(:13)

K- Thank you very much. Good morning, good day to you, as usual, wherever and whenever you listen to this series of Knowledge Seekers of the Keshe Foundation Spaceship Institute. We welcome you back as usual, and we'll see what is written in the books of the knowledge. That we could read from and share some, is the knowledge we know, so here we are all servants to this Creation.

When we listen to the intro and when we listen to many other teachings and the direction the Keshe Foundation has taken, it brings man to one point, and that is the point of creation. (:14) And the reality is that we ourselves have decided at a certain point in our life, or we will decide, those of us who are not in that position, or we are alive because somebody made a decision, two people to create a Soul and we are the creation of it. And the same way, we create our children, we become creator of other Souls. And then they become the others, and the others, and the rest. But in essence, every one of us, every generation, leaves a connection to us. And then, us to our forefathers. One question to ask is, where did our forefathers original fields come from? And we call it to be the Unicose,

to be collection of fields that created. But the question comes to one point, where is the origin? Where did all this come from? And who created the magnetic (M) field?

If we consider ourselves, we as the whole of Unicose, to be, let's say, a ball, a dough, in the hand of another structure, (:16) created by fields of another structure. Where did that dough come from? You can't have a dough without the flour. Where did that flour come from? Where is the origin of that flour? And as I said many times, in one of the final books, we go to, we have to understand the origin of where all this started. How it became about that even magnetic fields were created. What is the science behind it? And where the origin of Creation comes, that led to the creation of the first field, that led to the creation of the interaction of the residual of interaction of itself by itself. And in which environment was created that Unicose could be created in it. Nothing can exist without the containment, without a container, without a space to contain it in. Does not matter if you put in a pot, you make a plastic bag or you just create a fields around it.

This essence, the knowledge of the Creation, man has to understand before he becomes the "Man of Space." Before he joins the Universal Community (UC), he has to understand where his Universe came from, that he's part of community of. (:18) If you as a man or a woman, created the field that led to creation of the another Soul. And this Soul, in the term of time, interacted with the others, the way you were created. One Chinese, one English, two Chinese, two Iranian, one Iranian, one American, and the rest of it, led to a mishmash mixture of the races on this planet. Now you have to consider what mishmash led to creation of man.

We put everything down as, because of the geography, because of the water, because of this, because of that. Everything has a Soul which led to creation of us, or life, doesn't matter where. But, who is behind the original fields which led to the creation of the Earth, and led to the creation of the Sun, and the energies which created the Sun, where the Soul of the Sun came from? Then, this dilemma, this question, has to be answered by man, to know where he is going in Space. What is the purpose of life. And scientifically as men, we are reaching that point. We are reaching to the point of understanding the essence and the origin of Creation.

And maybe, maybe in Sanya, in China, for the first time we'll show the first signs of origin of the Creation. (:20) How life, how fields come together to show this origin. Everything said has to be shown, everything said has to be physically developed and delivered. As we said in the Intro about the gas unit, you all are waiting for the gas unit to come and give you the power generator you want. We have this technology in our hand and we shown it again and again to the people of the authorities. They shiver and shake. They see the change. We've seen others trying to do the same, but no one creates gases the way it's done through plasma. When, 2-3 months ago, one of the leading scientists of Chinese government was appointed to see how we produce gases in matter of minutes, I could see the shake in his eyes. His education as a leading authority in China, worth nothing. And he knew it. I could feel his Soul that he says, guy your mastership has no master, because now it can be done without mastership by a little boy.

Now you understand the essence of the Creation, we can deliver everything we said. We have delivered everything we said. But the society and the knowledge is not ready for it. When we showed the production of protein (amino acid), (:22) how life is created, which leads to creation of man, the scientists touched the table and they told the top guy, and this brought all their knowledge to zero. When we can run a simple system and with it proteins created from the environment of interaction of it, does not need Earth, does not need the structure of the Solar System. You can create a physical life anywhere in the Universe. And we have shown it. And for the first time in Sanya, we show how life, how protein was created, and how we can create any life in any position, anywhere in the Universe. Because we control the fields of Creation. we control the understanding of the Creation.

The presentation in the next few weeks in China will bring a change in the threshold of the science of man. We leave the systems and we'll leave different environments and you watch what is created in those systems during the conference. One will be the condition of ocean, one will be the condition of something else, and you be witness to it. Then it comes, how we create life. (:24) And then it comes, if fields can create life, where did the field which led to the creation of us came from? Then, in the process, maybe in Tehran, maybe in Washington, we show you how we create man in a bottle, man in a system. Essence of creation of DNA and RNA in a system, without a father, without a mother, without any interaction of the physicality (P) of man.

We have to break down these taboos, that man starts looking logically, scientifically, at all aspects. Then, once you understand this, once you can see how protein is made, converted from fields, then you understand how to convert your Soul as a field in transmutation to entity at the point of you, where you want to manifest yourself. It's not that we can produce gases, we can produce protein, we can produce whatever. The whole point is that we can create life. And the easiest way to structure this life is to use our own Soul, which is already preset as a "dough," it's the yeast to create the next. You do not need egg and sperm. You do not need what they call, all sorts of imagery with DNA. Through the emotion of you, you create the being of you in front of your eyes. (:26) Does not mean to be a child. It's life, and how this life will survive the span of the Universe (U).

You have to understand this process. You have to comprehend the principle of interaction, and understand where it came from, that led to the creation of emotion, with it, to creation of life, entity. Then, many of your questions should be answered. Did man, is man, would man be able to be created, is created, and was created, through the interaction of the fields of the environment and the essence of emotion of the Creator? So the planet became the structure of the DNA, and the essence of the emotion of the Creator became its RNA. And if that is the way it is, then you understand why you carry the whole Knowledge of Creation within you, because it came in the dimension of the fields of the emotion of the Creator. In essence, when the Creator has the presence of His emotion, it only depends on the environment, what kind of fields interact, what creatures they create, what entities they create. That, in that entity, the essence of the Soul of the Creator (STC) blows within them. And gives them dimension of emotion and life.

Now you understand, why all the teaching has been put, in the sequence and the way it has been done past years. (:28) And in some books, they say we blow the life into. In a way, it's the secret of Creation. Your emotion does not need materials to be transferred to someone else. It's not a food. Your emotion by fields, informs the other. The tear of you, the laughter of you, the anger of you, in the fields, transfers to another that they feel it. And this is the same with the essence of origin of the creation of the man, or any being in the Universe.

So man has to find, has to understand, the way the interaction of his fields of his Soul, with the Soul of the Physicality (STP) created his emotion, how his Soul, with the interaction with the STC, creates the emotion of the Soul of the Man (STM). That both the STM and the STC, become aware of, understand and interact. Then, in fact, does not matter how many Souls you have, they all live within the emotion of the same fields. It's how they interact and what emotion they create for themselves, because the origin is always constant in emotion.

Then the question comes, was the origin of life, fields, or emotion? Then it comes the question of Creation. (:30) And this answers to all the mysteries and the questions that what you call, the Holy Books have been put to you, and to all the followers. I answered that question in past two minutes. In this, you have to find, you have to understand, how you've been created. And then, in the essence, in the interaction of your Soul, with the position you arrive, in the essence of the position and time and place, the emotion you create, manifest you in that position. Then you understand, even on Earth, if you change the dimension (D), the strength of your Soul, when you become master of it, you can become a dog today, a cat tomorrow, a man the day after, and a stone the day after.

Then, you understand, it's like putting a pea, putting a stone, putting a rice in the same cup of water. That water is the essence of emotion of the Creator. And how each one reacts in that water, is the essence of the Soul of that entity. If you understood, if man ever understands what is being said, man has find the key to the essence of the Creation and the Creator. And in a way, as I said, it takes one second for one to reach the Soul, the understanding emotion of his Creator, and some bang their heads against it and on the floor, 17 times a day, (:32) and still will never find, never understand, and never reach the point of maturity, of what one second, a peasant, a child at the womb of the mother, we're at the time of birth, and 80 years on this planet, can reach and in a way, does not want to carry the physicality.

In essence, if you don't understand this, you will see everything we show and we do, is just another game, he shows this, but you don't understand where we are taking you. You have not understood what it means. In reality, if you would have understood this, when the very first time I showed you a picture, you would have understood the game of the religions is over. But as you are not aware of what's going on, you never understood the dimension of maturity of man, the dimension of understanding the Totality, the dimension of where the fields come from, where they go, and how they interact. And when I put this in front of you, I ask myself one question. And I ask one single question.

Would any of these people understand what is shared? Would any of you understand what this touch of a man on the Amino Acid (AA) means, which is created out of interaction on the matter of steel? And where you see this dimension, when you see this line of protein, (:34) inside it was a piece of wood. And inside and on it were papers. Could not be seen on the paper and the wood, because the structure showed itself different. But on the steel, which is a different environment, it manifests itself as a protein.

So in fact, it was on the paper and on the wood. Each one decided to manifest itself in a different way. Now you understand. On the wood, on the paper, you are not visible to ?? everyone. On the stainless steel, on the most advanced laboratories of the Chinese government, you see yourself as a protein. And then, as you see it, if you touch it, you still ask yourself a question. Is the lack of the knowledge within the Soul and the physicality of the finger you see, which has brought him to ignorance? But the evidence is in front of you. Interaction of the fields with the environment and steel, I show myself as a protein. And if you give me the right environment within this, I create you any life. Because the essence of life in a dynamic motion on this planet is connected to the protein, which we call, from the combination of the fields of the matter state, (:36) which is created by the interaction of the fields of this planet with its environment, which we call the Solar System.

Now you understand. When you manifest yourself in another position and time, when you go through transmutation, who and how you can be seen, and how you want to manifest yourself, to be, to confirm your existence. This picture and what we showed is so fundamental, that if you understood how it's created, how you will be created when you go through transmutation, will give you the key to the world of Creation. In the essence, understanding the emotion of the Creator. "I made man in the image of Myself." That image is the emotion, not the physicality. It's not even the STM. Because I created the man, I blew life in his existence through interaction of his fields and the emotion of Me.

If you Knowledge Seekers understand this, you'll master transmutation in no time. If you are still in the doldrums of trying to see physicality, you will be searching for rest of your lives and generations of you to come. (:38) The essence of the creation of man, the essence of existence of man, or any being in the Universe, is a condition of the fields of the environment, with the interaction of the fields of the emotion of the Creator, which manifests itself in that position and time. The way, the interaction of your Soul, your STP, or the fields of the structure of your physicality, leads to the creation of laughter, tear and the rest of it. Now you understand, what a teaching and why we teach the way we teach. To enlighten you to the light of the Creator.

But, one question stays behind. That, somewhere in the future I will answer. And that is, who created the emotion of the Creator, that interaction with the fields of us creates man or anything else, in the dimension of anything, physicality, tangibility and the rest of it. In essence, this is how, if you ever understood this, created man in different races on this planet. The emotion, the fields of the environment, and its interaction with the STP of the

man, leads to creation of that man to be able to live both with the STP, the STM, and the Soul of the environment. (:40) And man, and the scientists of man, have not understood this, that this is the reason in behind what you call, creation of different races, creation of life on this planet and beyond.

And in the essence of the Soul of the environment, creates the man with behavior. As behavior itself is part of the emotion. Then you understand why we see different people from different part of this planet behave collectively different than the others. Because the environment of that place and that position, in interaction with the field of the STP of the man, dictates not only race, but the emotion and interaction, and everything else to go with it. Why in one country, you call it, on one side of the hill, you have men with different emotion, and one on the other side, with different emotion, and collectively behave the same. We've seen that. This is why the Chinese built the wall of China, to be peaceful on one side, as the others of the same were not the same, not behaving the same, didn't have the same emotion as the rest. And then, when we have what we call, the Soul of those who understand the emotion of the Creator, we come across those who we call, are, or behave like God. (:42) And then we understand, how we have to behave at the point of transmutation, at the point where the ?? glue, where the essence of the creation of us, at the point, time and place, will be interaction of the Soul of us, with the Soul of environment, and the, what I call, the emotion of the Creator.

If you understand this, you can even choose, in what emotion you manifest yourself in anywhere in the Universe. You have to understand these things. If and when you start becoming the trans... what I call, porters, the transmuters of your own energy and your own Soul. Maybe, maybe you Knowledge Seekers (KS) understand. It's not, we just made a protein, many others have done. But, the protein on this table, has the essence, the emotion of the Creator. The fields of interaction. And this, if you understand, creates life, which in essence, is connected to the emotion of the man, and in the same way, to the emotion interaction of the fields of it, with its Creator. And then, you don't need to find the field strength of the what to go where, you'll find in what emotion you want to manifest yourself. That the position and the time and place will take you to that emotion and dimension and manifestation of physicality. (:44)

Then you understand, traveling in the span of Unicose, is a flick of a finger. Then, you don't need the UFOs, the donkey, the leg of a man, or transmutation systems. Now you understand. I hope you understand. I hope you can see why we've gone through all this rigmarole. When we produce that gas, when we produce the protein, our emotion, our thoughts, is not to create this, is to create the fields of it. But with that fields, we decide what to manifest.

I have asked my team to bring systems into Sanya, that it'll baffle the world of science. Even they are not aware what will be shown. They just carry the systems. In a way, you have to understand it. In a way, you have to see it, because you're man, you're so physical that you see by believing. You don't use the sense of your Soul to understand the energy transfer that you do not need to see.

We use these International Conferences to bring light into the knowledge and understanding of the nations. (:46) Because, as I said, "The emotion of the land creates the man." And we change the emotion of the lands with the knowledge, with technology (T) which man can understand, and with it, take away the mysticism. When we show you the production of the protein in Sanya, don't look at it as a protein. Understand what emotion I can put into it, as I am the observer, I am the egg, and this is the sperm, or this is the sperm, I am the egg, that what I can create within it, within a cup I put on the table. Would that cup which carries my emotion on the table, would create a fish? Would it create another being? And would it be nothing because I have not understood the Soul of interaction?

In Sanya, I bring you to see how man was created. If man understands his own position and time. As Muhammad said, "I will never do magic." Because he saw how magic game played with Christ and with Moses. And it's in Koran, he says, "I'll never do magic." And I said the same. We never do magic. We show you science. Muhammad didn't have the knowledge of science. We do. We created the science. And when you come to Sanya, come with a "Cup of yourself" and put it on the table and see what is the true emotion of your transmutation of your Soul, (:48) with the interaction of the system and what you get in that cup. Nothing, or something, or a being.

Don't forget, go back in the past teaching of 520 times, many times I said, with me, even in the labs of Linz, there is a bucket, which I have created life in, and it goes with me everywhere. It's the same. I have blown within it the emotion of me, with the presence of dimension of the fields, life has created. When you come to Sanya, bring your cup, bring your own mixture, and see if your Soul, the interaction of your Soul, with the condition of the essence of fields of Creator emotion, leads to creation of the life which you did. And how your cup next to another, leads to creation of a new child, new life, new essence of creation. We don't do magic. We understand the science of Creation.

As I said a few weeks ago, we bring in a new technology. We bring in new science. And that science is the science of Creation. not another electric generator, another gas production, another god knows creating gold. It's for you, the Knowledge Seekers, to be able to see what they are made of, what they will be, and how they transmute, and what emotion will bring them to be at the time, place, and position. (:50)

So, you have to understand, listen to the teaching of today, maybe a 100 times, maybe one time, but understand the essence of the teaching, and you have found your way to your Creator. And how you have to create. How what you create has to be loved, nourished, and fed on the STC for it to survive. Then you understand how Mitra brought life onto this planet with the emotion of the love of the Creator. She just had the physicality of the Earth and the love and emotion of the man within the man himself.

Now you understand, the whole essence of Creation. The Holy Books and the holy books of the past, have spoken it, but they never understood. Today, you receive the Knowledge of Creation, and you see the evidence of it on the table. You have to decide, even how the fields which leads the creation of this protein on the table, can become a child of you.

With the interaction with another field, could be from Earth or anywhere else in the Universe. Man in the dimension of physicality will never be able to produce offspring. Because your DNA and the others interactions will not lead, will not create that dimension. Unless man creates children of itself through the interaction of his Souls with the other Souls, with the other fields. (:52) That in that position, in the condition they create from the essence of the STC, leads to the generation of the new life. Now you understand, when I talk about the creation of the children of Mitra. Where there is no need for egg and sperm. And if you understand, the Universe is the womb of the Creation. And in what condition, in that womb you want to create a boy, a girl, blue eyes, 10 legs, love of the Creator, and the rest.

In a near time, those of you who always wished for a child (but) could never have. You've tested with all the test tubes and everything else, and the answer has been no. You cannot bear a child. Understand the teaching of today. And you understand you are as fertile as the mother who gave life to tens of children. It's just that, and how you know a new way to create that physicality which you can hold to love, to care and nourish. Then you understand how the knowledge of Mary being virgin, as I said, misinterpretation last time. It means the word in the language written as knowledgeable. The one who understands the knowledge, who becomes a believer in that knowledge, and that's "Virgin Birth." (:54) Because now you are the Creator of the interaction with the fields of the emotion of Creator, you can create any being and call it your child. Create it in the atmosphere of your womb, it'll become what you call Christ. Create in the atmosphere of the love between you and your partner, it'll be a child that both of you nourish and each one of you can decide, how long I'll keep it with me and how long you keep it with yourself and how long us together we teach it to become a correct Soul, that it can manifest itself anywhere, anywhere, any place in the Universe, as it receives the emotion of the field of the Creator.

Now go back on the teachings of past years, and put all the words and teachings, now you understand today, why and how. You always wanted a child. Create it, understand it, in the strength of the fields of the emotion of the Soul, with the interaction of the field of your partner, becomes the planet, and the essence of the emotion of the Creator. You shall have that child, you don't need to create test tubes. You have to learn this kind and this way of reproduction, as you become the traveler of the Universe, and you cannot physically interact, make love to another creature in the Universe, but the essence of creating whole life together is so strong, that by participation, by the interaction of the two Souls, and the environment that the Soul decides to nourish itself, and the essence of the field of emotion of Creator, you will have that child. It's the only way that you will reproduce in the Universe. (:56) Unfortunately, most of the created things, animals of the Universe do not have the penis and vagina. And it does not exist in their structure. How are you going to make love to create that child?

If you do not understand the essence of the Creation and how life was created from the fields of the emotion of the Creator. You just create, you just make available from the field of your Souls, and the dimension is yours. Then you understand, as I said, how "virgin" you are, even after 10 children. Because that "virginity" comes from the

believing, and in believe comes understanding that you believe in it, the essence of the Creation. And you can create any child, it's a child of Universe. It's a child of Mitra, as Mitra is across the Universe, is the love of the Creator, is emotion of it, wanting to share with itself, to confirm its existence.

As I said last week, you try to clap with one hand in the pocket, does not happen. One hand is the emotion of the fields of the Creator, and then the other is the dimension of the STM, in interactions, fields with the STC, which leads to creation of life. Then, it's like that drop of water. Give it the environment, it'll manifest itself as ice. Give it the environment, it'll be a vapor. (:58) Give it the environment, will be a drop of water. In essence, the environment leads to creation of what is there already, which you created, in interaction with the essence of the fields of this environment.

If you Knowledge Seekers understand this, you have managed to unravel the secret of Creation. And if you don't understand, you're still waiting for that generator, the gas production, and seeing something. Come to Sanya with your cups, and test yourself, to see what you can create. And we leave it open to all of you to test. Make sure the mixture you make, is the essence of the love of you, and not just the water from the tap. And does not even need to be water.

Remember in one of the teachings I told you? When the Belgian government decided to test my knowledge, they asked me to give them three bottles. Each one had the essence of the emotion of the fields, of the man, the Earth and the Universe. And with it, they saw how I create fields, which baffle them, and they create new laws in the whole structure of nuclear industry. Each bottle is the same as the cup you bring with you. All I did, I blew, I added, I put in there my emotion in that water. All three are the same. (1:00)

Come to Sanya and see the magic's which you create and we do not provide any shortcuts. Then you see truly who you are and maybe you can ask this is me, this is the environment of the Moon, how would I look in there, when I get (there)? And we create the fields for it, through the dimension of interaction of the fields of the Creator. And then you understand, do you still want to see the gas production and electric power, or a system to lift? As I said, I'm a teacher. And the classroom is the Earth. And we teach from the first "Gaga Gugu" to the nursery, to the professors, and to the leaders of the world. One teacher, one classroom, and this village is so small, cannot afford more than one teacher. Then you understand, we carry the whole knowledge. But with you lot, I have to speak, "Gaga Gugu". And for those of you who become knowledgeable in the future, we'll talk about the straight line, blue color and red. And those of you who become more knowledgeable in the use of your Soul, we teach you how to jump, and how to make sentences. And then one day, when you graduate, you will become, you join the world of the Creation we call the Unicose.

I feel sorry for you Knowledge Seekers. You are born and you listen to knowledge, (1:02) which you have not been prepared for. But in time, your children, as more people understand, become a known, and much easier for them to comprehend and to become the, what I call, Passengers of the Universe. Being a Passenger of the Universe is not

going from place to place, but becoming the field, the emotion of the Creator, that it can affect the creation of the others when they interact.

As they said in the Koran, Salaam Aleikum, means you have to understand. Salaam Aleikum ?? , we have told you everything from A to Z. It depends where you sit. The A, or you have educated yourself to reach to Z, which from the beginning to the end, without each other, cannot exist, but together make the essence of life. The knowledge and the communication and explanation, and understanding of the feeling of the emotion of the Creator. I hope I gave you a beautiful gift. And I hope you understand the gift. Otherwise, it will be the same as lesson 1, 21, 201, 221, and 520. Any of you could have been enlightened at any point. It's just what you've been looking for.

We see and we explain more and more. (1:04) That you as Knowledge Seekers understand yourself and nothing else. Who you are, what you are, how you have to be, and what you want to become. Now, the true Cup of Life comes with you in Sanya. We gave the Cup of Life to the Chinese with Covid. Now our Chinese friends, bring your cups and see what life you can create out of emotion of your Souls. Thank you very much Rick. And we'll go for a small break and we come back.

**>> BREAK >>** 522 KSW January 25, 2024 (1:10).

K- ... Can I make couple of announcements?

R: Sure, sure.

K- We used to make the announcements at the beginning, so now we do it in the middle, which is much easier. First of all, on the Chinese, the third conference in China, is now fixed for 16, 17, 18 and 19th of March. In the island of Sanya, which a lot of you, some 58 Nations, don't need a visa to come in. And some of you can stay 30 days, some of you can stay 90 days in the island. It's one of the most beautiful places on this planet. If you don't waste your time just looking at the city, go and see the beaches and the island inside. It's where most of the seeds of the food and research in health is done by the

Chinese government. It's a bedrock of the science and technology, and has facilities that none has seen in the world. Most of the evolution in the, within kilometers from Sanya City, the research centers, and then you have the big laboratories, (1:12) which the licensing is totally different than rest of the world, and they can test the latest diseases, inventions in medicine in this island. It's given a special license to be able to do this. And it is one of the reasons that Keshe Foundation Corporation in China will have a center in this area. It's full of scientists, those who have endeavored to go to the next step and they are open minded to develop new technologies. The elite of the sciences of the Chinese in certain section are in this area.

The conference will be from 9 to 6 or 4 days. And, as I said, we bring to show the evolution in science. Our team will come equipped to show this. Do not come to see, you see part of what you've seen in London and Manchester, but you see things which never shown before, never been there, and it'll break the new science and technology. But, be aware that we target, our aim, is the conference in Tehran, for transmutation and manifestation of the Creation. Once we finish with China, we start negotiation with the Iranian government, to hold this conference in Tehran. And then hopefully, by the fall, in September, we negotiate with the American government to show this, maybe, maybe in Nassau, maybe in Florida. (1:14) In a way, I chose Nassau, what we call, in the Bahamas island, for a specific reason. There we will show the creation of life from the oceans of the Universe. And that's what has been a playground for me for decades. And we go back to Nassau to show you how life has come, to come from the seas to the land and to life, that we know it. It's one of my favorite places. And some of the most beautiful memories of my young hood and adulthood comes from Bahamas in Nassau. And then you will see what is called the Paradise Island. It is the true paradise. So step by step, we go from island to island. And we'll bring, we show how our creation shall be.

One point which you have to remember, if you're coming to China, to Sanya, come with a clean Soul. Because if we give you the Cup, you manifest yourself in a dimension of what, who, and the way your Soul interacts, and will interact. The "Cup of Life," given to the Chinese as a savior during Covid, now becomes a true Cup of Life for the nation. We'll take this system across the planet, when we travel. And we ask the world leaders to bring their Cups, for them and for you to see the true Soul, (1:16) within that physicality. And I wonder how many world leaders will attend and even touch the cup. We'll put this cup to Ayatollah Khamenei of Iran, to put to place. We put this to Pope in the Vatican and to the other world leaders. And then we, in essence, understand the true essence of the man. And then you understand, the true game of peace has started. Where the Soul of those who claim to be the leaders and the peaceful men, will manifest themselves in the color of their Soul in their cups. And then you'll understand. When in Arabic they say, ?? Ashadamna, what it means. I swear to my Soul, I be the true me, and nothing else. I swear to the truth of who I am.

And then you understand when I told you, the true game, the reason we started the teaching, and the creation of Keshe Foundation, was done so. I hope those of you come from China, you'll bring the best potteries of China. And come with a clear glass, that you

cannot hide in the "clay of the nation," the true emotion of you. Then we'll teach you how to create children of ?? man.

Yesterday, when we turned on the first systems to lead to creation of this life, (1:18) I stood by the system, and I prayed for it as I always do, let it be the system of peace. Let it be that the field of this, bring the Knowledge of Creation to man. And we shall see. It's an amazing system. It can create life in any dimension. And it keeps in essence, in its center, the rays of the creation of the field of the emotion of the Creator. And how it communicates with every position, direction and dimension.

I hope you are that lucky to be in Sanya, to see the beginning of the new dimension of science and technology, which man never knew, and it'll be the beginning of the change. We invite the Chinese military leaders and scientists to join, to come in and to test themselves, and to understand. And then it's for the others, nation by nation, to add their flavors to it. The Keshe Foundation team has posted how you can come to Sanya, come with a pure heart, and no hate, no resentment, and no racism. And then see if truly is you in your own Cup. It's a Cup of your life, and then you have to understand it. (1:20) Thank you very much, and I hope you will see, in a very near future, what all this teaching was about. was not to make gases and electricity, was to show you the energies which ?? (lives) leaves and how things manifest themselves, according to the environment they're in. And how you will become that gas, that energy, when you come into dimension of fields of another position in space and time, and how you interact with the STC, to manifest yourself in and through that field, to physicality which you desire.

We see how things will change and as I said, we put all the world leaders to test and the system for it has been switched on yesterday and it will manifest itself across this planet, step by step. And then, it'll come to the point, when you choose a world leader, most probably for American election, the American nation will ask your leaders to come with their cup, that they can see the true leader, irrespective of his words. We know the color, when we see the Cup. It's a Cup of Life of a man, Cup of the STM, in interaction with his Creator. And never changes, who wants to take shape. And no one can lie.

Then we see the true leaders, who will become the leaders of this planet, always shall stand this test. Then you understand why we call for Universal Council, to be chosen by the STM and not the man. (1:22) And how the Universal Councils will be cleared themselves through the same. And now you understand how the two process will link up, and how we'll link you up to the system. The new system developed and switched on yesterday, has two dimension of the reaction. One to the Soul of the Creation, and one connection to the Soul of the Universe and Unicose. Specifically designed for these two. The rest comes out of interaction of your Soul, and the interaction with the emotion of the Creator.

I hope you will not be disappointed. And I hope you'll see how you can, you should, and you will create the "Children of Mitra." Thank you very much Rick, and we leave it to you, to come and test yourself, in Sanya. The next time we show this system, will be in Tehran, and the Iranian leadership, to come with their Cup of Life. And then we

understand the true man of religion, the true man of nations. And we take it to Washington and we ask the Presidents of United States to sign themselves to the cup. Then we all understand where we are going. Rick, is there any questions we answer?

R: ... You mentioned today the origin is constant in emotion. I thought that was an interesting idea, maybe you can explore that a bit. And perhaps we can combine that with... (1:24)

K- It's not an idea, it's not an idea, it's the truth. God or Creator cannot have a anger emotion tomorrow, or a laughter the day after. You understand? Because we interact with it. It's constant and is a giver. It's man who changes emotion. Its continuity and its consistency has led to the creation of the Universe. The diversity comes from the interaction of the Soul, or the fields which have created that Soul in that dimension. That's all. It never changes. It has never changed from day one. The only way we could put it is how Mitra knew in knowing the emotion of the Creator, played with it to lead, to show the love to Him. To confirm His own existence through Himself.

But it comes to another point that maybe you understood as part of the teaching of today, is it cannot be on his own if there was nothing to show. Is Mitra interaction of the part, parallel, Unicose to us, that the interaction leads to the ?? invention of what we call the love of the Mitra? Or has the interaction of the field of itself has led to the Soul dimension, which is in line, in parallel, but triggers the emotion of love? (1:26) And then this is for us to answer in the future. So, never changes, always has been giver and in interaction with it, a lover. Which is a habit of the lovers and the givers.

Any questions? Or you want to extend your question?

Q: Well that was very interesting, I thought maybe it could somehow combine with the question that was carried over from last week from YouTube, from Dot who says, "How can I know when my Soul is talking to me?"

K- You should have said, as I said just before the teaching, do you have his telephone number? He can only talk to you if he's connected to you. In the coming weeks and through the test to come out, a lot of you will find your path to it.

By the way, before I forget, we announced that the 6 sessions start of every month, the third week. In March we'll move it to the 29th, not 22nd, because we are still in Sanya, a lot of Knowledge Seekers are traveling. So, the 3rd of the 6 sessions, instead of Friday 22nd, has been announced, we'll move to 29th. And, at the same time, the another thing which I forgot to tell you, we finish on Tuesday the 19th. Wednesday the 20th is the celebration of Iranian New Year. And we celebrate in Sanya, the Iranian New Year, (1:28) with those of you who want to be with us.

But, you cannot separate things. You cannot bring things into dimension, if they don't exist, unless you know how to mix it to lead, let it to be created. And this question of how to contact, as you create it, as you have created out of it, you already know. In the world

of science of today, you call it, isotopes, with different strength. In the dimension of the plasma, work on the strength of the fields. And as you have seen, as you observe every day and night, when you look into the skies, you see billions of stars. If they were of the same, you will not, or you will see them as one. You see separate, because each one has one isotope strength, of the fields of the Universe and Creation. And so you understand how it works, to subdivision, and then you create one, and then it becomes more of the division of the subdivision, and in different strength. And in that process, you always through, because you're connected, know the connection, you know where it is.

In the dimension of the new reactors, new technologies, which for the first time has gone into test and then they're going to operation in the coming weeks and we'll show it for the first time in Sanya. (1:30) You not only connect to the dimension of your Soul, but you connect to the dimension of Universe. This is a technology never known by man, unknown at all. It's not something you can do and we know it this and that. We have brought the knowledge of Creation of it, to physicality that you can understand it, that you then can control it, then you can communicate through it, then you can create that condition of life. Then, it's very easy, you don't dial, you create the fields of emotion of it, and you'll get there.

Something which is very interesting is, I put this to you as a reality, but with a tint of, what you call it, joy and in a way wisdom, if you understand it, and in a way of, little bit of joking, if you understand what this means. In the teaching of today, in past few minutes, we told you, and all of you in the past days, 24 hours, whatever, you had a dream. In your dream, you are in Tehran, you went to Los Angeles, you went to New York. You're living in New York in your dreams, you went to South Africa or you went to Australia. Have you ever asked yourself one question? Did anybody ask you for a passport? Did anybody tell you, "Sorry, you don't have a passport, you cannot come through your Soul to Australia, or South Africa, or Tehran, or New York?" (1:32)

And, the most important thing of this is, who gave you the number to go there? Who invited you? Or, as you know, like certain countries, they put a filter, certain things cannot be done, you are banned, because you don't understand it, we don't want problems. Has the Universal Community has put a ban on the emotion of the travel of the STM into Space, for you to dream, or to you, to travel through your Soul, to other positions of the Universe, and understanding, and you know, as you know you are in New York, or in South Africa, you know where you are, and you can go to. Or, through the system that many of you went in the Linz, we have opened that door, that you could go to the Moon, you can go to anywhere, any ocean, anywhere in the Universe, fly the way you want, and come back.

So, it comes to, have you understood the knowledge, or you are just copy-cattng? And, you will understand, a lot of you, will go through this, and gradually become knowledgeable. I was explaining this, in the past day or so, to one of the Knowledge Seekers. When, in a position of my private life, they were explaining things, or they were telling me things, about interaction, or a condition of a person, (1:34) I don't listen, I'm physically there, I see the emotion on the face. I see the emotion of the Soul. I'm present

in that conversation, at that place and time. It's the same thing as I told many times, I go inside the atom, I go inside the reactor, I see everything. It's not something that I don't, something I think. I see how molecules expand, how atoms interact.

And it's the same in the physical life. Where I am emotionally involved, I am present. And I see. Even in my physical life, I know after that conversation, they don't, they don't know I'm there in the manifestation. I know they are lying to me, because I heard the truth, I've seen the Soul. I feel the cup of water they drink, I feel the air they inhale. I see the interaction, but out of the wisdom I keep quiet.

When you travel with the dimension of the Soul, you get this. If you're in Tehran and your mother is in New York, and having a conversation with your sister, and they call you, you'll be there with them sitting, you see their emotion, you feel their laughter, you see, they say, "Oh, it's so sunny here, it's actually raining." You say, "Come on guys, I can see it is raining, what are you lying to me?" But you are not here. But I'm there through my Soul, I can see, I can feel, I'm part of you. This is to the level you have to reach. Then you understand how you dial that number. It's the number of your Soul, your emotion, your creation. (1:36)

And when you do this, it's not just seeing. You feel the physical emotion. Your mother is in pain, she's hiding it from you. She's limping, says, I'm so good. I went for a long walk. Mom, you are limping with a stick. I'm with you, I see you. And then you understand the new process of understanding transmutation and transportation.

Those of you who wish to see the Christ, truly bring your Cup with you to Sanya and see if you can manifest, if you can bring through emotion of your true essence, the essence, the emotion of the Soul of Christ, bless his name, and then we understand what is the truth. It's not a challenge, it's for you to understand yourself, and don't challenge yourself, try to understand what needs to be done to get to that point. Then, you dial the number of Christ and see if he responds, in front of the system in Sanya.

Then we understand, maybe we all be, ?? present to it. And maybe a lot of you come with a lot of Cups and you see nothing, because you come with a tainted Soul. Dimension interaction of the fields, ?? . Then, polish it till Tehran, understand it, and then we see what happens.

With the system which now is developed, I put the world leaders to challenge, to create peace. And then you know who is true man of peace. Be it from Ayatollah Khamenei of Iran, to the rulers of the Vatican, and the religious leaders, and the world leaders. (1:38) This become the scale standard for humanity. We don't touch, we don't do, it's you and your own Soul and the truth about this. Nobody interferes with it.

Any other question?

R: ... You talked previously about this idea of a parallel world, a parallel Universe perhaps? There's a question that came up with Malcome in ...

K- I don't believe in parallel Universe. Possibly, has to be that the interaction creates something. But, a parallel Universe the way it's put, depends what you understand of it, is not the same as us.

R: Okay...

K- I'll give you a cup of tea. I can give you a nice cup of tea, if you can taste it.

R: Okay. I'm having some tea here, but mine's green tea. I'm not sure what you're drinking.

K- It's a nice Earl Grey tea from India.

R: Okay, I had an earl Grey earlier today actually, double, double burger ?? mo.

K- But the thing is, did you come here to feel the emotion of it, to taste it?

It's very interesting how these things will change our lives. You know, one of the cornerstone of the ?? Kourosh (Cyrus the Great ??), Shah of Iran, or the man, what we call, the Prophet, was and is still in the dimension of Zoroastrian, (1:40) ?? through Zoroastrian's lies. The biggest crime in time of Zoroastrian and even Kourosh was to lie. Because lies created problems, wars and a lot of other conflicts, and there was no crime bigger than lying. And if you understand the emotion that creates it, then you can understand, why it was forbidden, why it's forbidden. It's a stealing. And those who make everything somebody says to them to a lie, because then it justifies their action, find out it comes to "bite them" themselves, as we say. And then if you understand the Soul of this, then you understand how things work.

And there is a lot of, what you call, essence of interaction of the Souls which come from this notion. And if you understand the true history of time and religions and whatever names they put on themselves, comes from this point, not to lie to your people. But all the holy books are made out of the lies where it was supposed to be no lie. And it's all believed in it. And even if the man who's a top man, who the prophet says himself, such a thing would not happen, because there cannot be no lies. They've written in the book and connected to him to become the truth and then they all believe in the lie which he said, "I never do lies."

Example of this is by Muhammad, bless his name. (1:42) In many verses in the Koran, he says, "I shall never do magic." "You will never see magic from me." Because he saw how the followers of Christ and Moses, or whatever, used magic to show his power, or their power. And Muhammad made sure this doesn't happen. And it's very strict, written in the Koran. But interesting thing is, they connect the biggest lie to the biggest magic, which Muhammad says, "I never do magic." I always said the same, "We don't do any magic, you have to understand the science." And half of Koran's belief, Muslim, doesn't

matter what, goes on this lie. According to Muhammad said, he'll never do. So it's a lie. We know it's a lie, whatever they say.

And this is one of the criterion which now puts the Keshe Foundation, head on with the Islamic world. Muhammad, bless his name, said, I never do magic. Never, nothing, never be done. And then, in another part of Koran, which is a cornerstone of present, Saudi, Shia, they encourage it a lot, is Shaq al-Qamar, cutting off the Moon in two half. Which Muhammad promised, I never do magic. And that is a magic. That's what it was supposed to be, that he can do these things. And according to the time and place, if such a thing was done, as we see in Koran, such a big event, the rest of the humanity should have seen it. Somebody in London, somebody Bedouins in part of Saudi Arabia, the rich people of Europe, (1:44) somebody should have seen this Moon cut in half. It should have had an effect on us. So you can see how lies has become against what the Prophet who they believe in, is. They made a lie and connected to the prophet and they want to accept that lie.

Where, even if you read the Koran, historically, time and place, they connect people who were present in that Shaq al-Qamar. Because, the story behind the Shaq al-Qamar is that, some people got together and went to Muhammad in a full moon, and they said to him, "Show us a magic, then we believe in you, if you show us this magic." And Muhammad said, "Okay, I..." you know, they said, "Full moon, cut the moon to half." And they said, "Muhammad did it to, for us to become his believer." And they give you name of the list of the people who were there. But when you go into the history book of the people, some of those people, two or three of them, were not even born at that time of Muhammad. They're there and they're asking him to show us. And you understand, we don't understand the history, and then we attach to it.

And this is one of the reasons when I start the talks, even with the, as I repeated many times, with the Saudis, ?? Jahan University, was this. And then one person who was actually was in a meeting with Muhammad said, you can see half of the Moon. And the Shaq al-Qamar will come only when it comes the end of the world in heaven. Not now. It will not happen today. And then there's another sentence, word, couple of words after, which tells you, this thing, Shaq al-Qamar, (1:46) will happen in Heaven. But they don't tell you that part of it. They say, "This is connected to Muhammad, Muhammad has done this." They don't tell you, they don't read the whole story. They tell you one half, and because most of these Mullahs of that time, and even today, are so illiterate, that they don't connect the word after.

Yes, we go to the park and then we have an ice cream. So, we went to the park, we don't tell you there's an ice cream. Or, we have an ice cream when we go to the park. Okay, where is the ice cream? But, you haven't gone to the park to get it, yet. Shaq al-Qamar will happen according to Muhammad, according to Muslim ?? Koran, but, in Heaven, is not sign of Islam. And these lies will now has to open up. As I said last week and the week before, I opened the book of religions. Then you understand the true understanding is the faith of God, the Creator. Not these mayhem of books and lies.

Then, you have to understand the next step. When your Soul cleared, the same with your Soul clear yourself, when you travel the span of Universe, your Soul is clear. Your Soul doesn't lie, your physicality wants to lie, you put yourself on the noose in the Space. I like to eat you, oh but because I know I can take fields from anywhere in Universe, I never even think of eating you, that you take energy from me to defend yourself, or you take energy from somewhere else to protect yourself, and create another mayhem. (1:48)

And, the reason, all this mayhem we have, even today's war in Palestine, between the Jews and the, whatever, is part of this. We have split the hair and we talk about which hair is the main hair. And now we get more and more cutting this hair to more pieces and then we call it divisions of religion. But if we look at the end of the hair, it ends up in the same place, it's the same hair, you're tipping, it's just, you know, you have a split hair. This is the job of the religions nowadays. Which one of us is the biggest, so we have more. But, we are all fake, because that hair doesn't even exist, the way we built it.

Then you understand the teachings, the process behind the teachings. And why the teaching is about you, and your Soul. Not about me, not about the systems I make, not about anything else. It's how through the knowledge and the system, you found the truth, the essence of reality about yourself. And you don't need no Prophet, no Holy Books, and nothing else, because it's you and your Creator. And what, and the condition you have created yourself out of.

We start putting these together, in technologies and science that you understand, and then gradually in the coming time, you will see how we open that door to the Universal Community. Because, if one man ?? withers and creates a problem, this can create a bigger problem for us in the future, (1:50) because we are responsible for taking you into the Universal Community to understand your Soul. Then, the division of lying or killing has to die within the man, and this is one of the cornerstones of mentoring of the man into Universal Community.

And this, with technologies we bring, you assess yourself. Because, some of you will come, and come with a Cup of your life, you put it there, and you wish for a fish, but you get a monkey in the Cup. Then you understand, you haven't understood your Soul. Go back and learn where you lied to yourself. Was it that originally, your Soul wanted a monkey, and you lied to yourself? When you wish a monkey and you get a monkey, then you understand, you are on the path. That first of all, you don't lie between you, your Soul, and STP of you, and in the dimension of interaction with the fields of emotion of the Creator. Then you understand, nobody knows, and you don't need to tell no one, "I wish for a fish, I've got a monkey." Then you know, you have not reached the essence of the truth, not lying to yourself. And when you learn this, becomes the path of your life.

And many of you come with a cup and you don't see anything in it. You might see some protein on top of it. It means you haven't learned how to transmute to physicality. Then you have to teach yourself, find where the correction has to be. But don't read the books, but understand within ... << audio cut ... >> (1:52)

K- ... Yeah, what I said, when you bring your Cups to Sanya, and you wish to see a fish, and you get a monkey, that's not the fault of the system. It means you have not been truthful to your own physicality and dimension of the observation of physical life. Because, your Soul wished for a monkey, and got a monkey. Your physicality was looking for a fish for something else, which was not true to your Soul. So, you didn't get your fish. This is not a fault of the system. It's you, who have not been truthful with your Soul and STP.

These are not the Cup of judgment. These are the Cups for you to understand yourself, to perfect yourself. There are no judges, there is no Cay of Judgment. It's for you to be enlightened, to understand the life of the Universe. And when you get to this point, then you find your way into the Universal Community. In a very easy way. And we are not testing you, if you can go or not. It's for you to test yourself, that you become a perfect being, in the school of "being of the Creator." That's all.

As I said to, wrote one of Knowledge Seekers, in past few hours. We are not here to make money, otherwise we could have made a lot and make a lot. We suffer, we go through it, (1:54) we go step by step as the man goes. But, as said in the Holy Books, "Give us daily bread." And our daily bread in the Foundation comes, we will not stop, because every day our Soul is clear what is to come, what is to be done. And the bread is provided, and that's why we are here in past 20 years. We don't go to target to become billionaires, we could have become billionaires, we've been billionaires. They said, what's the best way to make a millionaire to a, what you call it, a poor man, make him a farmer? And this is the same. You give and you give.

And this is how you should be. We are just bringing new systems for you to test yourselves. And how you manifest yourself, when you understand it, in the position which you manifest. Then you understand, when I told you, "I'll bring you a drop, and there will be a fish in the cup." Now you understand how, because it's my wish. And that drop carries my Soul, and interaction with the protein which is created by the system, will manifest the fish. Because our wish is sincere, it's not tainted. And you will understand.

Any other questions?

Q: ... Good morning Mr. Keshe, you told us that at the time of Jesus Christ he passed on the knowledge through women. But how did he try to pass on the knowledge to elevate the Souls of the people? He tried to pass on something related to the plasma science? (1:56) He talked about the existence of the STM, or the STP, in the language of the time? Why would he have failed in his mission to pass on this knowledge that you are opening today?

K- He never failed. Man failed to pass it on. Let me explain to you, when you say, give him knowledge to women. He gave an indication of what you call, "Mary the Virgin." Yeah? "Virgin Birth." Where I explained to you in Torah and in beginning of the word, it means "the believer." And the mother was a believer in the Creator, in God, a true Jew, but in a different way of believing Judaism than what was at the time.

I said this a few times, and I don't know if I've explained it here too. What I feel ashamed, absolutely ashamed as an Iranian, is that our women have been put under Islam and devalued, degraded. Before Islam, our women were worshipped, respected beyond. And today in the structure of the life of Zoroastrians the female, the mother, is the holiest of all. Even if you read the story of Kourosh and Darius and before, women were respected beyond in the society, in the Persian society. (1:58) We devalued our women to make them half by the rule of Islam. Why? Because Islam, to keep the life of woman, killed all the men and gave woman to live. We give you your life, but you are half of us, otherwise we behead you. Because the mothers were the light of the knowledge to their family, to the society. And biggest shame for me as an Iranian is to call myself a Muslim because of what has happened to our women, to the mothers.

And then we go back into Christianity. We go back to Judaism. Go back to the Judaism when supposedly Moses, Jehovah, conquered a village. He killed everything, man, woman, child, animal. With Christ coming from the same mentality, with putting that the women are knowledgeable, he brought a halt to killing of women. Because he realized without them, there is no generation.

But, at the same time, 500 years, 700 years before even Christ, in Iran we worshipped, we respected our women. And we have devalued our nation, our culture, to become Muslim. And we have let our women down. Because this is what the Christ said, the true believer, because they create, the child comes from the womb of the mother, they have that love, they understand the love of the Creator, (2:00) they are knowledgeable. And we don't value that. For that reason I always said, if you've been around me, even before I started the Keshe Foundation. I always said, "The next Soul which will lead us will be Soul of a woman." And this is why we created the Child of Mitra. Because you have to understand, man does not create, a woman creates and understands the love she gives. She cannot touch the child inside, but through her heart, transfers that love of the mother to the child, that in that interaction, the child takes shape, becomes what it is.

If you touch the emotion of the mother, if the mother is tortured, abused during the pregnancy, you see that emotion, how it changes, you get a handicapped child, child will be problem when they are born. Then you understand, why God, the Creator, has one emotion. You see beautiful children, you see calm children, you see children born with absolute joy. Look at the time when the mother was pregnant, what love was transferred. It wasn't there was an injection of love. It's the emotion of love, it's emotion of the Creator, the love of the ?? mother ?? to the child. And as an Iranian, we have dishonored, we have dismantled, the essence of the Creation by becoming Muslims. By first thing first, devaluing our women, our creators, to half. For what reason? Because we came across bunch of people, (2:02) where with Muhammad only beheaded men. He didn't behead children, and the women. Read in all the wars, Muhammad headed, he always at the end when there was a victory, in all the wars. He said to separate the man, they took the man to one side and beheaded them and they said to the woman, "Now you are a slave and you are our wives." How can a woman who loved the man who (you) beheaded now, now has to become your wife and love you?

In Iran history, men gave their life for their mothers to be alive. And in Islamic religion, opposite. And in Judaism, forget about it. Then you understand, why we have to understand what culture, we want our Soul to be created in. Read the whole history of Islam. Read the time when Muhammad went conquering, and he won the villages. He beheaded men all together. And women became slave, and abused by the new man. The .. the men of the Islamic world, didn't go to war to expand the Islam. They went to war to see how many women they can get.

And in many, many books, even the Koran, it refers to it. The woman says, you killed my brother. You killed my father. You killed my husband. And now you want me to love you and to be my husband? (2:04) For you not to behead me and put me into prostitution? I say, "Yes." But this cannot be, because then I'm lying to myself.

And then you understand why we bring an end to religions, because only has been a profit, money making, not prophet to bring a message. The way it stands, the way it is. You read about the history of Iran, 600 years before Christ. When Kourosh used to be. Kourosh, when he conquered in countries as an expansion, even Babylon, and where all the Jews were sent, exiled and the rest of it ?? . When the rule, as tradition was, you kill the King and you take all. The... even Kurosh time, when he took Babylon, he brought the Queen of the nation, and gave her, she said, "I'm yours." He said, "No, you're not mine, you have a husband, you have life." He gave her the same position as a Queen. And, when the King accepted submission to come, went to Kourosh to accept to... that he lost the war, Kourosh said, "First send him to his wife, let him have peace, that we have not done anything wrong." And when the ruler went to his wife and saw her in such a comfort and respect, she explained everything, "I offered myself to Kourosh." He said, "No." He said, "You are not mine, I came to bring peace to your nation, I haven't come here to conquer women." Then the ruler came to Kourosh, he said, "I'm yours, because you are a true man." (2:06)

Kourosh is the only King, who had only one wife, from the beginning to the end in his life. Even though he had access to most beautiful women in the world of his kingdom. And you have to understand, when you read the Bible, as the Bible was written by order of Kourosh, in the book, in the Bible, Jews believe he's a Messiah. And many times, they mention his name in Torah. Because, he lived by the rule. He respected his wife, because it's the culture. And when a wife become abuser, it's her decision to go. Read about the life of Kourosh, and how he became a King. and he is actually the true Prophet, but he never accepted that position of Prophets. And that's why he called the Shah, which in that name means the Prophet.

Then you understand how we should live. If man lives the true life of Zoroastrian and the true essence of the Kourosh, there'll be no wars, because we respect to start with our own creators, is our women. And this has been taken out of the culture of Iran by Islam. We have sold our women to half, where they were equal to us, and above all of us as our creator.

Any questions? (2:08)

Q: ... If the STP is fundamental to the process of transmutation and travel to the Creator, then I am understanding that the physical dimension is somehow essential for the learning of emotions. My question is...

K- Yes, it's your sandbag, is it? You're playing the sandbox, when you play computers you want to write a new program. Physicality on Earth and how it is and how it behaves is your sandbox. You're testing it that if you get it right, on the other side you don't make a mistake.

R: ... Her further question relates to that and you've talked about this before of the perfect Soul and so on. So her question is, "When a Soul is created in the plasma dimension, how will the STP be born, since it won't come through the physical dimension after the interaction of the egg and the sperm? Will the STP come into existence through the knowledge acquired by the Souls of its creators? Could you talk a bit more about this?"

K- STP in a larger scale is Mitra. Where its interaction with the environment creates a physical dimension. And with the interaction with the STM, gives the field which allows to interact with the environment. And in essence, it's the point of reference for us. If you look at, we all said in all the teachings and I've explained this many times. (2:10) We always say, when the STP is in charge, it creates a physical life and embeds the Soul (STM) inside. So, when the Soul expands and brings the STP into, what you call it, itself, there is no interaction for the creation of the physicality. But, you have to understand, in that point, the STM has to interact with a higher order dimension, which is the Universal fields. That's how you travel across the Universe. This is why, embedded in the physicality of the man, the Amino Acid, the Carbon 12, for the STP to allow the STM to connect with Universal Community, it only needs to jump to Carbon 14. Not in a matter state, but in the energy state, in the plasmatic field state.

And this is what our technology, the system does. We allow that C14 bandwidth strength to be created. So, it expands to the new dimension, it finds the STP inside it. It's so simple. This is how you travel on a Cosmic Rays. Cosmic Rays in essence are a combination of the isotopes of C14. And if, if you understand how to cross Universes, you bring a combination of C12 to C60, which allows you to cross universes. This is a technology we shall explain in the future. (2:12)

So, it's very easy, you have to understand, that the technologies we create is not magic, it's just you don't understand it, to you looks magic. You actually been to the Moon, but you never knew how. The way we build our system, it continuously produces, releases, controls C14, which allows you to expand the Soul, because it's energy level of C14, common denominator, with the essence of the line of the fields of the Universe and the Creator, emotion, then you'll go. And then up to now you didn't understand, now you understand.

It's the same mystery as how Tesla used to run a car with energy in New York, but the power supply was in Moscow. Because you haven't understood how. And it's the same. Your... once we expand the STM to the dimension of the system, it super-passes the STP. So now there cannot be a physical life. But, once the STM expands beyond the STP, it still has to interact with the strength of its own dimension, with the Universal Community, Universal transportation system. That's how you travel. We are not doing magic.

Is, we are the Creator, we understand the process of Creation and its communication. That's all. And in time it'll become a "second nature" to all of us. And in time it's part of us. Because we dream every night, we let the Soul go. (2:14) How does our system allows for itself to travel and go beyond? And you go with a full physical body, you see yourself cuddling your lover, you have a wet dreams, you have a fight with your grandmother, you steal from somebody, somebody runs to you. Well, how do you take that physicality with you? How do you know it's you? Now you understand. There is a science, and the job of the Keshe Foundation is to teach you the science. Then there is no magic.

It's a very interesting thing, if you watch, if you are a British, or you go on the Internet, and watch the programs which are coming out on the what I call, the, what you call it, 'Britain's Got Talent'. In 2023 they've saw somebody you call, magic's, where there is nothing, it appears a child on the chair, or the guy creates snakes, and then disappears them, and he actually picks up the child. But you have to understand the magic behind it, the science, that they create these "visions."

But, with our technology there is no such a thing. The only magician is you, and the only magic is on you by yourself. Understand the science, and I, I'm the worst magician, because I show all the tricks. And I make the system and I show it to you how the tricks are done. The biggest trick that you all missed, and it makes me every day, it's not the day that I say, "God knows when this man moves", is the MaGrav systems. I gave you the essence of transmutation, which is expansion of your Soul. (2:16) Many times in the teaching I keep on telling you, you look for that little bit of electricity, go on top of the system, and see the fields it creates that allows your Soul to evolve. And you're still, "Oh it doesn't work, he said he does 30% reduction." You lost 40% of your Soul, but not understanding. Be a prisoner of man, shackled to the Earth.

This is the difference. This is where the difference comes. Understanding, and not just hallucinating or, what you call it, being uneducated. One of the beautiful things with technology is that there are many women around the Keshe Foundation. A lot of women, because goes back to Christ, bless his name. They are the "true believers." They understand the process of creation, because they are creators. All our men are busy with making MaGravs. All our women try to understand the Soul of the technology. And that's where it is.

I bring women to be respected the way was the time of Kourosh. The way the Creator created, loving the Mitra. And for it, we have created the "Soul of Mitra," in the "Child of

Mitra." You soon will understand what the game is about. This is the only way, man will be peaceful in the Universe. Because, as a Soul he'll be still alone and trying to find out, a partner, a, what we call, "twin Soul," will do the crimes man has done for women and love on this planet. (2:18) And that shall not be. Because the love is there from the point of inception, you never look for it (outside), because it's part of you created out of it.

Any other question?

K- ... We have to finish in next 15 - 20 minutes, because I have a long journey to take. Okay, please.

Q: ... Mr. Keshe, when we have a mutation in our RNA to react against some entity that enters into our body, such as bacteria, which has its own emotion, this change is unconscious to maintain our body alive. But when we want to transmute to another environment through our conscious emotions, this occurs in the same way? So, the only way to transmute, must have a big purpose, that is, teaching the knowledge of the Creator, to maintain the Creation?

K- In the transmutation, the STM always stays in the dimension of ?? ... We pick up viruses through transmutation, without a doubt. We'll come across other "energy packs," that's how we know of their existence, and that's how we fall in love with another virus. We become "Soul mates" and we create children of the Soul with them. Anything which is not at the strength of our Soul, is a virus to our Soul. But, we have to understand and change that point to a love, to care, to become, to be part of.

In a way, if you look at the structure of physicality of the man, it's made by this principle. (2:20) You want to be with me, be with me, okay, but we have some surplus (energy). What we are going to do? Maybe we won't get the ?? surplus. Okay, we make the liver. We made the liver, we leave our energies there. Anybody needs, call in and take up, that nobody robs anybody. It's a store, it's a national reserve, we call it. You're short of rice in one department, send, we give you. You are short of vitamin C, liver is kept. How we made that? We all have a lot of bits we don't want and nobody else wants, but others outside of the body might need it. We created the urine and the other bits, and then we make it food and water it. We have a bit which we all need to decide, we work together, otherwise we'll malfunction. We put one division to be in charge of this part of the kidney, to communicate with the brain. Liver puts a section to connect to brain and then comes to the other side, it tells which Vitamins to keep, which one to give, and then, "Okay, you don't want it in a storage, send it here, we get rid of it through the kidney." It's the same. This is called RNA operation. A military regime, with a full control of the principle.

Understanding which energies are needed, which energies are not needed. Don't we do this in our lives? We work in an office, but you are a member of a club of runners, and then you are a member of the chess club somewhere else, and then you are a member of the marriage in a family with the children, and then you are a member of such and such a thing, but all function because you, as a center brain, control it, where you would take

your energy to spend, you go to the club, where you're going to give the energy to love, you call it home, and the wife and a child, and when there is something else. Don't we do this? We just become oblivious to it.

But, it's the same structure across. (2:22) Has the gym you go to share or give your energy out, that somebody else picks it up, has become a virus to your life? Yes, it's become a virus to the wife, because you're not home to love and more, you're spending some time in the gym. But she accepts that virus, because you look good for it when you come home. This is how we are, we interact.

A virus, the way we showed even in the Covid, can be used as a energy for the man. That's why you lot recovered so fast with the Cup One, when you had the virus. You took the energy of the virus itself and you changed it to food for your body. How you interact with it? You don't destroy it. The Covid is with you. Those of you who and had the Cup One and you went through Covid and you used it, you will see the benefit of it in the coming time. Because now is, you haven't destroyed it, it's part of you, you already have it, next time come, " pouf , come on, it's a new version, I'll take you, but you won't touch me that much." It's an asset in your pocket of genes, or energy packs, you call it, a virus.

We have to understand the science, and then we understand the technology. And then we understand the technology of the Creation. The DNA, RNA is all made from man, to become ?? real. There's a big mayhem at the moment, in the world of medicine, and, wherever you go on the Internet, you see it. Harvard University has called some tens of papers out, because they're all fraudulent. And, the Head of Medical School of Harvard has resigned because of it, (2:24) and they've been doing this for 20 ?? years, and they forced a lot of people to change their mind, because of these lies, and now the ones who accepted it, ?? regret it. The effect of these papers in past 20 years, which has forced ?? by Harvard has done it, is going to be massive in a lot of medicines, which is faked, and that's why we see a lot of medicines, since early 21st century, have a lot of problems, a lot of diseases, a lot of pharmaceuticals companies going bankrupt, because they couldn't support it, because they worked on a fake paper, originally adjusted to suit the money providers.

And this is the way, it will not happen in the world of your life, with your Soul, you're understanding the energies and the viruses, then you call it RNA and DNA, or whatever you want to call it. This situation, how many, some very expensive medicines was backed on the back of this, and they didn't come up, the research did not bring the money, hundreds of millions was lost by pharmaceuticals, it's because they relied on a few papers, which was based on the lies, which was made up for to make somebody famous. Read about the Harvard University what's happening, it's a mayhem in there at the moment, with the fake papers and... The same people became peer reviewers to cover their own, what you call it, problems and lies.

When I started reading about this, a few days ago, it just brought back the memory of Stephen Hawking and the Keshe Foundation. Because he never understood the principle,

he tried to copy and chase Keshe Foundation to change things for himself. And people believed in him.

Any other question? We answer the last question and I have to go. (2:26)

Q: ... Thank you very much for your presence among us. My question is, why on planet Earth only the human species has the capacity to develop technologies of all types, and other species have not developed in this sense. If all species are fruits of this planet and some are older than the human species, why have they not reached the same development as the human species? Furthermore, why does only the human race need to produce clothes to protect themselves from environmental conditions, and other species are born with the right clothes to live in?

K- Let me tell you one thing, we had the clothes, we changed it, because the others had a better clothes for us, we didn't have to do. We stole from the sheep, the cow, the whatever animals we could get our hands on. And we are not the only species that physical, because we have, we lack << audio cut >>.

K- ... (2:28) Sorry I was talking and I didn't notice I touched the microphone.

The essence of us thinking we are better than the others and making tools, has more or less come out of our intuition, knowledge, and from the other sources, within us. We found the tools we can kill, with tools we can enslave and take from others, what is not ours, and this has become a process. And we are getting better and better in making tools and whatever.

And even the Keshe Foundation now, it works on the same basis to bring you back to the origin. We, when we were, what you call it, in the embryo of the Earth as a fish, we originally created and whatever they tell us, we were the first mammals, as a mouse, hidden under the ground, and then we got a chance to grow, whatever it is, it's a history they made up. We come from this background, of finding a way, and we set our mind to survive, and we've gone that way.

If you look at it, a lion or a tiger or other animals doesn't need a compass. It still knows the direction. Elephants travel thousands of miles, one place back. Birds fly. (2:30) They have a tool. They don't need man's tools. How many birds have you seen with a compass? "Oh, you lot going left, oh you lot going down, oh there is a wind, oh this here is going to be colder, we don't go that far, we stay further South." We chose to become more materialistic. The other animals haven't and that's why they... In a way they survive it, the way they have survived, and the way the more tools we made, the less environment we gave them for them to survive.

We are actually going backwards. If you look at the life of the animals, and then as man knowledge opens up, now that you become travelers of the Universe, gradually you'll see we have the same migration (of) Souls from one Universe to another, because there are fields which they enjoy more. The way we go on the summer holiday, because we enjoy

the Sun and the sea, you'll see the travels of the Universe as Souls, which travel to certain places, but they don't go for a day. With them, they could be a million years of yours. Because you counted going around the planet Earth going around the Sun, they come from the Galaxy, rotates around the Universe, and they are from that dimension.

So, we, the more materialistic we became, walking away from understanding our Creator, the worse we become making tools. Actually, it's a shame how the man went, because if we would have relied on intellect, energy of the inner being of the man, we would have been far, far in travel of Universe, then us coming and making a couple of things, and running it, and putting it together, and trying to get you back on the same horse as you were before. You've fallen off the horse of the Knowledge of Universe. We're trying to get you back on it, to go back on it. That's all. (2:32) You're not so advanced, you've gone backwards. And the more backwards you go in the understanding, morality, the worse you get. The more tools you make.

Thank you very much, Rick. I have to go. I have a very long journey to take today. Please, understand the teaching of today, just don't listen to it once. What I said, the book about the origin of magnetic field, origin of life, I brought it forward for you to understand the essence of the book. And if you understand it, you become gradually ready to become passenger of the knowledge of what is to come. And, join us in Sanya, and start that process. Take what's in there, what you create in that Cup, might be nothing with you in that cup, when you're in Sanya. But when you get home, you might see essence of life in it, emotion with it. And then see, how you transfer this knowledge to the others, and become part of.

As I said, I bring the world leaders to answer to their conducts by their own action, not by summoning by Den Haag, by a Court in Haag and the rest of it. When we ask a leader to put his Cups on the table, the only reason he will not do is the fear of the truth about him(self). When a leader is not truthful to himself, does he deserve to be leading the others? (2:34) And then you understand the word, that no man will take the crown of Kingship. Because the STM, in any direction, dimensions, is tinted ?? with something. Thank you very much Rick. We see you next week, and we'll see where the lifet takes us from there. Thank you very much.
