Shah, explains what he said, "Oh, .. we didn't know we have one of you." So, they made him the head of Iran Nuclear. He was a very wise man. He said to Shah, "You have to understand what I'm doing." And he said, "6 months, I come every day, I teach you, you do the work, and next day I come, you explain to me what you understood." And after 6 months he says to Shah, "Now you're a nuclear physicist. What do you want me to do? Do you want to go for weapon, or do you want me to go for energy?" Shah says, "We go with energy, where need be, we go for weapon." We started proliferation when Israel came out to be nuclear. And, for to get these things, he said to Shah, "We don't have any." He said, "Shah, send them to the other countries."

They paid a lot of top Iranian people in Universities, to go to France, to Germany, to America, to become nuclear physicists, and to come back. And, by the day they came back, it was the time of the Iranian Revolution. A lot of them, just beginning of the Iranian nuclear industry. How many got to Iran, and how many ordered to execute? The guy who started Iran Nuclear, Dr. ?? , he left to America. He knew, when they come, they kill him. So, they appointed a new one, he was in position as a new one, they executed him, because he was head of Nuclear. Read it, it's in the history of Iran Nuclear industry. And with it, a number of the scientists who were educated outside, were executed, or in prison, died under unknown circumstances. ?? unfortunately.

And then, after the war with Iraq, the Iranians found out, "We need something ourselves", because nobody was selling them weapon. (3:16) And Shah brought the energy, nuclear, ?? reactor from Eisenhower, because he said, "There's going to be a day when the oil finishes, my nation cannot be dependent on energy and become backwards." He was ??. He was well... He was one of the few world leaders, who didn't rely on his advisors. He learned, he went to study... He did the same with the pharmaceutical, petrochemical. He studied with scientists, petrochemical, and when he realized, that the 20,000 products made out of petrochemical, and what the opportunity is in 1972, he raised the fuel prices. He said, "I need it, they need it."

And if you go into the budget of Iran, at the time of the Shah, the first most money spent on oil, second was nuclear. And then other industries. A huge burden was put on Iran to become nuclear during the Shah. From the income that he increased by oil. I studied Iran history of nuclear in detail, exactly where we went wrong, and why we are nuclear weapon technology people, which they ask, and allege us to be, which we are not.

Americans wanted to be in Iran and control the nuclear, because Shah has start doing it himself. And he went with Germans and the French, because most of our scientists were there to educate it. And then, even during the Iran-Iraq war, Saddam bombed the Iranian power station, which was built by the help of the Germans. Shah's side ?? went to nuclear reactors with the Germans. And then with the French, but he didn't sign anything with the Americans. The Americans were so angry with it that we gave him the prototype. Now he's gone with the others. (3:18) "We're going destroy it." They paid Ayatollah Khomeini to destroy Iran nuclear and that was the first thing he did, he came in, he executed the head of Iranian Atomic.

You have to understand the history, not just, it's there. It was part of the negotiations for him to become a leader, to destroy, kill the people, scientists, Shah brought us nuclear scientists. And then, Ahmadinejad followed his line, the same gave the names, that got us all killed. Because he came through that. This is history, this is not emotional or made up. It's in the books of history, cannot be changed. Read it. We lost some of our top, top young nuclear physicists by the firing squad and torture in chambers, in the first months. It was part of the contract.

Any other question?

Q: ... Is there any parallel between the scalar energy or cold energies discovered by Tesla and MaGrav energy? Or does this form of energy still vibrate in a more material layer?

K- We have energies which is from matter. (3:20) We have energies from, what we call, non-matter magnetic fields. I invited the doctor who is talking about the scalar wave and the magnetic fields and whatever, to Ninove. He's a German, to give the explanation about this. I met with him couple of times in his University and he came to give us a lecture. His pictures are on Internet. One is what we call, Gravitational and one is Magnetic. You call it current and eddy current. You call it scalar waves and magnetic. One is Gravity, one is Magnetic. One goes out, one comes in.

And that's why the cages doesn't work on one, and Tesla understood this. Where Faraday Cage works on the other side, when it goes out, because it's weaker. It works on the one which comes in, because it's Cosmic Rays, and it finds penetration with it. What goes out, out of the box, is man-made, limited, and it stops with the limited physicality of the Box.

And this is something which, you as Knowledge Seekers should have understood by now, and the world of science it has not been understood. One has a Cosmic Ray background and at the end whatever will penetrate, it will come in, will receive. One we create inside a box to go out, it cannot be done, (3:22) it's what we call the Faraday cage, is because we made the man-made matter state fields. One, matter state fields versus the Cosmic Ray fields.

And if you understand this, this is the way then you feed yourself, when you absorb 80% of the fields from outside. Because you put the seed of the food in matter state in your

stomach, so now what there is outside, you go to it, penetrates the skin of the man << audio cut >> Read about his scalar of waves. What was his name? Professor Miles.

R: Yes, Konstantin Miles.

R: ... And he had this set up in the middle picture here, I think, that he brought to the... to your establishment.

K- To the presentation... He came to the lecture theater. We bought his systems. We used the scalar waves and things of him. We still have it.

Any other questions? Shall we call it the day? It's nearly 12:30.

K- ... Thank you very much for today. I hope some of you join us tomorrow, it'll be a very exciting time. And if you haven't registered, we're still leaving it open for till tonight. And after we celebrate the birth of, whatever you call it, Mitra, we try to close it, and I wish you a very, a very happy New Year to your Souls, where the teaching of Mitra comes from. (3:24) And see you tomorrow in a wonderful session. I'm sure it'll be one of the most amazing sessions of the Keshe Foundation for a long time. And then, those of you who join us for the monthly teaching for transmutation, please complete your things. And don't get disappointed if I write to you personally and ask you. We don't want you to join these sessions, because if we get past the limit, or we see things which we cannot handle, we'll come to you that way. Thank you very much Rick, and we're going for the what I call, understanding of the more in the future. Thank you very much, and see you tomorrow and next week.
