

521st Knowledge Seekers Workshop January 18, 2024

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Friday session practice 27 hrs; Becoming Passenger of U; Bring knowledge & T back to Earth - use transmutation daily life; New Non-dimensional systems; Control travel - dream is Soul travel - Conscious & remember; reach STC; Meet Soul Prophets; System alive - pray for them; Detected life in systems - don't need heartbeat; Travel inside body instead of outside - perfect body; Don't use Gans - fields of U; Convert energy back to matter; No mediator - directly to Creator; How to locate Souls - fingerprint code; T not from humanity; China conference March; Truth about Noah's Ark - Mediterranean flooded - story; More on religions - Chinese Whisper; Jehovah Pagan god - likes kebab; Ask Soul of Prophets truth; Fields back of head; Need 2 to make emotion - love; Misjudging; Physically elevate STM; Understanding fields - receive when think you give; Soul in control - P follows; T released on strength of peace - can't abuse; How to raise children - make responsible; T not free - structure of society; Don't need brain - connected by fields; Change P - color - migrations;

ENGLISH TRANSCRIPTION

(:17)

K- Yes, good morning, thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers, from Keshe Foundation Spaceship Institute. We welcome you back as usual. (:18)

We are on the course to change a lot of things and listening to the Intro, it brought a beautiful sensation and understanding, that even this, what we call, Intro was recorded some 3-4 years ago. Now, in past year and plus, with introducing the, what we call, transmutation and running test, we have to add to it, that we even pass transportational movement of body or any entity, by burning fuel and using the energy of the man himself. If you think of it, if you can understand the whole concepts of life, existence of the energy within the man. Even our body, we use energy to physically move our body, walking, whatever other means, swimming, without any external systems like cars or rocket technology. And we've done this from our... it's been the essence of our movement and motion and life, from onset of creation of life on this planet. Now understanding that we have a hidden, what I call, energetic, powerful system inside us. and understanding that "he's been the guy" who's doing all the work in the background, confirming the existence of the life. Now we are moving to use that method of system, or that type of energy, to move the body without the physicality (P). (:20) In a way, we are adding a new section to the movement of the man, motion of the man, without external systems to be able to go faster. And now we see we can travel much, much further, beyond any dimensions (D) of the physicality of this planet, and use that energy to move, and then bring the body with it.

In the test we've done, in the past two sessions of the Keshe Foundation Friday test with the Knowledge Seekers, on the 22nd of December, and one last Friday, we have seen some confirmation of what we assessed, and what we saw, and how technology development will be changing, how the transmutation will change. Those of you who join us tomorrow, for the day long session, we are with you first 3-4 hours. And then, as of last week, as some of you noticed, we done the pre-test. We leave you to test. We left you, we left the system on for some 27 hours. And many of you stayed, went back, went had dinner, god knows, whatever you wanted to do, you came back and joined. Literally, like the way we live our lives. We travel to somewhere and we go sightseeing, we go shopping, we go for dinner and we go back, traveling back. And this was part of the purpose of the trials last week and in the coming time, every third week of the month, which we start from tomorrow. (:22)

We leave the session, we said from 9 to 5. We start the session, we open the session at 9 o'clock. We let you to come in, get ready, whatever, and then we start the test, we start literally allowing you to fly. Allowing you to understand your own dimension. Go and do whatever you like, come back, stay in for 2 hours, 10 hours, and we leave the session open, for as long as possible, our system can support. Many of you will feel a difference in the sessions.

Last week, we did not announce it, because we didn't want to give you, what we call, a preset mind. Those of you who stayed the session, the first 4 hours or 5 hours, you were on one system. And the emotion and the feeling was different. After 5 o'clock, 6 o'clock, those of you who stayed again behind, you felt, or you got a sensation or whatever, of a different type. To you was a different, what we call, emotion or sensation or feeling. But to us, we moved the whole system of our transmutation to Space travel system. As you are aware, we have developed a new Space technology, and we moved you, more or less, one century forward, in the second part. (:24)

And, it'll be the same. This week, you will fly in the old system on Friday. In the following weeks, we do not tell you, but somewhere in between, or whole day, you travel with the new system. These systems are developed to bring transmutation much closer, much more under control by you, and for you to be able to transmute. This technology (T) is not open to public. This technology never been disclosed by Keshe Foundation. Systems have been tested and new systems will be added. And what we will like to do with you who join us in the session tomorrow and there on, to respond back to us, right back to the Foundation, How you felt? We don't want testimonials going for pages and pages. Anything more than one paragraph, it'll be too much. What you felt? What the sensation was? Did you go anywhere? What did you do?

You got to understand, we're very, very big, and important change. And, in a way, you live that life, you live that parallel life. You get on a plane, and you go to a new place. You get in your car, you go to a new scenery. You get in your car, you go to a new shopping center. You do not know what you'll see. When you come home, or when you go back to your country, you tell people what you saw, (:26) what was it, what's new in

the shops. And they accept it, because they know you travel. Now we have to learn the same thing, there's no difference. That you go with your energy, inner energy, you call Soul, to shopping, to go to another planet, to go to another position. This is one of the biggest problem with the Knowledge Seekers (KS), and people who go through this process. Now we have to learn, it's not a dream, it's a reality. Up to now, you get on a bike, you got on a car, you got on a jet, and some of us been on a rocket and been to space, and they say they've seen this, and they saw that in the sky, and we accept it, because we know they went with the system we know.

Does it matter if you tell somebody how beautiful the, what we call, Black Forest in Germany is, or how beautiful the Northern Lights are, if you went with a car, you drove there, or you went with a jet? It's just because you've been there, you explain it. And they accept it. It has come to the point that, as I said in the very first time, when we started journey of the Soul in Linz, that we accept whatever you tell us. Because we are not there, you're the only passenger. And we brought in couples, partners, who went together to Paris, the people who went swimming together, and even being in two different systems.

So, what you have to learn, or what humanity has to learn, is that, he's learned about the new transportation, a new way to move. And, whatever you feel, you write, "I felt my mom, I felt my hand, ... I felt my body move." Don't you get that when you go mountain climbing, (:28) you come back, or, then you sit down and you get a rush of blood in your circulation, or your leg goes numb because you did something wrong. What's the difference? Why? Now traveling with the energy of the body of man, it's all different to you. It should be no difference. And this is what all this teaching is about. To bring it for you to understand that you have a new transportation system. We call it transmutation because one is called the plane, one is called the rocket technology, one is called the car. Now you transmute through energy. And this is part of what you have to realize. This is the part I ignored, I called it a sleep, I called it a dream. Now I know where they took me when I was dreaming. And now I'm in charge of it, I can control it. It has a lot to do with me, which I never knew. It's like, what I said once to one of the Knowledge Seekers, it's just like putting you in a car, and taking you around, just showing you and you don't drive, you're a passenger in the back seat, and you see the scenery. And they tell you, "This is this city, this is this building, this is this, whatever." And because you are a back seat passengers, you accept it, because they tell you and they take you. Now you are, not a back seat passengers call it a dream or whatever, you are, you realize, "Actually, I'm the driver." "I can decide where to go."

And the process of next few months is that, that you learn, "I'm the driver. And I don't need to drive all the time." (:30) I can come, decide, even in a very near future, in the process of the teachings and testing on Fridays, we teach you how to come in, go to a place, do a job, come back and start using this in your daily life. How to go to a place, even it comes to your work, you want to research on something and see the result, growing a seed, testing on a new disease, defining a new way of energy. You come, you go into the transmutation, you get in touch with other Souls, you add up to your knowledge, you remember that knowledge in the dimension of the Soul, and you come

back and you practice it in the physical life. This is what we call transmutation. You don't sit all the time because you have a car, in the car, and drive all the time because, "I have a car." You'll learn, "I can live in this car, or I can camper and go to different places." Or, "I can go to a place, go to a library, go to a research center, learn something and come back home, and what I learned in the library, I put it in practice in... at home." Then, at home, it's like when you go on the Internet. "Oh, you see this chef, he does this kind of things, and he makes, cooks such a thing." Now, I can go to the Soul of the knowledge, and learn where and how, and come back and practice it in practicality.

This is what, in a way, if you look at it, what's called the Prophets. Enlightenment. And this is the whole purpose of the new transmutation, the whole purpose of the new teaching. When you go shopping, (:32) when you go to school, you use your car to get to the school or to university, you learn what's in the university, you get back in the car and come home. Now you learn to do that with your Soul. You get into the system of your own, you go to a place, to the Soul of whatever it is, but up to now it's been random, I was taken somewhere. Gradually, you learn, "I want to go there, this is what I want to learn." And then, it targets, it gets you to that place. You don't sit a car and say, "Oh, go driving." You sit in the car, "Oh, I go to school, I go to shopping, I go to scenery."

Now, with the new teachings, and the way on, we start from tomorrow, is for you to learn that. And, we gave you a taste of it on 22nd, we left the system on for a few hours. On last Friday, we gave you 27 hours, till our system shut down. So, we saw people coming in, some 37, 38 of you stayed on and you went out, you came back, some of you went to sleep and you came back next morning, some of you fell asleep during the process. This is how it will be. And this is what the test from tomorrow starts to be. We open the sessions, we let you to get on board, you will be "flying," most probably, if I can put it that way, with a, let's say, a normal car, up to tomorrow. Some of you who stayed behind in the session, last Friday, you were in a car, you arrived at the airport, and then you jumped on a jet plane, (:34) after 6 o'clock, without you knowing, without us creating a commotion or whatever, we switched our system to Universal system.

And I asked, I came in during the session, later on, to ask if anybody felt anything any different on Saturday morning. Because there were still people on the session. And one or two people answered, because they were not expecting to communicate on the chat side, expecting somebody to come and talk. My job is not there to come and talk and disturb the others who are traveling. But, leave your chat lines open when you are in the session, because a lot of things will happen in the background in the chat that it doesn't disturb the others. We want to know how you travel, what it is.

Don't write a, what I call, a puzzle. "Where you are, I'm traveling, I'm with my uncle, this is what it is, I'm seeing a scenery." We want you to start understanding a new transportation system. And then, we start in the background, switching you to new systems. And, hopefully, in the coming time, you will learn. The car is always there. I can... just because I bought the Rolls Royce, doesn't mean I have to drive (it) all the time. When I get to a place, I get off, I go and do what I want. You learn to use transmutation as part of knowledge, enlightenment. Get in touch with the Soul of Einstein, get in touch

with the Soul of Tesla. Because, you decide from now on. And then you come back with a new knowledge. You have to learn where the guy lives, how to get in touch with it. Where is my uncle? (:36) You get fed up all the time going and seeing grandma and uncle's Soul, because that's it, I've been there, I've seen it. And I'm happy they are safe. Now I want to go somewhere else. You don't want to sit in grandma's house all the time, till the day when, whatever time be. And this is what we are trying to teach you.

We gradually built it, and some of you who were in the session of last Friday, and you stayed beyond the, what we call, five or six hours, you should have felt the change. Something changed, but maybe you went somewhere else, it became easier, it became harder, you wanted to be somewhere and you ended up somewhere else, or you let it go. Nowadays you have to learn, "Okay, I had a fun, I came to the city, I've seen the city, I want to go to a specific place in the city, in this Universe." Up to now, your limitation is where it can take you a car, you can go from one city to another, you flew from one country to another, now with your Soul you can go through the Galaxies, through the Universes. And you have to learn, can I go back to the same place? It's like, as we said during the trials in Linz, the guy came, I said, "I went to the Moon." We send him back in the machine again, said, "Go back to the Moon and see if you can..." And he went back in and he actually went to the same place now and start bringing stones out and whatever. So, it's repeatable. It is something, because now you have access to it. Instead of going to the Moon, we ask the others, "Can you go to your father, to grandfather?" and they can go there. This is what the session is about.

The session tomorrow, when it starts at 9 o'clock, we are with you for first 3, 4 hours. The rest is for you to test your own abilities. (:38) We put it up to 9 to 5. We leave the system on, until next morning 9 o'clock. Just because you got a car, you don't have to sit and just drive. Try to choose where you want to go, how you want to go, who you want to see. And then, in the following time to come, we teach you how to materialize. You have to learn, get in there, and start changing gear, know where the steering wheel is, which is your wish, Your dimension of the drive is your emotion, where it's going to take you, how it's going to take you, or, "I go for a drive, whatever comes I see."

A lot of you sit with the system and you see, "Oh, it's taking me, oh I can see my uncle." But, how many of you sat there and says, "I'm going to see grandma and go there." This is what we did. And the system, especially from next week, are set up this way. Up to now, your limitation was planet Earth, you lived in this village. From now on, the Universe is your "oyster." And if you are adventurous enough, you can get rid of the shell of the oyster, and the whole Unicose is your dimension. And nobody can tell you, you're wrong, because as the system develops, as more people do it, we come to understand, there is a new horizon, there is a new way.

And this is the purpose of the teaching. This is why today's session is mainly in what you're going to see and how you feel from tomorrow on, and how you felt last week. You have started a journey that you cannot stop. (:40) But, you have to get over the sensation and all the, what I call, rigmaroles and limitations which you have put on yourself, and the others have put on you.

In the session tomorrow, it'll be not much different, but you'll feel the difference, and the sessions from now on, after, we move you, we don't tell you, to new systems, or back in the old system, to see how would you like to go on a bicycle, or would you like to go on a jumbo jet? How you want to feel things with a glove, or you want to get the gloves off and with a hand on, and get on with it. We are preparing you, gradually, more and more of you, to come to that point, to reach to that point. And to start understanding yourself.

We are not Prophets, we are not here to make things to become unbelievable. We're making things for you to believe in yourself. And then, this is the new communication system. Nobody can stop you going walking, and traveling with the Soul should be the same as walking, nobody can stop you traveling. Slowly, slowly you'll learn and with the new systems, which come into operation and it's been in operation since last week, you'll come to "Non-dimensional" system. The reason the new systems are operating is, they have no dimension. As I explained, now you understand what was the teaching last week, what we discussed. We put you in the same position as emotional life, in a, in the energy fields, which had no dimension. (:42)

As I said, the technology in the hand of the Keshe Foundation is reaching such a position, far beyond the present understanding. But, those of you who stayed after 6 o'clock, For the first time, you enter the zone of "no dimension," like the star. Sun has no containment, and is a field without containment. Our knowledge and technology has reached that point. And some of you who stayed on, some of you could connect, connected through that system. We moved you without you knowing, into, from what I call, a car, into a Spaceship.

And, the system, the technology, the development of the technology, from now on, moves to that dimension. And when you travel, when you see something, when you feel something, it's not what you felt, it's what you've done, it's you. And, gradually you have to learn, it's my Soul it has no dimension. And now, it lives, it moves within a system which has no dimension.

We watched how the system changed, affecting other system, affecting itself. In a way, in a very simple way, we developed a technology, which we can monitor the changes in the system, by literally like a scale, the weight. We know who's getting on, who's getting off, and gradually we become so good at it, with developing new systems, that millions of people can get on and get off, and do whatever they like with it. (:44)

And, for the first time last Friday, Some of you became true "Passengers of the Universe." And this will follow on with the new systems, from now on every Friday. We don't tell you when you're traveling with a donkey, and we don't tell you when you're on the jumbo jet, and we don't tell you on the UFO, or when you're traveling on your Soul. We have restructured our labs to accommodate for this. We create what we call Cosmic Rays at your disposal. It's like what the Romans say, "all the roads end up in Rome." All the roads are open from your Soul to the whole of Universe (U). You become the center and you decide which road you take.

And some of those of you who reach the purity, the "Rome" will be the Soul of the Creator (STC). "All roads" end up with Him. And maybe you choose the right road to Rome, to your Creator. There is no limitation from now on, whatsoever, on human race not to, and not to achieve, and not to get to its Creator. Some of you went through that system. Some of you, during the session, you thought you fell asleep, and you went to places, but you never understood, that you were the first passengers, testing.

And this will go on. We carry on testing, because we have developed technology to create fields, (:46) containments, nuclear reactors without containment. I'm a nuclear physicist. I understand every aspects of the technology. And our team have set this up. In a way, we showed it to you in London. But you were too eager to put your head in and hang in there. You missed the main show, which was standing behind you on the stand.

Now you understand how much the Intro and being advanced to be has needs, needs to be adjusted, maybe added with another Intro, to transmutation. And with this system, the pilot is you. You are the captain, as I always said from the beginning, and no one else. And the more you learn, the more you join the systems development, you learn it and you do it. And it becomes more and more applicable in your life. Just because you go shopping in the supermarket, you don't spend the rest of your life in the supermarket. You do your shopping, you get back in the car and you go home, and you cook with what you shop. Now, you go on shopping of the Universe, and the supermarket is the Knowledge of the Universe. Where you want to go, what you want to see, what you want to learn, Gradually you find out, "Did I go to the right supermarket?" "Did I buy the right products to make what I want to make?" And if not, you go back in the car, you go to another destination. You see what, you can shop on another supermarket, that might be part of the main ingredient." (:48) But now you go to the STC, you go to the Soul of the scientists, who invented. You go to the Soul of other scientists and knowledgeable people of the Universe, and you come back, you learn from there, you park the car, you get out of the system, and you make it. And they say, "Oh, the guy is a magician, he found something new." But, now you learn, and you teach the others the same. The minute you start teaching, is the minute when you receive it.

This is the whole purpose, you cannot choose. You teach your knowledge and you learn from it, to convey and transfer that knowledge. And the way you explain how beautiful the place is, maybe, maybe some of you become good enough in the future, that the images you see in the Universe, now a days you take a picture, or you open a camera and they see on the video what you see, you connect through the Soul, and through that Soul, you show your partner, "where I am, would you like to join me?" And through the dimension of the field of the Soul, you entice or you share.

This is how Mitra brought the Creator to Earth. He didn't take his hand, he conveyed the emotion and understanding of the fields. And you're learning what Mitra, what the Creator communicated and fell in love with this planet. And this is your job. And all we do, from now on, is to open that door. To see how you will go. We move the 9 o'clock time tomorrow, to the following weeks, maybe to 12 o'clock, to 5 o'clock, (:50) that the

others will have the benefit of the day, the way you did. Not everything run, by it's European Central's time. The following week we move it to 12 o'clock, the other week we move it to 3 o'clock. That the, what we call, the American continent, or the Chinese can join in and stay in longer. We are One Planet, we have to accommodate all of us. And then you learn how it is to travel by the Soul, when the physicality is tired. "Did I dream? Did I fall asleep? Or was it my daytime and I went through that reality?"

You have to learn, you have no choice, if you join us, to take that path. You decide to go and see the Soul of Christ, you see the Christ you believe in. Not necessarily the Christ that ever existed. Because, this is the emotion you want to see the beauty to the expectation of the Soul of the Physicality (STP). You have to learn this gradually. You have to understand. You have, as I said, no choice. You have boarded a ship, you have boarded a vehicle, which is you, and you cannot run away from it.

In the coming weeks, and in the coming teachings, we will bring this in a more elaborate way for you to see and to feel. In China conference, we'll bring more of this forward. In understanding yourself, the whole true Space flight. Traveling beyond the dimension of this planet, has already started. And many of you have made that journey without you knowing, and you called it a dream, (:52) "I went there, this was this, I was swimming in the water, but it wasn't a water." That wasn't a dream. You went to a new place with your Soul. And the way you registered the images in your dream, now you're registering your Soul images on your physical body. But this time, you are present. This time, is not called a dream, the physicality hasn't left. You still register everything on what I call, memory disc of the brain of the man. And then when you come back out, you write or you tell people, "Oh, I've been here, there, there, there, there." But, they learn, "Oh, she's going on a transmutation, she's not using the car."

In a coming time, in a very, very soon coming time, in the next few months, we even teach you how to transfer energies, back to matter state. For example, you go shopping in supermarket, you take a bag of sugar, you take the essence energy of the sugar. When you transmute, come home, come off the system of your own Soul, you'll be able to manifest that sugar in physical dimension in your hand.

You have to learn this. This is what you called up to now a dream. And you have to gradually understand how to transfer energies into matter state. This is how we will feed Spaceman in Space. You want a fish and chips? You can come back to Earth, go to a fish and chips shop, take it and take that fish back with you on the Moon, and have a fish and chips on the Moon, if you are in a physical condition, to a matter state, that you can enjoy its physicality. This is not a dream anymore, this is you going to the next step. (:54) That's why I said, "The teaching will never stop." Because, after that, you'll learn more. Transmutation of the STP is one of the things in essence of energy.

As you know, we brought systems from Austria to London for demonstration. They were tested, they were run before they brought, they were set to run, to test, if it runs, works and creates the Soul. I was talking yesterday to the Knowledge Seekers who brought the system through a channel to England. And they tell you what happened is that the, in

London, in England, they had to go through a tunnel. This tunnel is created by the British government to feel if there are any, what we call, people hidden in the trucks, in the cars, immigrants trying to come in through the back door, or you're trying to smuggle a cat or a dog. Apparently, it's 10 meter long and the car just drives through it and they sense the fields of the system, if there's a life in it.

And our Knowledge Seekers tell us, that the authorities of the British government stopped the car, they said, "You're carrying an entity, we think you're carrying a dog or a cat or somebody in the car." The energy of the system was felt by the system developed by the British government to sense Souls, physicality. Which this brought to us, as I was explaining to Knowledge Seekers, we have reached the dimension of the Creation. That even the system of the man can detect the energy of the life. (:56)

We had the same thing in European Parliament, when the first "parachutes" were put through the system by Dirk. And they said, "This is like ?? Syntex, it's a natural product." For the first time, the authorities confirmed to us, that they can feel life, existence. Then they had to explain to the officials that this is a system, new system which creates the condition of life. And this confirms our system has a Soul. And this confirms that when we allow you, when we set up the systems like sessions you go through tomorrow, through our system, you are dealing with a live Soul, Soul of the Universe within the system.

And it's interesting that how we take this further. How, when you arrive at the airport, the government says, "There are so many Souls, who are they?" You don't need to change yourself into the physical life. They know on this ship there's 10,000 Souls and lives. And, as this was coincidental, but has brought a knowledge much, much further step, into understanding how to extend this, to open Space. Then you understand, when you got into the systems, in Linz, or when you go through the headphones, how close you are to the reality of Creation. How you are part of it. How a system which was run for a few minutes to structure it, (:58) to be able to show it to you in London, has already created his Soul.

It shows how advanced our technology is, and how much we have reached the point of, what I call, new Space Technology. As our Knowledge Seekers were saying, they had to get out of the car, and they could see energy fields, which confirms there is life. And it was nothing but systems in the car. If authorities and the system made by man can confirm the existence of a Soul, a life, does not mean life to us needs a heartbeat anymore. It means the Soul is created and the Soul confirms its existence.

You remember, the very early teachings, I always said, "Pray for your system, give from your Soul to it, because it's you there." Now, we see the Soul exists, we have the confirmation of it. When you switch a system on, when you get into the systems, and every teaching, when you go through it, pray for your Soul. Give from your Soul to... from your STP, that I trust my physicality to you, and always respect it. And, this is what the technology is.

And this is why I explained to you, how did you feel after 5 or 6 o'clock session last Friday, than before. Because we moved you into a system which has no dimension but it has its own Soul. It decides its life. We have monitored the system, non-stop, more or less, (1:00) since Christmas. Since we brought the system to London, in November. We're running it, we're testing it, and we see the changes. And it explains to us how it changes, how it works. And now you join into a flight system. It's literally, I can explain it to you, it's like a flight system coming from, let's say, Beijing to go to New York. It stops in Delhi, it stops in Tehran, it stops in London. Passengers get on, passengers get off. Now, it's the same system. You get on and you get off, but the flight is on. But this system has and flies in every direction which you want through the magnetic field of the system.

We have created a condition in the new system that you have two choices. You travel within the dimension of your Soul, understanding yourself. And then you can jump on to Universal lines. I've taught this very deeply in the past, where you use Carbon 14 or Carbon 60. Depends which part of the universe you want to go to. And we have developed in our systems to create those line of connections. And this is how the, what I call the system next week, or next session, not tomorrow session, will allow you to feel a different transmutation. Go within your cells. Go within your body. I have a cancer. I have an inflammation in my muscle. You don't need to go to the other planet. Go inside. See what's wrong. How you feel it. (1:02) Why is this part crying? What, how did I created it? What was the emotion that created this cancer cell for me? And how can I remedy it? This is what you have to do in Space. It's not something strange anymore. In Space, we have no operating room. We cannot bring you back with the speed of light the way you want, and put you in an operating table on Earth to cut you open, and do something, you have appendix.

You learn with the system, you don't need always to go out, go within. Find and make perfection in your physical dimension when you come back. This is what I always said in teaching. Learn to feed your physicality through your Soul. Learn to reach your physicality through your Soul. What have I done to you, that I created this and created that? How can I, the creator of the problem, knowing now I can reach from within me, remedy it, in the physical dimension?

Then you understand what is open to you. What horizon of Knowledge of Universe is unraveled and is in a working shape and condition to you. Some of you do not want to lose that cancer, some of you don't want to change the position of the pain in your muscle, your knee, because you're getting attention from your lover, and you want it to be there, but you know, "I can change it if I want to." It's not all going out, it's going in. And then you understand what and how you can use yourself, (1:04) your own Soul, for your own transmutation, for the feeding of yourself, for what I call, "bringing wellness to yourself." We just provide the energy systems.

Many of you, in the upcoming sessions, will feel the difference even in your physical life. We have set it to be. And you will be going into the systems which have no dimension, there is no limitation, unless you create that limitation. Up to now, the reactors had the

Calcium, Zinc and Copper and the rest. The new system has nothing in it, but essence of the Creation. The way your body, you eat, whatever converts it to what the body needs, we give you that chance for the first time. We facilitate, we create a condition that you decide, what you want to take from it. Pain, pleasure, wisdom, food, wellness and the rest, or all in one trip.

And this is the essence of the new Space travel. Transmutation. You transport yourself in a physical dimension of this planet. You transmute yourself across the Universe. And there is no limitation. There is no one to say, "You have to see me as a mediator, to know how to get to the Creator." As you have that access line, it depends how pure you are, how much you are there in the Soul level, to reach the level of understanding. (1:06) As I always said, in Ninove, (Italy) a professor came to me, says, "Am I allowed to speak with you?" I said, "Am I allowed to speak to you? Who are you?" He said, "That gentleman there says, I cannot speak to you without talking to him." I said, "Do I have a permission to talk to you? I don't even know the guy, I met him only once." That is you who decides where the limitation of knowledge, understanding your creation, understanding your Creator, and then you come back to the vehicle, to dimension of physicality, and we'll see new stories, new chapters of life for man will start.

As I said before, and I said many times, "We respect what you say, because you are the traveler." And, if you've been there, and you enjoy it, and you can repeat it, going back there again, this time you open the dimension of the Soul of your connection to me, and I see what you see. This is how, as a family, you travel. Nowadays, you get in the car, and you fly somewhere as a family, to see Paris, London, or, god knows, Northern Lights. Now you travel with the Soul, with your friend, with your partner, with your family, and you all travel with the dimension of the Soul. And when you come back, we go back to dimension of physicality, you still speak, "You remember that light? Did you see that fall?" And you all confirm, because you all been together with it.

So, tomorrow, those of you who join us, you will travel for the last time, in what I call, the old car. Next week (month), those of you who join us, you travel in the latest flight system, available today to man. (1:08) Hop on board, enjoy the journey, and don't put it down, and go on a free, what I call, "flight of fancy." See if you can dictate the position. See, you can dictate the knowledge you want to gain, and see, when you come back, how much of it you can put in practice of physicality, and then you learn what the Messengers of God did in the past. Get on the, what I call, fields of the Universe, and learn from the others in the Unicos. You have the capability, and you have to understand, sometimes, maybe some of you have done that to the other "Passengers of Universe," who approach or manage to come to you through the dimension of the Soul. You learned something and you did it and say, "I dreamt about it and now I did it and it works." Now you understand, was not a dream. In fact, you work through the dimension of your Soul.

I hope many of you will enjoy the sessions from now on. And I hope you learn to be you, and you start the life, a new life, and if you stop teaching, you stop that process. As you teach, the more people you teach, the more people you bring in to understand the dimension of the Soul, the more knowledge you receive, and then life becomes a

beautiful cycle. (1:10) And learn, teach yourself, how not just to be a "joy-rider," but to be a student and learner of the Knowledge of Universe. And see how much of it you can bring back, and convert in a physical dimension.

Go out to a restaurant, you sit in the car, you go and eat, and you come back and you feel fed. Try to go through the sessions to the energies you need, what I call, the restaurant of the Universe and Unicose. Take the energies and come back and see, if you feel full, you don't want to eat. Or, you would like just to have a dessert and have a piece of chocolate, after you came back, because you had a full meal. And gradually, you learn to become citizens of Universe. You don't need to kill to feed yourself, you don't need to steal, you don't need to go alone. Gradually, you learn step by step, and hopefully, by the end of this year, you'll become true Passengers of the Universe. In a way, when you decide to live a physical life, you come to the humanity, and when you want to be the Passengers of the Universe in travel, you become part of the Creator.

What would be interesting, one day for some of you will come, sooner or later you face it, on Earth, I'm called Elizabeth. How do you call your Soul in the Universe? How do you announce your presence? And how would the Soul you met, wants to meet you again, knows where to go to? (1:12) What is the fingerprint of your Soul, that knows, lives, position and place and time for the others to get in touch. You still have to learn that part. This is how you go to Grandma, even though she passed years ago, she left a fingerprint behind. A code to approach, a code to be in, and to meet.

The true journey of man to become part of the Universal Community. In reality, the first flight test was done last Friday. And now, we open this door, more and more, for those of you as Knowledge Seekers, to be able to come. And you will see, many of you who take this journey, will bring new knowledge. And new sciences, new technologies will emerge, from those who take this journey. And it's very much like, you go from one city to another, one country to another, you see new things, you put it in your suitcase, you bring it back, and you show it, look, this is a new technology, new system, what it can do. Now you bring technologies and knowledge's of the Unicose.

And as all the world leaders in the past two or three years talk about the emergence of the new technologies will change man. This is what they talk about, because as leaders we trusted with the Soul, and the Soul knew the change is to come. They talk about it, now we'll see emergence of the new sciences from the Universe and Unicose, not from humanity. Which will change the governing, will change to understand, and bring that promised time of change. (1:14) Then, you don't go shopping to the supermarket down the road, you go shopping in the supermarket of the Universe. Be it for knowledge, be it for beauty, be it for feeding your physicality.

We come to it step by step, and as our Knowledge Seekers understand, to develop the new systems, we'll see new dimensions. Then maybe, by the time we meet in China, or in Tehran, or in Washington, more and more of you will transmute to be there, and you learn how to go transmutation and transfer back to physicality. The only limitation is your fear of the truth, and the only limitation with you is the limitation of your own

understanding. We make every facility possible for you, to be able to make that journey, and bring the change we promised. And, some of you took that journey last Friday without knowing.

Thank you very much for today, and as I said, we prepare you for what is to come, what is been part of, and what is to be part of. And I hope, as you enjoy to travel with a car and you get flight, now you enjoy to travel with your Soul and understand this reality of its existence, that you ignored to exist. Thank you very much. Rick, if you can take us to a break and we come back.

>> BREAK >> 521 KSW January 18, 2024 (1:20).

K- We usually have something to say, it's unusual, nothing to say. As many of you are waiting for the announcements for the conference in China. We have, we'll know more in detail by next Friday, by next Thursday teaching we announce fully, hopefully. At the moment, the teaching, because of the complication in holidays and different positions, we are air mark for 16th, we know more by next week, the conference, but primarily 16, 17, 18, and 19th of March, to be the 3 or 4 day of conference in Sanya. And our team will confirm the hotel and location and the conference by next Thursday that you can book your tickets. And for the Chinese who would like to attend the, what we call, the conference. (1:22) We have to get the permission of the government through the hotel, that we can confirm it. Hopefully once we get that approved, then we are ready to go. But at the moment, that week has been earmarked for Knowledge Seekers to join us. And we especially chose Saturday, Sunday, Monday, Tuesday, is so that the Chinese Knowledge Seekers can join us. It's very hard as we know for the Chinese to get a week off or a few days off. But they can take one, maybe two days off and then adding the weekend to it. We don't, we didn't choose the back end of that week, because 21st is the Iranian New Year. And some of our Knowledge Seekers have the celebration, 31st is the Easter, then again, 4th, 5th and the 6th of April, is the Chinese holidays, which people don't come, they go to their families. So, the only gap left, and before that in February, we have the Chinese New Year and the Chinese are all in travel, where it's become out of question. It's the only chance we'll have. And so those of you who are Knowledge Seekers for that

period, Saturday, 16, 17, 18, 19, will be earmarked. And now we'll confirm it next week to be in Sanya. And there could be extension to the Wednesday, Thursday, Friday, which will not be open to Knowledge Seekers. We try to accommodate the government, the military and the others to attend, to see the latest in Space and Defense Technology and all the things which come. (1:24)

So, last time in London we covered the, what we call, World Ambassadors, in Sanya, we try to cover three days, for specifically for Space and Military, to attend, to see, and to test new systems, which will be open to, what we call, them, to expand the horizon of the knowledge, and what is to come. We will offer you the admission fee for the, what we call, the 3-4 days. The hotel we have chosen, if will be the same, you can stay in the same hotel. It's, what you say, 4 or 5 star hotel, which is very normal with all the hotels in that part of the world. And we'll explain to you how the process will work. You can book through the, what we call, the Keshe Foundation. We do everything in the background. In China it's very difficult, we don't speak the language and it's very hard. So, with Knowledge Seekers we accommodate this part. And you just confirm you do, you're booking through the Keshe Foundation site. Knowledge Seekers in China, we try to accommodate you through the, what we call, the Keshe Foundation channels, in the registration, in the payments, and the Chinese team will look after you. We'll give you new links and new positions to, what I call, register for this event.

And we will clearly separate the two ways of the, what we call, for the Europeans and what we call, people from outside China, and China for this conference. And because of the accommodation, and the position of the way they can take their holidays or whatever, we'll offer a very breakthrough system. (1:26) And some of you would like to stay maybe an extra week or whatever, to have you come all this way to see the beauties of China. And you can stay in the same hotel, we organize it, everything in the background. It'll be a breakdown of how many days you want to stay, whatever, before or after. And you will come to one of the most beautiful places in the world. And you can enjoy it, and it's one of the best times to be in China. We'll see what happens and how the things take shape, but be prepared, those of you who already are part of the Knowledge Seekers who are coming, and the Chinese community who wants to see. I was told, "Can we show something? The Chinese would like to come and see something." We are not on the show to show things. We are there for you to show your Soul, and the performance is ?? And if we bring systems, primarily it will be for, what they call, governmental, military and the others, small sessions, small groups, that we prepare for what we believe in the Chinese government, they can see what is there. And, specifically for that kind of things, and now we have to see how we set it up.

On the other hand, everything else for us is as usual, and we go to further expansion and extension of the work of the Keshe Foundation, And there is a possibility that the Keshe Foundation will offer some of the papers which are in publication on a hard copy in next few weeks, that you can buy a compilation of the scientific papers as a hard copy, as you do with the books. And this is on the way, when it completes in next few weeks, we let you know. (1:28)

If there are any questions I answer, if not we say thank you very much for today.

Q: ... Good morning Mr. Keshe, good morning Rick. Mr. Keshe, the people who paid 10,000 and 5,000, they going to have the week of 11 to 15 of March for the week, and then 16, 17, 18?

K- No, no, no, no, no, no, no. With ?? this 16, 17, 18, 19, that's a four day of the full session.

Q: I mean, there's no week extra before that?

K- No, no. We brought it in to be, is to, is how we can accommodate. Instead of the, what you call, the five days, it's a four day. But instead of being it from Monday to Friday, is Saturday to, what you call, Tuesday, maybe Wednesday. but we have to understand Thursday is a teaching time, and Friday we're trying, Thursday, Friday we're trying to accommodate the governments and military and the others for the advanced technology.

Q: And also it's a Persian New Year, so...

K- On 21st I know. Celebrate in China, it is beautiful.

Q: Okay. Then you're going to leave your parents out then, if you celebrate there.

K- It is a beautiful time there. It's, as I said, if you get a chance, take an extra week holidays to spend. If you come all the way to Sanya, take the back end of all the week before. We accommodate all these, we announce it. And people who want to stay, if you come in such a long way, instead of 4 day or 5 days, to what you call it, to stay longer and enjoy after the conference, the beauty of the, what you call, China. (1:30)

Q: And we don't have to look for our own hotel, you assign a hotel then.

K- We will offer you a hotel, because we get the different rates from the hotels, and we pass it on to you. But this way, because a lot of you don't speak Chinese, and trying to book all sorts of things, we try to keep you in one or two hotels, and plus the Knowledge Seekers who come in. And so, you just work through the Keshe Foundation main website for booking. And then, we... Like before we done the conferences, before in Rome and in, what you call it, Dubai and the rest. We just tell you, this is the hotel, this is the room. And you just get to the airport and we try to assess how you come in. And if we can get some of you, shift directly from the airport to the hotel.

Q: Okay, good. While I'm here, can I ask you a question that is non regarding the conference, another question?

K- Yeah, carry on.

Q: What happened to the passengers of the Noah's boat? Because you asked...

K- Two questions. Two questions.

Q: You asked this question in one of the teaching, but then you never answered. You said, "I'm asking you what happened to the passengers of Noah's boat?"

K- I shall put it the same way, what happened to them? You are the traveler of the Universe, now you know how they traveled. There are a lot of things...

Q: I mean, where did they end up? Where did they end up, you were asking that ...

K- Can I ask you a question?

Q: Sure.

K- Or can I put it to you a different way? With the knowledge you have, and how much, especially in past few weeks, we have taught about the religions, and different path of beliefs, and of what is reality, and what is made up. (1:32) Do you think the passengers of Noah boats (Ark), did it exist as a boat, or is it planet Earth? Or is it a mystery? Did it ever existed? Or this is how it could be framed to be, and it become (became) a belief because it's in a book that nobody wrote, somebody thought, put it in writing and now become the book of God.

It is a combination of a lot of things, which has come forward. And just because it's in the book, has become a belief. I tell you something, we're coming to the new year, Iranian New Year. And deep inside we are all Zoroastrians, we're all, we come from the land of Mitra. If you've been through what I've been, educated by Zoroastrians, and living amongst them, I went to their high school in Tehran. And knowing a little bit, you can never claim you know everything, about the culture of Zoroastrian, during the time of ???. And you transfer that into the Islamic world of today.

In Zoroastrian religion, or path of belief, and it's brought into Islam, and it's copied, and it's become a path of belief, as it's been done, it'll be done. (1:34) Is this ritual that, at a certain point when you go to Mecca for Hajj, you take so many number of stones and you throw it at a wall, to whatever belief is to the devil and whatever, and it goes in the water well and whatever. And it's a very part, one of the essential part of pilgrimage and belief. This is done in Zoroastrian religion, exactly the same, the same number of stones, 2,000 years before Islam. Which one is the truth? Or, the culture of one nation, as was brought in, is added into, and now become the true path of belief. You know when you go for pilgrimage, you take seven stones and you throw it at a wall in the water well? This is the culture of Zoroastrian, not Islam.

Q: So what did they do with the stone with Zoroastrian?

K- It's the same. Go, go and read. Go and read your book. The book you were born and bred and it's in your blood with Zoroastrian, then you understand. This is where the

mysticism comes and bits have been added to fit. Throwing a stone, seven pieces. When you read this in the Islamic world, read Zoroastrian book, and you see where did it come from. How come? And now it's become a path of a religion, where has been a path of another religion, (1:36) but because they don't teach us anymore about Zoroastrian, and a path of belief of Mitra, now we become part of ?? and people, you know, have different belief in Christianity, but it's been the part of Mithraism, used to be practiced all the way to London, Rome and the rest. To get rid of the devil and the rest of it, good and bad.

So is, was there, a boat of Noah? It's the same, when you look at the Christianity. As Christians, you, the word of the "Son of God." Actually, this was announced and believed in, by one of the Roman Empires (Emperors). He called himself the "Son of God." And he was believed to be, that he was the Son of the God. And then, about thousand years later, it became part of Christianity. Which one do we believe? How come a book which is written hundreds of years after, has brought the mysticism of the Emperor to become a Prophet?

These things you have, now we have the knowledge, we have to understand. Because we are ignorant to the history of what it was, we become ignorant to the reality and we believe what we've been told after. It's like, they call it, the Christ was born by a Virgin Mary. But, this is a translation which is brought in the time of years later, (1:38) centuries later, into the, what we call, Bible. The true meaning of the word means "a true believer." A woman, if you go back to the word which is now translated to a Virgin Mary, it was and is, that word means the "true believer." Mary was the true believer in Christ, in giving birth to a new cycle. But, how it's changed by people in the books, to "Virgin Mary," nobody knows. Because somebody wrote it and then became a belief. The word used in Hebrew and the culture of the time, means the "true believer in Moses," not the Virgin Mary. Now you understand how much we accepted it.

Is there a... was there a boat of Noah? Or was there a boat that there was a disaster, a guy took his animals not to drown, took it across and now became boat of Noah?

Q: Well Mr. Keshe I told you...

K- Let me, let me... No, no, no, no, no, let me explain to you something. "Boat of Noah" could exist. In a way, it's been... it's a true way. There is a possibility, historically, could exist, but not the way we see it. (1:40) We have to understand how Mediterranean got flooded, how we got into Mediterranean time, and we have... we got the cities, which came from it being under the water, and the rest of it. Historically, there could have been villages who, through the flooding from the Atlantic, coming into the area, raising the water level, which was below, up, and a guy got his animals on a boat and managed to get, and it became the boat of Noah. It's very possible.

Historically it's possible, now we know, geological changes on the planet Earth at that time. So we have to search the history and see how they changed things. And our knowledge has to be deep enough that we understand it. How much of the grandma's talks, you know, under the ?? we call it, has become the book of God? And no one, no

one, has written the books and done it themselves. How much story changes? I call the books that we read about Torah and Bible and part of the Koran and the rest, "Chinese whisper." How many of you played "Chinese whisper" when you were a child? Or in games? I tell a sentence through your ear. (1:42) What you hear, you tell to the next guy, you tell to the next guy. And at one end I tell you, "Have you had a drink of water?" And the other end comes, "Today is a sunny day." And then we believe it, is a sunny day, because that guy, the last guy said.

And so we have to accept this. Was there a boat of Noah? Historically is possible a guy got his animals on a boat and escaped from flooding up. Because it's in that area, we call it Mediterranean. We didn't understand that part. Then you have the Atlantic City (Atlantis city). Bulgarians claim they found it, Romanians they came and found it, Greeks they say they... but this was a valley. There were a lot of cities in it before flooding. And so there are a lot of "Atlantis's." Some of them were central culture.

You, if you understand this, go back and let's say in a thousand years, our great-great-grandchildren come to understand, because of the floods and change of the water, Amsterdam airport will go under the waters, 20, 30 meters, 26 meters below the sea level, the water comes in and takes it. Was there "Atlantis city," where people flew into Space from, and it was something else, and they find the wrong way under the sea, and they say, "oh, these people were so advanced at that time."

So, we have to understand, who history, and what came as mystery, out of history, to fit. And this is what in past few weeks, slowly, slowly I start opening up your eyes ?? (to it). (1:44) Because it's very easy, the reason if you understand why I do this, is next week, the week after, you are the Passengers. You have that control over your Soul, go and see if it's true. Go and see if you feel the emotion of presence of the Christ, bless his name, or Mohammed, or Moses, or whatever. And see, ask them, what is the truth? Why do we have 12 disciples? We have 12 days of Christmas and we have 12 days of Noruz? And which one came first?

Q: Mr. Keshe, the way I figured, because you talk, we talk about this planet had a mother. It gave birth to the Earth and the sister. And then I thought the Noah's boat, it was in the, our mother planet. And then when the flood happened, my, my analogy was like, I mean, my answer in my head was, okay, when you ask what happened to the passengers, Noah's boat in the teaching. I said, okay, the planet got flooded, Noah's boat came in and they got the passenger, but they got, they find a way out of this planet and they move to the other galaxies. So, Noah's passengers are living in other part of the galaxy.

K- Put it this way, Azarjan. We're going to have a disaster on this planet, not disaster, an end, which is known. Somewhere down the line, in millions of years, billions of years. And those who live and now become knowledgeable, will get on boats, UFOs, or whatever to get out, and they become Passengers of the Universe. That will be in the "boat of Noah." And let's say when they land on another planet, and they colonize, (1:46) and the local people, they call them, these people came in the boat of Noah from the Creator, because they call themselves Creator. You understand? Become the history of

the Spanish and the South Americans, huh? They were waiting for a blue-eyed blonde and they became God and they gave all the gold's to him. You understand? You're in South America, not Central America, now you know exactly the history of the area.

And this is what it is. We have to understand the truth. There is a lot of... There is a huge question marks on a lot of Holy Books, and one, because being from another, has confirmed the existence of the other. Is, if you read the history of the religions, Jehovah, the, what the Jews believe in, he was the god, the statue of, the worst things in the streak of the man. And then they called him the God, and the Jehovah. And then, Muhammad made him Allah, which was again another word from the ancient time, which means the Creator, the Merciful. And it became an Arabic word. But they always spoke that kind of languages in that area. And it changed. And they have added so much to it, that it become a reality.

And, we have to understand how and the way it is. And, the... when you read about history, geology and position of a lot of things, it was to the benefit of Jews, they already had the Christians on their hand, (1:48) to support the people from Damascus and the Rulers of the time, to move Islam out of the area down to Saudis, where it never came from, because then they could keep the Palestine to themselves. Then we now understand more how, they threw Mecca, moved from Jordan to where it is now, and they built everything around it to feel right and to be it, and they built places for it, and because nobody knew the others, it became part of the truth. It's a mirage which has been created, and because we have an image, we believed in it. (He gave reason why they moved Mohammad's birth to Mecca).

It's very much if you go to Tenerife. If you go to Tenerife, they take you for a camel ride. And I've said this before, you see hundreds of camels and people come with their coaches to go for a camel ride. You actually get on the camel and seeing a row of camels go in, a row of camels comes out. When you go in, the whole camel ride is literally goes in there, closer you can't see, 50 meter around the post and it comes back. And you think you're going into the mountains and there are so much distance. It's only ten minutes ride, but it gave the image and the emotion that you are going for a long camel ride, because so many of them are there. It's what we perceive. And, the more and more you search in the history of the beliefs of the Creator, and know what you call it, statues. The more you understand, that most of these books, are the history of the (local) culture of the time. (1:50)

Q: But Mr. Keshe, the way I look at it now, and you know is, you see, with all these stories, when you get busy with all these stories, what has happened, you see we are, we are, essentially, we are the image of God and then we are the... because God said, ... It goes like this, it says, "Thou ?? Art, my father, ?? to a child. What thou hast, I have." So it means, it means, I'm just exactly a copy of what I've been made. (??)

K- It's just, "I made man in the image of myself," so it's the man.

Q: When we go to this story, we actually forget about, we already it. I mean, we go get busy with the... something, it doesn't exist, but we... actually we are the reality. It's just like the fish looking for water. He's already in the water, it's just we are already it. So that's, is very...

K- You know Azarjan, when you talk about the fish. You know we call water, ?? in Farsi. And, if you look at the mouth of a fish facing you in the water, He goes up, up, up, he wants water while he's actually swallowing the water. You understand? And is ignorant to what he's breathing, it's what he's actually asking for. And this is the story of man.

The reason I start opening, I said one day, years ago, I open the book of history of the religions, is that, now that we come to this part of the teachings, or science and technology, you have the privilege, you have the freedom, and you have access to go and check your Moses, your Christ, and the rest of the Prophets, (1:52) through their Soul, and if you are pure enough. And if they are, what they said. And how it's been said. So, there is no story of. As I said, the guy said, "Mr. Keshe, can I speak with you?" Because that man said. You don't need no one to be intermediaries. And, you choose your Christ, and you choose to find out what it is. And, this is you feel the emotion of, you feel the presence of, or you meet the man, through his Soul.

Q: Mr. Keshe, I was so much, I was, I was taken so much by this story of Jesus, that one day he comes, he takes, tells to his 12 disciples, he says, he makes them to the pairs and he says to them, "You go to this area, you go to this area", and then he tells them, I don't want you to carry a bag or a pocket or anything. I want you to just try and trust the Lord that everything is provided for you on this journey. So, what it is, he's trying to teach the man to trust himself. It's all about the trust. So, this is what we need, trusting that we are, we are it. At this moment, at this time, we are it. And we can do it.

K- You see, as I said, with the technology we have created, and it's developing, no one, no one can question another. And as I said in the teaching just a few minutes ago, as you learn to connect, not only to see, but to be with the others to see together, (1:54) we bring this to a reality of you understanding new dimensions. It's like they tell you, if you go to such a place, there is such a, such a stone, there is such a, such a thing, and you go and say, "oh, this wasn't there, the stone is this and this that, because I've been there, it's not what they say." Or, it is what they say.

And now, with the operation of the new reactors, operation of creating plasma without what you call, containment, it's the same work of the Universe. Nobody can limit you. So, you get access to, what I call, travel the span of the Universe. And, if you go and find your Moses, or you find your Jesus, you find your Muhammad or anybody else, you find your King, you find your lover, you can take the others to see too. And as I said to you many, many times, "I bring the Soul of the Christ for you to see." And then, when hundred of you are at his presence, and he tells you what he said, who he's been, what he's been done, then you find out how much of the books are history, just fairy tales. And

then someone says, "No, this is not the Christ, you found somebody wrong." So, get me to the man, because then he can tell you what he did.

This is the beauty of it, nobody can tell no one. If you remember in the trials in Linz, a guy came and he said, "This is the color of the skin of the Christ, This is the color of his hair, this is the color of his eyes and the..." And it fits, if you are from Palestine. (1:56) And we have to understand these things. And then it comes who has been, and once you get access to one, you can connect that bridge, the rest can connect to your Soul to see that bridge. And if they say, "They were so ??, I found the Soul of the Christ." "Christ has got so many ways of access to his Soul, like everybody else." Then, you all might find, you find a man who called himself Christ. And see how much of what is in the book is... (true). That's why I said, "I take the stones of Vatican back to Coliseum." Because, there is no reality, no fact in it.

So, knowledge has brought us to the point of confirmation of the fact. The technology has brought us to that point, and it brings more and more. And these sessions, as I said last Friday, without you knowing, and I usually don't go into the meeting afterwards, those Knowledge Seekers which were there, they could read the text, I asked, how did you feel, what was the difference between before six o'clock and after. Because, we told no one that we are putting you into a new technology. Totally new science. The expectation would have been so high.

And this is part of the technology. And this is what we have to understand, what is true, (1:58) what is the grandma's tale, and what now we have access to confirm. We'll get you gradually to go shopping. This is one of the most beautiful things you will come across. Gradually, over time of the teachings in sessions to come in months and years, we take, we send you going shopping. Go shopping, don't take anything with you. And we get you to come back from shopping, and we make you to see what you shopped, convert it to reality. Then you understand what is the, what is and capability of the man. And even when they say the guy could change a stick to a snake. Is it possibility? Is it reality? Can you put a Soul into a stick, that that Soul become what it wants to do, and then you put mysticism around it?

As I said, with the knowledge, we make a technology, and the technology can repeat itself, where the man knew what to do. If I put the Soul of a snake and I put a stick in the system, and that stick can become a Soul of a snake. Put it this way, British security systems in Dover confirms their lives in the system, ?? God. So we can create the Souls now, we got a confirmation, even more. Where we knew, now the science, .. the science confirms it.

Q: Thank you Mr. Keshe.

K- You're welcome. (2:00)

Any other question?

Q: ... I haven't received the email confirming my participation in tomorrow's session, is that normal? Thank you for an exciting moment in teaching.

K- Yes, you have to wait, you have to wait. We usually do it the last minutes, because so many people join in the last hours, instead of doing it two or three times, the last time... You got... you should have been used to it by now.

R: ... It's called "ust in time" delivery.

K- Yeah, it's just that we get people joining the last minute, then you have to go and do it one by one. And the IT's wait still the last hours if possible, to bring in the people who registered to be able to join in, and some people don't have it. So, just couple of hours before the session, check your emails, check your Spam, it's there. And if you have a problem, just write to us, you have a problem, you didn't get it, we... the system is live, we watch it and is monitored, and joins you in.

R: They can watch, they can write to info@keshe.foundation?

K- The usual place, they know usually the email, they send to us, where they booked it. ... The, you forgot to explain about your Livestream for this week.

R: Yes, Livestream basically is no more. Livestream has been bought by Vimeo. (2:02) So, the Livestream channel that we had before is, no longer in the same form, or the same link. And we'll have a new Vimeo channel up shortly, and it will include the previous videos that'll be transferred over to the new Vimeo site. So, it'll be much like the old Livestream, but perhaps have some more capabilities as well. We'll see about that.

K- Yeah, it's the development, buying and selling, and I think one has been bought, so they're all... We have to go with them, as the other providers. It's just the migration of everything from the old site, to the new site of the providers. Sometimes it's easy, sometimes it takes years.

R: They suppose, they say they're making it easy, but... I don't trust them.

K- ... You know it's taken us nearly four years to migrate all the Keshe Foundation, keshe.com servers, once they were sold to new company and they left it to us to do it, because they won't do it. For us just to migrate our servers from one company to another, which has been bought out. It took nearly four years, and we haven't even completed some of it. This migration sometimes takes a lot of work and time.

Q: ... Will the Zoom code for tomorrow still be sent, (2:04) or is it the same access as last Friday, and will the same headsets be sufficient?

K- The number is always the same, but if you have registered, they open your line to join in. It's not for everyone, just because they've been once, you... they will not. They will not, because those who registered go on the list, and just open that list to that number,

that's how you come in. And the headset, we advise you to use the two headsets, it's much better. One across the ears and back to the front. And if you have the fourth headset, you can use that. But, try to make sure the side which you have, which you consider always to be the one with, the one which doesn't have the microphone is where you send out. The one you receive is the one which doesn't have the microphone. Put that on the back of the head, and the one with the microphone in the front. So you dictate the fields to go from the back to the front.

And we scientifically can confirm, from what the real data and things we collect, all of you receive fields from the back of your head. And if it is physical visualization, it comes from the front to back. So, when you connect to the line of the Universal lines, our data shows you receive everything through the back of the head. (2:06) And that's where most of the density, heavy density and the Soul is. Soul sits very much in the back, in the far end, in the middle. And our data, our research data, especially past few weeks, confirms that.

So, if you use a headphone from the back to the front, the one which is a microphone is a sender. So, it dictates which way you're sending the information. The one which has no microphone is the, what you receive in. Working on that principle, you keep your microphone in a way that comes out, because you send message out, you receive from the other end. And it usually works that way.

In the... you put your microphone in your left ear, say the one which has a, what you call it, no microphone in your left ear, and you put the line which has a microphone in your right ear. Usually you receive from the left and give to the right hand, so, works the same way. This is a very good guideline, for those of you have a microphone and you have a headsets to know how to use it.

And, you see it in a beautiful way. We done some development test on you, on the sessions of last week, and it's amazing the information, which all confirmation of information, the correctness of our system and it sits. Primarily, we control what you receive, and to what extent. (2:08) We open the channels, and then once you learn, we let you go, like after a few hours we let you go, and you have hours and hours. The, what you call, 9 to 5 session, doesn't mean you have to sit there 9 to 5. Once we set you up at the beginning of the day, we control what we want to control in the background. We don't talk to you, we don't do anything. You can come and go when you like. The session is not the do this, do that. We control the do and not to do in the background. And, keep an eye on the chats of your Zoom during these sessions, because sometimes we put the instruction. If you understand it, the translators just translate and put, stick it on "no talks."

And you'll see it, it was very strange last week. 17 people stayed on over the night, because their time was a day time. And some of them were asleep, we know, we see the monitoring of the system. And some of them go into their own dimension. So, what you see, use the headphones to the way it should be. Before we had the headphone left and

right and rest, because our system was set that way. Now we work on the Universal system, there is no left and right.

We work on the principle of the, how the man receives and how man gives. One is Magnetical, one is Gravitational. Gravitational you receive, Magnetical is one you give out and on your headphones usually there is a microphone, where you keep the information out. We use that principle very much, in a very effective way, because the systems have changed and it's very, very, very interesting how you Knowledge Seekers participate, will use and change and become the ?? time, what you call it, the Passengers of the Universe. (2:10)

Any other question?

Q: ... Does it make sense to wear the Visual Enhancement Unit and the Communication Headphones tomorrow?

K- Pardon?

Q: Does it make sense to wear the Visual Enhancement Unit and the Communication Headphones tomorrow?

K- No, no, no, no, no. You mean the, the UBESUS (Universal Body Enhancement Spaceship Units) and the Communication ..? Eh, no, we, we try for the beginning of the sessions not to bring it, and very soon, once people start receiving all their Headphones and everything else, we put a session for you, how to use it, and how to communicate. In a way, a lot of you who have these systems, you can start communicating with each other. And then you learn and we expand this more and more. Communication doesn't come in a form of, "Hello darling, how are you? How is the weather?" You learn how your Souls connect and you connect to each other.

And this will come into operation gradually. We have to wait for all the Knowledge Seekers to receive the second part of their units, which is getting shipped in next week or so. Because the first was, first part was shipped during the holidays. A couple of people haven't received the whole system, then the next batch goes out. The next batch of Headsets goes out by next Friday. We wait for you to come and receive your Headsets. Then we send the next one out and then by the end of the month will another third one, batch of ten will go out. And then we start putting sessions for you, how to use it, how it is there. (2:12) But you can test it, see how you feel with it. But it will not be used in these sessions, no.

If you have the discs (Nano Mirrors), you can use them and see how you feel, how you transfer energy. If you use the system, how to send and give energy, last Friday or on the 22nd, you can use those, what you call, the discs. And you try to send your love, for example, or your attention, your energy to the grandmother and see if you actually get to the grandmother and see how she is. Because you can do that, we know you can do it, and how it is. So, you have to learn it.

Any other question?

Q: ... Three times in the different Friday sessions this happened to me. One, I saw in front of my face, a face of a Chinese woman. 2. I saw the Earth from the Cosmos. 3. I had seen a face of a baby. All images had lasted no longer than 3 seconds. All this happened while the mic was closed. When the mic was open, I could hear the baby in the background. This happened without me setting an intention. It seems I must have seen people who were also in the sessions. Question, "What part of me saw this while my body was sitting comfortably in my chair? And what part of me decided to see this without setting an intention? I don't understand." Thank you very much. (2:14)

K- We have this, what you call visualization through transmutation, is exactly the way you call it a dream. But, when you go through dimension of the fields of the, what you call, transmutation, you actually, without leaving the body, see the connection, the person, and becomes very visual. And this is something you have to get used to. In a dream, your eyes are closed, and so, what comes in the visual condition through your front, you register as a dream, you see. Now, a lot of you go through that transmutation, but your eyes are open. So, you physically see the object. And, this is something that you have to learn, how, what is a real picture in front of you, on the physical dimension, what is the picture in the Soul dimension.

There is a way to do it, we teach you in the sessions, how to control this, to understand the difference between the two. In a way, as you said, you could see a child, but you still see the background, or you are... you don't see the background, but you only see the child. And this is very normal, this you have to get used to. And this shows you have actually entered in dimension of transmutation. The next step would be, if you go walking with the Chinese woman, you still see yourself, walk into the forest for example, and you have no verbal communication, but the communication through the Soul. (2:16) And then maybe, in the position that Soul exists, Chinese invites you. We're talking about going to China, working in China. So, there is a mindset that you want to be there to feel the culture, or we be there.

And so, we understand these things. This is part of learning about yourself. And distinguishing between the two, and start living with both, and gradually, most of the others will do the same. That's why you cannot lie, because the Soul communicates and there is no lying in communication. This is not unusual. You... was your eyes open? Was your eyes closed? And, as you are in a physical dimension in control, the vision becomes a reality, because it is real. Many of you will have this. We asked from the people who were in Linz to confirm it, and they could, that we know is, is what you see, but in the time of the dream, as you're asleep, most of the information is in, as a information, because you, in a way, you've got a filter of your eyelashes. You blink it. In the transmutation, if your eyes open, you see the physical life, and you have seen what is a reality. But you have to understand, was part of your emotion.

You got to understand something very important, and this will play a lot with you. In the physical life, you spend hours and hours talking or going somewhere. (2:18) In the dimension of the Soul, everything is matter of the seconds, but it can last to you hours and hours. And you will learn it gradually. That, you call it the three second, it could be in reality three hours. Or it could be one second. And how much you need and what was the knowledge, there is no time wasting, as I call it.

So, you're not the only one who reports this, we had a number of people in past few weeks, write these kind of things. And as I said, we have to accept you've been the passengers, we just follow you, in a later part of these developments, we ask you as a group, if you want to be, or connect to other participants, we create a condition for it, you cannot just do it on its own, maybe some of you be able to, to join together to go somewhere. It's like the couple who came to Linz, this, we said, "Where do you want to go?" They decided and they went, went to Paris, and they went on the same streets and that kind of things, and they could share with each other, because they went together, but they never been to Paris, I think, before, if I remember correctly.

So, these are the part where the training comes. If you see a beautiful scenery, you can come and say, Oh, anybody, you know, not actually talking on the line, anybody would like to come and see this scenery which I'm seeing, and see how many people turn up. And then you can ask, "Who are you?" in a way of understanding. He says, "I'm the Soul of Azar, or the Soul of this, or I'm so and so." And then when you come out, you talk and say, "Yes, I've been there, we went together, we saw it." But these are, these are to come, this you have to learn first to walk. (2:20) It's not explanation, it's you learning a new dimension in your life.

Any other questions?

Q: ... I would like to understand well the role of emotions when we address our Soul. I have heard differing views on this, namely that to connect with our Soul, one should not make use of emotions either, on the contrary, that emotions are a requirement to communicate with our Soul. And then, do emotions have relevance to the STP, or do they also belong to our Soul of the Man (STM)? I would like to understand this, if possible.

K- I answer you one simple way. You got two hands? Put one hand in your pocket and try to clap with the other hand. Does it make any noise? Can you show your... if the clap is to frighten a dog to walk away or clap to confirm your joy from what you are watching? Are you clapping to get attention? You have one hand. How can you show emotion? You just shake it. You take a hand out of your pocket, and now try to shake the hand which was in the pocket, and put the other one in the pocket. And see if now the left hand, the other hand can make a noise. And then take your hand out of both pockets and clap it together. And then you see a noise. (2:22) You can show if you are appreciating a play, if you are trying to frighten the dog, or you're trying to get attention. That's what the emotion is.

The Soul and the STP are each on the hand. Cannot show, cannot exist, without having the other to show the emotion. They have to interact. And that interaction is emotion. And how you show it, then it interacts, it shows, it shares, with both hands in dimension of physicality and the Soul. The people say, "You need the emotion, you don't need the emotion." Remember this, then you get a very good, clear idea. One hand is the Soul, one hand is the STP. And in dimension of physicality (P) you have to interact.

In the dimension of when it's the Soul, the STP, within it, The interaction can come within, or the interaction of the STM with another Soul, creates that handshake. And you have to gradually, as you understand, emotion is part of the structure of the Soul's interaction. Otherwise you don't know if you have to get distance, is it a good feeling, or is it a good move, or a wrong move. So, if you find the answer to this, the way I explained, then you can rely on your own investigation and understanding, you don't need to rely on what people say.

I hope I managed to clearly define for you, what you were trying to say, or answer you, the way you understand. That emotion comes from interaction. (2:24) You can't love someone, when someone is not there. How can you confirm the existence of the Soul, if there is no emotion with it? No interaction of the fields, to decide the distance, the place. The emotion of the Earth in respect to the Sun is the distance they keep in respect to each other. And they both feel safe and happy to be where they are. And it's the same with the man, and the same interaction with the others. And then you decide, how you travel the Soul, and how you travel the STP, and how they meet, and what should be the emotion of them.

Any other question?

Q: ... Mr. Keshe, this is actually, I got very excited. Okay, so...

K- Oh, that's dangerous when Azar gets excited. God help the emotion of the Universe.

Q: Okay Mr. Keshe, this is amazing. Because you say, okay, so, say I have a scenario, another scenario, something is happening, okay? Because I play with these two, but I'm just going to explain. So if it is two hands, the two hands together create that emotion, without it, it cannot be. So there is something I go through my head. As I go through my head, I can cry with it, but then I can go with the same thing through my head, but I can see it in a different way. So, what's, what's the interaction of these two, that one create the crying and the other one look at it ... not crying? Like for example, I give you this scenario that makes it clear. You and I standing there, watching something, you start crying, and I come and comfort you and says, "Don't worry, this is not happening this way, this is happening this way." (2:26) And then you say, "Oh yeah, I see it this way." So you calm down. You understand?

K- Yeah, I tell you, it's strange you bring this up. Yesterday I was with a Knowledge Seeker and we were in a meeting with a guy. We were in a meeting with the other people in the room. And my impression of the guy, we met him a couple of times before, was,

you know, it was just a waste of time, the guy is not doing anything, it's just, you know, "lip service." We're sitting there, he went and brought folders and folders of what he has done with what we talked months ago about. And I was shocked, surprised to see how wrong my assumption was of him. And the way he put his... he's in a point of authority. He puts his time in doing this. And, when I saw so much work, so much work, it's unbelievable. Done by him, in the meeting of past few months, without him talking about anything, or doing it, telling us anything, he just wanted some more information. I turned around, and I said to the Knowledge Seekers, I thought they just swapped this one(?? under) on the carpet, because, whatever. And I turned around to the guy, he's a man in his sixties, and I said to him, "I thank you, and I respect you, for what you've done, and I sincerely appreciate and thank you." And this man, we could see a tear in his eyes. (2:28) In a way of appreciating, respecting his emotion, and in a way, confirmation through the Soul. And, it was touching to see this, and at the same time, being in the point of authorities and official, he was trying to hold his emotion back. For seconds, you could see the redness in eyes, you know, when you cry from joy and confirmation, and the tears which are there, he was trying to control.

Maybe in all his life, never ever appreciated and thanked him the way it was said. And this is... and strange enough, when I was sitting in front of him, when I saw this, I said to him, "I've seen what you've done." and the effort you have put into this and to the authorities, and it's my job to make sure I don't let you down. And you get what you need, whatever you ask for. And... It is the way we do. How I was sitting there and elevating his... I'm not ?? permitting , giving to him, he could take anything from me. And you could feel the change of dynamic in the room.

The first time I met him was very harsh, the second time we had a meeting, 5-6 hours was extremely, you know, "I'm in position, I make decisions and I want to." And after months and months, and him bringing these folders, and there were more folders outside, most probably, we knew it could, because numbers couldn't add up. How much he's put in there, trusting to do what he was put in the position of authority, (2:30) could have actually brushed everything under the table. But no, he didn't, and he was appreciated, respected, and... I opened .. the way I know, to... gave enough that he can take whatever he likes.

And it became a point of joy to be there, where before it was a point of regret to be there. And for him, the last thing he did while we were walking out of the room, he following us out, for an official, especially European, he tap me on the back a few times as, "I respect, I appreciate what you appreciate about me." And, you don't need to do anything. It's just transferring that energy, it gives you understanding of the position and time and emotion. Doesn't matter, it's a tear, it's a hug, it's an affirmation with a nod. It's what is given and what is received in sincerity. And you can always make mistakes, you can always misjudge, or the language is not to be understood, But when you do it through emotion, you do it through the Soul, it's amazing what things can be done.

Q: Mr. Keshe, you know, I experienced that, because you see, you know, I saw something, I saw a person creating, say, a group chat or something, whatever happened, I

could sense that this person is really on, not ease. So I called a person and I talked to the person and I said, what is, are you okay? The person said, no, I'm not okay. And then, because I knew what's going on, so I just simply talk about some of the basic things that who we are and stuff. And then not much of any philosophy, or anything, just simply the base of who we are and what we are here. And the person is not into so much the plasma technology, but I just simply explain to that person how it is. But then later, I mean, like five minutes later, that person text me, he says, "You changed my day and my life." Because the way I look at the world, it was totally different. Now I just, even my relationship with my loved ones around me, everything just changed.

Because you see, when you talk about the magnet, you see when we have to, you said to us, put the five, six magnet on the table and move them. You see one changes in respect to the other one. Then I was thinking, if I'm a magnet and the other person is a magnet, and five, six pieces are a magnet, and then my magnet, because the magnet is complete because a magnet doesn't have what we have because we have a choice to choose how I want to see everything. For example, if I look at somebody and I, for example, I look at you and in my head I said, okay, he doesn't like me, he's upset, all that. So my field is going to change in respect to what my perception of you according to what I think you are. So I say, okay, so I'm not going to approach this guy because he doesn't like me there. But then I said, no, (2:34) I'm going to look at this guy, he likes me and everything else. So my field is going to be according to you complete as a person, as a God himself, because you are God, I am God. I'm not going to put you down as somebody else. I look at you as God. So the minute I do that, even though if you don't like me, you start to like me because my approach to you changes. Because I help myself as God I am, not somebody else. Because if you change that, then the other person changes.

So this was my analogy. And actually, when I was thinking about it and I approached it this way, it worked. Because that person was seeing everybody around himself as somebody, people who don't like him or they don't like that person. Suddenly when he changed his attitude, suddenly everybody around him changed. And he said, "It was so shocking to me that how everybody around me changed." It was really simple.

K- People don't change, because he has changed himself. People see a new person, new behavior. And a lot of time raises a lot of suspect, why is he is temporary, or is trying to do something?

In the coming time, I will teach you Knowledge Seekers who are in parts with us, how to elevate the Soul physically, by physical touch. And you will see the change. This is what we say in Bible, "Christ arose the Soul of the dead man." And this is what is. The dead man is not a physical death, (2:36) is enlightenment of understanding, ignorance. And you can do it with Soul. You can do it physically. And when you do it physically, you cannot do wrong. You cannot take. So, it's only one way to give them, to elevate. And if you ever try to take, you take from yourself, not from them. And, it's very easy.

Sometimes, some Knowledge Seekers who are with me, I do that. I feel the Soul is ready, I never follow what happened to them. But, it's the way I told you, I can awaken you last

week, with specific position in the physical body, without you ever knowing that you woke up, you can do the same with the Soul. There's a specific position in the physical body of the man, that you can transfer fields of the Soul. And, you are not allowed to change. You provide, and if they are at the strength, they receive and they change.

And you can do the same in the dimension of the Soul. It's letting it, being it, giving it does not matter what happened to me. When you give in the dimension of the Soul, sometimes, physically, you feel exhausted. And sometimes, when you do the same thing, you feel refreshed, because in a way, it's like a dam, (2:38) you feel as you give, but in fact, they had so much, that they could not give to someone at the strength they had to give, by you trying to give, you take from them and it allows them to receive the new. In a way, you went to give, you take, and that taking allows them to receive a higher order, maybe from you, maybe from others.

It doesn't work the way, oh, I gave. Maybe you actually receive, and then you find a change in yourself. Oh, I gave this guy and I feel good. Not really, because you received from him what he didn't need, and that allowed him, the cup is emptied, now he can fill up with fresh. And that's what he was waiting for. And you received the energy you needed to go, and in a way you were the ???. You are beneficiary of your own act. This is what I said, "The more you give, the more you receive."

And this is part of understanding the work of the Souls. How it works, how we really go to give, but we actually, we don't give, we receive and that creates a, what I call, a space for them to receive what they want. Not necessarily what you're giving them, because it's not that the strength they need, it's the guy across the table, it's the guy in another part of Universe, who's made it available and they need it. And it brings it.

Tesla used to have a lot of these emotions. In some of his life stories, you hear it. You see, you look at it, this, that, this and that. But if you look at it, you... He sometimes spoke about his enlightenment, but people at that time couldn't understand. (2:40) They had no clue what he was talking about, so, everybody took it into dimension of physicality, this and that, and just ??.

And, we see this in the work of DaVinci. Da Vinci did a lot of this and that, space and blah, but he knew, he found a way to tap in the Universal knowledge, as much as he could understand, and convert it to his language at the time.

A military guy very recently told me, "You know, you have the knowledge, but you can abuse it. But what is strange to us is, you are only using it to bring that target of you, which is creating peace. And our government appreciates your work, what you are doing. And this is what we understand, in what the Foundation is about. You can abuse this technology, or everything else, but you give the technology to us, but you want peace against it." I said, "That's how it is, how it should be." And you cannot go against my wish. Because I gave it on the condition of the Soul, at the strength of peace. And Souls work that way, you can't abuse it.

And the same is, most probably, if we get everything right in Sanya, if we can get the others on the table, and all the Chinese on the table, scientists and military, they will understand. Doesn't make China a Superpower, because they have. It brings to our wish and the strength we release technology, a peaceful nation out of the nation and with it to other nations. (2:42) But they gradually learn.

And you most probably took more from the guy than you gave to the guy and because you felt that good, you allowed him to receive something that you feel good about it, because actually you received more from him than you gave him, but what you took from him was, was blocking him to receive what he was waiting for.

Q: But Mr. Keshe, I didn't feel better or... because for me it was... because it's just...

K- Hey, hey, hey, you see... No, no, no, no, no.

K- Mr. Keshe, you see...

K- Wait, wait, wait.

Q: No, no, Mr. Keshe, you listen...

K- Wait, look at it, days and weeks down the line. Look at it, why you're speaking about it today.

Q: No, Mr. Keshe, I'm not...

K- It brought you joy. It brought you a confirmation.

Q: No, because you know what, because I realize, you know, we come to a position now, because this is, this is I think, our problem is, because when we think about, when we look at everybody as God, not... because the backbone of everybody is God. Whatever the... whatever is... because I look at, I give you an analogy, we are all diamond, covered in garbage. So, as we go along, this...

K- Can I say something Azar? Speak about yourself, please. We are all diamond covering garbage.

Q: No, no, I mean, not all of us, but you know, the people, like for example, people who are killing all those things, they are all also diamond. What happened, they have garbage on them, but when you look at the diamond itself, rather than the garbage on them, then that diamond, that garbage falls off them. Just looking at them like that, but when you look at the garbage, they stay garbage, when we look at them as a diamond, they change.

K- Yes, it's all how we take it, it's just the way it is, and how much we can change that garbage inside or outside, to shine. (2:44) Doesn't change, the fact how they've been.

But, in so many ways, when you bring those kind of changes to people, look at what change brought to you. It means that the energy you needed, that's why you came across them. And they came across you. But you feel that change, but you put it, "I gave", or "I saw the change". This is what I said, look down the line. What that conversation, what brought to you, what you changed.

This is what I'm trying to get, for you to maybe see, not to understand. You are more recipient from him, than what you gave him. But, with what you received from him, not even language talk in dimension of emotion, because you were put there to do that, your Soul brought you to speak to him. You opened up, you took the fields that he didn't need it, and it was blocking him to receive the love of his friends or whatever. He gave that to you, and you think you felt good because he's... But in fact you were the recipient of it, what you needed, that's why you came across him.

Q: But you know Mr. Keshe, but that wasn't my intention, because when I leave...

K- Doesn't matter, your Soul works on its own, doesn't matter what you planned in physicality. Your intention or not, your Soul is aware that what you need and it's available there. It's like a, you know, that supermarket only sells one item and that's the item I need.

Q: Mr. Keshe, you remember you said always, "The judgment day is not the judgment day, you go in front of the God and God is going to judge you, is you will be judging yourself?" Because now, now, because what happened, like every step, like we live, I usually look at, what is my intention of this action? (2:46) Is it something I want to gain or just like, naturally it's coming?

K- Yeah, but you still are blind to the other half. You come to this conclusion, these points, because your Soul brings you. To test, to see yours. ..

Q: Because I want to move from the grace and humbleness, not from the arrogance and say, "okay, I gave." Because that's not my intention.

K- Yes, but it's not arrogance confirming that I needed it, it's humbleness. You are not taking, you're... It's very strange, always, my mom always, I used to have these discussions deep with her. I said, "You know something, I'm like an executioner." And (she used) to say, "I know what you think that way." Because I said, people come to me, and the things changes for them, and their life changes, it's like that they take energy or whatever from me, for them, they come to get that change. It doesn't mean bad, doesn't mean good, it means, I'm there to receive, but that's when... then they receive, they receive something which balances their life. And that's how it should be.

We never judge, but you see people come and they get. .. Look at it this way, I was talking this yesterday with a Knowledge Seeker, it was very strange. Turned around and said, "That's... Why Mr. Keshe, people who come near you change so much?" And then, they do this and that. I said, "That's for their Soul to be tested." And they change because they need that change. (2:48) And then we see them. And as we've seen many times, they claim everything else with it. But that's something for the confirmation of their existence. I claim nothing. And so how can they claim just being there allows them to claim?

So, we... I always say, we come to a position, and our Soul brings us, and then we make a judgment on the physical condition, for what the Soul has brought you, to do. And then we judge it, and which, this is the wrong way. Ask yourself, "Why I had to come, to make that call, for that man to be there." Your Soul brought you, it's there, his Soul needs it, you have. You are ready for to receive, so tank it up, and I am empty to tank up mine.

This is... the more and more of you go through these sessions, you learn this. We let you, the first couple of sessions, to do what you like, and then, as you've been with me in the sessions in Linz, some of you, we leave you the first half and then run your own in the system, you can put (do) whatever you like. And then we come and tell you. In the following sessions, we guide you how to be able to do things. And then you learn.

And then, if I give you a questionnaire, the following, or during the week with what you did, I'll get 80%, 90% of you confirming exactly what you did. Because now you're learning. I tell you, "Turn right, you turn right." You turn left, you crash, there's no entry. But the moment you're driving, you have to learn where the gearbox is, and what's the clutch and the brake. (2:50) And gradually, in next months, on Friday sessions, we teach you how to brake, how to turn right, and then how to take off, how to interact. And then gradually, next few months you learn how to go and land safely, you don't crash.

And it all comes by the fields, not by talk. You feel the emotion. And we change things by interaction of the fields, and we change it for the betterment, for them to take what they need, not for what we want to give, and they have to use it for what we gave.

I had a... my children were brought up in a very specific way, that I respect them as a being. From the time they could understand. They are responsible for their lives. When they're 3 - 4 years old, they could understand, we go shopping, 2 - 3 years old. We give something and we get something back for it. And if you go to the supermarkets and shopping, children are nagging with their mom, "I want this, I want that, this I want." From childhood, when they were 2 - 3, 3 years old, they could understand what life is and what is dimension and, you know, what you can do. I give them a budget and give them the money in their hand. They go shopping, this is the money, it's the amount of chocolate, sweets, whatever you want is yours, you have to look after your body.

The first few weeks was buying the Crisps, (chocolates) and everything. And in the house, we gave them a drawer. This is your drawer, this is your part in the kitchen, or in the... where everybody else is, (2:52) that is not my room, I take my sweets to my room. And, whatever you shop, you put in that drawer. Till next shopping, that's all you're going to get. You learn about your dimensions. And, when we go to the cashier, they pay for their goods and they get their change back. In their hand, so they understand, they respect. And they always were told, " (may) I have this?" And when they get, "Thank you", and putting this in their bag, they were responsible for their action.

And, we never had children crying, shouting, "I want this, I want that", because that was theirs, they knew what they can do. And in the house there was nowhere, "Can I have a sweet?" "Can I have this?" You had your budget, you shop what you want, this is your

drawer. And gradually after a few months, there was no interest to buy things, because the drawer was full what they really wanted, what was theirs. Unless there was something new, they had the money to spend. And this followed their life. Because, we have to be guided, the correct way. And our children follow that way, and our Soul is our child.

I never told my children, "You can't have this, you can't ..." "This is your budget, this is the money, you dictate your life." "What you want to give and what you want to take." And the brothers never went pinching from the other one, says, "Can I have this from your box, I can give you something else?" He said, "No, take it, I don't need it, it's been there two weeks, three weeks." And this brought a lot of things to us, because I watched the advertising on television with new chocolate sweets and everything, had no effect on them. Because, the child says, "Mom, can I have this, can I..." No, he was a... on his own, and if something was little bit more expensive than the money he had, (2:54) "Can I have something from my next week, because this is something I want to try?"

We teach, we guide, and it's for you to learn how to put it, where to put it, how to spend it, how to give it, and it's the same with the Soul. In our physical life, we are caretaker of Soul, we are not controller, or the owner. And the more we learn, the easier we live. We have to respect, teach the Soul of our children from the beginning-ness. And it goes through the action through their life. They learn how to spend, when to spend. How to waste their life, when not waste their life.

And it's the same for everything. They have a budget for food and sweet, they have a budget for toys, they have a budget for lessons. "I want to go to this, I don't want to do that, but that's my budget." "I want to buy this toy out of my, what is mine, which has been allocated to me, that's my Soul. And that was a toy bought." I never had discussions like this, where I see a lot of parents have with their children. Because, children from childhood became responsible for their own conduct of life. Never had any of my children in the streets crying, "I want this, I want that." You want something? I'm going there, I want this sweet there. That's your pocket, that's what you have, from age of 2 or 3. And you pay, I don't pay for you. You give the money to the cashier, and if it's correct, they receive it. Says, "Cashier, sorry it's too... you can't buy this, you are too young." And they've learned what their limitation is.

Now we are doing the same thing with the Soul. And you have to learn it. What you can give, what is taken, how you respect it, and if it's acceptable to buy. (2:56) And this is the same with the Soul. And we are now, you are that child with the money in the pocket. Now you have to learn where to spend it, how to spend it. You've been brought here, but you don't want anything from this shop, because it's got nothing in for you, but you go to another shop, it has exactly the sweet you want. And it's the same. Your Soul brings you to that position, and how you respect it. I just take the child to the shopping center, I take the child to the supermarket, it's for him, if it's the right place, right thing, what he wants, and happy to do that. And you learn by mistakes, or by understanding where you gave the wrong energy to the wrong Soul, and actually you were there to take it.

Q: Thank you Mr. Keshe, taking so much of the time. Thank you.

K- You're welcome. It's very interesting how we bring our children up. And how we bring the notion of correct conduct in them. And how to do it, and what is yours and what's not yours, and what it should be. My little boy, that was the way he was brought up. And one day he found money on the floor, and he said, "Dad, this is not mine, can we find who lost it, he might need it." And he was looking to see who lost the money, to give it back to. At a young age he was walking in the supermarket with the money in his hand. Because it wasn't mine. And this is the way we should be, we should bring, and this is the way the children of Mitra are brought up. And we teach by example and the way they sit with it. (2:58) And what we learn from it and how we learn from what ?? has happened.

Any other question?

Q: ... Hello Mr. Keshe, if one can't be there tomorrow, how can one connect through the Soul?

K- Tomorrow we connect directly through the headphones. We set it up that way. And it is what we scaled up to. A lot of people say, oh, I wasn't there, but I was with Soul. If you have found a way to be there to your Soul, you're quite welcome. We are just tools. And what you think, what you feel, what you imagine is in your ?? hand.

Q: ... From when on in time, (3:00) for the rest of us who cannot pay for the sessions, how will we be, when will we be learning transmutation? So, it's ongoing?

K- It's ongoing, we have at this a lot of time. And, at this moment of time, it's the way we operate. How it'll happen in the future, it's another position to consider.

I'm seeing something very interesting, when we gave things free to people, we were always wrong and we did something wrong and there was nothing we could do right. And there were a lot of time wasting. When you pay for your time, it's not you pay for us, because you paid your respect yourself to be there. You don't pay us because we say you pay us to be there. It's a different way to look at it. And a lot of people come in ...

It's like, as I said last week, the week before we gave you a few hours, the time before on 22nd. Last week we left it open, till the, what you call it, the mobile phones batteries could run. One of them ran out a bit earlier than the other one. And it's how you approach us, than us approaching you. It's how you perceive things to be, and how you perceive it has to be my way. And this is how, at this moment of time, we operate. (3:02)

And as I said, very simply, it's a condition we give, nobody can... we can... you can come to the water, but you cannot drink it, because the Soul says, "This is not what I'm allowed to." The conditions, "I can see it, but I can't drink it." And this is one of the ways which works in this moment of time. And how will change in the future and maybe it's not time for it to be there.

A lot of people, a lot of Knowledge Seekers who are around the Foundation, they complain to me why you work... I must receive how many of these complaint. You're walking with the... talking about the peace and then you talking about defense. And I said, "Till I don't show them that defense is worth nothing, they will do not understand it." They don't understand what it means that the latest weapon technologies we created, compared to the Knowledge of Universe, is nothing and it's worthless. In our work with military is not to create condition. We just want to show that what you are so proud of, has no value compared to what is a new technology, which is not offensive and is not defensive. It's actually way that the things work. It is part of the work of the Souls, fields of the Universe. And this is how we operate. Till somebody, somewhere down the line, things change. (3:04)

And it's very simple, it's like what we talked earlier with Rick, regarding your Webinar, and going to it. They changed the system, they sold to another company, and the new company has brought a new condition. And, they changed the upgrading, so... and migration, till we don't pay we can't get migration, and we can't take things out. So, can any of your Souls, please go to the new owners, and pay them with the Soul, that we can have the services, that you can learn about the services. What the knowledge is. Those of you who pay for these sessions, or those of you who pay for teachings, allow us to run our systems, that the others benefit by it.

This discussion we had with Rick before, just the session of today. There is an upgrade, an upgrade has to be paid for. If the Soul of any of you can pay the computer at the webinar, that we can have an upgrade, you're quite welcome, we'll have an upgrade, we get elevation from your Soul. This is a fact of life, the way it is at the moment. And those who have it, pay for you to be able to use the webinar, keeping the other services going. And it's not that the people who are... can't afford it, even those of you can't afford it and you come and learn every week here, is paid by other Knowledge Seekers who pay for the services of the Keshe Foundation, by donation, buying things and the rest of it. So you're already receiving a lot, from those who have and they support. (3:06)

Any other question?

Q: ... How can we circulate this cerebro spinal flow more effectively? And what is Kundalini? They had a question about that...

K- What?

R: Have you heard of Kundalini before? This idea of the fluid in the spine and brain being circulated and accelerated in a way that people call it a Kundalini awakening or... It's described in some of the spiritual literature, and people have these experiences of Kundalini.

K- No, I haven't heard about it, so I can't make a comment. I know you are searching on your Google, I can hear you.

Q: Mr. Keshe, Mr. Keshe, I can tell you this, because, you know, it's the old way of look, the way we look at it scientifically, the old way, they look at the brain and the spine, that you know, because all the 12 cranial nerves come from the brain and where the Soul is, and they come to the bottom of the spine. And you remember you said the back of your neck, you're going to feel this vibration, you know, they start transmuting. (3:08) So the way they explain it, they have a different vocabulary, different way of seeing, but exactly the same thing. But they didn't know how to explain it scientifically, but they go through the spiritual way of it. So this is actually was in all the China, in India, even Persia, all of them talk about this, but it's the same thing, but now with the Plasma Technology, with the way you explain it, we have a proof and you know how it's explained, it's exactly the same thing.

K- Thank you very much. Anything else? Rick?

Those of you who join us tomorrow morning, we try to be with you in sound for the first few minutes, usual pattern, and then you don't hear from us at all. You come and go as you like, but keep an eye on your chat, if we put any information out. But as usual, we control everything in the background, And, it's for you to learn, and then we leave you like this for a couple of sessions, that you feel comfortable, and then we come in to explain it to you, what we want to do, in a very deep way. And, we go through, we start the process of how you transmute, and the rest of it, as we go along.

Any other question? Or shall we call it a day?

R: Yeah, there's still 14 questions left, so I don't think we're going to make it through.

Q: ... (3:10) How is it that the Soul can take over the body functionality, when the brain no longer is sending signals to move? It feels like dual control centers in operation. Can you explain?

K- It's very easy. You look at the physical connection, but the Souls and the cells have a field connection. And we have shown this, scientifically and in practical conditions. And if you can track it, it can bring back the brain into operation.

It's something... I don't recommend you to do it, but I've done it a few times. But I know what I'm doing. I hope I knew what I'm doing, because the results always has been correct. You know the... when you have a heart attack, and the doctor put this fibro machine and they give you electric shock, to bring the circulation back and give the brain going. You can do, if you know how, the same thing with two hands. In a specific way, you can take the energy of even a stroke from a body. You don't need the brain. You bypass the physical connection to the field's connection. And it's very easy to do.

In many occasions, people who come or ask a question, physically we can be with them. (3:12) They think the material or the system does the work, but with a touch, knowing you exactly where you touch, you can change the structure of the physicality, without

actually going through the brain, through the fields of the brain. It's not you who doing it, you just create the connection. And it's very easy to do.

We don't have a brain when our STP is within us, because the brain is made of amino acid (AA). And sorry, in this part of the Universe, if you leave the physicality outside, there is no Nitrogen. So, your AA collapses, you don't exist anymore. By putting your physical Soul inside your Soul, you protect that structure of the origin, till it finds a comparable and a match-able system for it to survive. And that comes through the knowledge of the Soul, to the STP, how you got to change when you appear in the physical dimension, which we do a lot.

We actually do it by changing color, becoming Indian, black and white, and whatever, but over centuries, gradually, we add up to it. And, as I said before, you look at the Indians or the Chinese, and then, look at the time it took them to change to what they are, and if they aren't a part of the race which migrated across, whatever, to get to the position they are, and take the same time and reverse them back to the where they came. Let's say if they came originally from East Africa, or Central Africa, coming up through the Saudi Peninsula up to Iran, (3:14) and then going that way to become, let's say, Chinese. And it take us, let's say, 100,000 years or 50,000 years, what happened if we return the Chinese back through the same time, track and the space, hopefully the environment is not that much changed, would they change to black, if you take them back to Central Africa?

And this is the pattern it is, and you can do that yourself. You can speed up the change, or you don't need the physicality of the brain to do it, you bring it to that condition, I can speak Chinese, I look Chinese. And then, the physicality changes to, it's the creation of life. It's the transmutation, matching with the other Souls. And this has to become a second nature to the Knowledge Seekers, who become experts in it.

Gradually, next few months and years, we physically bring this into teaching. And we show it, during the teachings most probably. One of you, let's say Azar in Mexico, will look Mexican, but we know it's Azar. You transmute live into, let's say China, she looks Chinese, speaks Chinese, understands it, but she says, "I still am Azar, but my Chinese version." We don't need thousands of years. We do it through the transmutation satisfaction of the Soul.

So you don't need a physical brain, but it's there, you have to live with it, and work through it. It's a lot to come in the teaching. Now we open this new Non-dimensional reactors and the emotion, and we don't have mixtures of the things, the way it used to be in other reactors. (3:16) We're working through the Soul of the Universe, and that changes to what you like it to be. To what your Soul needs it to be. And what your emotion dictates.

Q: ... The question is, do the connection and the travel, due to the strength of the system, or due to the wish of the man?

K- Wish of the man. We provide it, but because in our systems we have availability of everything exist under the Sun, as you call it, in the field strength, we hardly can miss them, especially with the new systems coming. We are not dictating or concentrating, we are actually making it directly to the point of what you need and your Soul needs to what it needs.

Q: Okay, and I would like to thank you. At last you thought about the people who cannot join, the time, but you put from 12 to 3 or 4, because a lot of people they are working and they cannot join. So thank you for considering this changing the times for the others.
(3:18)

K- Yeah, it's all this way, gradually, this is a prelude to creating what we call, 24 hour access. And you can come in any time, it's like a restaurant open 24 hours a day, the service, the meal is the same, it depends what you want from it. And it had to go that way, everything doesn't go European time now, allows a lot of people to come in. You don't have to be there 24 hours, you can be there in 10 seconds and reach what the others might not reach, about 10 sessions.

Q: Can I work for this restaurant? I can make very good kebab.

K- Ah, no problem, but you ?? sold it. You know something, you talk about the kebab. It brings back a part of the history. This is ... you know the Jehovah, the God of the Jews, when you read Torah. Every time he was happy, every time he did something good, or he wanted something good to be done for him, he asked for kebab. And this, what you call it, he has even in Torah, gives you instruction, how to make kebab to have the best smell and taste. I don't know any other Holy Book who tells you how to make kebab, but actually in Torah it did. And so, as he came from that part of the world, and you and I are from the same part of the world, that's why we compare everything with the kebab. You understand.

If you... And I was... I told my mom years ago, I said, "I know I must have, because you come from Cohen side, (3:20) I must have that part of the Jewish blood which goes to him, because I like kebab only, and that's part of it." In Torah there is more speaking about the kebab, barbecuing as you call it, than anything else. Whenever Jehovah was happy, he asked for a kebab, and how to make it, and how to smell how the good it is. So, that's why you want to bring a kebab. It's part of our genes coming from that part of the world. Even they had a, what we call, Jehovah was partially was called, the god of the kebab too, by his followers. Because whenever he was happy or he wanted something, he spoke about the smell and meat and how to barbecue it, or kebab it, how prepare it.

Any other question?

Q: Thank you Mr. Keshe.

K- ...

Let's call it the day. Thank you very much for being here. And see you tomorrow, those of you who are joining us tomorrow. And we'll see where we go from there on, in the following weeks. Those of you who plan to come to China, or those of you Knowledge Seekers who already participated. We again, as we did with the London Conference, we, and those of you who want to join only for Sanya, we'll put facilities for you to be able to join. And those of the Chinese community who want to arrange to be there. We'll split this conference in a way that, as Chinese for past sessions, years, could not easily join with the visa and everything. (3:22) They can join us to be part of the bigger Keshe Foundation family and we promote it. And you can tell other Knowledge Seekers in China, if they want to join us to have that day marked, till we confirm it. And I hope we have a beautiful conference. And as, in a way, hopefully, the Sanya will be home of the science and technology of the Keshe Foundation. You will see where the knowledge will grow in the coming time. Thank you very much and see you tomorrow or see you next week.
