

532nd Knowledge Seekers Workshop April 4, 2024

(Transcription, Editing and Proofing done by KF Brazil)

(Auto transcription by Elias)

Trace back CR & CF where ancestors in Space came from; Life replicated through fields - even mono atomic; One drop - DNA; RNA carries all information of Unicose; Emotions & RNA; Aura is CR & M fields of Earth; Eat fruits seasonally; Zodiac & fields of U; We are cell in toe of Unicose 'Man'; Creator of Creators - Shahanshah - Unicose - Ancestor knew but we lost it; CR like Lymph connect and feed everything in U; Lymph feeds STM; Brain repairs hole in skin; Don't become atheists - understand Creation; Religions abuse man; Lymph has radiation - B12; Ancestors established connection to U - still feed us - find through CR; Depends on conduct on Earth; System to show where destined to after death - change conduct - decide for self; Make living being from stone; Make man from Fe nail; CRPm - worth more than life; How breast cancer created; Emotions create tumor; Elevation means understand more; Energy released at birth - death; Transmutation works by expansion of Soul; We decide what & how to receive through emotions; Brother Mojhan death; Plasma communication - CR & intention; Reached Soul of Palestinians - millions fed while system shut off; Feed through plasma 100% proven; remove Soul by changing environment; Put Soul back in after accident; Cannot exist without Soul; Crystal to singularity; Vatican financing annihilate Iran; All 3 religion in war - all will end - in days; Iran use new T; Continue to feed STM after birth - train; KS to manifest Christ; War to end religions - abusers.

ENGLISH TRANSCRIPTION

(:09)

K- Yes, thank you very much. Good morning, good day to you. As usual, wherever and whenever you listen to these series of Knowledge Seekers from Keshe Foundation Spaceship Institute. And as usual, we welcome you back to these, what I call, gathering information and understanding more about what we need to understand, and what we missed in understanding the process of Creation.

In the past months and in past times, we keep on speaking about what we call, (:10) dimension (D) and interaction of the fields of the Universe (U). Why are we doing this? Why have we gone this way? Man in the matter state has understood most of the ways his cells physically are made, tissues, plants, animals around it. And he, with different ways and different stories, has created the process of evolution. And how it has become from one thing to another, and how different animals connect to be one, and goes back to dinosaurs and the rest of it. In a way, teaching about the Cosmic Rays, is where, in a way, the evolution of man, the evolution of what we call, the Solar System, which has created man, that through evolution has become the man of today, has started. In a way, we are going a step back. Or, not a step back, we're going in a way, to understand the origin of the creation of the fields, which led to the creation of our Solar System, which led to

creation of us. And over time, we gathered intelligence. What happened to the other rays, which came from the same source, and became other things, became other dimensions of lives in the Universe?

As we've seen, as we say, man came from the caves or whatever, and then he evolved, he from the oceans and from the seas, and then went up the tree, and then got legs and arms and the rest of it. But in essence came from the original mixture of the materials which were present in this planet. (:12) Now what has been the mixture of the fields which are present in the Universe, the only creation, or the only creation cannot be us. Because, fields have taken different dimensions, different directions. And, they've gone through the same evolution. Some in the earlier stages of the fields and some after us. The planetary systems and the Stars which have created after the Earth was created, and still is going through the process of maturity to create life in the dimension of repetition of the same cells, same structure of life.

So, when we speak about Cosmic Rays (CR), when we speak about Cosmic Fields, is to take us back. We look at our ancestors, where they came from. We now look at where our Space ancestors came from. Where these fields came that it became us. Are we part of the structure which is a living structure and we are part of it? And we are part of that evolution and part of the structure of this life. So, when we start talking about Cosmic Rays and Cosmic Fields and fields and the radiations which come from the Universe, from Cosmos, is to trace back the origin of our Solar System. The origin of our Galaxy, the origin of our Universe. And this needs time, this needs understanding, this needs to comprehend step by step. We have matured a little bit, we understand about the creation of life on this planet. Now, we talk about the sperm and the egg which led to creation of the man. (:14)

What energies from where it came, that it led to the creation of the Solar System? Nothing in a way, has been, in a way it's a random, but in a way it has a pattern. In a way, if you're... if a woman doesn't get in touch with another man to create a child, there's always another man, there's another woman that you can create children with. So, it's the same process in the dimension of the life in the Space. One way or another, fields of the Universe come together, and one way or another, they create repetition of life, create repetition of what we call, intelligence in matter state combination, that leads to life. Life even exists in mono atomic, mono structure systems. Life exists in the planetary system, which only we observe Nitrogen on it. Even Neutron Stars have life in them. It's for us to understand the intelligence of that life. Because, at the end of the day, a Neutron decays, at the end of the day Neutron has a spectrum of fields which their interaction leads to interaction of the molecular structure of the fields, and it leads to some certain type of life.

So, what is going with us? Why we taken this position? And, what we are doing, is in a way, to follow our ancestors in Space. Where did the energies came, that their interaction led to creation of the Sun, that the interaction of the fields of it, led to creation of the Earth, and then from it, the man and all is created? Then, we come to a new process. We come to understand, (:16) what's the essence of the creation. And then we have to look at

the bigger structure, that in a way, where did the fields come together? Was the origin of the fields, was the ancestry of the fields, which led to the creation of our Galaxy? And then, how these Galaxies came together, which created the structure of what we call, the Universe.

So, as we grow, as we go backwards into understanding, we get intelligence that we can understand the process, we come to one point. What is the reason for creation? And, what was the purpose of all this mayhem and mixture, and all this, what we see in the world of creation? Are we, have we got intelligent enough, have we understood about the process of creation, that lead us to understand the rest of it? What leads to creation of manifestation in a dimension of physicality (P)? Man has not understood this fully.

In the upcoming time, in the teachings, I'll start explaining how the process of life comes. Man sees it, but man has never understood it. Man touches it, but man has not understood what he is touching. Man has been part of his own structure, but has not come to understand how this structure has been made. (:18) And this is one of the reasons that the world of science of the man is in the ?? dogma (dilemma) of today.

How it'll be, the way it'll be, and how would it take shape in Space? What do you need to manifest yourself? We talk about the presence of the Soul and the Soul of Physicality (STP), that their interaction with the, what we call, the Soul of the Magnetic field of the Earth, leads to the creation and manifestation of the man. That is when the STP is out and creates the body of the man. Have you ever asked yourself, "What happens when the Soul of the Man (STM) is inside the STP?" We get the man, but what about when the STP is inside the STM? What physical condition does it make? What is the man looks like inside that environment? Because, if the STP could interact with the STM, in interaction with the Soul of its environment, created the body of the man, what happens when the STP goes inside and the STM is interacting with this environment? What would we see? And what would be an structure, within the structure of the Soul, which confirm the existence, the dimension of the STP of the man?

This dilemma, once you understand it, this question, once you become to realize it, will solve many, many unanswered questions in the world of science and technology of the physical life of the man. (:20) The true essence of, in a way, how DNA was created. How does it control, how does it function, how does it carry so much information? Or, we call it DNA, it's so minute. But, that minute structure, now we have given it a code, it's a Universe itself, it's a Galaxy itself.

The reality which, now gradually in the structure of the teachings will come to, is how would shape things take time to shape, and how the shape of the things to come, will decide on the way we manifest ourselves. The way we, in a way, interact with our environment. Then, we have to understand, what is the essence of physicality. How do we manifest in the dimension of physicality? In a way, if you listen to the teaching of the past, it takes one drop to create the fish. It'll take only one drop to manifest anything. But, what is that drop? What does it contain? What is the essence of it, and what fields does it carry? What happens if I drop that in a water on this planet, and I drop that same water in

another ocean, in another planet, in another liquid in another planet? Would it manifest itself as a fish? Or it'll be nothing, dissolved and gone? Or will it become a monster? (:22)

In essence, man needs to understand the interaction of the field of Cosmos. The interaction of fields of the fields of the Cosmos, and then the interaction of the fields of the Creation, and Creator, and Cosmic Rays, and the structure of the physicality of the man. Then, you can transmute. Then you understand how to transmute. Then you understand what transmutation is. How you carry the emotion within the fields. Then you understand, when we speak about RNA, do we ?? ?? suffer, what it means. RNA, once man understands, carries the full information of the Universe, the full information of Unicose. So, man does not need, in a way, to look, to teach, to learn, some things, somewhere else, other than the Earth, or on the Universe, or on the Galaxy. Because, once it's created, once it's gelled, once it's come to its condition of existence, it carries all that knowledge in it. The way he carries all the knowledge to produce every single cell on the toe, on the nail, where the nail is being, where the nail of the hand has to be, where the hairs has to be, what color it has to be, and everything else. All the information which makes the structure of the man sits in your RNA. And as the ?? disc is ?? ready, creates emotion that creates a physicality through what we call, DNA.

So, now we are looking, now we're trying to understand, now we are developing an understanding for the RNA of the Universe. Which is within the RNA of the man. (:24) It's a part which man has never touched, because man never understood. And now, once the scientists expand this part of the technology (T), of the Creation, once the man of the science go further in developing, in finding out which rays, from where it comes, that adds to which part of the body of the man, man become knowledgeable to part of his own creation. This is part of the teaching which we've been saying for decades, that what man eats in a physical condition to feed his physicality on this planet is only 20%, the other 80% comes from the Universe. How come you know you have to take Vitamin C? How come you know you have to take Vitamin D? How come you know you need Calcium or Potassium? And your body does not know, in which fields of the Universe it needs to attract from, from the, what we call, Cosmic Rays, to bring the other 80% in.

We have not even understood the totality of what we take from our environment. What we take is not the food, the meat, the vegetables, and the fish. It's the fields of the Universe. And how has RNA has brought this and adapted it, that we absorb it without knowing? In some ways, nowadays, as I said many times before, "Oh, we see auras." Isn't that the interaction of the magnetic field of the Earth, and the Cosmic Rays with the body of the man, when they deliver the food to the man? When you have a strawberry is red color, your hand goes red, your tongue goes red, then you eat it. (:26) So, now the fields you receive from the Universe, in a given strength, in interaction with the fields from you, creates this color and that color, and so, now you can see what you've eaten from the Universe, what you've taken from the Cosmic Rays.

Then you understand how important, as I've said many times, one day I explain to you what your aura means, and what it is. Your aura is the atmosphere of your body, in

respect to its environment, but it has two environments. One with the interaction with the fields of the planet, and one with the interaction of the fields of the Cosmos. Man has not even understood this yet. That's where that 80% comes. This is where we tap in. Today we are going through the winter time. We have winter fruit, tomorrow, next month, we go to the spring time. We have the spring fruits and the summer fruits. And, in collectively, by the time we come back, in totality of one year, we collect all the fields we need for life, and we store some of it, because in winter time, we cannot take what we take in summer, but it's stored in the liver. Liver knows how to handle it. But, where is the liver of the, what we call, energy fields of the body of the man, that takes energy from the Universe, because every part in the Universe we collect certain amount of fields, which doesn't exist that much in the other places.

Unfortunately, we have not become wise in the Universe, to build greenhouses that you can have everything all the time, the way you want. Then, you understand how, if the man of the Universe become clever enough to go further, as now they tell you, "You're a zodiac sign, it's there you going to feel this and feel that." Because what fields come to you and cause you to react to it the same way. (:28) Then, how do we react in different position of our Solar System in this Galaxy and our Galaxy what fields absorbs from its Universe? These are all to come, these are the beginning of the teaching. And we are teaching to our scientists how to start analyzing this, that leads to the Creation and understanding of the, what we call, the RNA of the Universe. That part of it is us. We are not just one planet in the Solar System. We are that little part of the cell, which makes that little piece of the skin on the toe. And the rest of the Galaxies and Universes shape up the liver, the kidney and the structure of the life, what we call, the Creator. We are part of that process.

As I said many time before, the same as our body has a receiving and a disposal, so does have our Universe, so does have our Galaxy, so does us. As the totality of the Unicose have the same process. So many Galaxies, and so many Universes, in a given position and dimension, make the bigger structure of the Creation, what we call, the 'Creator of the Creators.'

The Persians understood this, thousands of years ago. And they created a name for it, which was the 'Shah,' which means the Creator. He was a God. And then they called it 'Shahanshah' (Shah of Shahs), which means the 'God of the Gods.' So what we call, Unicose is that word, which means the 'Creator of the Creators.' (:30) We have this, we understood, our ancestors in a simplicity of understanding the world of Creation, already understood this. But, as has been the tradition, names have been given, taken by the name of the Creator, to give credibility, to paths of the thinking and the belief. Look at the Islam, look at the Judaism, look at the Christianity. They all come from the same words, which originally was a name of a God. Which was the name of the Creator. And then, they made statues to confirm the existence of Creator, which they could not see, and then the man took that name from that statue, and the name of the Creator and made the religion out of it. That's how the religions are made to the names we accept.

Now you understand, thousands of years ago, our ancestors understood this. But somehow down the line, we became so narrow minded, became so entangled with physicality, that we lost the sight of what was actually there. All the names we have given to the statues, are the name of the Gods, which we couldn't see. So, we could... they couldn't see, they made a statue. Now, it's the same. You call it, in the history of Persian Empire, we called it Shahanshah (Shah of Shahs), means the God of the Gods. what we call it, the Unicoise. And then each one has a Universe. (:32) Because, there were so many Gods under that dimension of Gods.

So, now you understand. You can give it the terminology in physicality, you can give it terminology in the dimension of the fields, you can give it terminology in the dimension of the physical body of the man, it's all the same word. The man is creator of all liver, kidney and operator of it. So we are a god of this structure. But this god lives within, created by other gods, we call it, the mom and the dad and the grandpas and the grandfathers and we go the ancestors backwards.

So, in a way, it's the same with the structure of the embodiment of the fields of the Universe. We are created out of the fields of the Universe, and we are connected the way the lymph connects, feeds, the other part of the cells of the body, from the bone, to the bone marrow, to T-cell and everything else, we call it lymph going through the body, we call it the Cosmic Rays in the Universe. Because those fields feed the STM, feed the energy fields of the man. Now, when you understand this, the World of Creation becomes very simple. We are one part of a one fraction of a one cell, in a... in piece of the bigger piece of what it is, the Creator. If we can find, if we can find the, what we call, the outer shape, the outer boundary of our Universe, then it'll be that cell of the skin. But somehow it looks we are inside just the skin, they say we are on the boundary of the Universe, we are that, what we call, the fat under skin level. (:34) We are a cell somewhere in there, and that's our Universe, and the part of that is somewhere else.

So, we have given the same name, but in different positions, in the different ways, and we created the gods out of our own gods, and now we become gods, we're looking for a god to be our God too, carry on with the same fallacy. And the teaching about, what we call the Cosmic Rays, the teaching about the Cosmic Fields (CF), the teaching about the Soul, the teaching about the Soul of the Creator (STC), it's all part of understanding the bigger structure, and how it's connected. In the body of the man, as I said, you call it the lymph, because it carries the energies to what we need. In the structure of our Universe, we call it Cosmic Ray, but it's the same thing. It's a soup of energies, which everyone takes from it what it needs. That lymph, when it comes to the shoulder, or comes to the heart, become the cell of the heart. We take that Cosmic Rays and become, use it for the cell of the heart, but in the dimension of fields of its energy, and the same. So, in a way we receive two lymph's, one is the lymph of the Universe, one is the lymph of the physicality of the man, because the lymph of physicality of the man has taken tangibility through the conversion of the fields of itself, and what we call the Inertia of the planet. In the dimension of Gravitational Magnetic (GM) fields of its structure.

If man understand it, if man goes to the next process of understanding, what is Inertia, what is the salt, what is the field of Cosmic Rays, and what is the emotion, man will be able to transmute in any point, at any time, anywhere in the Universe. (:36) And then, do we need the gods, do we need the religions, as we understand the process of the Creation, as we are part of that created. Without that cell on the tip of your toe, the skin doesn't close, it's a leakage, and the rest. And we even have developed a system in our body, that we can immediately close a hole. We bleed, we put lymph in there, and we make another skin. Patch it up. It's like being in a ship, and there is a hole in the hull. What do you do? You wait till it sinks? No, you put something in there to block it. Our brain automatically blocks it, make a new skin, repair system.

So we need to understand how and why we have given so many different names to the same functionality. And then, you understand how simple the World of Creation is. It's us who has made it complicated due to our own lack of knowledge and ignorance of the Creation, the process of Creation. So, when we start talking about Cosmic Rays, Cosmic Fields, speaking about lymph's, and how lymph's spread and deliver energy and fields and take what you don't need, back to what you need and where it goes. Then you understand the world of science does not create what we call, (:38) those who don't believe in God, don't believe in religion, we don't become atheists, but become the... those who understand the existence, the true essence of Creation. That it brings us to understand more about the true existence than being atheist. And those who cannot understand this, they become the enemy of the scientists who try to explain where and how and the things have to be. So, do we become atheist, or do we become man of Space? Or, do we still, the way we do, create churches and hospitals? Prayer rooms in the airports for the Muslims and the Christians and the Jews?

Then, it shows that we have not understood the process of Creation. And, that hypocrisy, that lack of understanding, has brought us all these miseries. And those who understand the lies, the cheats, on the name of every religion, use it to the best of their ability. Because, as you don't know, I can abuse you. As you don't know, you pay more. Because, as they say, it's very much like, you're getting in a taxi in Bucharest. You get in a taxi, it takes you from airport to the hotel, it's \$10. You get on a taxi, you go the same route, sit on a taxi, it's \$20. (:40) Because you don't know, the guy doesn't need to go around the city to take you to the hotel. When you sit in a taxi, watch how many time the taxi driver pushes the window up and down, beep, beep, lights, because he's connected his meter, through your ignorance, to this. Every time the window goes up, you pay one dollar more. But it's the same route. If you're clever, you know it's ten dollars, "Stop playing with that window, I cannot be fooled." Then you see you pay the same fee. Then you understand the process. And this is how we've been fooled, by those who themselves didn't understand, but they're told, they've been told how to fool a man, going from A to B.

An apple, which I eat half of it, and you eat the other half, creates the same lymph in your body and mine. In different strength of the apple you use, I use different strength of it. I'll be brown and yellow and you'll be white and blue. But, at the end of it, it's become part of our lymph, it has become part of us. So, when we start talking about Cosmic Rays and

Cosmic Fields, in the world of, if you don't understand it, it's too complicated, call it a lymph. And then, in a lymph you have radiations, you call it Vitamin B, you call it B12, B9, and everything else, so that becomes, comes in Cosmic Rays. But, what you gathered as lymph is your Cosmic Fields. There is no difference. (:42) I told you, we never teach you anything which is not there. This is why we open your eyes to understand it. And then you understand why I always said, 80% of what you eat comes from Cosmos. Because you just put the seed of it, you create that electron, you create that little thing, that the bigger thing has to feed it. You put that food in the stomach, convert it into a Gans, a Plasma of the fields. Now it says to Universe, "I'm a little one, feed me to here, this is what I need." And then I add this, to feed the energy balance of DNA of the Universe within my body.

And then you understand, how your Soul is connected, through the fields which come to feed you, they come to, in essence, deliver energies of the Universe to RNA of the fields of Universe in your body, from our ancestor's side, become the connection of you with the Universe. Then, man does not need to understand much, to become the, what we call, Passenger of the Universe. We have, through our own lack of understanding, through our own conduct, have blocked that passage, have blocked to see what's on the other side of the wall. But, the light, the energy, still comes through that wall. It's us who have blinded us to see what's behind it.

Now you understand, how beautiful the knowledge of the Creation is. And you do not need to be, what you call it, a genius to understand. You just need to understand, how the fields in different condition interact, and what they lead to, that when you go through a transmutation, you come to acidic environment and you say, "Oh, if I come in the alkaline, the way I was on Earth, (:44) tch, there's none of me, I better change, I bring another dimension of the fields out of me." Then, you transmute, you manifest yourself in the dimension of the time, place and space. Now you understand how sweet it is. How beautiful it becomes when you see the bigger picture. But, we have to teach you, step by step.

You think, talk about the Cosmic Rays, we've been talking about the field feeding the man. Now you understand what is feed you at ?? tuned, what you call, 80%, is the Cosmic Rays, which is embedded within your body, this is embedded part of the energy feeding of your central position, in a way, the 20% is for your matter state, the other 80% is for the Soul of the structure of your cell of your body which feeds the STM, which connects you to the Universe. You are 'two track-minded horse,' the physicality and the Energy, and both needs to be fed. If one is not fed correctly, this is what happened to you, you get dead. You leave the physicality behind, ?? it's a ?? bull. The energy field goes, your Soul leaves the body, the energy leaves the body. And then you leave the physicality behind. But the interesting thing is, you go somewhere else and you start another physicality. Because now this thing has to interact where it goes, with what it interacts. So, you are not out of it, but you're in a bigger mess, in a bigger environment. Here at least everything was made for you, the planet made the food, the cow and everything you ate. Now you are out there on your own, as an energy and you have to feed it. And then

somewhere, in the interaction of Totality, you have to manifest it. (:46) As a dust, as a Soul, as a planet, as a Star, or as another creature in the Universe.

What happens if your Soul matches into the environment of the ocean of another planet? And you become the seeds of life in that river, in that ocean, that starts a new generation of life. Would most of the Souls which leave this planet, end up in that ocean to create life in that ocean? Now you understand. Transmutation is in reality what happens to you at the point of death. Up to now you didn't know where you go, now you know where is your destiny. At least you can see where my Soul will end up, with my conduct, with my life, with my existence and the presence.

In a way, what we teach to understand the bigger picture of the Creation, is for you to see the future, to be able to see the future of where you're going to end up. And, would you change your conducts if you see where the end is? Because this physicality is demise. When man become wise, would he be able to create a condition to hold the STM within the confinement of a system? (:48) And then elevate it to the level that it becomes a perfect Soul to start a new generation of life in the Universe, when it transmutes itself, and when it creates a new dimension and position. Yes, that can be done. And this is part of the work of the Keshe Foundation, which we are teaching you. You can't see. It's a structure which is set up, and gradually you'll get to that point.

When we tell you, "You are free to go where to go," it's the first time ever you see your destiny. You have a future in front of you, what is to become of your Soul. Did you end up in those trips in a desert? Or were you part of a life in an ocean of life, somewhere else? You've seen your future, but you call it a dream. But this time, you are in the, what we call, controlling seat. Where it will go, and I do not like what's going to happen ?? with it, I need to perfect it, that it goes to become a, what we call, perfect condition for life.

Now you understand. Now, maybe you understand, what all the Cosmic Rays is about. You went to United Nation, they took a swab of your saliva and they said, which way your ancestors came. And where is your origin from, which lake and which way. They took all the way through Asia, through North Pole or through Europe. You became blonde and blue and Chinese looking. Now, if you understand the Cosmic Rays, you can trace back the origin of the life which led to the creation of the ?? man. (:50) Where did you come from? In which essence of Creation? Which, that essence of Creation still feeds you, but it needs that little trap to know where it comes, and you call it a food. I take Vitamin C, I take this and that. That's 20%, then you know what is ?? seed to get the other 80%.

I hope today you understand more, the purpose of the teaching. Why are we going very slow, and slowly, slowly, every teaching, we're opening a new door. And then you wanted to understand what a Cosmic Rays and Cosmic Fields are? These are the path to your ancestors of the Universe. Where you came from, and how they're still feeding you, without you knowing, through what you call the RNA, through what we call the Magnetic field of the Universe. When you're in a womb of the mother, she doesn't come

and spoon feed you in the stomach, she delivers the energies that leads to the creation of you, to the existence of you, to maturity of you, and to completion of the life of you in the womb of the man. So it's the same, the Cosmic Rays feed the STM, in the womb of the physicality of the body of the man, ready for his next generation.

Now, we become more and more mature, to understand what the teaching is about. And now we develop technologies to track back, which part of the womb of the Universe is feeding us, (:52) and what we are getting from it, and which part, if we do change, allow us to understand more fields of the Creation. So, now we still have a problem with Cosmic Rays and Cosmic Fields, now you understand the essence of the Creation, and what we call the evolution of life on this Universe, on this Galaxy, on this planet, which has ended up in the dimension of the ?? Magnetic field Inertia of this planet and it's... that has led to creation of the man, and in a plasmatic field of itself, not in the matter state of itself.

One day, I will explain how you can become a stone, while you're standing in ?? your ?? stone. And how you can make a life out of the stone. A living thing, a living being. Because, if you understand the process of the Creation, this is nothing to do, it's just understanding what you need to do, to allow that life, that combination of the energies we call, the atomic structure to take life dimension and then manifest itself.

I always said to those who understood, maybe some of you are ready to understand. They say there is nearest amount of one nail iron in the body of the man. If you know what to do with a nail on the floor, you can make a man to live from that nail. We can lead a life out of that. Because, in the nail is in the matter state, in the body of the man is in the plasma state, (:54) which has a different volume, different interaction, and different life and condition. Now you understand, how simple life is, and how it shall be and how it'll become.

We go for a break, we come back and answer any other questions, and don't ask me, where your ancestors comes from the Universe? You're still in the womb of the Creation, you're still getting fed. It's nice to be in that womb. Rick, if you take us for a break and we come back.

>> **BREAK** >> 532 KSW April 04, 2024 (1:01).

K- ... There's something here, we just run... We start delivering the material from, what we call, the Cosmic materials (CRPm), which we said, sometime in next few days. The first batches will leave us, once we confirm, what we call, the containers for it, so we can ship. So, those of you who ordered these materials, you start receiving them. I advise you, please do not touch the seal, keep it as it is, because these have a value beyond the price. And what you need, what can do in the future, they have much higher value than you could ever imagine. So, the, what we call, the... (1:02) What you've been ordering, we'll start delivering in the next couple of weeks, until we start producing, and it takes time for it to be produced, and hopefully we come to the point of, gradually, next few weeks and months, meeting the demand which is created. But please understand, these (are) worth more than life. If you understand in the future, what needs to be done with it, And those of you who possess it, hold it closely to you, as a... it'll be a future of life line for man. In different, what we call, dimensions and different interactions.

Any questions? ... Are you there?

Q: ... Hello Mr. Keshe, we were talking at the American teaching last Sunday, about the differences between the amino acids (AA) in our RNA and DNA. And we know that RNA is linked to our emotions. But my question is, how are the work and the behavior of the Cosmic Ray materials (CRPm) in our DNA and RNA to expand our Soul? Thank you.

K- Can you explain what it is?

R: I think she's asking...

K- It's ?? . (1:04)

R: How does it work, or what's the behavior of the Cosmic Ray materials in our DNA and RNA to expand our Soul?

K- We use different strengths of the, what you call, Cosmic Rays and Cosmic Fields, for different purposes. Some of it is in the spectrum of the DNA, and some of it is in the spectrum of the fields of RNA and the STM. It's not something you can target, it's a natural process of interaction of the fields we have. It's not that we make specific or we can target a specific. It's as it is. We are created and we absorb ?? certain given field strength.

You create the emotions, you create certain emotions. Those emotions direct the delivery line. But, they are not the creator of that point. If you understand this in the process of, let's say, a breast cancer. We have the emotion in respect to our partner who was betraying us, or playing outside, or we feel is. And so, we create emotion that, "He enjoys

my breasts, so I cut him off it, I don't want him to ever touch it." "(Because) he's enjoying another woman." So, you get a divorce, or, (1:06) "Children are here, I have to tolerate it, but I don't want him to be there anymore, and I don't want to be under the condition where another man do this to me." You're directing the emotion to the Gravitational field of the rays you receive from the physical lymph of the body of man, and you create a tumor, you create a new cell. Where eventuality leads that you (he) cannot touch it (my breasts). Or you put it on the other side. "I've seen so much pain from my mother, that, or I've seen so much pain from my daughter, that I don't want to create another one, or be created ?? from another." It's the emotion.

In so many ways, we decide, in the direction of the conversion, and if we change that emotion, we can change the cancer. Because, it's what we create. We were created out of the emotion of the love of two (parents), which became the seed of that emotion, us. Those of you who are children of love. But we do the same. This time it's us, within us, who does this.

It's very interesting, we have endeavored for this to show, in the last Friday, in the Monthly (Flight) Sessions. (1:08) And then we see how they react in the next Monthly Session. And it was very simple. We asked them, we put them through a system, through a process. And then we told them what to do and see how they feel, what they feel. And then we brought it to a physical emotion, how they feel, what they feel. As we say, we let it do in the Soul, in the energy field of the man. Let's see how it reacts next time. Because you can connect to, you don't need a line of ?? communications. And then you understand more of it, and how it's going to be.

So, we decide, in so many ways, what we want to receive and how, we want through our emotion, connect to the fields of the Soul, and add to it, through the Cosmic Rays. You can do that, any of us can do that. The way you decide, "I want to have a Vitamin D and the energy of the Cosmic Rays of Vitamin D to my, for my physicality." Once you become wise, you can direct energy fields for the elevation of, or in a way, receiving by the STM to elevate himself. To understand more, elevation comes from understanding, comprehending more about the Creation. It doesn't become that, becomes a bigger Soul and takes over the Universe. (1:10) I hope I managed to explain to you exactly what it means. It doesn't need AA, but it needs understanding, the process of the interaction and involvement of all the fields of the Universe. Partially we use for the fields of the physicality, and partially we use it for what we call, the fields of the physicality, or we call it the Soul. Or the STP of the man.

Any other question?

Q: ... (I don't speak English). What does it mean when a person passes away on the day of another person's birthday celebration? He says, for me it would be very helpful, many thanks. ... Would there be any special meaning to that event?

K- <<<< Yes, so can you check what's going on in the chat, in the background? ..
Mr. Keshe stops the Workshop to ask the Italians not to chat too much on the Zoom chat

... Can you tell us what is going on here, because it seems to have become a very private Chat. (1:12) It's not .. R: Yeah, you guys need to have a different place to carry on your conversation ..)

R: ... The question is, "What does it mean when a person passes away on the day of another person's birthday celebration?"

K- Not much, it's just. It's strange you're bringing this up, today is the 4th of April, and today is a celebration of the 16th year anniversary celebration of MOJHAN, which all of you want to be. He passed on the 40th day of the passing of his mother, my brother. For years, I was .. because the 40th day of respecting the death of a person, in the Iranian culture is very important, and on the 40th day (of his mother's death) he died. Out of nowhere, through a heart attack. But, the question was that, why the Soul decided to leave this day? Or could it be a birthday? Is it adding to a Soul? Or in fact joining a Soul? (1:14) Or in that dimension of a birth, receives a dimension of the Soul which has no interaction with that condition of birth. You take the meaning from it, the way you like. We see a lot of in long term, when a grandchild is born, within a few weeks, before or a few weeks after, one of the grandparents dies. And they say, "Oh, he was aware of his, seeing the Soul and the rest of it."

But, what does this do? Why do we... what does the point of departure is? I was contemplating on this for past two or three days, because, every year, when it comes to 4th of April, it brings a lot of memories, a lot of joys. But the question is, why that day? Could it be another day? But what energy, what fields does it give to? Or receives from that birth that allows to free itself? Depends how you look at it. (1:16) Is it the birth of one? Or celebration of the birth of one? ?? Intention of the fields, allows maturity of another Soul, for it to depart from that point. Become a, what you call, a counter-energy, which is received for that, that piece which was missing for elevation. Because, as much as we release energy when we die, in a physical dimension, we bring with us a lot of energy when we are born. That process of birth tunnel is releasing a lot of energy, it's not just the physical body to be born, a lot of energies which is gathered in that, release that. Who receives it? Those who are connected to it. And how close is that person to that time of birth?

So, we have to understand, the... it's not just the physical dimension. When we die, we release the energy from us, part of it goes to the people around us, and part of it as an energy, becomes a point of a Soul, or what you call it, another life in another dimension. We receive a lot of fields at the point of birth. And, depends how that energy is gone, and how that energy is spread. Is not just the physicality of manifestation of the body, .. that womb of the mother, that environment of creation, has energies which is releasing. (1:18) Some of it is released so much that affects the emotion. And, part of it is at a strength which releases another Soul, maturity of a point in time and place.

So, we got to understand the Totality and even with that, we cannot find answers to all of it, just to satisfy our, what we call, intentions, or our emotion. And, what effect that birth gives you, and what effect does that death brings you, departure of physicality, and

another life. And how do you receive that? That emotion, are you prepared for it? And what that does, connect to another ?? birth ? It's not so simple, but somewhere needs a lot of understanding of the Totality. and structure of the Creation, and how we receive and what we give.

Any other question?

Q: ... How important is it for the transmutation process to learn to synchronize the two halves of the brain? (1:20) Do you have any advice how to do this? Thank you.

K- Pardon .. (repeats question)

Not really, because it doesn't work that way, it works with the expansion of the Soul, how you allow it to expand. And how much you are, you want to be in control of. We see this a lot. We have seen this in last Thursday (Friday) test, it was amazing what we saw. How people allowed the... because last week was totally, what you call it, to do with the physicality, the test, and how we control through the Soul. And what we see, with the expansion of the Soul, different application of the physicality.

It was very interesting to see that, more or less, during the process when everything was on a go, on a run, how the, what you call, the people interacted with the system. (1:22) How... I am trying to explain it in a way that makes sense to Knowledge Seekers (KS) in a... When we looked at the graph, during the process of last week, because each time we see the system in a different way, was that... At the beginning, we see the normal operation, you're all in mayhem, till you get fixed, until we see the expansion (of the Soul) and the process. Then, once we reach the point, and we manage to get you through, we saw the STM, because it was set up for that purpose, was working directly with the physicality of the man. Because we're totally physically involved. The whole process of last week, was in how we can change your physicality. How we can control, feed the Soul, feed the physicality, and how we can change emotional conditions, through the energy received by the Soul to the physicality.

And it was very amazing, that STP was encapsulated. (1:24) It was like two-way communication, only between the Soul and physicality. Because, usually in other processes, other tests we do, we see the STP and physicality always interact with each other with the Soul. But it became a, what we call, two-way chat. And, when we came in to interrupt the physicality, we saw everything collapse, because it was totally physical time.

Last week, test was amazing for our data. And how we do it.. As I said to people who are involved in this with us, in the background, I said, "Now we have a confirmation, that man can be fed through the Soul to his physicality." The reason we did this, Israelis disconnected the Keshe Foundation from the way we tried to do. So, we went through the, what we call, the next generation of communication, which is the Cosmic Rays and through the intention. We watched what's going on, because, we knew we have reached the Soul of Palestinians. Because, it went to them, they needed the food. They didn't need so much medicine, they needed the food.

When we went, when we left for the conference in China, we closed the whole laboratory, that there was no interaction. There was no one to interfere with anything. (1:26) When our team came back the first day, the reactor which was set for feeding only, because there's another reactor for what we call, the Wellness side, they were both filled up the same, they were both had the same capacity, the same thing was the same. The food was half. Which meant we have already have fed millions. Those who knew they have got it. There wasn't that much need for the Wellness side. We had to refill the feeding side.

And when I was told, this is the first thing we observed when we... they went back after 10 days, because our team, the whole laboratory was closed for 10 days. I said, "We achieved what we came here for." And now, we filled it up, we're still feeding. Because, the Palestinians have the connection line. They made the connection line the way we wanted. We can feed millions in this process.

Why didn't it happen to the Wellness side? They are connected, they are next to each other, one system is set through the STP, one system is set through the what we call, the need of the man, in another dimension. So, we see how we can control one to another. (1:28)

And it was very easy for us, when it came to Friday session, to get the confirmation of the same in a systematic system, because we see people connecting, we see people taking food from our system. But, there is a different amplitude, different, what you call it, a graph, where it's hundreds of thousands, and when there is no one, and there is a single person. How we can elevate the Soul, now in the next cycle of the test, in the next few weeks. And then how in between, you can transmute. The process will be hand in hand.

This is part of, as I said, cycle of the understanding, the teaching of what the Keshe Foundation is going through. And many of you wanted to know how we connected. Yes, we have connected to many Palestinians and they are eating. They are taking what they need, consciously or subconsciously. And then we'll see the data when it comes up in the coming time.

We set out to feed and there was no one in the lab for those ten days, to do anything, to change anything of the environment. But, the system set up through what we call the Cosmic Rays, set up through the Cosmic Fields, has delivered what it was set for. (1:30) The energy of such a vast amount of Gans's, cannot disappear nowhere, even though, there's another one next door of the same. The one which is set up to feed, has fed. And those who wanted it, have received.

Any other question?

Q: ... Is the Soul in some ways physical, or is it a Plasma? And if so, would the Soul be a combination of all the fields in our Universe, and therefore a permanent self-replicating system?

K- ... In the physicality dimension of the fields of the brain of the man, you're energy. If I can, if I can move, or change the environment of the brain of the man, the skull of the man. Let's say, you are traveling in Space, in the body of the man, in the brain construction, and you fall out of the plane. On Earth, you get the G-Gravity, you fall and you tear to pieces the physicality. In that position, the field strength of the environment, in a way, your brain cells, your AA which has no condition, so now the Soul is interacting with the fields of different strength, (1:32) different dimension, and it manifests itself in the shape of whatever.

It's very much like what I said, that moisture in the room, you change the temperature, you get the ice on the window, you change the temperature, you get the steam and you change the temperature, you see nothing, it's just there. It's the same position, same combination, the same understanding, when the matter state is a Magnetic field strength of the environment, of the Gravitational field, of given position in time of the Earth, in another dimension is the same, but Gravitational field of the position and dimension of the place where you land. And you can, in a way, remove a Soul by changing the fields of its environment, to contain it and manifest it in another position. Man will be able to do that in the coming time.

In a way, the way our blood is controlling our, what we call it, confining our Souls, according to its strength. And the way we're doing in the Head Units, in the... in more sophisticated, in the future, you can actually remove that position. It's... people don't understand and if we talk about it, what can be done, then that creates a lot of problems for the ?? ignorance. But, in the future this is one of the positions of even those who you love. In the dimension...

Somebody told me something very interesting, (1:34) sometimes, and I answered it this way, maybe this answers you. They said they kept the brain of Einstein, that one day they can do. What can you do with something, which never had a Soul in it to start with? A correct Soul. That Soul is gone, it's not there, it's just keeping the physicality. Isn't the same as what they did with Lenin. Chemicals did not hold the fields of the Soul.

And in the future, man will have the knowledge. It's what you do yourself in transmutation. But, in that process, you can, at the moment, we've watched the death of a man, in an accident of physicality, it's there, but we are watching it because it's not complete. And we can, in the future, remove, create a condition of the fields, that the Soul can be given a place of comfort, existence. And maybe we can fix the physicality and return the Soul back into it. Don't we do this with the heart of the man, which controls the STP? In time, it'll be done, but man is not ready for it. Can be done.

Any other question?

Q: ... How do we come to understand Totality? (1:36) What are the teachings? Do all humans have Souls?

K- Yes, of course have Souls, without the Soul we cannot exist. Is there a Solar System without the Sun, as I always say? So, yes. Unless your Italian and Vatican tells you something else. Your Soul is kept in with the Pope. We all, we cannot exist, if we didn't have a central control.

You got to realize in a dimension of physicality, I've said before, you have the Carbon 12 (C12), or Plasma of the C12, which makes the body of the man ???. You have the Plasma 14 (C14), what we call, Cosmic Rays dimension, which is on the strength of the ??? beam of the energy of the body of the man. And then, when these fields interact in a specific way, they create a physical containment, which what we call, the C60, as it'll create the dimension of physicality.

And then one day I explain what this means, if understood. And then if you do a combination of the same thing, in the different structure, you get the 360, and then you get the combination of the field dimensions to a bigger one. (1:38) So the field changes to physicality, containment and the rest. And this needs a lot of understanding.

In a way, if you understand it from a ray, you can create a physicality. But that needs a lot of knowledge, understanding how to bend it, to create that condition. The same as you come from a crystal structure to singularity, you can go from singularity to crystal structure, it's a containment or manifestation. This needs a lot of understanding.

It's very easy to teach once you understand. And, this is the cornerstone of the, if you travel with the dimension of the Spaceship, as I've said, in the coming time, when we build the Spaceships, there'll be no air hangars to build something in it. We build it from the rays, to become the physicality of the embodiment of the flight system.

Any other question?

Q: ... Is the bombing of the World Central Kitchen, when it was reported I felt the energy of Christ. It touched me deeply and the only other time I felt this is when Princess Diana died. What are your thoughts on this global connection of love? (1:40)

K- You got to understand, with ??? , we will see a massacre in the next few hours. We're expecting a blood bath in the few hours to come. And, my advice has been, not to go the way it's been decided, but it's decided because it has a future of a lot of things. It will be the end of the religions, in a way you will understand very soon. Tel Aviv will not exist as a city very soon, that's for sure. And, how much damage will come to cities of Iran, we do not know. But for sure, Haifa, Tel Aviv and other cities, if what is on the card we see, will lose huge amount of lives in it. It's just that the clock has started ticking. And this was initiated by Vatican. And we will see how this war of religions, proxied by Vatican, delivered by Tel Aviv, and played by Iran, will come up. If, what is on the card, if somebody doesn't stop the process, we will see, the, what we call, if you're worried about the six people in the kitchen, the whole bedrock of religions will shake. We'll see some world leaders will not be world leaders, if it goes the way it is within next few days. If somebody doesn't stop it, (1:42) which a lot of people are trying to stop it, but they can't

stop it, because what we call, the last, what we call, arrow was shot a few days ago, to make sure it happens, and the foolish people are playing the game. We will see, we see a slaughterhouse of religions. But this time, all three of them are in it. And, what we call, how it will take shape, we'll watch by the next teaching. Would there be, in the state of Israel, leadership the way we see it, we know it today? Would there be another state? Would we lose hundreds of thousands of lives, sponsored by religion? It'll make the six people died in the kitchen, literally child's play.

Our advice to the Iranian leadership is to withhold. We have given categorical requests to the Iranian leadership, to Ayatollah Khamenei of Iran and the Sepah to withdraw. But the plan has gone exactly what they thought. If this takes shape, for sure Tel Aviv will not exist. We know what is going to happen. The structure was foreseen by us in October, November of last year. And, we managed to convince the Iranian leadership to hold back. But, destroying the Iranian consulate Embassy in Damascus in past few days, (1:44) has brought a new dimension. And all these killings are deliberate, 'poke and poke' till it's done, because Vatican is going to make billions out of it. The losses they made in Ukraine, they're hoping to make with Israel.

And, we have to see if next Thursday, I hope it'll be the same as this Thursday, but from what we see, and the, what we call, if Iran bites the bait, there'll be no Tel Aviv by next Thursday, that's for sure. Or, there'll be massacres in big cities across Iran and Israel. And this is what Vatican wanted, to bring these two to head on, that it can bring the Christianity out the way it is. But with this, it finishes Vatican too. This is why Vatican pulled out of Ukraine, a few weeks ago, ordered the end of the war in Ukraine. Because they concentrated, they changed their bet into.. They paid the Americans that the Senate this week, or early last, late last week, delivered a massive multi-billion weapons into Israel. Then paid by Vatican. That's where the money came from. It didn't come from American accounts.

So, you're worried about the 6, how you feel. I'm sitting here watching, would we see what the Israelis plan, with the Americans to get involved, to bring the Russians, and the Chinese into it? Will take shape the way it is? (1:46) Or with the advanced technologies we see in the hand of Iran, a lot of things will be done not the way man ever knew. And this is what I said, we see the end of the position with Tel Aviv leadership, and how they will carry it out.

And where I sit, I've been trying to, we've managed to keep Iranian off this line for nearly five or six months. But the attack on Iranian consul has brought a new dimension of what we hope will not take shape. But if it does, the leadership map will be very different in a very short time. They're preparing for it. But would it go? As I said to one of the military guys very recently, the American says, "We know nothing about, we knew nothing about Damascus, but we approved multi-billion weapons sold to Israel." It doesn't work. And, I think a lot of, a lot of fireworks will come up, and let's see how these three religions use the ?? stupidity of each other to do. Because, we're, for sure, the Russians will divert a lot of weapons directly into Middle East. As we've seen, their forces are coming to Indian

Ocean, and they're there to rub shoulders. They're not there for the show. And we'll see some of the most advanced technologies in the hand of Iran will come into play.

The Americans will be puzzled in how these new technologies will change their superiority. (1:48) But we have to wait and see. And I felt what you say about these six people, but don't worry, they killed more in the past before. Eight weeks ago, they bulleted hundreds, last week again, more people in the queue to get fed, they were killed. It's a pattern, we poke and poke and poke, till we get Iran to play, and Iran is going to play. But, Haifa and Tel Aviv will have a different leaderships in a very, very short time. If Iran bites the bait and it looks like they might have already bitten the, what we call, the bait. We have to see how the fish will shake and shiver. It'll come off the hook, or we'll take that hook with it.

Any other question?

Q: ... First of all I thank you from the bottom of my heart for everything that Mr. Keshe is teaching us. I participate in the elevation at 9pm Brasilia time, 2am CEST. And in the opening I can see several different faces with us and I would like to know how? I would like to know if it is normal for us Knowledge Seekers to have this visual contact? (1:50) And I would also like to know if it is the elevation fields, fields of the group meeting?
K- I don't understand it.

R: ... This person sees in the opening, says, "I can see several different faces with us." And, they would like to know how they're able to see these faces, and if it's normal for Knowledge Seekers to have this kind of visual contact. Or is it only in the elevation of the fields of the group meeting? So would this be a personal thing? Different people have different effects and perceptions that they might have, depending on their life and abilities?

K- Oh, I think so. I think so. I don't think it's to do with the way the structure is set.

In the next few days, those of you who bought the Communication Units and the UBESUS (Universal Body Enhancement Spaceship Units) Units will receive the other half of the systems. And then we'll bring you how to use, how to interact, and how to use the new Communication Systems. (1:52) You cannot use the UBESUS systems for the Communication Bundles. A lot of people think they can do this, they cannot, it's impossible, it's not set up to do that kind of thing.

And, from the communication point of view, we bring a lot of new dimensions. We'll set up a background, once everybody receives this, and how they connect to each other, and how a new method of communication will be developed amongst those who have the Units. And how they interact, how they communicate. And, you cannot transfer your illnesses to somebody else because you use the Communication System, you cannot use it to heal somebody. So, it's a different understanding, a different process.

And then we set up this International, what we call, the new Plasma Technology Communication. Then this answers you. You might see each other. In that level of connection, you might feel each other's emotion. And then the better you get at it, you can visually see physicality of, in the energy level of the Soul. And what shape you gave to it. It's the same as you contact your mother in your dream, is a contact between the energy Souls. But then in the visual part of the connection, you transfer that information, that's the mother, you make it a child, ?? your mother. We bring this, what we call, Communication Bundles, this technology forward. Now that we are ready, and we have delivered the first half, now the second half of some of it is going out, but to explain to you what is about to come.

Those of you who bought the, what you call it, Communication Bundles, (1:54) you're in for a treat. But you're not there to use it for healing somebody, or going to the UBESUS, no, it doesn't work that way. But it's a new communication system, which you can... The same way, it's nothing new, you do it every night, you dream of someone, you have a physicality of this person, this thing, the things you do with it. Now you get that with another person who has a Communication Unit. So, if you have a Communication Bundle in Mexico and there's one in Australia, if you learn, if you connect the right way, and if you understand what's happening, We can literally feel the emotion and everything else of the place. It's very, very interesting what is to come.

Then, yes, we can visual people, because you are there. And you can connect to 20 of you, all at the same time, because you all want to be in that line of communication through the system.

Any other question?

Q: ... Hello Mr. Keshe, I'm Hong from China. In the 202nd Knowledge Seekers Workshop, you told us how the STM is created and how it absorbs environmental fields to nourish the fertilized egg cells, which continue to divide, ultimately creating a complete physicality. This suggests that the STM naturally possesses the ability to nourish and create the physicality. (1:56) If that's the case, why does this ability seem to cease functioning after we are born, and separated from the womb of mother. You have developed the Plasma Headphone System, and are in the process of establishing a Global Plasma field. Is one of the goals to enable humans and animals to regain this innate ability, to create and nourish our physicality?

K- On the UBESUS we are doing, yes. And through the new system, as I said with the Palestinians, we have a 100% proof of it. Can be done in the next cycle. Those of you who joined us last week, last Friday, we asked for two specific things in two sets. And it was specifically done for a purpose, why we chose the two, and then another two. And the third session of the day was left to you to decide, by pointing it. So yes, you can. and it's part of the, part of the UBESUS setup and feeding structure which now, we have seen it 100% proven to be correct. We develop the technology and you are the test drivers, you test it.

Any other questions?

R: So why would that ability seem to cease functioning after we are born? (1:58)

K- I have a very funny, what you call it, say for this. It's very funny but it's partially the truth about it, if you understand it. When we are born, what does the mother do? What are the first reactions when your Soul is fed by the, by itself within the womb of the mother, in umbilical cord, you're born and then they cut it. What does the mother do? In the Russian technology of the birth, sometimes even a lot of Europeans nowadays do this, they keep (give) birth in the water. What about if we give birth in the fields? That when a child as it's come through the birth tunnel, learns to feed itself, through energy ?? level. But now what the mother does? Takes that umbilical cord, cut it off, and put it straight away on the breasts of the mom. You get no chance to expand that Soul, to allow that Soul to feed the physicality.

In the future, when now we have incubators, we put the children in it to survive. We create a condition that, immediately the child is given to learn how to use the Soul to feed itself, because it's coming with it, then would we rely on the breast of the mother? Then, yes. (2:00) It will bring a lot of changes. It'll bring a lot of changes, once we learn, And we keep to that, then we don't need to rely on the physicality of the milk of the mother, we still live the... we still get the love of the mother through the emotion. And, yes, we can survive without it, but the first thing we do, we suckle it.

Any other question?

Q: ... Hi, how do the emotions create the Inertia to absorb the Cosmic Rays and the happiness of giving it back out. Maintain it.

K- This is there. I understand it. This is the part of the teaching we'll teach in the coming time. Many of you know it, many of you have worked with it, many of you handle it, but you don't see the principle of it, and that's why you ask such a question. It needs maturity, it needs a little bit more teaching, and then you'll come. (2:02) What I see, maybe by the end of this year, or beginning of next year, we can explain this. But it needs a little bit more understanding, we need to explain a little bit more. And partially, hopefully it'll be shown in the next conference.

In a way, if we get to that point, and the maturity gets there, the way we gave you the Units in China conference, and you decided to sit and go, by the way you did, will bring it to you that you, through your thoughts, will manifest the entity, physically for the others to see. It's very normal, it's very natural, but that comes through emotion and what we call, Inertia.

You know it's not very far, if you understand. You create a tumor in your body, now we create that condition of body outside it, we create it inside, what we created ?? . And then, one of you for sure, will decide to manifest Christ. And then you'll see the true feature of the man you all been wishing for to see. And we know who that person is. And

I'm planning it that way. Sooner or later, I'll bring you that. And I promise you, the Pope will deny it, and everybody else will do, because then they don't exist, if the man they say, who they are, if he is there, they have no essence to exist. I know one person who will do that. (2:04) We are setting systems for that eventuality.

Any other question?

The technology development is moving so fast, that we will leap on. If anything happens to Iran in a situation to come, we'll move the presentation to another destination, and we'll still comply with what we said. But let's see, let's see what next few days hold.

Q: ... Do the cells open up and become transparent, as they go from matter state back to Plasmatic, when transmutation happens?

K- Watch it when it happens, then you tell me. You will see very soon.

Q: ... If the event happen, (2:06)what you speak about just now, and that's the question,

K- What event?

Q: Between Iran and Israel?

K- It is now, it is now on the card. We just got to wait. We just got to wait and see how they decide to take shape. But, we see a lot of things which is... You have to understand, when these people poked in the Damascus, they just didn't do it. They had everything set up to bring the trap in. You understand? The hitting of Israeli, what you call, Iranian, consular embassy, killing one of the Iranian, again another one of the Iranian Sepah leaders, it wasn't just done to do. It was done, fully premeditated. All the American nuclear warheads are faced towards Iran. America saying, "We didn't know." It's all a fallacy, we'll see. And the Iranian new technologies will show where these weapons will land.

It's not that we didn't know and they did. They just, you know, happened to bomb the... You could say to a school child such a thing, but you can't tell to the people like us, who sit in different dimensions and understanding of the process. And they prepared themselves, what will happen. But the thing is, they never seen this new technology, how far it's going to hit. (2:08) If Iran moves to use the new technology which is unknown to the West, you don't stand a chance. If Iran decides to use a combination of the two, again you don't stand a chance. And if Iran decides to still do it the traditional way, then it's a bigger mayhem for the Iranians. But all American Israeli nuclear warheads are targeted towards Iran's cities. That was the order of Vatican. Vatican only pays if this is done. It's a one-way ticket.

Q: This is the question, this is one-way ticket? And everything will be changed after this?

K- It's already been bought. And you've got to understand, there is a position. Israelis don't have a long range missile to reach Iran, or planes to go back. So they need refueling tanks which the Americans have given them. They move their weapons to Erbel (in Iraq), that it becomes closer. They're using Erbel as a base of launch. We know this. We have all the data backed up. They moved a huge number of their military into Azerbaijan as a nation, not Azerbaijan, of the Turkey. And it's well expected. We already seen a few hits. But we are well aware. You got to see, they're trying to come in from different directions to make sure Iran is wiped out. This is the cornerstone of Vatican. Vatican wants to see the end of this, (2:10) because they have a different agreement with, what you call it, Mecca, or the Saudi family. The fake opening of the embassy, Iranian embassy in Saudi it was just a fake opening, because they already 'shook hands' with Vatican, ?? and for a different direction. But we'll see. We'll see which combination will take place in the next few hours, more or less, we think, or next few days, unless Iran listens to what we advised, and go the way we advise, we don't ?? divulge. Which we don't think so with what happened in Damascus now.

Q: Can the Universal Council do something?

K- That's their job, they have to see, reach the world leaders, but you have to understand, how many of them can you make silent? There is a purpose to this war, it's the end of religions. We saw all the physical border, territorial wars are over. Now this is those who abuse the Soul, they bring themselves to an end too. Just watch.

Q: As we say, "Judgment Day", huh?

K- It's not a judgment day, it's a foolish day. We used to have a television program in England called, "Fools and Horses". You need a fool, to saddle a horse which is not to be ridden. Let's see, let's see, it's not going to be easy. Next few hours, few days, we'll be mayhem of weapon technology and advanced technologies, (2:12) all has to be done ?? that way. When the Americans brought the 'Ford' ??, what you call it, aircraft carrier, into Mediterranean waters ?? (they were) making clear what is about to happen. Two warships, naval carriers, aircraft carriers, coming into the scene. It was to cover a lot of things, with their older auxiliary. It was obvious what's going to... It wasn't there to save the Palestinians falling into the water. He's there to save the Jews when they have to escape out of Palestine. You watch what is about to happen. The way they bought the land in pieces since 1844, they'll give their lives to escape from the land in 2024. Just watch the space. They do it to themselves, we don't do anything. We just see what is about to happen. Those aircraft carriers are not there to pick up Palestinians, are there to pick up the Jews from when they escape. Just watch.

Q: I understand what you're saying.

K- Because they wanted to do it, well... We all understand, but we have to watch, we are, we are observers. We're just observers.

Q: I hope this time you are wrong Mr. Keshe.

K- I hope I'm wrong, but ...

Q: And that will not take place.

K- I hope I'm wrong, but what is coming through intelligence is totally different. (2:14) I told you, the war of the last wars comes with the religions. And, Pope could not keep his finger out of this one. So, the war of the Ukraine to go for peace, and the Germans got involved with the Ukrainians, and they diverted their attention and the finance towards the, what you call, the war to poke in, to bring Iran between the Jews and the Muslims, they go, the Christians will stay safe. But this time all three of them will go together.

The scenario is written in a very, very, what you call it... In a way, the Israelis what they did with the Palestine, they didn't ?? lure the Iranians into it, it lured the Vatican, that it brings an end to all three of them. We'll have to wait and see, but we will see what we need to see, what will be there, and this time it's not the electronic one, this is not a ?? war ?? this was, what was set to be there. And we'll see. I hope I'm wrong, but intelligence is confirming different unless somebody in middle jumps in and sorts something out. We'll see. We'll see what happens.

K- ... Shall we call it the day?

Q: ... When will Cosmic Rays be used?

K- What do you mean by Cosmic Rays? (2:16)

R: I'm not sure specifically what she means by, "When will Cosmic Rays be used?" Perhaps for energy or other purposes?

K- Wherever we understand what the question is we try to answer. We use Cosmic Rays all the time, as part of our work.

Let's call it the day. Thank you very much for today. And, we hope we will understand a little bit more in the next weeks and months, to where we're going and how we develop the technology. Thank you very much and see you next week.
